1	Toronto, Ontario	1	MR. TERRY: Mr. President, Tribunal 08:02:05
2	Upon resuming on Friday, February 26, 2016	2	Members, you'll recall that, when we opened this 08:02:06
3	at 8:01 a.m.	3	hearing almost two weeks ago, although it seems like 08:02:10
4	PRESIDENT: Good morning, all. And 08:00:56	4	longer for some reason, I noted that it was pretty 08:02:15
5	we have finally arrived at the last day of the 08:01:01	5	much exactly five years since the date when the 08:02:19
6	hearing, the closing statements. Are there any 08:01:06	6	moratorium had been announced, February 11th of that 08:02:23
7	housekeeping or admin issues to be raised by either 08:01:10	7	year. 08:02:27
8	party? Mr. Terry? 08:01:12	8	And on that date, government officials 08:02:29
9	MR. TERRY: Nothing from us. 08:01:16	9	had a conference call with Windstream and its 08:02:32
10	PRESIDENT: And Respondent? 08:01:19	10	government relations adviser, and at which, as you 08:02:35
11	MR. NEUFELD: Nothing, although you 08:01:21	11	know, our position is that they they promised 08:02:39
12	did ask about the post-hearing submissions, so I 08:01:22	12	to that with respect to the moratorium, that 08:02:42
13	think that's the one outstanding issue we have. 08:01:24	13	Windstream's project would be frozen. 08:02:46
14	PRESIDENT: Yes. Yeah. Maybe we can 08:01:26	14	As the Tribunal knows, there's a 08:02:50
15	discuss that at the end of the day. 08:01:27	15	transcript of that conversation as well as an audio 08:02:52
16	MR. NEUFELD: Sure. 08:01:29	16	recording, both of which are in the record. And the 08:02:55
17	PRESIDENT: Okay. So just to remind 08:01:30	17	audio recording is about 20 minutes, but we've 08:02:58
18	the parties of the agreement: Each party has 08:01:31	18	we've excerpted a portion that we are going to play 08:03:00
19	reserved up to three hours for the closing 08:01:33	19	now. 08:03:04
20	statement, of which up to 30 minutes can be left for 08:01:36	20	And this audio recording starts after the the 08:03:04
21	rebuttal. So it is for the parties to decide how 08:01:40	21	conversation starts we have the transcript in 08:03:10
22	they how they want to allocate that time. 08:01:44	22	front of you, flagged where it starts. There's been 08:03:11
23	If there is nothing further, Mr. 08:01:47	23	a discussion from the Government side as to what 08:03:15
24	Terry, please. 08:01:49	24	their intentions are, the rationale for the 08:03:18
25	CLOSING SUBMISSIONS BY MR. TERRY: 08:01:50	25	moratorium. 08:03:21

1		1	
1 2	And then we start with some questions 08:03:22	1 2	the evidence that you've heard this week from the 08:16:19
	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26		the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24
2	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28	2	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28
2	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31	2	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28
2 3 4	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31	2 3 4	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34
2 3 4 5	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33	2 3 4 5	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32
2 3 4 5 6	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37	2 3 4 5 6	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39
2 3 4 5 6 7	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41	2 3 4 5 6 7	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42
2 3 4 5 6 7 8	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45	2 3 4 5 6 7 8	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47
2 3 4 5 6 7 8	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47	2 3 4 5 6 7 8	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50
2 3 4 5 6 7 8 9	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49	2 3 4 5 6 7 8 9	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53
2 3 4 5 6 7 8 9 10 11 12 13	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49 And what we've done is is, while 08:03:52	2 3 4 5 6 7 8 9 10	the evidence that you've heard this week from the O8:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53 to liability and the issues with respect to damages 08:16:57 in this case. 08:16:59  And what I'd like to to do in the 08:17:00
2 3 4 5 6 7 8 9 10 11	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49 And what we've done is is, while 08:03:52 the particular people are speaking, we'll flash up 08:03:54	2 3 4 5 6 7 8 9 10 11	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53 to liability and the issues with respect to damages 08:16:57 in this case. 08:16:59  And what I'd like to to do in the 08:17:00 next in the remaining time, in our opening, and 08:17:04
2 3 4 5 6 7 8 9 10 11 12 13 14	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49 And what we've done is — is, while 08:03:52 the particular people are speaking, we'll flash up 08:03:54 on the screen who is speaking so that — you'll 08:03:56	2 3 4 5 6 7 8 9 10 11 12 13	the evidence that you've heard this week from the 08:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53 to liability and the issues with respect to damages 08:16:57 in this case. 08:16:59  And what I'd like to to do in the 08:17:00 next in the remaining time, in our opening, and 08:17:04 together with Ms. Seers, who will argue part of the 08:17:08
2 3 4 5 6 7 8 9 10 11 12 13 14 15	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49 And what we've done is is, while 08:03:54 on the screen who is speaking so that you'll 08:03:56 know, I think, from the transcript, but it will be 08:03:58 an additional indicator. So if we could roll that, 08:04:01 please. 08:04:05	2 3 4 5 6 7 8 9 10 11 12 13 14 15	the evidence that you've heard this week from the O8:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53 to liability and the issues with respect to damages 08:16:57 in this case. 08:16:59  And what I'd like to to do in the 08:17:00 next in the remaining time, in our opening, and 08:17:04 together with Ms. Seers, who will argue part of the 08:17:08 damages argument, is take you through, of course, 08:17:12
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49 And what we've done is is, while 08:03:52 the particular people are speaking, we'll flash up 08:03:54 on the screen who is speaking so that you'll 08:03:58 an additional indicator. So if we could roll that, 08:04:01 please. 08:04:05 [Reporter's note: Audio recording played of conference 08:04:06	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the evidence that you've heard this week from the O8:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53 to liability and the issues with respect to damages 08:16:57 in this case. 08:16:59  And what I'd like to to do in the 08:17:00 next in the remaining time, in our opening, and 08:17:04 together with Ms. Seers, who will argue part of the 08:17:08 damages argument, is take you through, of course, 08:17:12 the evidence that you've heard. And we have, you'll 08:17:17
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49 And what we've done is — is, while 08:03:52 the particular people are speaking, we'll flash up 08:03:54 on the screen who is speaking so that — you'll 08:03:56 know, I think, from the transcript, but it will be 08:03:58 an additional indicator. So if we could roll that, 08:04:01 please. 08:04:05 [Reporter's note: Audio recording played of conference 08:04:06 call held February 11, 2011.] 08:04:12	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the evidence that you've heard this week from the O8:16:19 Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53 to liability and the issues with respect to damages 08:16:57 in this case. 08:16:59  And what I'd like to to do in the 08:17:00 next in the remaining time, in our opening, and 08:17:04 together with Ms. Seers, who will argue part of the 08:17:08 damages argument, is take you through, of course, 08:17:12 the evidence that you've heard. And we have, you'll 08:17:17 see, a number of transcript references to which 08:17:21
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49 And what we've done is is, while 08:03:52 the particular people are speaking, we'll flash up 08:03:54 on the screen who is speaking so that you'll 08:03:56 know, I think, from the transcript, but it will be 08:03:58 an additional indicator. So if we could roll that, 08:04:01 please. 08:04:05 [Reporter's note: Audio recording played of conference 08:04:06 call held February 11, 2011.] 08:04:12 MR. TERRY: The reason that I wanted 08:04:14	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the evidence that you've heard this week from the Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53 to liability and the issues with respect to damages 08:16:57 in this case. 08:16:59  And what I'd like to to do in the 08:17:00 next in the remaining time, in our opening, and 08:17:04 together with Ms. Seers, who will argue part of the 08:17:08 damages argument, is take you through, of course, 08:17:12 the evidence that you've heard. And we have, you'll 08:17:17 see, a number of transcript references to which 08:17:21 she'll refer you to. I don't want to go over it 08:17:23
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	And then we start with some questions 08:03:22 that Ian Baines, in particular, asked about the 08:03:26 moratorium. So I'd ask for it to be run now. And 08:03:28 we set out in the screen here the participants in 08:03:31 the call. You'll recognize the names on the 08:03:33 Windstream side, and on the Government side is Craig 08:03:37 MacLennan, Chief of Staff, Minister of Energy; 08:03:41 Brenda Lucas from the Ministry of the Environment; 08:03:45 Andrew Mitchell, Ministry of Energy; Richard Linley; 08:03:47 and then Mr. Cecchini from the OPA. 08:03:49 And what we've done is is, while 08:03:52 the particular people are speaking, we'll flash up 08:03:54 on the screen who is speaking so that you'll 08:03:56 know, I think, from the transcript, but it will be 08:03:58 an additional indicator. So if we could roll that, 08:04:01 please. 08:04:05 [Reporter's note: Audio recording played of conference 08:04:06 call held February 11, 2011.] 08:04:12 MR. TERRY: The reason that I wanted 08:04:14 to take some of our opening time to play that 08:16:02 recording is I listened to it a couple of days ago, 08:16:05 having, you know, been through the hearing the last 08:16:07	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the evidence that you've heard this week from the Claimant's witnesses, a consistency and credibility, 08:16:24 in my submission, that you have heard from our fact 08:16:28 witnesses, and a consistency and credibility from 08:16:32 the expert witnesses, who, again, in our respectful 08:16:34 submission, are well qualified and well experienced 08:16:39 in these specific issues that or with respect to 08:16:42 offshore wind, developing offshore wind projects, 08:16:47 and with respect to providing the evidence that you 08:16:50 need to consider both the the issues with respect 08:16:53 to liability and the issues with respect to damages 08:16:57 in this case. 08:16:59  And what I'd like to to do in the 08:17:00 next in the remaining time, in our opening, and 08:17:04 together with Ms. Seers, who will argue part of the 08:17:08 damages argument, is take you through, of course, 08:17:12 the evidence that you've heard. And we have, you'll 08:17:17 see, a number of transcript references to which 08:17:23 except with some limited exceptions to documentary 08:17:26 evidence that we went through in our opening 08:17:30

#### Page 8

complexity, in my submission, as applied to the 08:17:43 facts today and in terms of the onus we have to make 08:17:46 out, I don't believe are particularly complex on the 08:17:49 liability side. 08:17:56

On the damages side, as you'll hear, 08:17:57 and -- you know, we, I think, like all counsel here, 08:18:00 have struggled to put the particular dates in the 08:18:03 context of an appropriate but-for analysis. And we 08:18:06 have come up with our -- our perspective as to how 08:18:09 the -- the appropriate way is to -- is to value and 08:18:12 measure that, together with the Deloitte damages 08:18:15 experts, and we'll talk about that. 08:18:17

But certainly, on liability, we don't 08:18:19
see this as a complex case in terms of -- of legal 08:18:21
issues, bearing in mind, of course, that there are 08:18:24
particular issues with respect to 1105. They have 08:18:26
particular interest to the Government of Canada, but 08:18:32
in our case, we'll be saying we don't think it's 08:18:34
necessary to decide our case to necessarily decide 08:18:37
those -- those other issues. 08:18:38

So I'd like to start with this -- this 08:18:44 slide, again, to -- to reinforce our assessment of 08:18:46 the particular stages of this case that lead to the 08:18:51 breach. 08:18:54

We have the moratorium of February 08:18:55

Page 9

11th. We have the promise to freeze, as articulated 08:18:56 in that phone call. We have the force majeure time 08:19:01 that gets used up, and we have the point on May 22, 08:19:03 2012 when the project becomes worthless. 08:19:07

So it's the combination of the 08:19:10 moratorium and the failure of the promise to freeze 08:19:13 which caused the breach, which caused, both with 08:19:15 respect to Windstream, the expropriation, and which 08:19:19 caused, also with respect to Windstream, the 08:19:23 violation of fair and equitable treatment, because 08:19:26 you'll hear from that conversation, what was 08:19:28 communicated to Windstream at the date of the 08:19:30 moratorium was that: You're in a special 08:19:32 circumstance. You're unique. You have a FIT 08:19:34 contract, and, therefore, we're going to freeze you. 08:19:37

The breach does not occur then with 08:19:39 respect to Windstream, although it's certainly 08:19:41 relevant in determining whether a breach has 08:19:44 occurred to look at the moratorium and the bona 68:19:49 breach occurs in May -- date of breach: May 22nd, 08:19:51 when the project becomes worthless. 08:19:56

Now, this is the structure of our 08:20:00 closing argument. We're going to go through 1110, 08:20:02 1105, and damages. With respect to the 1102 and 08:20:06

## Page 10

1103 arguments, we're going to rely on our written 08:20:10 submissions. 08:20:13

This slide, of course, sets out the 08:20:16 familiar 1110 statement under the NAFTA, similar to 08:20:19 the expropriation clause in many other bilateral 08:20:25 investment treaties. And the steps, which I believe 08:20:28 08:20:33 my friends of Canada agree with, to determine whether there has been a breach are: Is there an 08:20:35 investment capable of being expropriated? Has the 08:20:38 investment been expropriated? And was the 08:20:41 expropriation unlawful? And I should just, in terms 08:20:44 of foreshadowing (c), we don't have much to say 08:20:47 there because our understanding is that Canada 08:20:51 agrees that, if expropriation has occurred in this 08:20:52 case, it's an unlawful expropriation. 08:20:55

We talked in our opening about the 108:20:59 investment that we say was expropriated here, 08:21:01 Windstream Wolfe Island Shoals Inc., the project, 08:21:06 and everything related to the project and, of 08:21:10 course, the FTT contract which has been a focus of 08:21:13 much of the evidence in this – in this hearing. 08:21:16

And we start with the argument that's 08:21:20 been made by Canada that the FTT contract is not an 08:21:24 investment capable of expropriation. And, in our 08:21:28 submission, this – this argument has no validity 08:21:32

Page 11

whatsoever. And it's important to recall here that 08:21:38
Windstream has never claimed that its investments 08:21:42
included an operational wind farm that would, of 08:21:45
course, would generate guaranteed income from the 08:21:48
sale of its electricity. If we had, our damages, as 08:21:51
you had seen in Mr. Low's presentation, would be 08:21:55
much higher. We would be valuing an operational wind farm. 08:22:02

And we've never -- we've never made 08:22:02
the claim -- and you heard this, this week -- that 08:22:04
there was, you know, a guarantee on the part of the 08:22:06
FIT contract that there would be an operational wind 08:22:10
farm. We understand there was a regulatory process 08:22:13
that had to be proceeded through, and we have provided a great deal of evidence as to -- as to 08:22:17
what we think, more likely than not, would've 08:22:20
happened if we had been able to proceed through 08:22:23
there. 08:22:25

Now, Canada relies on the Emmis v. 08:22:26

Hungary case, and they've relied on it in their 08:22:28

submissions, both in writing and orally, but it's 08:22:32

important to keep in mind that, in that particular case, the Tribunal applied Hungarian law because 08:22:38

it's a domestic law question as to whether -- as to 08:22:44

whether the investment is a -- is a proprietary 08:22:46

	Page 12		Page 13
1	interest; it's capable of expropriation, and held in 08:22:50	1	"It's a scarce and valuable 08:24:06
2	that case and this was actually there was a 08:22:54	2	commodity. It allows for 08:24:08
3	jurisdictional ruling in that case. The question 08:22:57	3	assignment. It allows for 08:24:09
4	was whether there was an investment under the 08:22:58	4	change of control. FIT 08:24:10
5	Convention and held that the investors in that case 08:23:00	5	contracts may also be 08:24:12
6	had no proprietary rights. Their broadcasting 08:23:04	6	mortgaged, and they 08:24:13
7	licence had expired. And what they were actually 08:23:08	7	constitute not only a 08:24:14
8	effectively trying to do was to bring an FET claim 08:23:11	8	valuable asset, but personal 08:24:15
9	on the basis of expropriation, because that 08:23:14	9	property." 08:24:17
10	particular treaty did not include FET claims as 08:23:16	10	That's that is the evidence, the 08:24:17
11	within the investor investment dispute 08:23:18	11	sum and total of the evidence with respect to 08:24:20
12	provisions, only expropriation claims. 08:23:21	12	Ontario law with respect to how the FIT contract is 08:24:22
13	So that case does not have any application to our 08:23:23	13	treated. And, in my view, it's persuasive evidence 08:24:25
14	case because, as you heard from a number of 08:23:27	14	that, if you, like the Tribunal did in Emmis v. 08:24:29
15	witnesses, the FIT contract itself is a valuable 08:23:31	15	Hungary, and which is appropriate, you look to 08:24:31
16	asset and constitutes personal property under 08:23:34	16	domestic law to make the determination, and the 08:24:35
17	Ontario law. 08:23:37	17	evidence is clear that it is a propriety interest, 08:24:36
18	And we have, for example, the evidence 08:23:38	18	capable of being expropriated. The FIT contract is 08:24:40
19	of Sarah Powell. You'll recall that she testified 08:23:43	19	an asset and fulfils the requirements under 08:24:41
20	last week, and you will recall her her expertise 08:23:46	20	expropriation provision. 08:24:46
21	as an Ontario lawyer who practises in this area, 08:23:50	21	Now, we note here, from the other 08:24:47
22	both the environmental permitting side and also the 08:23:52	22	side, a recognition from Mr. Guillet of the Green 08:24:49
23	advising lenders. She, of course, is the only 08:23:55	23	Giraffe that it was also a very good contract for 08:24:54
24	expert Ontario lawyer called by either party in this 08:23:59	24	offshore wind. He has no problem saying that. It's 08:24:57
25	case, and she says here, as we've highlighted, that: 08:24:02	25	a very good it would have been a very good 08:25:00
	ease, and she says here, as we've highlighted, that. 06.24.02		a very good — it would have been a very good 06.25.00
	Page 14		Page 15
1	contract for offshore wind. And he talks about the 08:25:02	1	and convincing evidence, frankly, not refuted at all 08:25:57
2	fact that 20 years is good. It's good tariff. 08:25:06	1 2	
		2	from the other side. It is a matter of Ontario law. 08:26:00
3	Between 15 and 20 is better for the investors so you 08:25:10	3	from the other side. It is a matter of Ontario law. 08:26:00 The FIT contract was an investment, a proprietary 08:26:04
3 4	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14	3 4	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09
	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17	3	The FIT contract was an investment, a proprietary 08:26:04
4 5 6	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19	3 4	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13
4 5 6 7	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20	3 4 5	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11
4 5 6 7 8	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25	3 4 5 6	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23
4 5 6 7 8 9	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26	3 4 5 6 7	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17
4 5 6 7 8 9	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28	3 4 5 6 7 8	The FTT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23
4 5 6 7 8 9 10	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29	3 4 5 6 7 8	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25
4 5 6 7 8 9 10 11	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30	3 4 5 6 7 8 9	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25 "The measure constitutes an 08:26:32
4 5 6 7 8 9 10 11 12	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31	3 4 5 6 7 8 9 10	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34
4 5 6 7 8 9 10 11 12 13	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33	3 4 5 6 7 8 9 10 11 12	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:35  "The measure constitutes an 08:26:34 deprives the investor of his 08:26:37
4 5 6 7 8 9 10 11 12 13 14	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19 Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33 received a FIT program, I 08:25:34	3 4 5 6 7 8 9 10 11 12 13	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:38
4 5 6 7 8 9 10 11 12 13 14 15	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:34 think, received something of 08:25:36	3 4 5 6 7 8 9 10 11 12 13	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:38 is permanent; and the 08:26:39
4 5 6 7 8 9 10 11 12 13 14 15 16 17	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:34 think, received something of 08:25:36 value on the day they got 08:25:37	3 4 5 6 7 8 9 10 11 12 13 14 15	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:39 deprivation finds no 08:26:41
4 5 6 7 8 9 10 11 12 13 14 15 16 17	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:34 think, received a FIT program, I 08:25:34 think, received something of 08:25:37 them." 08:25:38	3 4 5 6 7 8 9 10 11 12 13 14 15 16	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:39 is permanent; and the 08:26:41 justification under the 08:26:42
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33 received a FIT program, I 08:25:34 think, received something of 08:25:37 them." 08:25:38  And, finally, Remo Bucci also: 08:25:38	3 4 5 6 7 8 9 10 11 12 13 14 15 16	The FTT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:39 deprivation finds no 08:26:41 justification under the 08:26:42 Police Powers Doctrine." 08:26:42
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33 received a FIT program, I 08:25:34 think, received something of 08:25:37 them." 08:25:38  And, finally, Remo Bucci also: 08:25:38  "The investment community in 08:25:43	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	The FTT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:38 is permanent; and the 08:26:39 deprivation finds no 08:26:41 justification under the 08:26:42  Police Powers Doctrine." 08:26:42  So the test, in our submission, at 08:26:44
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33 received a FIT program, I 08:25:34 think, received something of 08:25:36 value on the day they got 08:25:37 them." 08:25:38  And, finally, Remo Bucci also: 08:25:43 Ontario viewed FIT contracts 08:25:44	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	The FTT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:38 is permanent; and the 08:26:39 deprivation finds no 08:26:41 justification under the 08:26:42  Police Powers Doctrine." 08:26:42  So the test, in our submission, at 08:26:44 this stage, is solely is to look solely at the 08:26:50
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33 received a FIT program, I 08:25:34 think, received something of 08:25:36 value on the day they got 08:25:37 them." 08:25:38  And, finally, Remo Bucci also: 08:25:43 Ontario viewed FIT contracts 08:25:44 extremely favourably. They 08:25:46	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:38 is permanent; and the 08:26:39 deprivation finds no 08:26:41 justification under the 08:26:42  Police Powers Doctrine." 08:26:42  So the test, in our submission, at 08:26:50 effects of the deprivation, not at the purpose, at 08:26:54
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33 received a FIT program, I 08:25:34 think, received something of 08:25:36 value on the day they got 08:25:37 them." 08:25:38  And, finally, Remo Bucci also: 08:25:43 Ontario viewed FIT contracts 08:25:44 extremely favourably. They 08:25:49	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	The FIT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25  "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:38 is permanent; and the 08:26:39 deprivation finds no 08:26:41 justification under the 08:26:42  Police Powers Doctrine." 08:26:42  So the test, in our submission, at 08:26:44 this stage, is solely is to look solely at the 08:26:50 effects of the deprivation, not at the purpose, at 08:26:54 this point, of the test: 08:26:58
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33 received a FIT program, I 08:25:34 think, received something of 08:25:36 value on the day they got 08:25:38  And, finally, Remo Bucci also: 08:25:38  The investment community in 08:25:43 Ontario viewed FIT contracts 08:25:44 extremely favourably. They 08:25:49 created off-take certainty." 08:25:50	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	The FTT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:25 "The measure constitutes an 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:38 is permanent; and the 08:26:39 deprivation finds no 08:26:41 justification under the 08:26:42 Police Powers Doctrine." 08:26:42 So the test, in our submission, at 08:26:44 this stage, is solely is to look solely at the 08:26:50 effects of the deprivation, not at the purpose, at 08:26:54 this point, of the test: 08:26:58 "The measure must 08:26:58
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Between 15 and 20 is better for the investors so you 08:25:10 can have a lower tariff to make it work, and both 08:25:14 are fully bankable. 08:25:17  And we also have the testimony of 08:25:19  Robert Low, the expert from Deloitte. And, again, 08:25:20 he mentions the point here that: 08:25:25  "The development of these FIT 08:25:26 contracts and the offering of 08:25:28 them and securing of them 08:25:29 created value to the 08:25:30 acquirers of those. Those 08:25:31 companies that applied and 08:25:33 received a FIT program, I 08:25:34 think, received something of 08:25:36 value on the day they got 08:25:37 them." 08:25:38  And, finally, Remo Bucci also: 08:25:43 Ontario viewed FIT contracts 08:25:44 extremely favourably. They 08:25:49	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	The FTT contract was an investment, a proprietary 08:26:04 interest capable of being expropriated. 08:26:09  So we move on to the next step: Has 08:26:11 the investment been expropriated? We rely on two 08:26:13 leading cases, Burlington Resources and Quiborax, 08:26:17 both of whom had very well-regarded Tribunal 08:26:23 Members, and the test that's set out here with: 08:26:32 appropriation if the measure 08:26:34 deprives the investor of his 08:26:37 investment; the deprivation 08:26:38 is permanent; and the 08:26:39 deprivation finds no 08:26:41 justification under the 08:26:42 Police Powers Doctrine." 08:26:42 So the test, in our submission, at 08:26:44 this stage, is solely is to look solely at the 08:26:50 effects of the deprivation, not at the purpose, at 08:26:54 this point, of the test: 08:26:58 substantially deprive the 08:27:00

	Page 16		Page 17
1	investment. The focus is on 08:27:04	1	project is unique, a statement from the Ministry of 08:27:58
2	the loss of the economic 08:27:05	2	Energy, from the Government that the OPA is going to 08:28:03
3	value or economic viability." 08:27:06	3	sit down and negotiate. And you heard this on the 08:28:06
4	And we make the point, as made in 08:27:08	4	call, Chris Benedetti summing up what he understood, 08:28:10
5	Burlington here, that this doesn't necessarily mean 08:27:10	5	what the Ministry understood the Government to be 08:28:16
6	a loss of management and control. Obviously, as you 08:27:12	6	promising, and you heard the emphatic "Yes" from 08:28:18
7	know, in this case, we still have management and 08:27:15	7	Craig MacLennan from the Ministry of Energy's 08:28:22
8	control. What matters is the capacity to earn a 08:27:17	8	office. 08:28:24
9	commercial return. 08:27:19	9	And then we hear we heard also from 08:28:25
10	And, again, as I had said when I 08:27:23	10	Perry Cecchini last week, and I want to quickly run 08:28:28
11	started, I don't think this is complicated law. 08:27:26	11	through what his evidence was. So, first of all, 08:28:31
12	This is well-established law under investment treaty 08:27:28	12	he's asked he's talking about when a supplier 08:28:36
13	jurisprudence. 08:27:32	13	gets a FIT contract: 08:28:39
14	So we have the moratorium announced on 08:27:35	14	"I don't see it as they get a 08:28:40
15	February 11, 2011. And, of course, the rationale 08:27:37	15	guarantee. They're being 08:28:42
16	set out: 08:27:43	16	given an opportunity to 08:28:43
17	"Ontario is not proceeding 08:27:43	17	develop a project." 08:28:44
18	with any development of 08:27:45	18	He says: 08:28:45
19	offshore wind projects until 08:27:46	19	"So it was our understanding 08:28:45
20	the necessary scientific 08:27:47	20	that, when the moratorium 08:28:47
21	research is completed and an 08:27:48	21	came in place, the Government 08:28:48
22	adequately informed policy 08:27:50	22	wanted Windstream to have 08:28:52
23	framework can be developed." 08:27:51	23	that opportunity kept in 08:28:53
24	We then have the conference call that 08:27:52	24	place. It was just keeping 08:28:54
25	we just heard from and acknowledgement that the 08:27:54	25	that opportunity in place 08:28:55
	Page 18		Page 19
1	while the moratorium was 08:28:56	1	that where the Government is discussing whether 08:29:45
2	ongoing." 08:28:57	2	or not Windstream should be kept whole. There's a 08:29:48
3	And, again, we don't disagree. We 08:28:58	3	determination it should be kept whole, as expressed 08:29:50
4	weren't asking we aren't suggesting there was a 08:28:58	4	in the conversation that the project would be 08:29:53
5	promise to have a guarantee to have an operational 08:29:00	5	frozen. 08:29:56
6	wind farm. What there was, was a promise to be able 08:29:02	6	And so then we have of course, 08:29:58
7	to go through the regulatory process. 08:29:05	7	Canada's argument is it was all Windstream's fault; 08:30:00
8	And Mr. Cecchini is asked about 08:29:10	8	that we were ready to keep the contract frozen, but 08:30:05
9	whether this decision reflects an OPA decision or a 08:29:11	9	you behaved unreasonably in not agreeing to the 08:30:08
10	Government decision, because, as you know, our 08:29:14	10	offer we made, which was a five-year offer. 08:30:11
11	submission is that this is a Government decision, as 08:29:16	11	And here is Mr. Cecchini: 08:30:14
12	communicated on behalf of the Government by the 08:29:20	12	"So your final and best 08:30:15
13	Ministry of Energy, to keep the project frozen. 08:29:22	13	offer, Mr. Cecchini, was to 08:30:17
14	He is asked he says: 08:29:25	14	extend the MCOD for the FIT 08:30:19
		1 1 -	
15	"It's not an OPA decision." 08:29:27	15	contract to five years past 08:30:22
16	Or question: 08:29:29	16	the original MCOD. Is that 08:30:22
16 17	Or question: 08:29:29 "It's not an OPA decision?" 08:29:29	16 17	the original MCOD. Is that 08:30:22 right? 08:30:23
16 17 18	Or question: 08:29:29  "It's not an OPA decision?" 08:29:29  He confirms it's not an OPA decision: 08:29:29	16 17 18	the original MCOD. Is that 08:30:22 right? 08:30:23 "Yes." 08:30:23
16 17 18 19	Or question: 08:29:29  "It's not an OPA decision?" 08:29:29  He confirms it's not an OPA decision: 08:29:29  "At this point, we were not 08:29:32	16 17 18 19	the original MCOD. Is that 08:30:22 right? 08:30:23 "Yes." 08:30:23 So he confirms that was the final and 08:30:23
16 17 18 19 20	Or question: 08:29:29  "It's not an OPA decision?" 08:29:29  He confirms it's not an OPA decision: 08:29:29  "At this point, we were not 08:29:32  we were not aware of the 08:29:34	16 17 18 19 20	the original MCOD. Is that 08:30:22 right? 08:30:23 "Yes." 08:30:23 So he confirms that was the final and 08:30:23 best offer of OPA. 08:30:26
16 17 18 19 20 21	Or question: 08:29:29  "It's not an OPA decision?" 08:29:29  He confirms it's not an OPA decision: 08:29:29  "At this point, we were not 08:29:32  we were not aware of the 08:29:34 decision." 08:29:36	16 17 18 19 20 21	the original MCOD. Is that 08:30:22 right? 08:30:23 "Yes." 08:30:23 So he confirms that was the final and 08:30:23 best offer of OPA. 08:30:26 "QUESTION: There needed to 08:30:27
16 17 18 19 20 21 22	Or question: 08:29:29  "It's not an OPA decision?" 08:29:29  He confirms it's not an OPA decision: 08:29:29  "At this point, we were not 08:29:32  we were not aware of the 08:29:34  decision." 08:29:36  So so he is agreeing, as as in 08:29:37	16 17 18 19 20 21 22	the original MCOD. Is that 08:30:22 right? 08:30:23 "Yes." 08:30:23 So he confirms that was the final and 08:30:23 best offer of OPA. 08:30:26 "QUESTION: There needed to 08:30:27 be an end date, even if there 08:30:29
16 17 18 19 20 21 22 23	Or question: 08:29:29  "It's not an OPA decision?" 08:29:29  He confirms it's not an OPA decision: 08:29:29  "At this point, we were not 08:29:32  we were not aware of the 08:29:34  decision." 08:29:36  So so he is agreeing, as as in 08:29:37  the question asked above, that this reflects a 08:29:38	16 17 18 19 20 21 22 23	the original MCOD. Is that 08:30:22 right? 08:30:23 "Yes." 08:30:23 So he confirms that was the final and 08:30:23 best offer of OPA. 08:30:26 "QUESTION: There needed to 08:30:27 be an end date, even if there 08:30:29 wasn't an end date to the 08:30:30
16 17 18 19 20 21 22	Or question: 08:29:29  "It's not an OPA decision?" 08:29:29  He confirms it's not an OPA decision: 08:29:29  "At this point, we were not 08:29:32  we were not aware of the 08:29:34  decision." 08:29:36  So so he is agreeing, as as in 08:29:37	16 17 18 19 20 21 22	the original MCOD. Is that 08:30:22 right? 08:30:23 "Yes." 08:30:23 So he confirms that was the final and 08:30:23 best offer of OPA. 08:30:26 "QUESTION: There needed to 08:30:27 be an end date, even if there 08:30:29

	Page 20		Page 21
1	needed to be an end date." 08:30:34	1	in the government ever asked the OPA to grant an 08:31:30
2	That is the OPA's perspective. And 08:30:36	2	extendable force majeure; i.e., to his knowledge, 08:31:32
3	you know, of course, that, from our client's 08:30:38	3	did the Government ever take any steps to try to 08:31:35
4	perspective, what they wanted was something 08:30:40	4	cause the OPA to grant an extendable force majeure: 08:31:37
5	extendable, because they were very concerned and 08:30:41	5	"ANSWER: I'm not aware of 08:31:41
6	it turns out were right to be concerned that five 08:30:46	6	that. I'm not aware of 08:31:42
7	years would go by. They wouldn't be able to develop 08:30:48	7	that." 08:31:44
8	the project because the Government wouldn't have 08:30:51	8	But he does confirm that: 08:31:44
9	lifted the moratorium, and they would have no right; 08:30:53	9	"The OPA always complies with 08:31:47
10	that the contract at that point would be terminated, 08:30:56	10	the Minister's directions." 08:31:49
11	because you'll recall in the evidence there was 08:30:58	11	And we have set out, both in the in 08:31:51
12	in addition to the five years, there was a 08:30:59	12	our written submissions, and, you know also, in the 08:31:55
13	particular termination right that would that gave 08:31:02	13	witness statement of Mr. Smitherman, the evidence is 08:31:58
14	the OPA an additional right to terminate on the 08:31:04	14	set out that establishes that the Ministry of Energy 08:32:04
15	basis of the five years expiring. 08:31:06	15	has authority to grant a broad authority to grant 08:32:07
16	And Mr. Cecchini recognizes, when 08:31:10	16	directives to the OPA. 08:32:10
17	asked what's the case now: 08:31:13	17	And as you may recall, Mr. Cecchini 08:32:12
18	"QUESTION: The contract is? 08:31:14	18	talked about directives that were granted in some 08:32:14
19	"ANSWER: The contract 08:31:17	19	respects to certain classes. He talked about the 08:32:18
20	remains as it was when it was 08:31:19	20	one-year extension given to particular classes of 08:32:21
21	signed. 08:31:20	21	wind projects, and certainly it was open to the OPA 08:32:24
22	"And it is not frozen?" 08:31:20	22	prima facie if they wanted to. Among other ways 08:32:28
23	He agrees: 08:31:23	23	that they could have given a direction would be to 08:32:31
24	"It is not frozen." 08:31:24	24	give a direction that all classes of wind turbine - 08:32:33
25	He is also asked about whether anyone 08:31:28	25	of offshore wind turbines, which is a particular 08:32:34
	Page 22		Page 23
1	class, Class 5 wind turbines, that there could be 08:32:37	1	there was no more force majeure time left at that 08:33:58
2	some sort of extension that would accommodate the 08:32:41	2	point to be able to, other than the six months 08:34:02
3	science being done and allow them to be kept frozen, 08:32:44	3	available for the REA appeal process, to allow the 08:34:06
4	kept whole, to develop the project. 08:32:48	4	
5	T	4	project to meet its timelines. And you also hear 08:34:10
	So it's clear, in our submission, on 08:32:51	5	project to meet its timelines. And you also hear 08:34:10 that see that evidence from Mr. Low. 08:34:14
6	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52	5 6	1 3
7	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56	5 6 7	that see that evidence from Mr. Low. 08:34:14 And Mr. Cecchini says: 08:34:20 "So we know the moratorium 08:34:24
7 8	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59	5 6 7 8	that see that evidence from Mr. Low. 08:34:14 And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24 won't be lifted tomorrow, but 08:34:25
7 8 9	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01	5 6 7 8 9	that see that evidence from Mr. Low. 08:34:14 And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24 won't be lifted tomorrow, but 08:34:25 even assuming it were" 08:34:27
7 8 9 10	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03	5 6 7 8 9	that see that evidence from Mr. Low. 08:34:14 And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24 won't be lifted tomorrow, but 08:34:25 even assuming it were" 08:34:27 This is the question. 08:34:27
7 8 9 10 11	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10	5 6 7 8 9 10	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28
7 8 9 10 11 12	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14	5 6 7 8 9 10 11 12	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were" 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30
7 8 9 10 11 12	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17	5 6 7 8 9 10 11 12 13	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were" 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31
7 8 9 10 11 12 13	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20	5 6 7 8 9 10 11 12 13	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were" 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32
7 8 9 10 11 12 13 14	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27	5 6 7 8 9 10 11 12 13 14	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33
7 8 9 10 11 12 13 14 15	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30	5 6 7 8 9 10 11 12 13 14 15	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35
7 8 9 10 11 12 13 14 15 16	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30 months of force majeure and as the project would 08:33:33	5 6 7 8 9 10 11 12 13 14 15 16	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35  project, and have it plugged 08:34:36
7 8 9 10 11 12 13 14 15 16 17	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30 months of force majeure and as the project would 08:33:33 move past its original COD, the termination would 08:33:36	5 6 7 8 9 10 11 12 13 14 15 16 17	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35  project, and have it plugged 08:34:36  into the grid by May 4, 08:34:38
7 8 9 10 11 12 13 14 15 16 17 18	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30 months of force majeure and as the project would 08:33:33 move past its original COD, the termination would 08:33:36 occur on May 4, 2017. 08:33:39	5 6 7 8 9 10 11 12 13 14 15 16 17 18	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were" 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35  project, and have it plugged 08:34:36  into the grid by May 4, 08:34:38  2017?" 08:34:39
7 8 9 10 11 12 13 14 15 16 17 18 19	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30 months of force majeure and as the project would 08:33:33 move past its original COD, the termination would 08:33:36 occur on May 4, 2017. 08:33:39 And this is what gets you to the 08:33:42	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were" 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35  project, and have it plugged 08:34:36  into the grid by May 4, 08:34:38  2017?" 08:34:39  He says: 08:34:40
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30 months of force majeure and as the project would 08:33:33 move past its original COD, the termination would 08:33:36 occur on May 4, 2017. 08:33:39 And this is what gets you to the 08:33:42 evidence of Mr. Bucci and others that Windstream was 08:33:44	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were" 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35  project, and have it plugged 08:34:36  into the grid by May 4, 08:34:38  2017?" 08:34:40  "I would. I would. Yes, I 08:34:40
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30 months of force majeure and as the project would 08:33:33 move past its original COD, the termination would 08:33:36 occur on May 4, 2017. 08:33:42 evidence of Mr. Bucci and others that Windstream was 08:33:44 substantially deprived of its investments as of 08:33:47	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were" 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35  project, and have it plugged 08:34:36  into the grid by May 4, 08:34:38  2017?" 08:34:39  He says: 08:34:40  "I would. I would. Yes, I 08:34:40  have to agree." 08:34:43
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30 months of force majeure and as the project would 08:33:33 move past its original COD, the termination would 08:33:36 occur on May 4, 2017. 08:33:39 And this is what gets you to the 08:33:42 evidence of Mr. Bucci and others that Windstream was 08:33:44 substantially deprived of its investments as of 08:33:47 as of May 22, 2012. As he says, the project could 08:33:50	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35  project, and have it plugged 08:34:36  into the grid by May 4, 08:34:38  2017?" 08:34:39  He says: 08:34:40  "I would. I would. Yes, I 08:34:40  have to agree." 08:34:43  So he agreed after some prodding that 08:34:44
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	So it's clear, in our submission, on 08:32:51 the evidence that the OPA would've complied with the 08:32:52 Minister's direction. It's, frankly, totally 08:32:56 consistent with the legal framework in which, also 08:32:59 in the evidence, as to how the Ministry of Energy 08:33:01 interacts with the OPA. 08:33:03 So in terms of the actual deprivation, 08:33:10 and I will just we've been through this before a 08:33:14 number of times, so I'll be brief about it. This is 08:33:17 how this is how the the May 4, 2017 08:33:20 termination date works: 08:33:27 Once you have the expiry of the 24 08:33:30 months of force majeure and as the project would 08:33:33 move past its original COD, the termination would 08:33:36 occur on May 4, 2017. 08:33:42 evidence of Mr. Bucci and others that Windstream was 08:33:44 substantially deprived of its investments as of 08:33:47	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that see that evidence from Mr. Low. 08:34:14  And Mr. Cecchini says: 08:34:20  "So we know the moratorium 08:34:24  won't be lifted tomorrow, but 08:34:25  even assuming it were" 08:34:27  This is the question. 08:34:27  " you can't disagree with 08:34:28  me, sir, that it's impossible 08:34:30  for Windstream to go through 08:34:31  the permitting process, 08:34:32  achieve NTP, or get REA, 08:34:33  achieve NTP, build the 08:34:35  project, and have it plugged 08:34:36  into the grid by May 4, 08:34:38  2017?" 08:34:39  He says: 08:34:40  "I would. I would. Yes, I 08:34:40  have to agree." 08:34:43

	Page 24		Page 25
1	law, which, again, I would argue is not complicated 08:34:57	1	materials, the written materials, about scientific 08:36:17
2	on this issue, is that Windstream was permanently 08:34:59	2	studies and what was done and wasn't done. The 08:36:19
3	deprived of its investments, and we cite, again, the 08:35:03	3	evidence, in our submission, shows that there were 08:36:22
4	case law going back to the seminal case of 08:35:08	4	some sporadic attempts to start scientific studies, 08:36:25
5	Burlington Resources. You focus on the nature of 08:35:12	5	never followed through on, and, you know, the 08:36:29
6	the deprivation. You don't focus on the duration of 08:35:14	6	confirmation now is that Ontario says it's not 08:36:31
7	the measure. So you can have a temporary measure, 08:35:19	7	planning to commence further scientific studies in 08:36:33
8	and if it causes a substantial deprivation, as we 08:35:22	8	the near term to address areas initially set out in 08:36:35
9	argue it does in this case, that's sufficient. 08:35:26	9	its earlier plans. And that's from the Government 08:36:39
10	Now, of course, in this particular 08:35:29	10	of Canada on behalf of Ontario. 08:36:42
11	case, we know, from what Canada told us in its 08:35:31	11	Now, as I understand it, although 08:36:47
12	opening, that it's not going to go ahead, in any 08:35:34	12	we're not completely clear on the basis for it, 08:36:49
13	event, with the science; that there is no future for 08:35:37	13	there's Canada appears to be arguing that that 08:36:53
14	Windstream. So the moratorium is effectively 08:35:41	14	there is some sort of public purpose exception to 08:36:55
15	indefinite when it comes to Windstream. 08:35:44	15	expropriation that would apply in this case. In our 08:36:59
16	But whether or not you were to find 08:35:46	16	submission, the case law establishes that there 08:37:03
17	that the moratorium was temporary or was indefinite, 08:35:47	17	isn't such a broad public purpose exception. There 08:37:06
18	in our submission, we have the elements of 08:35:53	18	is the narrower Police Powers Doctrine. 08:37:08
19	substantial deprivation here because we have the 08:35:55	19	And we have set we describe the 08:37:11
20	evidence clearly from the witnesses, at May 22, 08:35:57	20	case law here, and you could you could, in 08:37:15
21	2012, the project became substantially worthless. 08:36:00	21	reviewing the authorities later, consider this. The 08:37:18
22	And, of course, as I mentioned, we 08:36:08	22	Tecmed case is a leading case in describing that the 08:37:22
23	have the statement in Canada's and there's a lot 08:36:09	23	Police Powers Doctrine has no application when the 08:37:25
24	and you hear you heard evidence about science. 08:36:11	24	measures, in effect, are disproportionate to its 08:37:30
25	There's been a lot of submissions in the in the 08:36:14	25	stated public policy rationale. So if you're going 08:37:32
	Page 26		Page 27
1		1	
1 2	to engage the Police Powers Doctrine, you have to 08:37:34	1 2	Page 27  Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45
	to engage the Police Powers Doctrine, you have to 08:37:34		Doctrine. If you're not, that issue is not relevant 08:38:41
2	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40	2	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the measure to determine whether there has been 08:38:48
2	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36	2 3	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the measure to determine whether there has been 08:38:48
2 3 4	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42	2 3 4	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the measure to determine whether there has been 08:38:48 expropriation. 08:38:50
2 3 4 5	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45	2 3 4 5	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51
2 3 4 5	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the particular measure is necessary for a legitimate 08:37:48	2 3 4 5 6	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52
2 3 4 5 6 7	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50	2 3 4 5 6 7	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57
2 3 4 5 6 7 8	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55	2 3 4 5 6 7 8	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00
2 3 4 5 6 7 8	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58	2 3 4 5 6 7 8	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03
2 3 4 5 6 7 8 9	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00	2 3 4 5 6 7 8 9	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05
2 3 4 5 6 7 8 9 10	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07	2 3 4 5 6 7 8 9 10	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08
2 3 4 5 6 7 8 9 10 11 12 13	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09	2 3 4 5 6 7 8 9 10 11 12 13 14	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13
2 3 4 5 6 7 8 9 10 11 12 13 14	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16 there is no end in sight to the moratorium; with 08:39:20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16 that you can consider the character of the measure 08:38:20	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:20 respect to the freeze, that Ontario could have 08:39:23
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16 that you can consider the character of the measure 08:38:20 and the investor's reasonable expectations, because 08:38:22	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16 there is no end in sight to the moratorium; with 08:39:20 respect to the freeze, that Ontario could have 08:39:23 frozen the FIT contract, as they promised they 08:39:28
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16 that you can consider the character of the measure 08:38:20 and the investor's reasonable expectations, because 08:38:22 Canada appears in their written materials to be 08:38:25	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16 there is no end in sight to the moratorium; with 08:39:20 respect to the freeze, that Ontario could have 08:39:28 frozen the FIT contract, as they promised they 08:39:28 would, while research was conducted. 08:39:30
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16 that you can consider the character of the measure 08:38:20 and the investor's reasonable expectations, because 08:38:25 focusing in its expropriation argument on the 08:38:26	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze — and you have to look at them 08:39:03 together — are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we — we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16 there is no end in sight to the moratorium; with 08:39:20 respect to the freeze, that Ontario could have 08:39:23 frozen the FIT contract, as they promised they 08:39:30 So in terms of proportionality, there's an obvious 08:39:32
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16 that you can consider the character of the measure 08:38:20 and the investor's reasonable expectations, because 08:38:25 focusing in its expropriation argument on the 08:38:26 question as to whether the investor had legitimate 08:38:31	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze — and you have to look at them 08:39:03 together — are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we — we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16 there is no end in sight to the moratorium; with 08:39:20 respect to the freeze, that Ontario could have 08:39:28 would, while research was conducted. 08:39:30  So in terms of proportionality, there's an obvious 08:39:32 alternative that could have been chosen if Canada 08:39:35
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16 that you can consider the character of the measure 08:38:20 and the investor's reasonable expectations, because 08:38:25 focusing in its expropriation argument on the 08:38:31 expectations, reasonable investment-backed 08:38:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the measure to determine whether there has been 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16 there is no end in sight to the moratorium; with 08:39:20 respect to the freeze, that Ontario could have 08:39:23 frozen the FIT contract, as they promised they 08:39:30 So in terms of proportionality, there's an obvious 08:39:35 wanted to do the science and simply freeze this 08:39:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16 that you can consider the character of the measure 08:38:20 and the investor's reasonable expectations, because 08:38:22 Canada appears in their written materials to be 08:38:25 focusing in its expropriation argument on the 08:38:31 expectations, reasonable investment-backed 08:38:34 expectations. 08:38:38	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the measure to determine whether there has been 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16 there is no end in sight to the moratorium; with 08:39:20 respect to the freeze, that Ontario could have 08:39:23 frozen the FIT contract, as they promised they 08:39:28 would, while research was conducted. 08:39:30 So in terms of proportionality, there's an obvious 08:39:35 wanted to do the science and simply freeze this 08:39:39 project. There is no basis, looking at the police 08:39:41
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	to engage the Police Powers Doctrine, you have to 08:37:34 engage in a proportionality exercise. 08:37:36  And from the ADM case, an 08:37:40 acknowledgement there that the Tribunal not only has 08:37:42 to determine proportionality and whether the 08:37:45 particular measure is necessary for a legitimate 08:37:48 purpose, so necessity, proportionality, but is also 08:37:50 entitled to consider whether it interfered with the 08:37:55 investor's legitimate expectations when the 08:37:58 investment was made. 08:38:00  And and it's important for us to 08:38:01 note and we set it out in the last bullet here 08:38:03 contrary to what Canada appears to have suggested in 08:38:07 its its materials, it's only at this stage in and 08:38:09 considering whether a Police Powers Doctrine applies 08:38:12 or not and considering the proportionality analysis 08:38:16 that you can consider the character of the measure 08:38:20 and the investor's reasonable expectations, because 08:38:25 focusing in its expropriation argument on the 08:38:31 expectations, reasonable investment-backed 08:38:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Doctrine. If you're not, that issue is not relevant 08:38:41 whatsoever. You look at the sole effects of the measure to determine whether there has been 08:38:45 measure to determine whether there has been 08:38:48 expropriation. 08:38:50  Now, we say the Police Powers Doctrine 08:38:51 does not apply in this case. And, again, we 08:38:52 emphasize that it's not a broad doctrine. It's a 08:38:57 narrow doctrine. And we say the moratorium and the 08:39:00 failure to freeze and you have to look at them 08:39:03 together are not proportionate or necessary for 08:39:05 legitimate public purpose. 08:39:08  And, of course, we we set out the 08:39:08 purpose of the moratorium as articulated, at least, 08:39:10 in what appears to be the primary decision-making 08:39:13 document to "kill" offshore wind projects; that 08:39:16 there is no end in sight to the moratorium; with 08:39:20 respect to the freeze, that Ontario could have 08:39:23 frozen the FIT contract, as they promised they 08:39:30 So in terms of proportionality, there's an obvious 08:39:35 wanted to do the science and simply freeze this 08:39:39

both have the moratorium and to fail to freeze this 08:39:52 project. 08:39:56  And, of course, we emphasize, as we 08:39:58  And throughout this proceeding, that Windstream was 08:40:00  already required to conduct site-specific 08:40:03 environmental studies. That was the whole basis of 08:40:05  the regime that had been placed that had been put 08:40:08 in place, both under the REA regulation and under 08:40:11  the Ministry of Natural Resources' approval and 08:40:19  And there were, as we have discussed, under the REA 08:40:20  regulations, certain prescriptive elements, like the 08:40:20  regulations, certain prescriptive elements, like the 08:40:20  the most part, as the evidence established, we were 08:40:32  dealing with a regime that was very consistent with 08:40:37  the way in which Ontario had always carried out 08:40:39  environmental assessments, where the proponent does 08:40:42  a multiple number of studies, very thorough studies, 08:40:44  a multiple number of studies, very thorough studies, 08:40:44  provides those to the appropriate regulatory 08:40:47  provides those to the appropriate regulatory 08:40:49  authorities, Ministry of the Environment, Ministry 08:40:51  of Natural Resources. And then those are evaluated 08:40:55  by them to ensure that the project is not going to 08:40:57  cause environmental concerns and is completely 08:42:16  Mo, Minister's Office; Deputy 08:42:16  Minister's office on this 08:42:19  file. The" 08:42:20  And that is Deputy Minister of this 08:42:21  will be developed will focus 08:42:28  this is Sue Lo from the Ministry of Energy. 08:42:28  a wind for the next three to 08:42:28  five years to provide time to 08:42:31	So that's already in place, and, of 08:41:04 course, in considering any proportionality and 08:41:06 necessity, you have to consider that that was 08:41:08 already in place in considering whether or not the 08:41:10 Police Powers Doctrine can properly be applied. 08:41:12 Now, what do we hear in the evidence 08:41:17 about how the decision was made? 08:41:22 This, in our submission and it took 08:41:28 a lot of work in this case to obtain all the 08:41:30 documents and the relevant e-mails, but eventually 08:41:33 this was provided, and this is this is the 08:41:37 statement responding to a draft communications plan 08:41:42 from the Chief of Staff of the Premier's Office: 08:41:45  "Sorry, folks. This isn't 08:41:49 good enough. The purpose of 08:41:51 this release is to kill all 08:41:52 projects, except the Kingston 08:41:54
And, of course, we emphasize, as we 08:39:58  And, of course, we emphasize, as we 08:39:58  And, of course, we emphasize, as we 08:40:00  already required to conduct site-specific 08:40:03  environmental studies. That was the whole basis of 08:40:05  the regime that had been placed – that had been put 08:40:08  in place, both under the REA regulation and under 08:40:11  the Ministry of Natural Resources' approval and 08:40:15  permitting requirements. 08:40:19  10  11  And there were, as we have discussed, under the REA 08:40:20  12  regulations, certain prescriptive elements, like the 08:40:26  13  550-metre setback, that were prescribed. But for 08:40:29  14  the most part, as the evidence established, we were 08:40:32  15  the way in which Ontario had always carried out 08:40:37  the way in which Ontario had always carried out 08:40:39  16  a multiple number of studies, very thorough studies, 08:40:44  17  a multiple number of different areas, and then 08:40:47  provides those to the appropriate regulatory 08:40:49  20  authorities, Ministry of the Environment, Ministry 08:40:51  21  22  3 by them to ensure that the project is not going to 08:40:57  23  by them to ensure that the project is not going to 08:40:57  24  25  cause environmental concerns and is completely 08:42:16  Mo, Minister's Office; Po, 08:42:16  Minister's Office; Deputy 08:42:16  Minister's Office; Deputy 08:42:16  Minister's Office; Deputy 08:42:16  Minister's Office; Deputy 08:42:20  7  And that is Deputy Minister of this — 08:42:21  will be developed will focus 08:42:28  10  " the communications that 08:42:28  11  being moratorium in offshore 08:42:28  12  being moratorium in offshore 08:42:28  13  being moratorium in offshore 08:42:28  14  15  16  17  18  19  10  10  10  11  11  12  15  15  16  17  18  19  19  10  10  10  10  10  10  10  10	course, in considering any proportionality and necessity, you have to consider that that was 08:41:08 already in place in considering whether or not the 08:41:10 Police Powers Doctrine can properly be applied. 08:41:12 Now, what do we hear in the evidence 08:41:17 about how the decision was made? 08:41:22 This, in our submission and it took 08:41:28 a lot of work in this case to obtain all the 08:41:30 documents and the relevant e-mails, but eventually 08:41:33 this was provided, and this is this is the 08:41:37 statement responding to a draft communications plan 08:41:42 from the Chief of Staff of the Premier's Office: 08:41:45 "Sorry, folks. This isn't 08:41:49 good enough. The purpose of 08:41:51 this release is to kill all 08:41:52 projects, except the Kingston 08:41:54
And, of course, we emphasize, as we 08:39:58  A have throughout this proceeding, that Windstream was 08:40:00  A already required to conduct site-specific 08:40:03  Environmental studies. That was the whole basis of 08:40:05  the regime that had been placed — that had been put 08:40:08  in place, both under the REA regulation and under 08:40:11  the Ministry of Natural Resources' approval and 08:40:15  permitting requirements. 08:40:19  And there were, as we have discussed, under the REA 08:40:20  regulations, certain prescriptive elements, like the 08:40:26  the most part, as the evidence established, we were 08:40:32  the most part, as the evidence established, we were 08:40:32  the way in which Ontario had always carried out 08:40:39  a multiple number of studies, very thorough studies, 08:40:42  a multiple number of different areas, and then 08:40:47  provides those to the appropriate regulatory 08:40:49  authorities, Ministry of the Environment, Ministry 08:40:51  of Natural Resources. And then those are evaluated 08:40:55  by them to ensure that the project is not going to 08:40:57  cause environmental concerns and is completely 08:41:00  And there direction from the 08:42:16  Mo, Minister's offfice; Pop. 08:42:16  Minister's offfice; Deputy 08:42:16  Minister's offfice; Deputy 08:42:16  Minister's offfice on this 08:42:29  this is Sue Lo from the Ministry of Energy. 08:42:23  " the communications that 08:42:25  a being moratorium in offshore 08:42:28  a wind for the next three to 08:42:28	necessity, you have to consider that that was already in place in considering whether or not the 08:41:10  Police Powers Doctrine can properly be applied. 08:41:12  Now, what do we hear in the evidence 08:41:17  about how the decision was made? 08:41:22  This, in our submission — and it took 08:41:28  a lot of work in this case to obtain all the 08:41:30  documents and the relevant e-mails, but eventually 08:41:33  this was provided, and this is — this is the 08:41:37  statement responding to a draft communications plan 08:41:42  from the Chief of Staff of the Premier's Office: 08:41:45  "Sorry, folks. This isn't 08:41:49  good enough. The purpose of 08:41:51  this release is to kill all 08:41:52  projects, except the Kingston 08:41:54
4 have throughout this proceeding, that Windstream was 08:40:00 5 already required to conduct site-specific 08:40:03 6 environmental studies. That was the whole basis of 08:40:05 7 the regime that had been placed that had been put 08:40:08 8 in place, both under the REA regulation and under 08:40:11 9 the Ministry of Natural Resources' approval and 08:40:15 10 permitting requirements. 08:40:19 11 And there were, as we have discussed, under the REA 08:40:20 12 regulations, certain prescriptive elements, like the 08:40:26 13 550-metre setback, that were prescribed. But for 08:40:29 14 the most part, as the evidence established, we were 08:40:32 15 dealing with a regime that was very consistent with 08:40:37 16 the way in which Ontario had always carried out 08:40:39 17 environmental assessments, where the proponent does 08:40:42 18 a multiple number of studies, very thorough studies, 08:40:44 19 covering a number of different areas, and then 08:40:47 19 provides those to the appropriate regulatory 08:40:49 20 authorities, Ministry of the Environment, Ministry 08:40:51 21 of Natural Resources. And then those are evaluated 08:40:55 22 by them to ensure that the project is not going to 08:40:57 23 by them to ensure that the project is not going to 08:40:57 24 cause environmental concerns and is completely 08:41:00 25 compliant. 08:41:03  Page 30  1 "Following up on our 08:42:11 2 teleconference, I received 08:42:16 3 further direction from the 08:42:16 4 MO, Minister's Office; Pop. 08:42:16 5 Premier's Office; Deputy 08:42:16 6 Minister's office on this 08:42:19 7 file. The" 08:42:20 7 file. The" 08:42:20 7 and that is Deputy Minister of this 08:42:21 9 this is Sue Lo from the Ministry of Energy. 08:42:23 10 " the communications that 08:42:28 11 will be developed will focus 08:42:28 12 being moratorium in offshore 08:42:28 13 being moratorium in offshore 08:42:28 14 wind for the next three to 08:42:28 15 conditions of the proper of t	already in place in considering whether or not the 08:41:10 Police Powers Doctrine can properly be applied. 08:41:12 Now, what do we hear in the evidence 08:41:17 about how the decision was made? 08:41:22 This, in our submission and it took 08:41:28 a lot of work in this case to obtain all the 08:41:30 documents and the relevant e-mails, but eventually 08:41:33 this was provided, and this is this is the 08:41:37 statement responding to a draft communications plan 08:41:42 from the Chief of Staff of the Premier's Office: 08:41:45  "Sorry, folks. This isn't 08:41:49 good enough. The purpose of 08:41:51 this release is to kill all 08:41:52 projects, except the Kingston 08:41:54
environmental studies. That was the whole basis of 08:40:05  7 the regime that had been placed that had been put 08:40:08  8 in place, both under the REA regulation and under 08:40:11  9 the Ministry of Natural Resources' approval and 08:40:15  10 permitting requirements. 08:40:19  11 And there were, as we have discussed, under the REA 08:40:20  12 regulations, certain prescriptive elements, like the 08:40:26  13 550-metre setback, that were prescribed. But for 08:40:29  14 the most part, as the evidence established, we were 08:40:32  15 dealing with a regime that was very consistent with 08:40:37  16 the way in which Ontario had always carried out 08:40:39  17 environmental assessments, where the proponent does 08:40:42  18 a multiple number of studies, very thorough studies, 08:40:47  19 covering a number of different areas, and then 08:40:47  20 provides those to the appropriate regulatory 08:40:49  21 authorities, Ministry of the Environment, Ministry 08:40:51  22 of Natural Resources. And then those are evaluated 08:40:55  23 by them to ensure that the project is not going to 08:40:57  24 cause environmental concerns and is completely 08:42:14  25 compliant. 08:41:03  26  Page 30  1 "Following up on our 08:42:11  2 teleconference, I received 08:42:14  2 further direction from the 08:42:15  3 MO, Minister's Office; PO, 08:42:16  4 MO, Minister's Office; Deputy 08:42:16  5 Premier's Office; Deputy 08:42:16  5 Minister's office on this 08:42:19  6 Minister's office on this 08:42:29  8 And that is Deputy Minister of this 08:42:21  9 this is Sue Lo from the Ministry of Energy. 08:42:28  10 " the communications that 08:42:28  11 will be developed will focus 08:42:28  12 being moratorium in offshore 08:42:28  13 being moratorium in offshore 08:42:28  14 wind for the next three to 08:42:29	Now, what do we hear in the evidence 08:41:17 about how the decision was made? 08:41:22  This, in our submission and it took 08:41:28 a lot of work in this case to obtain all the 08:41:30 documents and the relevant e-mails, but eventually 08:41:33 this was provided, and this is this is the 08:41:37 statement responding to a draft communications plan 08:41:42 from the Chief of Staff of the Premier's Office: 08:41:45  "Sorry, folks. 6 Minister's office on this 08:42:19 6 7 file. The" 08:42:20 7 8 And that is Deputy Minister of this 08:42:21 8 9 this is Sue Lo from the Ministry of Energy. 08:42:23 9 10 " the communications that 08:42:25 10 11 will be developed will focus 08:42:27 11 12 on the preferred option of 08:42:28 12 13 being moratorium in offshore 08:42:28 13 14 wind for the next three to 08:42:29 14	timeline in the communications, what we've seen in 08:42:48
7 file. The" 08:42:20 7 8 And that is Deputy Minister of this 08:42:21 8 9 this is Sue Lo from the Ministry of Energy. 08:42:23 9 10 " the communications that 08:42:25 10 11 will be developed will focus 08:42:27 11 12 on the preferred option of 08:42:28 12 13 being moratorium in offshore 08:42:28 13 14 wind for the next three to 08:42:29 14	terms of the documents show a decision being made by 08:42:50
And that is Deputy Minister of this 08:42:21  this is Sue Lo from the Ministry of Energy. 08:42:23  " the communications that 08:42:25  will be developed will focus 08:42:27  nothe preferred option of 08:42:28  being moratorium in offshore 08:42:28  wind for the next three to 08:42:29  for exercise the time to 08:42:21	the Premier's Office, a communication to the staff, 08:42:53
9 this is Sue Lo from the Ministry of Energy. 08:42:23 9 10 " the communications that 08:42:25 10 11 will be developed will focus 08:42:27 11 12 on the preferred option of 08:42:28 12 13 being moratorium in offshore 08:42:28 13 14 wind for the next three to 08:42:29 14	the science rationale, but, again, consistent with 08:42:55
10 " the communications that 08:42:25 10 11 will be developed will focus 08:42:27 11 12 on the preferred option of 08:42:28 12 13 being moratorium in offshore 08:42:28 13 14 wind for the next three to 08:42:29 14	the Government's intention to freeze the project, 08:42:59
11       will be developed will focus 08:42:27       11         12       on the preferred option of 08:42:28       12         13       being moratorium in offshore 08:42:28       13         14       wind for the next three to 08:42:29       14	discussions with respect to Wolfe Island Shoals in a 08:43:02
on the preferred option of 08:42:28 12 being moratorium in offshore 08:42:28 13 wind for the next three to 08:42:29 14	recognition that it is in a separate category than 08:43:04
being moratorium in offshore 08:42:28 13  wind for the next three to 08:42:29 14	
wind for the next three to 08:42:29	other projects. 08:43:08
15 600 000 000 11 11 11 10 10 10 10 10 10 10	Now, of course, Canada has described, 08:43:11
15 Tive years to provide time to 08:42:51   15	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14
16 develop the science and 00.42.22	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16
17 greats the uniform rules and 09:42:25	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20
18 policies in collaboration 09.42.25	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23
19 with the Creat Lakes states 08:42:25	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23 we're ignoring the documents and evidence, what they 08:43:27
20 The preferred ention will 09:42:25	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23 we're ignoring the documents and evidence, what they 08:43:27 say on their face, adopting a grand conspiracy 08:43:28
21 also involve discussions with 08:42:27	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23 we're ignoring the documents and evidence, what they 08:43:27 say on their face, adopting a grand conspiracy 08:43:28 theory. 08:43:30
the developer of the Wolfe 08:42:38	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23 we're ignoring the documents and evidence, what they 08:43:27 say on their face, adopting a grand conspiracy 08:43:28 theory. 08:43:30 I would resist very strongly that submission. Our 08:43:31
23 Island Shoals project such 08:42:30	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23 we're ignoring the documents and evidence, what they 08:43:27 say on their face, adopting a grand conspiracy 08:43:28 theory. 08:43:30 I would resist very strongly that submission. Our 08:43:31 case is based on the evidence, and what we have 08:43:33
24 that the project won't 08:42:41	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23 we're ignoring the documents and evidence, what they 08:43:27 say on their face, adopting a grand conspiracy 08:43:28 theory. 08:43:30 I would resist very strongly that submission. Our 08:43:31 case is based on the evidence, and what we have 08:43:33 tried to do in the last two weeks is provide the 08:43:35
25 proceed until the science and 08:42:43	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23 we're ignoring the documents and evidence, what they 08:43:27 say on their face, adopting a grand conspiracy 08:43:28 theory. 08:43:30 I would resist very strongly that submission. Our 08:43:31 case is based on the evidence, and what we have 08:43:35 tried to do in the last two weeks is provide the 08:43:35 evidence to you to establish and, of course, it's 08:43:38
proceed with the science with 60.12.15	Now, of course, Canada has described, 08:43:11 both in its written materials and its opening 08:43:14 statement, that we're spinning a complicated tale, 08:43:16 sort of a conspiracy theory, and we're ignoring the 08:43:20 vast quantity of evidence disproving our theory, and 08:43:23 we're ignoring the documents and evidence, what they 08:43:27 say on their face, adopting a grand conspiracy 08:43:28 theory. 08:43:30  I would resist very strongly that submission. Our 08:43:31 case is based on the evidence, and what we have 08:43:33 tried to do in the last two weeks is provide the 08:43:35

	Page 32		Page 33
1	establish exactly what what the pattern of 08:43:46	1	that I thought was flawed." 08:44:52
2	decision-making was within the Ontario Government. 08:43:50	2	And you will recall he was very he 08:44:53
3	But we have accomplished much through the repeated 08:43:52	3	he very much stated that this was his decision, 08:44:59
4	requests, and we have information that we can rely 08:43:56	4	his decision alone that he took on behalf of the 08:45:02
5	on. And beyond that we have marshalled evidence 08:43:58	5	Government. 08:45:05
6	from experts, and this is, really, the only and 08:44:00	6	And you'll recall, Mr. President, that 08:45:07
7	when we go through this, you'll see that, in terms 08:44:06	7	the question you asked him at the end of his 08:45:09
8	of the Claimant's expert materials, that this is the 08:44:08	8	testimony in establishing exactly when the meeting 08:45:11
9	expert advice you have, for example, on things like 08:44:11	9	took place, because, again, he said he had a very 08:45:14
10	drinking water and whether or not the drinking water 08:44:14	10	definite recollection the meeting took place on the 08:45:17
11	issue was a real issue that drove this this 08:44:16	11	7th or 8th. He talked about coming back in the 08:45:20
12	thing. 08:44:19	12	evening and having this briefing. 08:45:23
13	So that's what Canada says. 08:44:20	13	And you see your question: 08:45:25
14	And, of course, we all recall the 08:44:22	14	"As far as you are concerned, 08:45:26
15	testimony of Mr. Wilkinson last week. He explained 08:44:25	15	your testimony is that the 08:45:28
16	that his rationale that he said he made the 08:44:30	16	decision was taken on that 08:45:29
17	decision. He said his Deputy Minister and Brenda 08:44:32	17	day on the spot, after your 08:45:31
18	Lucas from his office couldn't answer basic 08:44:39	18	briefing, after your meeting 08:45:33
19	questions about the consequence of construction in 08:44:40	19	with your Deputy? 08:45:34
20	regard to drinking water. He talked about his 08:44:43	20	"Oh, yes, I was very clear." 08:45:35
21	concerns about the Walkerton. 08:44:45	21	Now, I just wanted to pause for a 08:45:39
22	And he says: 08:44:47	22	moment to note that we don't see that decision 08:45:40
23	"Because these questions 08:44:48	23	appearing at all in the parties' joint chronology. 08:45:43
24	weren't answered, I felt we 08:44:49	24	We see a number of other decisions that were made 08:45:46
25	should not proceed on a path 08:44:51	25	around that particular or communications that 08:45:49
	Page 34		Page 35
1	occurred around that particular date, but we don't 08:45:52	1	"I never heard it from the 08:46:50
2	see a reference to that decision being made. 08:45:54	2	Minister. I I as the 08:46:53
3	And we explored this with Marcia 08:46:01	3	witness statement indicates 08:46:54
4	Wallace the next day, again trying to forensically 08:46:03	4	and we went over a bit, it 08:46:55
5	go through all the various communications and find 08:46:06	5	was left with them. A lot of 08:46:58
6	out whether she was aware, because she she 08:46:10	6	what was hanging on the 08:46:59
7	indicated very clearly that she was the official who 08:46:12	7	moratorium was how it was 08:47:00
8	had been running this policy as a director. She was 08:46:15	8	going to be implemented and 08:47:01
9	in charge of the renewable energy policy. She was 08:46:18	9	how Windstream would be 08:47:03
10	very much involved and certainly was of the view, as 08:46:22	10	treated in a moratorium. I 08:47:04
11	she expressed it, that this was her file that she 08:46:27	11	was not directly a part of 08:47:05
12	was working through over this period. 08:46:30	12	the conversations because 08:47:06
13	And she is asked, you know: 08:46:32	13	that wasn't core to what I 08:47:07
14	"Were you aware on January 08:46:34	14	needed to do." 08:47:09
15	13th of a decision that your 08:46:35	15	And, you know, transcripts can never 08:47:09
16	Minister had already made to 08:46:37	16	speak or provide a sense of what was of how the 08:47:14
17	defer offshore wind?" 08:46:38	17	evidence came out last week, but in our again, in 08:47:18
18	And she had we had tried several 08:46:40	18	our respectful submission, it's clear to us that, if 08:47:21
19	times to get her answer, yes or no. She says: 08:46:41	19	the Minister did, as he said, make a decision with 08:47:26
20	"Not specifically." 08:46:44	20	his Deputy Minister and with his Chief of Staff on 08:47:29
21	And then a follow-up question from Mr. 08:46:45	21	the day he says he did, his the main individual 08:47:32
22	Bishop: 08:46:48	22	who was working on this policy within within the 08:47:37
23	"When did you learn of the 08:46:48	23	Ministry of the Environment had not heard about it. 08:47:42
24 25	decision of the moratorium 08:46:49	24 25	And this is consistent also with the 08:47:46
23	from the Minister? 08:46:50	23	evidence, sir, of Rosalyn Lawrence, which again 08:47:47

	Page 36		Page 37
1	would suggest that Mr. Wilkinson's testimony is 08:47:52	1	found this perplexing, and she doesn't have insider 08:48:52
2	inconsistent; that she also had not learned of any 08:47:54	2	information, but for one Deputy Minister and one 08:48:55
3	moratorium decision from Mr. Wilkinson or anyone 08:47:57	3	Minister to sit in a room and make such an important 08:48:57
4	else at the MOE. 08:48:01	4	decision, relying on one person's information, when 08:49:00
5	We heard some testimony from others 08:48:06	5	the Ministry of Natural Resources that has more 08:49:01
6	with respect to how this decision as to Mr. 08:48:07	6	expertise had already got comfortable, she doesn't 08:49:04
7	Wilkinson's evidence as to how this decision was 08:48:12	7	understand that. 08:49:07
8	made. You heard, you'll remember, former cabinet 08:48:14	8	So she says: 08:49:10
9	Minister George Smitherman. He says: 08:48:18	9	"What I was perplexed about, 08:49:11
10	"With the exception of the 08:48:20	10	and I continue to be 08:49:13
11	Attorney General, who's in a 08:48:22	11	perplexed about, is the 08:49:14
12	special case with respect to 08:48:23	12	concept of the use of the 08:49:15
13	having to be independent of 08:48:24	13	precautionary principle." 08:49:17
14	government in some cases, you 08:48:25	14	Because you'll remember that 08:49:17
15	don't have Ministers that 08:48:27	15	Mr. Wilkinson spoke about that, and she didn't 08:49:19
16	have the authority to go on 08:48:28	16	understand how she could justify his decision. 08:49:21
17	and take a significant 08:48:30	17	And Mr. Kolberg, from Baird, who has 08:49:24
18	initiative like this without 08:48:32	18	expertise in terms of how sediment affects drinking 08:49:29
19	- without the backing of the 08:48:32	19	water in the lake, who has substantial experience 08:49:32
20	government." 08:48:36	20	for many, many years working on various projects in 08:49:34
21	And you heard from Sarah Powell who 08:48:38	21	Lake Ontario, including major industrial projects, 08:49:37
22	said, this was she found it. She was here to 08:48:39	22	who was from the same company that was retained by 08:49:41
23	hear Mr. Wilkinson's explanation and to hear Marcia 08:48:43	23	the Ontario Government in 2010 to look at the whole 08:49:43
24	Wallace. And she says, I think in answer to a 08:48:46	24	issue of offshore wind turbines on the Great Lakes, 08:49:46
25	question from one of the Tribunal members, that she 08:48:49	25	he says: 08:49:51
	1		
	Page 38		Page 39
1	"It's an unfortunate 08:49:51	1	applied a Police Powers Doctrine, and in those 08:50:57
2	comparison to Walkerton. In 08:49:53	2	particular cases, the Respondent, the responding 08:50:59
3	my opinion, the two are so 08:49:54	3	Government submitted expert evidence illustrating 08:51:01
4	different that I just had to 08:49:55	4	proven harm. 08:51:05
5	highlight some elements of 08:49:57	5	We do not have that expert evidence in this case. 08:51:05
6	it." 08:49:58	6	What we have in fact with respect to the rationale 08:51:08
7	And you heard, of course, in 08:49:58	7	that the Minister provided on drinking water is, 08:51:14
8	Walkerton, that was the case about about 08:49:59	8	again, from Sarah Powell. She says it wasn't aware 08:51:17
9	negligent employees not protecting the water source, 08:50:03	9	of any: 08:51:19
10	E. coli resulting, and seven or eight people dying. 08:50:06	10	"There wasn't any credible 08:51:19
11	In a completely different world than issues of 08:50:10	11	scientific evidence of a 08:51:21
12	sediment from an offshore wind turbine 5 kilometres 08:50:13	12	significant threat or 08:51:22
13	off the shores of Lake Ontario and closest, if 08:50:16	13	irreversible threat that 08:51:23
14	anything, to an uninhabited peninsula. 08:50:20	14	would have triggered the 08:51:25
15	So, in our submission, the Police 08:50:26	15	precautionary principle." 08:51:27
16	Powers Doctrine cannot, by any stretch of the 08:50:27	16	We have Mark Kolberg: 08:51:28
17	imagination, be applied to this case. Even if you 08:50:31	17	"These sediments would 08:51:29
18	could find there was a valid environmental purpose, 08:50:33	18	actually not pose a problem 08:51:31
19	the moratorium was not proportionate. And I 08:50:36	19	for or cause a threat to 08:51:32
20	emphasize that Canada has not provided any, any 08:50:38	20	drinking water. They're 08:51:34
21	credible evidence of harm to the environment and, of 08:50:42	21	low-level contaminants." 08:51:35
22	course, could have avoided the breach through 08:50:45	22	And he's an expert on the effect of 08:51:36
23	following up with the freeze. 08:50:47	23	of construction on the lake on drinking water and 08:51:38
24	And this case can be distinguished, among other 08:50:48	24	has provided, obviously, as you know, expert witness 08:51:42
25	things, from the Methanex and Chemtura cases which 08:50:52	25	testimony on this. 08:51:45

	Page 40		Page 41
1	And we have the experts from the other 08:51:46	1	other cases, that under 31(3) of the Vienna 08:53:03
2	side, from URS, asked about this drinking water 08:51:50	2	Convention, that to the extent you have an alignment 08:53:07
3	issue. And Mr. Clarke here says: 08:51:54	3	of the litigation positions of the NAFTA parties, 08:53:10
4	"Drinking water, we 08:51:58	4	because, of course, there's an entitlement for 08:53:13
5	identified as a low risk. 08:52:00	5	Mexico and U.S. To make 1128 submissions in the 08:53:16
6	Yes, that was our 08:52:02	6	case, that that should be taken as subsequent 08:53:19
7	conclusion." 08:52:03	7	practice. And they state that the Tribunal should 08:53:21
8	So what does the expert evidence say 08:52:03	8	give considerable weight. 08:53:24
9	on both sides? It says there's no threat to 08:52:07	9	And we just briefly submit here 08:53:25
10	drinking water. Completely the opposite of the 08:52:10	10	that that to the extent that this Article 08:53:27
11	evidence that was put forward to the Tribunals in 08:52:13	11	applies, it would only require the Tribunal to take 08:53:31
12	the cases of Methanex or Chemtura. No scientific 08:52:16	12	into account subsequent practice. There's no 08:53:34
13	evidence whatsoever to justify the purported 08:52:20	13	requirement to give it considerable weight. There's 08:53:36
14	rationale of the Minister who says he made the 08:52:23	14	already a mechanism of which Canada has already 08:53:38
15	decision in this case. 08:52:25	15	used, of course, the free trade for Canada and 08:53:39
16	Now, as I indicated, if you find 08:52:31	16	the other parties, the Free Trade Commission to 08:53:42
17	expropriation has occurred and Canada, as we set 08:52:33	17	issue interpretations under Article 2001(2)(c). 08:53:43
18	out here, has confirmed and agrees that it would be 08:52:35	18	And with respect to that issue, I 08:53:50
19	an unlawful expropriation, and, of course, that has 08:52:37	19	would I would respectfully submit that this 08:53:51
20	that has consequences for damages and for 08:52:40	20	Tribunal should take the same approach that other 08:53:54
21	valuation date. 08:52:44	21	NAFTA Tribunals have when this argument has been 08:53:56
22	And before I leave expropriation, one 08:52:50	22	made for it and not to give the fact that all three 08:53:59
23	other remark which which applies really to to 08:52:51	23	States may have the same perspective any additional 08:54:02
24	all of the breaches that are alleged in our case and 08:52:56	24	weight other than taking it into account. 08:54:06
25	your approach to them: Canada submits, as it has in 08:53:00	25	And, again, there is, as Gabrielle 08:54:08
	Page 42		Page 43
1	Kaufmann-Kohler, among others, has said in article, 08:54:10	1	"Article 1105(1) prescribes 08:55:21
2	there are there is a certain problem where you 08:54:15	2	the customary international 08:55:26
3	have a treaty that's granting rights to non-state 08:54:21	3	law minimum standard of 08:55:26
4	parties to assume that the views of the three state 08:54:23	4	treatment of aliens as the 08:55:28
5	parties should somehow be given greater weight in 08:54:28	5	minimum standard of treatment 08:55:28
6	the interpretive process than the views of other 08:54:31	6	to be afforded to investments 08:55:29
7	Claimants. 08:54:34	7	of investors of another 08:55:30
8	Now to move on to 1105 and the breaches here. And 08:54:35	8	Party." 08:55:31
9	this is this is the section where we'll talk more 08:54:43	9	The second phrase: 08:55:32
10	about about the representations made and, in our 08:54:45	10	
	_	1 1 1	"The concepts of fair and 08:55:33
11	view, reasonable reliance on them. 08:54:50	11	equitable treatment' and 08:55:34
12	view, reasonable reliance on them. 08:54:50 So in starting with 1105, we have, of 08:54:53	12	equitable treatment' and 08:55:34 'full protection and 08:55:35
12 13	view, reasonable reliance on them. 08:54:50 So in starting with 1105, we have, of 08:54:53 course, the the statement in 1105 of: 08:54:56	12 13	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36
12 13 14	view, reasonable reliance on them. 08:54:50 So in starting with 1105, we have, of 08:54:53 course, the the statement in 1105 of: 08:54:56 "Each party shall accord to 08:55:00	12 13 14	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37
12 13 14 15	view, reasonable reliance on them. 08:54:50 So in starting with 1105, we have, of 08:54:53 course, the the statement in 1105 of: 08:54:56 "Each party shall accord to 08:55:00 investments of investors of 08:55:04	12 13 14 15	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38
12 13 14 15	view, reasonable reliance on them. 08:54:50 So in starting with 1105, we have, of 08:54:53 course, the the statement in 1105 of: 08:54:56 "Each party shall accord to 08:55:00 investments of investors of 08:55:04 another Party treatment in 08:55:05	12 13 14 15 16	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39
12 13 14 15 16 17	view, reasonable reliance on them. 08:54:50 So in starting with 1105, we have, of 08:54:53 course, the the statement in 1105 of: 08:54:56 "Each party shall accord to 08:55:00 investments of investors of 08:55:04 another Party treatment in 08:55:05 accordance with international 08:55:06	12 13 14 15 16 17	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40
12 13 14 15 16 17	view, reasonable reliance on them. 08:54:50  So in starting with 1105, we have, of 08:54:53  course, the the statement in 1105 of: 08:54:56  "Each party shall accord to 08:55:00  investments of investors of 08:55:04  another Party treatment in 08:55:05  accordance with international 08:55:06  law, including fair and 08:55:07	12 13 14 15 16 17 18	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40 treatment of aliens." 08:55:42
12 13 14 15 16 17 18	view, reasonable reliance on them. 08:54:50  So in starting with 1105, we have, of 08:54:53  course, the — the statement in 1105 of: 08:54:56  "Each party shall accord to 08:55:00  investments of investors of 08:55:04  another Party treatment in 08:55:05  accordance with international 08:55:07  equitable and treatment and 08:55:09	12 13 14 15 16 17 18 19	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40 treatment of aliens." 08:55:42 And then the statement which isn't 08:55:45
12 13 14 15 16 17 18 19	view, reasonable reliance on them. 08:54:50  So in starting with 1105, we have, of 08:54:53 course, the the statement in 1105 of: 08:54:56  "Each party shall accord to 08:55:00 investments of investors of 08:55:04 another Party treatment in 08:55:05 accordance with international 08:55:06 law, including fair and 08:55:07 equitable and treatment and 08:55:09 full protection and 08:55:11	12 13 14 15 16 17 18 19 20	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40 treatment of aliens." 08:55:42 And then the statement which isn't 08:55:45 relevant to our case, I don't believe, that: 08:55:46
12 13 14 15 16 17 18 19 20 21	view, reasonable reliance on them. 08:54:50  So in starting with 1105, we have, of 08:54:53 course, the – the statement in 1105 of: 08:54:56  "Each party shall accord to 08:55:00 investments of investors of 08:55:04 another Party treatment in 08:55:05 accordance with international 08:55:06 law, including fair and 08:55:07 equitable and treatment and 08:55:09 full protection and 08:55:11 security." 08:55:12	12 13 14 15 16 17 18 19 20 21	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40 treatment of aliens." 08:55:42 And then the statement which isn't 08:55:45 relevant to our case, I don't believe, that: 08:55:46 "A determination that there 08:55:50
12 13 14 15 16 17 18 19 20 21	view, reasonable reliance on them. 08:54:50  So in starting with 1105, we have, of 08:54:53 course, the the statement in 1105 of: 08:54:56  "Each party shall accord to 08:55:00 investments of investors of 08:55:04 another Party treatment in 08:55:05 accordance with international 08:55:06 law, including fair and 08:55:07 equitable and treatment and 08:55:09 full protection and 08:55:11 security." 08:55:12 So the FET clearly included with 08:55:12	12 13 14 15 16 17 18 19 20 21 22	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40 treatment of aliens." 08:55:42 And then the statement which isn't 08:55:45 relevant to our case, I don't believe, that: 08:55:46 "A determination that there 08:55:50 has been a breach of another 08:55:51
12 13 14 15 16 17 18 19 20 21 22 23	view, reasonable reliance on them.  So in starting with 1105, we have, of 08:54:50  course, the — the statement in 1105 of: 08:54:56  "Each party shall accord to 08:55:00  investments of investors of 08:55:04  another Party treatment in 08:55:05  accordance with international 08:55:06  law, including fair and 08:55:07  equitable and treatment and 08:55:09  full protection and 08:55:11  security." 08:55:12  So the FET clearly included with 08:55:16	12 13 14 15 16 17 18 19 20 21 22 23	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40 treatment of aliens." 08:55:42 And then the statement which isn't 08:55:45 relevant to our case, I don't believe, that: 08:55:46 "A determination that there 08:55:50 has been a breach of another 08:55:51 provision of the NAFTA, or of 08:55:52
12 13 14 15 16 17 18 19 20 21 22 23 24	view, reasonable reliance on them. 08:54:50 So in starting with 1105, we have, of 08:54:53 course, the the statement in 1105 of: 08:54:56  "Each party shall accord to 08:55:00 investments of investors of 08:55:04 another Party treatment in 08:55:05 accordance with international 08:55:06 law, including fair and 08:55:07 equitable and treatment and 08:55:09 full protection and 08:55:11 security." 08:55:12 So the FET clearly included with 08:55:16 treatment in accordance with international law. 08:55:16 We then have the FTC Note of 08:55:18	12 13 14 15 16 17 18 19 20 21 22	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40 treatment of aliens." 08:55:42 And then the statement which isn't 08:55:45 relevant to our case, I don't believe, that: 08:55:46 "A determination that there 08:55:50 has been a breach of another 08:55:51 provision of the NAFTA, or of 08:55:52 a separate international 08:55:53
12 13 14 15 16 17 18 19 20 21 22 23	view, reasonable reliance on them.  So in starting with 1105, we have, of 08:54:50  course, the — the statement in 1105 of: 08:54:56  "Each party shall accord to 08:55:00  investments of investors of 08:55:04  another Party treatment in 08:55:05  accordance with international 08:55:06  law, including fair and 08:55:07  equitable and treatment and 08:55:09  full protection and 08:55:11  security." 08:55:12  So the FET clearly included with 08:55:16	12 13 14 15 16 17 18 19 20 21 22 23 24	equitable treatment' and 08:55:34 'full protection and 08:55:35 security' do not require 08:55:36 treatment in addition to or 08:55:37 beyond that which is required 08:55:38 by customary international 08:55:39 law minimum standard of 08:55:40 treatment of aliens." 08:55:42 And then the statement which isn't 08:55:45 relevant to our case, I don't believe, that: 08:55:46 "A determination that there 08:55:50 has been a breach of another 08:55:51 provision of the NAFTA, or of 08:55:52

	Page 44		Page 45
1	that there has been a breach 08:55:55	1	"Under Article 1105, the FET 08:57:10
2	of Article 1105(1)." 08:55:57	2	standard must be considered 08:57:13
3	And, of course, there's been a lot of 08:55:59	3	as one of the elements 08:57:14
4	ink spilled and a lot of a lot of arguments in 08:56:01	4	included in the umbrella 08:57:15
5	many cases about what the effect of this FTC 08:56:03	5	concept of the minimum 08:57:17
6	interpretation note is with respect to 1105 and 08:56:05	6	standard of treatment." 08:57:17
7	and how it should be interpreted under the NAFTA. 08:56:08	7	And, as we say, this is clear from the 08:57:17
8	And I wanted to set out our our 08:56:10	8	language of 1105, which requires the NAFTA parties 08:57:19
9	view quite concisely on this issue. First of all, 08:56:13	9	to provide treatment in accordance with 08:57:22
10	the MST, minimum standard of treatment, it's a rule 08:56:19	10	international law, including FET. 08:57:24
11	of customary international law. It's the floor of 08:56:22	11	So interpretive note is making clear 08:57:26
12	treatment protected under Article 1105. And as 08:56:25	12	that you're in the overall umbrella of MST, but also 08:57:28
13	Canada, I believe, agrees, it's an umbrella concept, 08:56:29	13	making clear that, with respect to the Provision 08:57:32
14	which, itself, incorporates different elements. 08:56:32	14	1105, that it includes FET. And as Pope and Talbot 08:57:35
15	And we've referred to the Dumberry. 08:56:35	15	said, any other reading would require "including" to 08:57:38
16	He my friends have referred to him as well. He 08:56:38	16	be read as excluding. So that approach has been 08:57:41
17	certainly is someone who has written much in this 08:56:40	17	was rejected in Pope and Talbot and has has 08:57:44
18	area, and he agrees that MST is an umbrella concept, 08:56:44	18	never, of course, been accepted. 08:57:46
19	and and our submission is that the content of the 08:56:50	19	And the United States, you'll see, in 08:57:48
20	standard is not static, but rather evolves over time 08:56:53	20	their Article 1128 submissions stated this, and we 08:57:49
21	with the development of customary international law. 08:56:56	21	have mentioned a number of the multiple NAFTA 08:57:54
22	08:56:58	22	tribunals where that have recognized this. 08:57:57
23	Now, the FET standard and this is really a matter 08:56:58	23	Now, there's been questions from the 08:58:00
24	of textual interpretation, and you'll see that this 08:57:06	24	Tribunal about the burden of proof and the question 08:58:01
25	is supported by Dumberry as well: 08:57:08	25	as to who has who bears the burden of proof with 08:58:04
	Page 46		Page 47
1	•	1	•
1 2	respect to deciding whether or not, you know, 08:58:09	1 2	in this particular case is you have more of an 08:59:14
	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10		in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18
2	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12	2	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21
2	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14	2 3	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26
2 3 4	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17	2 3 4	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21
2 3 4 5	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14	2 3 4 5	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28
2 3 4 5 6	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17 And our our position is that, with 08:58:17	2 3 4 5 6	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31
2 3 4 5 6 7	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17 And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20	2 3 4 5 6 7	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31  And then you look to international sources of law, 08:59:33
2 3 4 5 6 7 8	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23	2 3 4 5 6 7 8	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31  And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36
2 3 4 5 6 7 8	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33	2 3 4 5 6 7 8	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38
2 3 4 5 6 7 8 9 10 11	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35	2 3 4 5 6 7 8 9	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38
2 3 4 5 6 7 8 9 10 11 12	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38	2 3 4 5 6 7 8 9 10 11 12 13	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43 And what you see in the case law is 08:59:44
2 3 4 5 6 7 8 9 10 11 12 13	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42	2 3 4 5 6 7 8 9 10 11 12 13 14	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43 And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:46
2 3 4 5 6 7 8 9 10 11 12 13 14	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45	2 3 4 5 6 7 8 9 10 11 12 13 14	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43  And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:46 after case, and they may articulate it in different 08:59:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43  And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:49 ways and say it in different ways, but you see them 08:59:52
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48 evidence was put in front of the Tribunal by either 08:58:50	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43 And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:49 ways and say it in different ways, but you see them 08:59:52 all coming up, all referring to previous Tribunals. 08:59:54
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48 evidence was put in front of the Tribunal by either 08:58:50 party, the Tribunal would then have to consider 08:58:53	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43 And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:49 ways and say it in different ways, but you see them 08:59:52 all coming up, all referring to previous Tribunals. 08:59:59
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48 evidence was put in front of the Tribunal by either 08:58:50 party, the Tribunal would then have to consider 08:58:53 whether that was appropriate evidence of customary 08:58:55	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31 And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:46 after case, and they may articulate it in different 08:59:49 ways and say it in different ways, but you see them 08:59:52 all coming up, all referring to previous Tribunals. 08:59:59 or the Claimants, arguing these particular cases, 09:00:01
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48 evidence was put in front of the Tribunal by either 08:58:53 whether that was appropriate evidence of customary 08:58:55 international law and see whether that establishes a 08:58:57	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31  And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43  And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:46 after case, and they may articulate it in different 08:59:49 ways and say it in different ways, but you see them 08:59:52 all coming up, all referring to previous Tribunals. 08:59:59 or the Claimants, arguing these particular cases, 09:00:01 and you see the reliance on them by Tribunals to 09:00:05
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48 evidence was put in front of the Tribunal by either 08:58:50 party, the Tribunal would then have to consider 08:58:53 whether that was appropriate evidence of customary 08:58:55 international law and see whether that establishes a 08:58:57 particular threshold. 08:58:59	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31  And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43  And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:49 ways and say it in different ways, but you see them 08:59:52 all coming up, all referring to previous Tribunals. 08:59:59 or the Claimants, arguing these particular cases, 09:00:01 and you see the reliance on them by Tribunals to 09:00:05 decide what particular approach they should take to 09:00:08
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48 evidence was put in front of the Tribunal by either 08:58:50 party, the Tribunal would then have to consider 08:58:53 whether that was appropriate evidence of customary 08:58:55 international law and see whether that establishes a 08:58:57 particular threshold. 08:58:59 What's happened, if you read the 08:59:02	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31  And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43  And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:49 ways and say it in different ways, but you see them 08:59:52 all coming up, all referring to previous Tribunals. 08:59:59 or the Claimants, arguing these particular cases, 09:00:01 and you see the reliance on them by Tribunals to 09:00:05 decide what particular approach they should take to 09:00:08 1105 in these cases. And we've got a chart here 09:00:12
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48 evidence was put in front of the Tribunal by either 08:58:50 party, the Tribunal would then have to consider 08:58:53 whether that was appropriate evidence of customary 08:58:55 international law and see whether that establishes a 08:58:57 particular threshold. 08:58:59  What's happened, if you read the 08:59:02 cases, though, in my submission, is you don't have 08:59:04	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31  And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43  And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:49 ways and say it in different ways, but you see them 08:59:52 all coming up, all referring to previous Tribunals. 08:59:59 or the Claimants, arguing these particular cases, 09:00:01 and you see the reliance on them by Tribunals to 09:00:05 decide what particular approach they should take to 09:00:08 1105 in these cases. And we've got a chart here 09:00:12 that illustrates this. 09:00:15
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	respect to deciding whether or not, you know, 08:58:09 evidence there's evidence of customary 08:58:10 international law in this case. And Mr. Bishop had 08:58:12 asked Ms. Tabet some questions about this during the 08:58:14 opening. 08:58:17  And our our position is that, with 08:58:17 respect to no question that, when it comes to 08:58:20 proving the breach, that we, the Claimants, have the 08:58:23 burden of proof. But in terms of proving what the 08:58:27 legal standard is, there's an equal burden on either 08:58:30 side to the extent to which they want to say that 08:58:33 the customary that there is evidence of customary 08:58:35 law, you know, state practice, opinio juris of a 08:58:38 particular standard. Both parties each party 08:58:42 would bear their own independent burden of proof to 08:58:45 try to establish that. And, of course, if such 08:58:48 evidence was put in front of the Tribunal by either 08:58:50 party, the Tribunal would then have to consider 08:58:53 whether that was appropriate evidence of customary 08:58:55 international law and see whether that establishes a 08:58:57 particular threshold. 08:58:59 What's happened, if you read the 08:59:02	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	in this particular case is you have more of an 08:59:14 interpretive process that's going on where you start 08:59:18 with the premise that minimum standard of treatment, 08:59:21 under 1105, includes FET. So there's got to be some 08:59:26 we're not working with a vacuum. There's got to 08:59:28 be some content to FET. 08:59:31  And then you look to international sources of law, 08:59:33 which, of course, you're entitled to do. You're 08:59:36 interpreting the NAFTA under international law. You 08:59:38 look to international sources, which include 08:59:38 judicial decisions, arbitral decisions, to make a 08:59:40 determination as to what that means. 08:59:43  And what you see in the case law is 08:59:44 you see the NAFTA Tribunals consistently in case 08:59:49 ways and say it in different ways, but you see them 08:59:52 all coming up, all referring to previous Tribunals. 08:59:59 or the Claimants, arguing these particular cases, 09:00:01 and you see the reliance on them by Tribunals to 09:00:05 decide what particular approach they should take to 09:00:08 1105 in these cases. And we've got a chart here 09:00:12

	Page 48	Page 49
1	through reference to jurisprudence. And you can see 09:00:24	to prove its famous 09:01:19
2	the line of yeses all the way down because that's 09:00:27	statementto be an 09:01:19
3	the approach that has been taken in the case law. 09:00:30	expression of customary 09:01:27
4	And in this respect, I note that 09:00:32	4 international law." 09:01:27
5	Canada equally has failed to show any evidence of 09:00:36	So if we go back to the source and try 09:01:28
6	state practice and opinio juris that FET, under MST, 09:00:40	to see what's going on, we see, even at the source 09:01:30
7	requires conduct that is outrageous or egregious. 09:00:43	of this you know, Neer was not a case where the 09:01:32
8	And if you look back to the start of 09:00:47	parties on either side put forward evidence of, you 09:01:35
9	this, the standards established, of course, in the 09:00:49	know, consistent practice, et cetera, and opinio 09:01:39
10	Neer decision, that case involved issues of physical 09:00:51	<sup>10</sup> juris. 09:01:41
11	security of an alien and the the question as to 09:00:54	And we also point out that with 09:01:45
12	whether the Mexican authorities had properly 09:00:57	respect to the Neer standard, it's been rejected by 09:01:47
13	investigated murder. It had nothing to do with 09:00:59	all Tribunals with exception of the Glamis Gold 09:01:52
14	economic issues and the fair and equitable treatment 09:01:01	14 case. 09:01:55
15	of the investment or foreign investor. 09:01:03	So what have NAFTA Tribunals done? 09:01:57
16	And as stated in the Railroad 09:01:04	They have there's a convergence around the 09:02:00
17	Development case, the mixed commission in Neer 09:01:08	approach that was taken initially in the Waste 09:02:04
18	case this was a mixed U.SMexican arbitral 09:01:09	Management II. And you can see there: 09:02:06
19	Tribunal did not formulate the minimum standard 09:01:13	19 "Taken together, the S.D. 09:02:08
20	of treatment after an analysis of state practice. 09:01:16	20 Myers, Mondey, ADF and Loewen 09:02:08
21	So, as they say there: 09:01:18	cases suggest that the 09:02:08
22	"By the strict standards of 09:01:19	minimum standard of treatment 09:02:08
23	proof of customary 09:01:19	of fair and equitable 09:02:08
24	international law applied in 09:01:19	treatment is infringed by 09:02:08
25	Glamis Gold, Neer would fail 09:01:19	25 conduct attributable to the 09:02:08
1 2	Page 50  State and harmful to the claimant if the conduct is 09:02:08  09:02:08	Page 51  All right? So legitimate expectations 09:02:40  is an element in considering or not whether this 09:02:53
3	arbitrary, grossly unfair, 09:02:08	test has been breached. And I want to emphasize in 09:02:56
4	unjust or idiosyncratic, is 09:02:08	4 this case we're not arguing and there may have 09:02:58
5	discriminatory and exposes 09:02:08	been some confusion at some point. We're not 09:03:00
6	the claimant to sectional or 09:02:08	arguing that there is a customary you know, at 09:03:02
7	racial prejudice, or involves 09:02:08	7 least our primary argument is not that there is a 09:03:05
8	a lack of due process leading 09:02:08	8 customary international law principle under fair and 09:03:07
9	to an outcome which offends 09:02:08	9 equitable of legitimate expectations that is sort of 09:03:11
10	judicial propriety as 09:02:08	10 independent and standalone. 09:03:14
11	might be the case with a 09:02:08	What we argue and what is consistent 09:03:14
12	manifest failure of natural 09:02:08	with what Dumberry has said as well is it's part of 09:03:17
13	justice in judicial 09:02:08	the set of elements and factors that you look at in 09:03:19
14	proceedings or a complete 09:02:08	determining whether a breach of FET has occurred. 09:03:23
15 16	lack of transparency and 09:02:08	So together with elements of arbitrariness of 09:03:26
16 17	candour in an administrative 09:02:08	conduct or whatever else is involved, it's relevant 09:03:29
17 18	process." 09:02:08	and appropriate to examine whether or not this has 09:03:33
18 19	And they also say: 09:02:08	been a breach of legitimate expectations. It's a 09:03:36
20	"In applying this standard it 09:02:40 is relevant that the 09:02:40	19 factor. 09:03:39
21	is relevant that the 09:02:40 treatment is in breach of 09:02:40	20 And I also in this next slide, we 09:03:39
22	representations made by the 09:02:40	point out the fact that, if you look at the 09:03:41
23	host State which were 09:02:40	difference between Waste Management and Glamis Gold, 09:03:45
	reasonably relied on by the 09:02:40	you know, how important really is this debate in 09:03:48
24		
24 25	claimant." 09:02:40	terms of actual decision-making? And, again, it's 09:03:52  - I have no no beef with scholars who want to 09:03:54

	Page 52		Page 53
1	interpret which approach is appropriate or not. 09:04:02	1	"The Glamis Tribunal added 09:05:12
2	It's a very interesting and difficult question. 09:04:04	2	that what is considered today 09:05:15
3	But when you come to the actual case 09:04:07	3	as 'egregious' and 'shocking' 09:05:16
4	law and how Tribunals have applied it, the Waste 09:04:08	4	has changed since the 1920s." 09:05:17
5	Management, you've got arbitrariness that's 09:04:12	5	Thus, the state conduct that would 09:05:19
6	included. Glamis gold manifests arbitrariness. 09:04:14	6	have certainly not been considered a breach of the 09:05:20
7	Waste Management, gross unfairness. Glamis Gold, 09:04:17	7	minimum standard of treatment at the time may, 09:05:22
8	blatant unfairness. Waste Management, unjust or 09:04:21	8	depending on each Tribunal, be deemed a violation of 09:05:24
9	idiosyncratic conduct, discrimination, evident 09:04:23	9	the standard today. At the end of the day, the 09:05:27
10	discrimination, lack of due process, complete lack 09:04:27	10	practical differences between the reasoning adopted 09:05:28
11	of due process, manifest lack of reasons. 09:04:29	11	by the Glamis Tribunal and that of others may be 09:05:30
12	Bad faith is a determinative factor 09:04:32	12	more apparent than real. 09:05:33
13	under both thresholds. Legitimate expectations are 09:04:35	13	And that, in my respectful submission, 09:05:35
14	a relevant factor under both, because Glamis Gold, 09:04:38	14	seems to be consistent with our reading of the NAFTA 09:05:37
15	of course, considered the legitimate expectations as 09:04:41	15	case law. 09:05:40
16	well. 09:04:44	16	So with respect to representations, we 09:05:46
17	So, you know, is there really a 09:04:45	17	have several cases here which, in interpreting 1105, 09:05:47
18	material difference, and particularly in this case, 09:04:46	18	note the fact that the that, as we say, that 09:05:51
19	between the two standards? We would say that, with 09:04:50	19	breach of representations is part of the FET 09:05:54
20	respect to the to the unfairness and 09:04:53	20	analysis. 09:05:57
21	arbitrariness that's occurred in this case, that it 09:04:58	21	So this is the Mobil case, paragraph 09:05:58
22	meets either test. 09:05:00	22	3: 09:06:01
23	And we highlight here the Glamis Gold 09:05:04	23	"In determining whether the 09:06:01
24	and the Dumberry discussion here that, as Dumberry 09:05:07	24	standard has been violated it 09:06:02
25	says: 09:05:11	25	will be a relevant fact that 09:06:03
	Page 54		Page 55
1	the treatment is made against 09:06:04	1	Contracting Party's conduct 09:06:45
2	the background of. 09:06:06	2	creates reasonable and 09:06:46
3	"(i) clear and explicit 09:06:06	3	justifiable expectations on 09:06:48
4	representations made by or 09:06:06	4	the part of an investor (or 09:06:49
5	attributable to the NAFTA 09:06:06	5	
6	host State in order to induce 09:06:08		
7	nost state in order to induce options	6	,
	the investment, and 09:06:09	6 7	reliance on said conduct." 09:06:52
8	the investment, and 09:06:09 "(ii) were by reference to an 09:06:11	7	reliance on said conduct." 09:06:52 So whether we're under the 09:06:53
	"(ii) were by reference to an 09:06:11		reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55
8	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12	7 8 9	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58
8 9	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12	7 8 9 10	reliance on said conduct." 09:06:52 So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01
8 9 10	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13	7 8 9	reliance on said conduct." 09:06:52 So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04
8 9 10 11	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14	7 8 9 10 11	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07
8 9 10 11 12	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14	7 8 9 10 11 12	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09
8 9 10 11 12 13	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16	7 8 9 10 11 12 13	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12
8 9 10 11 12 13 14 15	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20	7 8 9 10 11 12 13 14	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15
8 9 10 11 12 13 14 15 16	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24	7 8 9 10 11 12 13 14 15	reliance on said conduct." 09:06:52 So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:18
8 9 10 11 12 13 14 15 16 17	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24 And you'll see Glamis Gold again, and 09:06:26	7 8 9 10 11 12 13 14 15	reliance on said conduct." 09:06:52 So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:18 of that as part of the overall context of 09:07:22
8 9 10 11 12 13 14 15 16 17 18	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24 And you'll see Glamis Gold again, and 09:06:26 this is important and really makes the point as to 09:06:32	7 8 9 10 11 12 13 14 15 16	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:18 of that as part of the overall context of 09:07:22 determining whether there's an FET violation and in 09:07:24
8 9 10 11 12 13 14 15 16 17 18 19 20	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24 And you'll see Glamis Gold again, and 09:06:26 this is important and really makes the point as to 09:06:32 what are we exactly arguing about between the 09:06:34	7 8 9 10 11 12 13 14 15 16 17	reliance on said conduct." 09:06:52 So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:18 of that as part of the overall context of 09:07:22 determining whether there's an FET violation and in 09:07:24 considering whether it's it's arbitrary and 09:07:28
8 9 10 11 12 13 14 15 16 17 18 19 20 21	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24 And you'll see Glamis Gold again, and 09:06:36 this is important and really makes the point as to 09:06:32 what are we exactly arguing about between the 09:06:34 difference of these standards. They say: 09:06:37	7 8 9 10 11 12 13 14 15 16 17 18	reliance on said conduct." 09:06:52 So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:22 determining whether there's an FET violation and in 09:07:24 considering whether it's it's arbitrary and 09:07:28 unfair. 09:07:30
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24 And you'll see Glamis Gold again, and 09:06:32 what are we exactly arguing about between the 09:06:34 difference of these standards. They say: 09:06:37 "Legitimate expectations 09:06:38	7 8 9 10 11 12 13 14 15 16 17 18 19 20	reliance on said conduct." 09:06:52 So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:18 of that as part of the overall context of 09:07:22 determining whether there's an FET violation and in 09:07:24 considering whether it's it's arbitrary and 09:07:28
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24 And you'll see Glamis Gold again, and 09:06:32 what are we exactly arguing about between the 09:06:34 difference of these standards. They say: 09:06:37 "Legitimate expectations 09:06:38 relate to an examination 09:06:38	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:18 of that as part of the overall context of 09:07:22 determining whether there's an FET violation and in 09:07:24 considering whether it's it's arbitrary and 09:07:28 unfair. 09:07:30 And, again, Dumberry accepts this, as 09:07:30 he said: 09:07:33
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24 And you'll see Glamis Gold again, and 09:06:26 this is important and really makes the point as to 09:06:32 what are we exactly arguing about between the 09:06:34 difference of these standards. They say: 09:06:37 "Legitimate expectations 09:06:38 relate to an examination 09:06:38 under Article 1105(i) in such 09:06:42	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:18 of that as part of the overall context of 09:07:22 determining whether there's an FET violation and in 09:07:24 considering whether it's it's arbitrary and 09:07:28 unfair. 09:07:30 And, again, Dumberry accepts this, as 09:07:30 he said: 09:07:33
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	"(ii) were by reference to an 09:06:11 objective standard, 09:06:12 reasonably relied on by the 09:06:13 investor, and 09:06:14 "(iii) were subsequently 09:06:14 repudiated by the NAFTA host 09:06:16 State." 09:06:17 Which, in our submission, the evidence 09:06:18 establishes in our case representations objectively 09:06:20 relied on, subsequently repudiated. 09:06:24 And you'll see Glamis Gold again, and 09:06:32 what are we exactly arguing about between the 09:06:34 difference of these standards. They say: 09:06:37 "Legitimate expectations 09:06:38 relate to an examination 09:06:38	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	reliance on said conduct." 09:06:52  So whether we're under the 09:06:53 egregiousness test, you know, the Neer test as 09:06:55 applied through Glamis gold, whether we're under the 09:06:58 Waste Management test, which are which are the 09:07:01 only two tests that NAFTA parties NAFTA Tribunals 09:07:04 have applied, with, of course, the vast majority 09:07:07 applying the Waste Management test, you're looking 09:07:09 and entitled to take into account whether legitimate 09:07:12 whether representations were made that were 09:07:15 reasonably relied on and where there is repudiation 09:07:18 of that as part of the overall context of 09:07:22 determining whether there's an FET violation and in 09:07:24 considering whether it's it's arbitrary and 09:07:28 unfair. 09:07:30  And, again, Dumberry accepts this, as 09:07:30 he said: 09:07:33 "In the present author's 09:07:33

And I appreciate all of that, and to 09:10:33

determination to make, but we do support the view of 09:10:40

Professor Dolzer. He's provided an expert opinion 09:10:43

be frank, we're not requiring you to make that

determination, which I think is a complicated

here that there is sufficient evidence, as Judge

Schwebel has also said, to be able to come to a

	D 5/		D 57
	Page 56		Page 57
1	Cargill Tribunals adopted a 09:07:38	1	law test perspective of the uniformity and 09:08:38
2	more convincing approach." 09:07:39	2	representativeness of the state practice. He 09:08:43
3	So they have held that the host 09:07:41	3	you'll see in his opinion he looks at a survey of 09:08:44
4	State's failure to respect an investor's legitimate 09:07:42	4	bilateral investment treaty language and finds that 09:08:46
5	expectation does not constitute a breach of the FET 09:07:45	5	almost 94 percent of the BITs he surveyed contained 09:08:49
6	standard, but is, rather, a factor to be taken into 09:07:47	6	FET provisions that are not linked to MST. 09:08:53
7 8	account when assessing whether or not 09:07:51	7 8	He also reaches the opinion that, in 09:08:54
9	well-established elements of the standard have been 09:07:53	9	the context of these treaties, that States are 09:08:57
10	breached. So he recognizes that it's a factor in 09:07:54	10	acting out of a sense of obligation as to how they 09:08:59
11	these tests. 09:07:57	11	are required to treat investors under customary law. 09:09:02
12	Now, the Tribunal has asked about the 09:07:58 evidence of all the various bits, some close to 09:08:00	12	Now, I just want to be very clear as 09:09:06
13	evidence of all the various bits, some close to 09:08:00 3,000, that have been entered into by state parties, 09:08:02	13	to what our position is. As I say, our position is 09:09:08 that is that Canada's conduct, Ontario's conduct 09:09:10
14	you know, as well as a multilateral energy charter 09:08:06	14	
15	treaty and various other other treaties, some of 09:08:09	15	is sufficiently egregious to meet either of the 09:09:14  Waste Management or Glamis Gold standards. So, in 09:09:17
16	which, of course, are going through the ratification 09:08:12	16	our submission, we're not asking you or requiring 09:09:19
17	process right now. 09:08:14	17	you to go further and find that somehow there has 09:09:21
18	And there was an expert opinion of 09:08:15	18	been a legitimate expectations doctrine or anything 09:09:24
19	Professor Dolzer that we filed as part of this case. 09:08:18	19	else that's developed under customary law. 09:09:28
20	And he concludes he carries out a survey with 09:08:22	20	But we nevertheless support Professor 09:09:30
21	respect to, as he described, 2,800 bilateral 09:08:26	21	Dolzer's opinion, and as we say here, like the MST 09:09:33
22	investment treaties at the time. And his conclusion 09:08:28	22	requirement which, of course, has had a traditional 09:09:39
23	is that customary international law requires states 09:08:31	23	focus on physical security, if you look back to the 09:09:41
24	to grant FET to foreign investors. 09:08:33	24	Neer standard, a requirement that aliens and alien 09:09:44
25	He looks at this from the customary 09:08:36	25	corporations be treated fairly and equitably in 09:09:47
	Page 58		Page 59
1	relation to business and investment has reached the 09:09:49	1	conclusion. Should you decide you need to determine 09:10:54
2	stage of becoming sufficiently part of a widespread 09:09:51	2	this issue, that there is sufficient evidence from 09:10:56
3	and consistent practice so as to constitute a 09:09:55	3	the state practice, you know, supported by the other 09:11:00
4	standard of customary international law with the 09:09:57	4	references, because Professor Dolzer also refers to 09:11:05
5	requisite opinio juris. And, of course, we're 09:10:00	5	other state practice in his opinion to come to the 09:11:08
6	picking up the language of Judge Schwebel in terms 09:10:02	6	conclusion and then, with respect to that, from that 09:11:11
7	of what he had stated there. 09:10:06	7	conclusion, as to what that means for FET as it 09:11:16
8	And I listen, I fully appreciate 09:10:06	8	might be applied in the context of the NAFTA. 09:11:21
9	that that the issue of determining whether or not 09:10:09	9	But, listen, that's all I want to say 09:11:23
10	something has become a custom is a complicated 09:10:11	10	on the the legal issue of 1105. And I want to 09:11:25
11	issue. You know, there are questions as to how much 09:10:13	11	focus really on the facts because our case, as we 09:11:29
12	time has been past. There are questions as to the 09:10:15	12	have tried to say all along, is based on the facts, 09:11:31
13	uniformity and consistency. 09:10:18	13	and it's an evidence-based case. 09:11:34
14	Dumberry, for example, the best I 09:10:20	14	So in terms of the representations 09:11:39
15	understand it, he makes from his assessment, he 09:10:25	15	that were made, I spent a lot of time on this in our 09:11:41
16	finds that you don't have the consistency, because 09:10:28	16	opening statement, and I'll be fairly brief in 09:11:43
17	he looks at the variability of some of the bit 09:10:30	17	running through the evidence here. Of course, the 09:11:45
18	language. 09:10:33	18	purpose of my closing is not to repeat what we said 09:11:48
1 0	1 17 1 1 61 1 00 10 22	1 10

	Page 60		Page 61
1	power would be purchased at a fair price, 09:12:09	1	involvement in the industry at that time and the 09:13:04
2	certainty that, wherever feasible, the power would 09:12:12	2	important effect that this had in terms of bringing 09:13:07
3	be connected to the grid, certainty that Government 09:12:13	3	investment and creating the industry. 09:13:09
4	would issues permits in a timely way. And that's 09:12:16	4	She says that it represented 09:13:12
5	really where I mean, we have the lifting of the 09:12:18	5	unparalleled commitment to this process. She 09:13:13
6	moratorium before that, which starts in terms of 09:12:19	6	described it as a legislative sea change. And, 09:13:15
7	representations made, but this is where their 09:12:22	7	again, for those of us who lived through this 09:13:19
8	representations really hit the road and become very, 09:12:25	8	period, this was a fundamental this was not just 09:13:21
9	very powerful from the Government of Ontario. Come 09:12:27	9	some sort of you know, one of 10 policies of the 09:13:24
10	and invest in Ontario. Come and apply for a FIT 09:12:31	10	Government of Ontario. This was their policy, both 09:13:27
11	contract, and we'll give you certainty, certainty, 09:12:36	11	to move away from coal burning. This was their 09:13:30
12	certainty, certainty, which, of course, if you're an 09:12:39	12	climate change policy. This was their industrial 09:13:32
13	investor hearing this, these are words you like to 09:12:43	13	policy to revive the Ontario economy which had 09:13:36
14	hear. 09:12:45	14	suffered so much from the financial crisis. 09:13:40
15	Now, what does Sarah Powell say? And 09:12:46	15	There was complete support. This 09:13:42
16	this is going through the oral evidence. She says 09:12:49	16	wasn't a rogue initiative of Minister Smitherman. 09:13:44
17	it was intended to turbocharge. And that she 09:12:52	17	This was complete support, as he says in his witness 09:13:46
18	says: 09:12:56	18	statement, at the central level, with the Premier by 09:13:49
19	"That's the word the 09:12:56	19	his side, in supporting this legislative agenda. 09:13:51
20	Government used, and I think 09:12:56	20	Absolutely supported by the Government. 09:13:55
21	it did accomplish that goal, 09:12:58	21	The pace of change, as Ms. Powell 09:13:56
22	and it did turbocharge the 09:12:59	22	says, was fast and furious. 09:13:58
23	creation of renewable energy 09:13:01	23	And Smitherman says, former Minister 09:14:02
24	in Ontario." 09:13:02	24	Smitherman: 09:14:05
25	And she talked about the fact of her 09:13:02	25	"Ontario had sent a very, 09:14:05
	Page 62		Page 63
1	very strong signal that they 09:14:08	1	representations. 09:14:59
		_	
2.	were moving forward with the 00:14:00	2	T
2	were moving forward with the 09:14:09	2	Rosalyn Lawrence, at the time, you'll 09:15:02
3	implementation of more 09:14:10	3	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04
	implementation of more 09:14:10 renewable energy, including 09:14:12	3 4	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08
3 4	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13	3	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10
3 4 5	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13 And he said: 09:14:14	3 4 5	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10 "Did it apply to wind 09:15:10
3 4 5 6	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15	3 4 5 6	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10 "Did it apply to wind 09:15:10 projects? 09:15:15
3 4 5 6 7	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13 And he said: 09:14:14 "It creates a reasonable 09:14:15 expectation among developers 09:14:17	3 4 5 6 7	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15 "Yes, it would. 09:15:15
3 4 5 6 7 8	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13 And he said: 09:14:14 "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18	3 4 5 6 7 8	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:15
3 4 5 6 7 8 9	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13 And he said: 09:14:14 "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19	3 4 5 6 7 8	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15 "Yes, it would. 09:15:15
3 4 5 6 7 8 9	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20	3 4 5 6 7 8 9	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:16  "And offshore wind? 09:15:16
3 4 5 6 7 8 9 10	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21	3 4 5 6 7 8 9 10	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:16  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "Yes, it did." 09:15:17
3 4 5 6 7 8 9 10 11	implementation of more 09:14:10 renewable energy, including 09:14:12 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20	3 4 5 6 7 8 9 10 11	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:16  "And offshore wind? 09:15:16
3 4 5 6 7 8 9 10 11 12	implementation of more renewable energy, including 09:14:12 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15  expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically and this is 09:14:23	3 4 5 6 7 8 9 10 11 12 13	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:16  "And offshore wind? 09:15:16  "Yes, it did." 09:15:17  Uwe Roeper, and this is this is all 09:15:22
3 4 5 6 7 8 9 10 11 12 13	implementation of more renewable energy, including 09:14:12 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically and this is 09:14:23 important that he, in making these statements, 09:14:26	3 4 5 6 7 8 9 10 11 12 13	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:17  Uwe Roeper, and this is — this is all 09:15:22 the sense that there were rules in place at this 09:15:24
3 4 5 6 7 8 9 10 11 12 13 14 15	implementation of more renewable energy, including 09:14:10 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20 And in his witness statement, of 09:14:21 course, he said specifically — and this is 09:14:23 important — that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:30	3 4 5 6 7 8 9 10 11 12 13 14	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "Yes, it did." 09:15:17  Uwe Roeper, and this is — this is all 09:15:24 time for offshore wind. We weren't dealing — and 09:15:26
3 4 5 6 7 8 9 10 11 12 13 14 15	implementation of more renewable energy, including 09:14:10 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20 And in his witness statement, of 09:14:21 course, he said specifically — and this is 09:14:23 important — that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:30 often do we get cases such as this, investment 09:14:35	3 4 5 6 7 8 9 10 11 12 13 14 15	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "And offshore wind? 09:15:17  Uwe Roeper, and this is this is all 09:15:22 the sense that there were rules in place at this 09:15:26 I'm talking here about the period before Windstream 09:15:27
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	implementation of more renewable energy, including 09:14:10 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically and this is 09:14:23 important that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:30 often do we get cases such as this, investment 09:14:35 arbitration cases, where we actually have someone 09:14:39	3 4 5 6 7 8 9 10 11 12 13 14 15 16	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10  projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "Yes, it did." 09:15:17  Uwe Roeper, and this is — this is all 09:15:22 the sense that there were rules in place at this 09:15:26 I'm talking here about the period before Windstream 09:15:27 is offered the FIT contract when they're deciding 09:15:32
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	implementation of more renewable energy, including 09:14:10 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically — and this is 09:14:23 important — that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:30 often do we get cases such as this, investment 09:14:35 arbitration cases, where we actually have someone 09:14:39 who was there in the government at the time in a 09:14:41	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "And offshore wind? 09:15:17  Uwe Roeper, and this is this is all 09:15:22 the sense that there were rules in place at this 09:15:24 time for offshore wind. We weren't dealing and 09:15:27 is offered the FIT contract when they're deciding 09:15:32 whether or not to apply for the FIT contract and 09:15:35
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	implementation of more renewable energy, including 09:14:10 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically and this is 09:14:23 important that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:35 arbitration cases, where we actually have someone 09:14:39 who was there in the government at the time in a 09:14:41 very senior position bringing forth this 09:14:43	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "It applied to onshore wind? 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "Yes, it did." 09:15:17  Uwe Roeper, and this is this is all 09:15:22 the sense that there were rules in place at this 09:15:24 time for offshore wind. We weren't dealing and 09:15:26 I'm talking here about the period before Windstream 09:15:32 whether or not to apply for the FIT contract and 09:15:35 what they're relying upon. 09:15:37
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	implementation of more renewable energy, including 09:14:10 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically and this is 09:14:23 important that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:30 often do we get cases such as this, investment 09:14:35 arbitration cases, where we actually have someone 09:14:39 who was there in the government at the time in a 09:14:41 very senior position bringing forth this 09:14:43 legislation, making it clear that, not only did he 09:14:45	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10  projects? 09:15:15  "Yes, it would. 09:15:15  "Yes, it would. 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "And offshore wind? 09:15:17  Uwe Roeper, and this is this is all 09:15:22 the sense that there were rules in place at this 09:15:24 time for offshore wind. We weren't dealing and 09:15:26 I'm talking here about the period before Windstream 09:15:27 is offered the FIT contract when they're deciding 09:15:32 whether or not to apply for the FIT contract and 09:15:35 what they're relying upon. 09:15:37 So, from their perspective, the rules are in place. 09:15:38
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	implementation of more renewable energy, including 09:14:12 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically and this is 09:14:23 important that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:30 often do we get cases such as this, investment 09:14:35 arbitration cases, where we actually have someone 09:14:39 who was there in the government at the time in a 09:14:41 very senior position bringing forth this 09:14:45 make these representations, but he intended 09:14:48	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "Yes, it would. 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "Yes, it did." 09:15:17  Uwe Roeper, and this is this is all 09:15:22 the sense that there were rules in place at this 09:15:24 time for offshore wind. We weren't dealing and 09:15:26 I'm talking here about the period before Windstream 09:15:27 is offered the FIT contract when they're deciding 09:15:32 whether or not to apply for the FIT contract and 09:15:35 what they're relying upon. 09:15:37 So, from their perspective, the rules are in place. 09:15:38 From the Government's perspective, as you heard from 09:15:41
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	implementation of more renewable energy, including 09:14:10 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically and this is 09:14:23 important that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:30 often do we get cases such as this, investment 09:14:35 arbitration cases, where we actually have someone 09:14:39 who was there in the government at the time in a 09:14:41 very senior position bringing forth this 09:14:45 make these representations, but he intended 09:14:48 investors to rely on them, which I think is an 09:14:50	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10 projects? 09:15:15  "Yes, it would. 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "And offshore wind? 09:15:17  Uwe Roeper, and this is this is all 09:15:22 the sense that there were rules in place at this 09:15:24 time for offshore wind. We weren't dealing and 09:15:27 is offered the FIT contract when they're deciding 09:15:32 whether or not to apply for the FIT contract and 09:15:35 what they're relying upon. 09:15:37 So, from their perspective, the rules are in place. 09:15:41 Ms. Rosalyn Lawrence, she her testimony there, 09:15:43
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	implementation of more renewable energy, including 09:14:10 offshore wind." 09:14:13  And he said: 09:14:14  "It creates a reasonable 09:14:15 expectation among developers 09:14:17 that they should look at such 09:14:18 opportunities guided by the 09:14:19 information they had." 09:14:20  And in his witness statement, of 09:14:21 course, he said specifically — and this is 09:14:23 important — that he, in making these statements, 09:14:26 intended for investors to rely on them, because how 09:14:30 often do we get cases such as this, investment 09:14:35 arbitration cases, where we actually have someone 09:14:39 who was there in the government at the time in a 09:14:41 very senior position bringing forth this 09:14:45 make these representations, but he intended 09:14:50 important factor for you to take into account in 09:14:53	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Rosalyn Lawrence, at the time, you'll 09:15:02 recall, she was the MNR official who testified. She 09:15:04 is talking here about the required REA, the 09:15:08 Renewable Energy Approval: 09:15:10  "Did it apply to wind 09:15:10  projects? 09:15:15  "Yes, it would. 09:15:15  "Yes, it would. 09:15:16  "And offshore wind? 09:15:16  "Yes, it did." 09:15:17  Uwe Roeper, and this is this is all 09:15:22 the sense that there were rules in place at this 09:15:24 time for offshore wind. We weren't dealing and 09:15:26 I'm talking here about the period before Windstream 09:15:27 is offered the FIT contract when they're deciding 09:15:32 whether or not to apply for the FIT contract and 09:15:35 what they're relying upon. 09:15:37 So, from their perspective, the rules are in place. 09:15:41 Ms. Rosalyn Lawrence, she her testimony there, 09:15:43 from her perspective, the rules were in place. 09:15:46

	Page 64		Page 65
1	advising Windstream at the time. He's very clear in 09:15:55	1	come, but the basic rules and we took some time 09:16:35
2	saying: 09:15:58	2	going through all the REA regulations that were in 09:16:38
3	"I'm not talking about the 09:15:58	3	place and all the MNR regulations that were in 09:16:41
4	framework, because we believe 09:16:00	4	place. Those rules were available for the project 09:16:43
5	the framework is fully 09:16:01	5	to move forward. 09:16:45
6	established." 09:16:02	6	And Mr. Guillet, certainly he 09:16:47
7	He's saying: 09:16:02	7	indicated that he had been he had made some trips 09:16:51
8	"I think it was established 09:16:02	8	over to Ontario at the time; was very interested in 09:16:54
9	that although traditionally 09:16:05	9	it. He was one of the international players looking 09:16:57
10	permitting was done on the 09:16:07	10	at it. And he can confirm that, at that time, it 09:16:59
11	Environmental Assessment Act, 09:16:07	11	was looking like an attractive market for offshore 09:17:01
12	permitting would not be done 09:16:07	12	wind. And if the moratorium hadn't played, it would 09:17:04
13	as approvals under the 09:16:11	13	probably be a good place to do offshore wind with 09:17:06
14	Approval Act, but under the 09:16:11	14	the FIT tariff, with these policy steps to make 09:17:09
15	Act, the regulations had been 09:16:12	15	these projects doable. 09:17:10
16	put out, which are the REA 09:16:13	16	And you'll see when you review his 09:17:11
17	regulations." 09:16:15	17	his evidence, he did confirm that it was a good 09:17:13
18	And then he was talking about specific 09:16:16	18	contract, a very good contract. The 20 years was 09:17:15
19	guidance for models to use, what setbacks to use had 09:16:18	19	very good. The inflation indexing was very good. 09:17:18
20	not been published, so, therefore, we need to 09:16:21	20	The full guaranteed off-take was very good. And we 09:17:21
21	develop that. 09:16:23	21	can see in his statements here a confirmation 09:17:24
22	So he, you'll recall and I suggest 09:16:24	22	again this isn't a but-for analysis, but in the 09:17:27
23	you read his evidence very carefully was making a 09:16:26	23	real world that he, as an individual working in 09:17:30
24	distinction between rules and guidelines and 09:16:30	24	the offshore wind space, found this an attractive 09:17:33
25	understood that there were additional guidelines to 09:16:33	25	market for offshore wind, again supporting our 09:17:37
	Page 66		Page 67
1	submission of the objective objectively as to 09:17:40	1	And William Ziegler, the senior 09:18:26
2	whether Windstream would've properly relied on this 09:17:44	2	business person, who really was putting his money 09:18:31
3	evidence in terms of making their or the 09:17:47	3	behind the project, says and this may have been a 09:18:34
4	framework at that time in terms of making their 09:17:50	4	response I can't recall right now to a 09:18:41
5	investment. 09:17:51	5	question from from Dr. Cremades. I can't recall 09:18:43
6	And we have specifically the testimony 09:17:52	6	exactly. One of the Tribunal members asked about 09:18:48
7	of David Mars, asked what he what representations 09:17:55	7	risk. 09:18:50
8	he has relied on, and he said: 09:18:01	8	"I don't like risk." 09:18:50
9	"This includes Minister 09:18:02	9	He says: 09:18:51
10	Cansfield's announcement that 09:18:04	10	"Risk is what keeps you up at 09:18:51
11	Ontario was open for business 09:18:05	11	night." 09:18:55
12	for offshore wind, numerous 09:18:07	12	And he talks about prudent investors 09:18:55
13	speeches by the members of 09:18:08	13	trying to anticipates what can be thrown at them as 09:18:57
14	the Ontario Government, 09:18:09	14	they go through the process and mitigate those risks 09:18:59
15	positive investment climate 09:18:10	15	in any way possible: 09:19:03
16	created by Green Energy Act, 09:18:12	16	"The Government risk or a 09:19:04
17	inclusion of offshore wind in 09:18:13	17	political risk is very hard 09:19:05
18	the FIT program, Minister 09:18:14	18	to understand or appraise if 09:19:06
19	Cansfield's letter 09:18:16	19	you're not part of that 09:19:07
20	encouraging Crown land 09:18:17	20	world. And, you know, for 09:19:08
21	applicants to apply for a FIT 09:18:18	21	this project, we hired people 09:19:08
22	contract and streamline 09:18:20	22	that would help us try to 09:19:10
23	regulatory regime." 09:18:21	23	understand what was happening 09:19:11
2.4		24	in the province. And from 09:19:13
24 25	That these were all elements that he 09:18:22 relied on. 09:18:24	25	everything we saw, it was 09:19:14

	Page 68		Page 69
1	embracing wind energy and 09:19:16	1	an EBR posting, which is describing there are 09:20:20
2	embracing, in particular, 09:19:17	2	special rules for wind facilities that include 09:20:24
3	offshore wind. It had a 09:19:18	3	turbines in contact with surface water other than 09:20:26
4	moratorium in effect in the 09:19:20	4	wetlands, so the statement that there are special 09:20:28
5	province, and they erased it 09:19:21	5	rules in place. These facilities require a REA and 09:20:31
6	and said, 'Come on up'" 09:19:23	6	are required to submit an offshore wind facility 09:20:34
7	That's the moratorium that had been 09:19:24	7	report as part of the application. 09:20:36
8	the MNR moratorium. 09:19:26	8	And you'll recall, sirs, that we went 09:20:38
9	" and we were very 09:19:27	9	through the description again of everything that was 09:20:40
10	attracted to that." 09:19:29	10	in the REA and everything that was in the MNR 09:20:42
11	And, in my submission, his evidence 09:19:30	11	documents and all that was required for the offshore 09:20:45
12	was very, very credible on that point. 09:19:32	12	wind facility report. So, indeed, there were rules 09:20:47
13	Now, Canada says that, at this point 09:19:41	13	in place. 09:20:49
14	in time, before we applied for the FIT contract, the 09:19:43	14	And then there was this next statement 09:20:50
15	Claimant was well aware of the regulatory 09:19:46	15	here: 09:20:52
16	uncertainty. And this is, of course, the theme of 09:19:48	16	"The Ministry of the 09:20:52
17	Canada: Regulatory uncertainty. Our clients were 09:19:51	17	Environment and the Ministry 09:20:52
18	absolutely crazy. We were gamblers to try to move 09:19:53	18	of Natural Resources continue 09:20:54
19	forward with this project. It should've been clear 09:19:57	19	to work on a coordinated 09:20:54
20	to us from the very first day that this project 09:20:00	20	approach to offshore wind 09:20:56
21	wasn't going to go anywhere. Too much regulatory 09:20:03	21	facilities which would 09:20:58
22	uncertainty. 09:20:07	22	include province-wide minimum 09:20:58
23	And a document which came up again and 09:20:07	23	separation distance standards 09:21:00
24	again with respect to this was from Canada's side, 09:20:11	24	for noise." 09:21:02
25	was a statement that was made in September 24 2009, 09:20:15	25	And, indeed, it's the case that, 09:21:02
1	although there was an onshore standard for noise, 09:21:03	1	evidence of the Claimant's witnesses, Mr. Roeper and 09:22:11
2	550 metres, there was not yet an offshore standard 09:21:06	2	others, that certainly there were additional issues 09:22:14
3	for noise. And we, of course, took you to a 09:21:08	3	to be worked out. There were particular guidelines. 09:22:16
4	document that showed at the time that what the 09:21:11	4	There was this noise issue that had to be resolved, 09:22:19
5			There was this hoise issue that had to be resolved, 07.22.17
	Ministry of Environment was communicating was, until 09:21:12	5	but we had a regulatory framework in place. 09:22:22
6	Ministry of Environment was communicating was, until 09:21:12 that standard was developed, you worked with the 09:21:16	6	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25
6 7			but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26
7 8	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21	6 7 8	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29
7 8 9	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21 Now, so there's a discussion about 09:21:25	6 7 8 9	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31
7 8 9 10	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27	6 7 8 9	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32
7 8 9 10 11	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30	6 7 8 9 10 11	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33
7 8 9 10 11	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33	6 7 8 9 10 11 12	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35
7 8 9 10 11 12	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document 09:21:36	6 7 8 9 10 11 12	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25 to note the testimony of Rosalyn Lawrence, who was 09:22:26 asked about this. And I asked her specifically 09:22:29 about this statement: 09:22:31  "Do you have any recollection 09:22:32 in June of 2009 as to what 09:22:33 work you were doing with the 09:22:35 Ministry to coordinate your 09:22:36
7 8 9 10 11 12 13	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document 09:21:36 would see that there would be that there was 09:21:38	6 7 8 9 10 11 12 13	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25 to note the testimony of Rosalyn Lawrence, who was 09:22:26 asked about this. And I asked her specifically 09:22:29 about this statement: 09:22:31  "Do you have any recollection 09:22:32 in June of 2009 as to what 09:22:33 work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36 approach in determining 09:22:37
7 8 9 10 11 12 13 14	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document 09:21:36 would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41	6 7 8 9 10 11 12 13 14 15	but we had a regulatory framework in place. 09:22:22  And it's interesting in this respect 09:22:25 to note the testimony of Rosalyn Lawrence, who was 09:22:26 asked about this. And I asked her specifically 09:22:29 about this statement: 09:22:31  "Do you have any recollection 09:22:32 in June of 2009 as to what 09:22:33 work you were doing with the 09:22:35 Ministry to coordinate your 09:22:36 approach in determining 09:22:37 separation distances? I 09:22:38
7 8 9 10 11 12 13 14 15	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document 09:21:36 would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42	6 7 8 9 10 11 12 13 14 15	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40
7 8 9 10 11 12 13 14 15 16	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document 09:21:36 would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42 standards for noise. 09:21:45	6 7 8 9 10 11 12 13 14 15 16	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40  discussion occurring about a 09:22:41
7 8 9 10 11 12 13 14 15 16 17	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document 09:21:36 would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42 standards for noise. 09:21:45  Now, does that mean that there's going 09:21:47	6 7 8 9 10 11 12 13 14 15 16 17	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40  discussion occurring about a 09:22:41  year later, but I don't see 09:22:43
7 8 9 10 11 12 13 14 15 16 17 18	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document 09:21:36 would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42 standards for noise. 09:21:45  Now, does that mean that there's going 09:21:47 to be a 5-kilometre exclusion justified on 09:21:50	6 7 8 9 10 11 12 13 14 15 16 17 18	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40  discussion occurring about a 09:22:41  year later, but I don't see 09:22:43  anything in June of 2009. 09:22:44
7 8 9 10 11 12 13 14 15 16 17 18 19	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42 standards for noise. 09:21:45  Now, does that mean that there's going 09:21:50 apparently on various bases other than noise? Does 09:21:56	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40  discussion occurring about a 09:22:41  year later, but I don't see 09:22:43  anything in June of 2009. 09:22:44  And: 09:22:45
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42 standards for noise. 09:21:45  Now, does that mean that there's going 09:21:50 apparently on various bases other than noise? Does 09:21:56 that mean there is going to be a moratorium put in 09:21:58	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40  discussion occurring about a 09:22:41  year later, but I don't see 09:22:43  anything in June of 2009. 09:22:44  And: 09:22:45  "ANSWER: I don't have any 09:22:45
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42 standards for noise. 09:21:45  Now, does that mean that there's going 09:21:47 to be a 5-kilometre exclusion justified on 09:21:50 apparently on various bases other than noise? Does 09:21:58 place at some point? 09:22:00	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40  discussion occurring about a 09:22:41  year later, but I don't see 09:22:43  anything in June of 2009. 09:22:44  And: 09:22:45  "ANSWER: I don't have any 09:22:45  recollection of such 09:22:47
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33  basis that someone carefully reading the document 09:21:36 would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42 standards for noise. 09:21:45  Now, does that mean that there's going 09:21:47 to be a 5-kilometre exclusion justified on 09:21:50 apparently on various bases other than noise? Does 09:21:56 that mean there is going to be a moratorium put in 09:21:58 place at some point? 09:22:00  I mean, I would say that's not what an 09:22:02	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40  discussion occurring about a 09:22:41  year later, but I don't see 09:22:43  anything in June of 2009. 09:22:44  And: 09:22:45  "ANSWER: I don't have any 09:22:45  recollection of such 09:22:47  discussions, and it would be 09:22:48
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that standard was developed, you worked with the 40-decibel level, because that had been the basis 09:21:18 for determining the 550-metre onshore standard. 09:21:21  Now, so there's a discussion about 09:21:25 continuing to work, and there's a discussion about 09:21:27 minimum separation distance standards for noise. 09:21:30  And I it is fair to say on that 09:21:33 basis that someone carefully reading the document would see that there would be that there was 09:21:38 something going on between the Ministries with 09:21:41 respect to province-wide minimum separation distance 09:21:42 standards for noise. 09:21:45  Now, does that mean that there's going 09:21:47 to be a 5-kilometre exclusion justified on 09:21:50 apparently on various bases other than noise? Does 09:21:58 place at some point? 09:22:00	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	but we had a regulatory framework in place.  And it's interesting in this respect 09:22:25  to note the testimony of Rosalyn Lawrence, who was 09:22:26  asked about this. And I asked her specifically 09:22:29  about this statement: 09:22:31  "Do you have any recollection 09:22:32  in June of 2009 as to what 09:22:33  work you were doing with the 09:22:35  Ministry to coordinate your 09:22:36  approach in determining 09:22:37  separation distances? I 09:22:38  asked because I see a 09:22:40  discussion occurring about a 09:22:41  year later, but I don't see 09:22:43  anything in June of 2009. 09:22:44  And: 09:22:45  "ANSWER: I don't have any 09:22:45  recollection of such 09:22:47

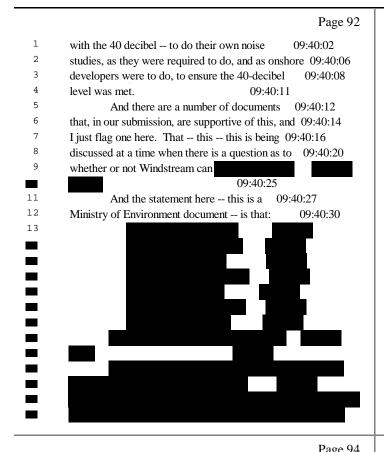

e setbacks. It's not our 09:22:51 of business." 09:22:53 t know exactly what was meant 09:22:54	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that each setback would be determined on a specific 09:23:51 basis based upon each individual project. 09:23:53  And that's the document I mentioned 09:23:55 that talked about 40 decibels and would be 09:23:58 determined on the noise limitations, in other words, 09:24:00 40 decibels back from a sensitive receptor. So 09:24:02 there was no setback. The setback – my 09:24:05 interpretation was the setback would be whatever 09:24:07 distance would meet the MOE's guideline of 40 09:24:09 decibels. 09:24:12  And I can tell you that, in the 09:24:13 onshore wind world, 40 decibels is the level that 09:24:17 you keep – it is – it is the particular standard 09:24:17 that is applied in that context. It's a standard at 09:24:19 which, certainly from a health expert's perspective, 09:24:25 of annoyance or health effects from the noise of a 09:24:30 wind turbine are extremely unlikely to have any 09:24:32 effect, because the noise, as the documents say, the 09:24:39 decibels of being in a quiet library. 09:24:43
t know exactly what was meant 09:22:54  09:22:57  re were continuing 09:22:57  resisions between the MNR 09:22:59  MOE on this." 09:23:00  bmission, when you look at 09:23:02  resisions when you look at 09:23:04  s. Wallace and Ms. Dumais candidly 09:23:06  titing offshore wind on kind of a 09:23:13  were focusing on other issues. 09:23:15  there to be a FIT contract for 09:23:18  residently didn't appear to be 09:23:20  that the MNR was requiring those 09:23:22  release to apply into the FIT 09:23:25  se their site release. 09:23:32  release to apply into the FIT 09:23:34  residently going on at the 09:23:36  09:23:38	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	And that's the document I mentioned 09:23:55 that talked about 40 decibels and would be 09:23:58 determined on the noise limitations, in other words, 09:24:00 40 decibels back from a sensitive receptor. So 09:24:02 there was no setback. The setback – my 09:24:05 interpretation was the setback would be whatever 09:24:07 distance would meet the MOE's guideline of 40 09:24:09 decibels. 09:24:12  And I can tell you that, in the 09:24:13 onshore wind world, 40 decibels is the level that 09:24:17 you keep – it is – it is the particular standard 09:24:17 that is applied in that context. It's a standard at 09:24:19 which, certainly from a health expert's perspective, 09:24:21 the determination is made that any particular levels 09:24:30 wind turbine are extremely unlikely to have any 09:24:32 effect, because the noise, as the documents say, the 09:24:36 MOE's own documents, it's a type of noise at 40 09:24:39
o9:22:57 re were continuing 09:22:57 ressions between the MNR 09:22:59 MOE on this." 09:23:00 bmission, when you look at 09:23:02 related you'll find that both MOE and 09:23:04 s. Wallace and Ms. Dumais candidly 09:23:06 tting offshore wind on kind of a 09:23:13 were focusing on other issues. 09:23:15 there to be a FIT contract for 09:23:18 release to apply into the FIT 09:23:20 that the MNR was requiring those 09:23:22 release to apply into the FIT 09:23:25 see their site release. 09:23:32 related to suggest 09:23:34 ons were actually going on at the 09:23:36 09:23:38	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that talked about 40 decibels and would be determined on the noise limitations, in other words, 09:24:00 40 decibels back from a sensitive receptor. So 09:24:02 there was no setback. The setback my 09:24:05 interpretation was the setback would be whatever 09:24:07 distance would meet the MOE's guideline of 40 09:24:09 decibels. 09:24:12  And I can tell you that, in the 09:24:13 onshore wind world, 40 decibels is the level that 09:24:17 you keep it is it is the particular standard 09:24:17 that is applied in that context. It's a standard at 09:24:19 which, certainly from a health expert's perspective, 09:24:21 the determination is made that any particular levels 09:24:25 of annoyance or health effects from the noise of a 09:24:30 wind turbine are extremely unlikely to have any 09:24:32 effect, because the noise, as the documents say, the 09:24:36 MOE's own documents, it's a type of noise at 40 09:24:39
re were continuing 09:22:57  Inssions between the MNR 09:22:59  MOE on this." 09:23:00  Institute of the molecular of the mol	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	determined on the noise limitations, in other words, 09:24:00 40 decibels back from a sensitive receptor. So 09:24:02 there was no setback. The setback — my 09:24:05 interpretation was the setback would be whatever 09:24:07 distance would meet the MOE's guideline of 40 09:24:09 decibels. 09:24:12  And I can tell you that, in the 09:24:13 onshore wind world, 40 decibels is the level that 09:24:17 you keep — it is — it is the particular standard 09:24:17 that is applied in that context. It's a standard at 09:24:19 which, certainly from a health expert's perspective, 09:24:21 the determination is made that any particular levels 09:24:25 of annoyance or health effects from the noise of a 09:24:30 wind turbine are extremely unlikely to have any 09:24:32 effect, because the noise, as the documents say, the 09:24:36 MOE's own documents, it's a type of noise at 40 09:24:39
MOE on this."  09:23:00  bmission, when you look at 09:23:02  ak you'll find that both MOE and 09:23:04  s. Wallace and Ms. Dumais candidly 09:23:06  tting offshore wind on kind of a 09:23:13  were focusing on other issues.  09:23:15  there to be a FIT contract for 09:23:18  mey didn't appear to be 09:23:20  that the MNR was requiring those 09:23:22  release to apply into the FIT 09:23:25  se their site release.  09:23:32  ngh the statement was there, I 09:23:34  ons were actually going on at the 09:23:36  09:23:38	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	there was no setback. 09:23:38	21	
		decideis of deing in a differ fibrary. U9:24:45
	22	And this is Uwe Roeper: 09:24:48
epresentations were made? 09:23:42	23	"So, in my mind, the lack of 09:24:50
r, from Mr. Baines, his 09:23:45	24	a specific setback here tells 09:24:52
the offshore regulations said 09:23:48	25	us what approach to use to 09:24:53
Page 74		Page 75
lve the issue, and the 09:24:53	1	many of the wildlife issues, the species at risk 09:25:43
roach is detailed in noise 09:24:53	2	issues and others. And Rosalyn Lawrence says here 09:25:46
elling as opposed to 09:24:55	3	that, as a Ministry, they were: 09:25:48
owing a standard 09:24:58	4	"very comfortable with 09:25:49
		what is our normal approach 09:25:51
		to work with the proponents 09:25:51
•		on a site-by-site basis and 09:25:54
with their own modelling 09:25:03	8	iterate and evolve the 09:25:55
onfirm that the noise 09:25:03	9	approval process as we went 09:25:55
ptors onshore would have 09:25:06	10	forward." 09:25:57
fied the 40 decibels." 09:25:08	11	And, again, she emphasized that again 09:25:57
proponents come up with that 09:25:09	12	on the right-hand side: 09:25:59
perspective. 09:25:10	13	"Working with the proponent 09:26:00
e industry understood that 09:25:12	14	on a site-specific basis and 09:26:01
hore setbacks would be 09:25:13	15	learn and adapt as we go." 09:26:03
rmined on a site-by-site 09:25:15	16	Now, I won't belabour this. You heard 09:26:06
s." 09:25:16	17	a lot about this letter. Minister Cansfield says: 09:26:10
is talking very involved with 09:25:17	18	"In order to maintain 09:26:12
e time. 09:25:18	19	priority position with MNR's 09:26:13
Lawrence, she was very firm in 09:25:20	20	site release process, you 09:26:15
<del>-</del>	21	must submit an application to 09:26:16
imphasizing that winks perspective. 09:25:25	22	the FIT program within the 09:26:17
that MNR has a very significant role 09:25:28	23	FIT launch period." 09:26:18
	24	This is a message from the Government 09:26:20
that MNR has a very significant role 09:25:28		This is a message from the Covernment Covernment
	ponfirm that the noise 09:25:03 ptors onshore would have 09:25:06 fied the 40 decibels." 09:25:08 proponents come up with that 09:25:09 perspective. 09:25:10 e industry understood that 09:25:12 hore setbacks would be 09:25:13 rmined on a site-by-site 09:25:15 s." 09:25:16 is talking very involved with 09:25:17 e time. 09:25:18 Lawrence, she was very firm in 09:25:20 emphasizing that MNR's perspective. 09:25:25 that MNR has a very significant role 09:25:28 out and ensuring that these 09:25:31	owell, asked about this: 09:25:00  by would have had to come 09:25:02  orith their own modelling 09:25:03  onfirm that the noise 09:25:03  ptors onshore would have 09:25:06  fied the 40 decibels." 09:25:08  originates of the decibels of t

	Page 76		Page 77
1	an application, because they had applied during the 09:26:25	1	contract. That's why I call 09:27:16
	window in 2008 for for site release to use the 09:26:28	2	it the key hard gate. Once 09:27:17
3	lake bed to develop a wind program, that you got to 09:26:31	3	you get your FIT contract, 09:27:20
4	apply for the FIT program if you want to preserve 09:26:34	4	the Ministries would work 09:27:21
5	your priority. 09:26:36	5	with the developer to move 09:27:23
6	And you'll recall the subsequent 09:26:37	6	through the development 09:27:24
7	letter from Rosalyn Lawrence to CanWEA, the industry 09:26:39	7	process." 09:27:24
	association, making clear that those with pride in 09:26:43	8	So that's the assumption and that's 09:27:25
9	the FIT program would get the highest priority, and 09:26:46	9	her evidence as to how a commercially reasonable 09:27:26
	consistent, in our view, with the understanding of 09:26:50	10	developer would be would understand the rules at 09:27:29
11	the industry at the time, which, as Sarah Powell 09:26:54	11	the time and the framework at the time, consistent, 09:27:32
12	says: 09:26:57	12	in my submission, with what we hear from the 09:27:37
13	"The Feed-In Tariff flipped 09:26:58	13	Ministry's witness, Rosalyn Lawrence: 09:27:40
14	it on its head. Before the 09:27:00	14	"QUESTION: The basic premise 09:27:42
15	process, the FIT process, 09:27:02	15	of what we're talking about 09:27:44
16	land tenure was a gating 09:27:03	16	here in terms of the MNR 09:27:45
17	issue. You go and get your 09:27:05	17	program is that the basis was 09:27:46
18	land first, and then you'd 09:27:06	18	that the applicant would 09:27:48
19	move to get the Power 09:27:07	19	secure a FIT contract first; 09:27:49
20	Purchase Agreement. The FIT 09:27:08	20	correct? 09:27:50
21	process flipped that on its 09:27:10	21	"That's right. 09:27:50
22	head. 09:27:11	22	"And then, once that was 09:27:50
23	"The Government is saying you 09:27:11	23	done, the MNR would work with 09:27:54
24	don't move forward on that 09:27:14	24	the successful applicants and 09:27:56
25	until you get your FIT 09:27:15	25	prioritize the applications 09:27:58
	Page 78		Page 79
1	to move forward through the 09:28:00	1	the status of Windstream and 09:28:48
2	Crown land process to develop 09:28:01	2	especially the letter says, 09:28:50
3	the project? 09:28:02	3	without me rereading it, that 09:28:51
4	"That's right." 09:28:03	4	this status letter this 09:28:53
5	So that is we not only have the 09:28:06	5	letter satisfied the 09:28:54
6	understanding of the Claimant's witnesses, but we 09:28:09	6	requirements for you to file 09:28:55
	have the understanding from the MNR as to what the 09:28:11	7	for the FIT contract 09:28:56
	process was and that, once someone had achieved the 09:28:13	8	applications. So it's huge. 09:28:57
	hard gate, the FIT contract, the Ministry would work 09:28:18	9	Not only that, this letter 09:28:59
	with them to prioritize the applications. 09:28:21	10	was huge because it was 09:29:00
11	And you see that after Windstream gets 09:28:23	11	actually issued by a 09:29:02
	its FIT contract. You see the Ministry sitting 09:28:26	12	Minister." 09:29:03
	down. 09:28:29	13	Now, again, we heard a lot of 09:29:04
14	And, again, David Mars saying: 09:28:30	14	discussion, for example from the damages experts as 09:29:07
15	"Without this letter, we 09:28:32	15	to whether or not, you know, the importance of site 09:29:09
16	wouldn't have we couldn't 09:28:33	16	access and whether that had been obtained, but as 09:29:11
	apply to the FIT program. We 09:28:34	17	far as the developer was concerned, under the FIT 09:29:14
17	11.7	18	process, you had to get the FIT contract first 09:29:16
17 18	decided to apply based on all 09:28:36	19	before you could get your site access. 09:29:18
	decided to apply based on all 09:28:36 the knowledge we had, all 09:28:38	1 12	
18	the knowledge we had, all 09:28:38	20	
18 19	the knowledge we had, all 09:28:38 aggregated, reviewed. This 09:28:40		And there was a reasonable expectation 09:29:20
18 19 20	the knowledge we had, all 09:28:38 aggregated, reviewed. This 09:28:40 was one of the parts." 09:28:42	20	And there was a reasonable expectation 09:29:20 that, once you get that FIT contract, the Ministry 09:29:22
18 19 20 21 22	the knowledge we had, all 09:28:38 aggregated, reviewed. This 09:28:40 was one of the parts." 09:28:42 Uwe Roeper talking about the September 09:28:43	20 21	And there was a reasonable expectation 09:29:20 that, once you get that FIT contract, the Ministry 09:29:22 would work with you and you would get site access. 09:29:24
18 19 20 21 22	the knowledge we had, all 09:28:38 aggregated, reviewed. This 09:28:40 was one of the parts." 09:28:42 Uwe Roeper talking about the September 09:28:43 letter: 09:28:45	20 21 22	And there was a reasonable expectation 09:29:20 that, once you get that FIT contract, the Ministry 09:29:22 would work with you and you would get site access. 09:29:24 And of course, again, I just make it 09:29:29
18 19 20 21 22 23	the knowledge we had, all 09:28:38 aggregated, reviewed. This 09:28:40 was one of the parts." 09:28:42 Uwe Roeper talking about the September 09:28:43	20 21 22 23	And there was a reasonable expectation 09:29:20 that, once you get that FIT contract, the Ministry 09:29:22 would work with you and you would get site access. 09:29:24

	Page 80		Page 81
1	reasonable expectations. We're talking about more 09:29:36	1	application." 09:30:28
2	likely than not. 09:29:39	2	"So our reason for asking the 09:30:28
3	Now, in this section, this is 09:29:41	3	question" 09:30:30
4	encouragement of Windstream to sign the FIT 09:29:45	4	Because, actually, this was at a 09:30:30
5	contract. And we've got the testimony, first of 09:29:47	5	second meeting where they had asked a question about 09:30:32
6	all, of Doris Dumais, who is discussing there was a 09:29:50	6	what the drop-dead date was. 09:30:33
7	particular meeting where Mr. Baines and Ortech come 09:29:54	7	" was to be able to assess 09:30:34
8	and sit down with the various Ministries, and she 09:29:57	8	what we could expect 09:30:36
9	talks she she talks about the commitment that 09:29:59	9	applications, understand the 09:30:38
10	was made at that meeting. She says, if any, that 09:30:03	10	pressure for the project 09:30:39
11	was made by Mr Mahmood, because she was clear in 09:30:05	11	proponents so that we could 09:30:39
12	saying that we didn't make any particular 09:30:08	12	continue supporting them 09:30:41
13	commitments to or guarantees to expedite, but she 09:30:11	13	through the renewable energy 09:30:41
14	says: 09:30:13	14	process that had been 09:30:43
15	"The commitment, if any, that 09:30:13	15	established in Ontario." 09:30:44
16	was made by Mr. Mahmood would 09:30:15	16	So, again, a very strong message that, 09:30:44
17	have been a commitment that 09:30:17	17	from the Ministry's perspective, there is and we 09:30:46
18	we are here to work with you 09:30:18	18	heard this throughout the hearing, Ministries, 09:30:50
19	to ensure that you understand 09:30:19	19	whether it's MOE, whether it's MNR, whether it's the 09:30:53
20	the regulatory requirements, 09:30:20	20	OPA, working pragmatically with developers to move 09:30:56
21	that you can meet those 09:30:21	21	forward these projects, not putting up roadblocks, 09:30:59
22	requirements so that a REA 09:30:22	22	but working with them, and particularly from the 09:31:01
23	can be issued to the project, 09:30:23	23	perspective and the understanding that much of the 09:31:06
24	if that's appropriate at the 09:30:24	24	work and all the science would be done by the 09:31:08
25	time when we review the 09:30:26	25	developers and then reviewed by the Ministries. 09:31:11
	Page 82		Page 83
1	_	1	
1 2	Now, Ian Baines talks about: 09:31:15	1 2	requirements for the REA. That's put to him in 09:32:13
	Now, Ian Baines talks about: 09:31:15 "At this particular time, 09:31:18		requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15
2	Now, Ian Baines talks about: 09:31:15	2	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15 "Yes, we had those concerns." 09:32:17
2	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19	2 3	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19
2 3 4	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21	2 3 4	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15 "Yes, we had those concerns." 09:32:17
2 3 4 5	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22	2 3 4 5	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21
2 3 4 5 6	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23	2 3 4 5 6	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23
2 3 4 5 6 7	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25	2 3 4 5 6 7	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27
2 3 4 5 6 7 8	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27	2 3 4 5 6 7 8	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29
2 3 4 5 6 7 8 9 10	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30	2 3 4 5 6 7 8 9 10	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29  Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35  Windstream had retained him to take the steps to 09:32:37
2 3 4 5 6 7 8 9 10 11	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36	2 3 4 5 6 7 8 9 10 11	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15 "Yes, we had those concerns." 09:32:17 And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23 And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41
2 3 4 5 6 7 8 9 10 11 12	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36	2 3 4 5 6 7 8 9 10 11 12 13	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15 "Yes, we had those concerns." 09:32:17 And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23 And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43
2 3 4 5 6 7 8 9 10 11 12 13	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39	2 3 4 5 6 7 8 9 10 11 12 13	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15 "Yes, we had those concerns." 09:32:17 And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23 And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43 the high level so they could get the comfort they 09:32:45
2 3 4 5 6 7 8 9 10 11 12 13 14	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40	2 3 4 5 6 7 8 9 10 11 12 13 14	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29  Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35  Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:45 want to invest. 09:32:48
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do – and we 09:31:40	2 3 4 5 6 7 8 9 10 11 12 13 14 15	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29  Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35  Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43 the high level so they could get the comfort they 09:32:45 want to invest. 09:32:48  And he says: 09:32:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do and we 09:31:48	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:45 want to invest. 09:32:48  And he says: 09:32:49  "The intent was certainly" 09:32:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do — and we 09:31:48  created when the 5-kilometre setback is set out, 09:31:51	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43 the high level so they could get the comfort they 09:32:45 want to invest. 09:32:49  "The intent was certainly" 09:32:49 And this is the when he's talking 09:32:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do and we 09:31:40  don't deny the fact that there is uncertainty 09:31:51  because clearly Windstream, at this point, has 09:31:53	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43 the high level so they could get the comfort they 09:32:45 want to invest. 09:32:49  "The intent was certainly" 09:32:49 And this is the when he's talking 09:32:50 about the August 9th MNR letter. 09:32:52
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do — and we 09:31:40  don't deny the fact that there is uncertainty 09:31:48  created when the 5-kilometre setback is set out, 09:31:51  because clearly Windstream, at this point, has 09:31:53  applied for grid cells that are within 5 kilometres. 09:31:55	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43 the high level so they could get the comfort they 09:32:45 want to invest. 09:32:48  And he says: 09:32:49  "The intent was certainly" 09:32:50 about the August 9th MNR letter. 09:32:52 " reflecting that they 09:32:54
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do – and we 09:31:40  don't deny the fact that there is uncertainty 09:31:48  created when the 5-kilometre setback is set out, 09:31:51  because clearly Windstream, at this point, has 09:31:55  And Mr. Baines candidly in his 09:31:59	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43 the high level so they could get the comfort they 09:32:45 want to invest. 09:32:48  And he says: 09:32:49  "The intent was certainly" 09:32:50 about the August 9th MNR letter. 09:32:55  " reflecting that they 09:32:55
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do and we 09:31:40  don't deny the fact that there is uncertainty 09:31:48  created when the 5-kilometre setback is set out, 09:31:51  because clearly Windstream, at this point, has 09:31:53  applied for grid cells that are within 5 kilometres. 09:31:55  And Mr. Baines candidly in his 09:31:59  testimony says he had three concerns. His question 09:32:03	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was — who played a large role in — because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43 the high level so they could get the comfort they 09:32:45 want to invest. 09:32:48  And he says: 09:32:49  "The intent was certainly —" 09:32:49  And this is the — when he's talking 09:32:50 about the August 9th MNR letter. 09:32:55 us and move as quickly as 09:32:56
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:36  "It's not the rules." 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do and we 09:31:40  don't deny the fact that there is uncertainty 09:31:48  created when the 5-kilometre setback is set out, 09:31:51  because clearly Windstream, at this point, has 09:31:53  applied for grid cells that are within 5 kilometres. 09:31:55  And Mr. Baines candidly in his 09:31:59  testimony says he had three concerns. His question 09:32:03  asked him the setbacks, unknown setback 09:32:07	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17 And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23 And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was who played a large role in because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:45 want to invest. 09:32:48 And he says: 09:32:49  "The intent was certainly" 09:32:49 And this is the when he's talking 09:32:50 about the August 9th MNR letter. 09:32:52  " reflecting that they 09:32:55 us and move as quickly as 09:32:56 possible." 09:32:57
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Now, Ian Baines talks about: 09:31:15  "At this particular time, 09:31:18  regulatory uncertainty is the 09:31:19  guidelines. It's not the 09:31:21  rules. The rules are there." 09:31:22  Because he was asked many questions in 09:31:23  cross-examination about memos at the time talking 09:31:25  about regulatory uncertainty, and he explained his 09:31:27  understanding that the framework, the regulations, 09:31:30  were in place. 09:31:32  "It's not the rules." 09:31:35  He said. 09:31:36  "It's the particular, more 09:31:36  specific guidelines for 09:31:39  offshore wind." 09:31:40  And at this point, we do and we 09:31:40  don't deny the fact that there is uncertainty 09:31:48  created when the 5-kilometre setback is set out, 09:31:51  because clearly Windstream, at this point, has 09:31:53  applied for grid cells that are within 5 kilometres. 09:31:55  And Mr. Baines candidly in his 09:31:59  testimony says he had three concerns. His question 09:32:03	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	requirements for the REA. That's put to him in 09:32:13 cross-examination. He candidly says: 09:32:15  "Yes, we had those concerns." 09:32:17  And then he goes on to explain, as the 09:32:19 other witnesses did, the steps that Windstream took 09:32:21 to get comfort with respect to those concerns. 09:32:23  And we have, of course, the testimony 09:32:27 about the August 9th letter and the comfort that 09:32:29 Windstream took from that, and this is Mr. Benedetti 09:32:33 who was — who played a large role in — because 09:32:35 Windstream had retained him to take the steps to 09:32:37 assess whether or not, essentially, the Government 09:32:41 was going to be supporting this project or not at 09:32:43 the high level so they could get the comfort they 09:32:45 want to invest. 09:32:48  And he says: 09:32:49  "The intent was certainly —" 09:32:49  And this is the — when he's talking 09:32:50 about the August 9th MNR letter. 09:32:55 us and move as quickly as 09:32:56

	Page 84		Page 85
1	on our part that there would 09:33:01	1	everything the Government had told them about 09:34:03
2	be some finalization of the 09:33:02	2	working pragmatically and cooperatively with them to 09:34:04
3	requirements." 09:33:04	3	prioritize FIT contracts. 09:34:08
4	And it's important to remember in this 09:33:04	4	And we have Ian Baines talking about 09:34:11
5	period of July and August that the Ministry of the 09:33:07	5	the letter: 09:34:12
6	Environment had put out a policy proposal posted on 09:33:09	6	"I took this to believe that 09:34:13
7	the EBR, and they to gather information from that 09:33:13	7	he was talking about" 09:34:15
8	process, and then the understanding was that, in 09:33:17	8	This is Mr. Boysen, the MNR. 09:34:15
9	September, that process would close, and they would 09:33:19	9	" the additional 09:34:17
10	make a determination as to what the appropriate 09:33:22	10	applications we've made. He 09:34:18
11	setback was going to be. They were proposing 5 09:33:24	11	was going to deal with them 09:34:20
12	kilometres. They would hear submissions and make 09:33:26	12	under the existing process. 09:34:21
13	the determination. 09:33:28	13	He would do it in a timely 09:34:21
14	And you also saw in the evidence we 09:33:28	14	manner and in order that you 09:34:23
15	put forward, and it's in the documentary record, 09:33:30	15	maintain an applicant of 09:34:24
16	that, if you look at the timelines that are that 09:33:32	16	record status in a timely 09:34:25
17	the Ministry has internally at the time, that those 09:33:35	17	manner." 09:34:26
18		18	And we have the evidence, again, and 09:34:27
		19	the documentary evidence of Mr. Boysen, after this 09:34:29
		20	meeting, writing to his colleagues and saying. 09:34:32
	So that was 09:33:50	21	"Listen, I want to sit down 09:34:35
22	the expectation, certainly within the government, 09:33:53	22	with Windstream, and I want 09:34:36
23	and the expectation from the Windstream side was 09:33:55	23	to try to work through this 09:34:37
24	that once this posting closed in September, the 09:33:57	24	grid application process so 09:34:38
25	Government would be moving forward, consistent with 09:34:00	25	that we're ready to move when 09:34:39
	Daga V6

And he says, from his perspective: 09:36:13  "Mr. Ungerman noted in the 09:36:20  indicated support as well. 09:36:22  Mr. Ungerman was also, I 09:36:23

	Page 88		Page 89
1	instrumental in directing the 09:36:27	1	what Windstream's first choice, because their 09:37:21
2	OPA to give us another year 09:36:27	2	first choice, in terms of a request, had been an 09:37:24
3	of time in our deadline for 09:36:28	3	extension that also triggered off the granting of 09:37:27
4	bringing the project into 09:36:30	4	AOR status. But you heard the evidence that this 09:37:30
5	operation, increase it from 09:36:31	5	was a very significant extension to them. 09:37:32
6	four to five years." 09:36:32	6	And it's important also to note the 09:37:34
7	So from the perspective of Mr. Ziegler 09:36:33	7	fact that, as you heard from Mr. Cecchini, there was 09:37:36
8	and the investors, hearing this from a senior 09:36:35	8	actually a one-year extension granted to all all 09:37:38
9	government official, telling them that the Premier's 09:36:39	9	FIT wind projects in January of 2011. And you 09:37:42
10	office is behind this project is, in my in my 09:36:42	10	actually hear a reference to that in the phone 09:37:48
11	submission, very strong evidence of representations 09:36:45	11	conversation. And you know, again we don't know 09:37:50
12	made that were reasonably relied upon. 09:36:48	12	what would have happened in this particular case in 09:37:53
13	And we had the discussion here about 09:36:51	13	terms of the project, but they had got the extension 09:37:56
14	the fact that Windstream was asking for a year's 09:36:53	14	for five years. You know, might they have, in fact, 09:37:59
15	extension, from four to five years, to allow the 09:36:56	15	had six years to develop the project, depending how 09:38:01
16	project to go ahead. 09:36:59	16	things had worked out in the absence of the 09:38:04
17	And the understanding of Chris 09:37:01	17	moratorium. 09:38:06
18	Benedetti, a very experienced lobbyist in this area, 09:37:04	18	Here is Ian Baines talking about the 09:38:10
19	that Minister Duguid's office he's the Minister 09:37:07	19	one-year extension as being a very strong indication 09:38:11
20	of Energy had some discussion with the OPA, and 09:37:09	20	these things would be resolved, and one year was 09:38:14
21	it was because of that that the OPA came back the 09:37:11	21	more than sufficient time. 09:38:17
22	OPA originally said, "We're not going to give you an 09:37:13	22	David Mars: 09:38:19
23	extension." 09:37:15	23	"We believe that the extra 09:38:19
24	They gave a one-year extension, and 09:37:16	24	year was enough time to do 09:38:21
25	you heard the evidence that it wasn't exactly what 09:37:18	25	all the things we needed to 09:38:22
1	Page 90 do." 09:38:23	1	Page 91 energy goals of creating jobs 09:39:00
2	Chris Benedetti: 09:38:23	2	and promoting economic 09:39:00
3	"We had every reason to 09:38:23	3	development." 09:39:00
4	believe that all the 09:38:25	4	That's from his witness statement. 09:39:00
5	decisions that had to be made 09:38:26	5	The next slide is confidential, if we 09:39:02
6	relative to an exclusion zone 09:38:28	6	could cut the feed, just this one slide. 09:39:04
7	would've been made within the 09:38:29	7	PRESIDENT: Now, Mr. Terry, please 09:39:07
8	12-month period." 09:38:30	8	let us know when would be a good time to break, 09:39:09
9	David Mars talking about entering into 09:38:32	9	briefly, for ten minutes. 09:39:12
10	the FIT contract: 09:38:35	10	MR. TERRY: I think in a couple of 09:39:13
11	"I would not have done so 09:38:35	11	minutes, I will be turning things over to my 09:39:15
12	without these specific 09:38:37	12	colleague Ms. Seers, so that would be a good time. 09:39:17
13	assurances. As I set out in 09:38:38	13	PRESIDENT: Okay. Good. Thank you. 09:39:18
14	an e-mail to our investors on 09:38:41	14	MR. TERRY: It's just going to be for 09:39:25
15	the day I caused WWIS to 09:38:43	15	one document and then back on. 09:39:26
16	execute the FIT contract, the 09:38:45	16	Confidential transcript begins 09:39:28
17	assurances I described above 09:38:47	17	MR. TERRY: There was a question that 09:39:36
18	us gave us the comfort we 09:38:47	18	the Tribunal had asked about in on your questions 09:39:37
19	needed to sign the FIT 09:38:49	19	of a couple of days ago about what rules were in 09:39:40
20	contract and post 6 million 09:38:50	20	place in February 11, 2011. And our submission was 09:39:44
21	in security. We believed we 09:38:51	21	that there were sufficient rules in place at that 09:39:47
22	were working together with 09:38:53	22	time for the project to have proceeded through the 09:39:49
23	the Ontario Government and 09:38:54	23	REA application and through the application 09:39:53
24	its various agencies to 09:38:56	24	provisions in the MNR and to have provided the 09:39:56
25	achieve the province's green 09:38:58	25	studies and provided them in accordance with the 09:39:58
			•

1	description of the policy and 09:42:10
2	given the drivers, was a 09:42:11
3	moratorium. 09:42:13
4	And she says: 09:42:14
5	"So what I tried to say in my 09:42:14
6	opinion I'm not trying to 09:42:17
7	be facetious about any of 09:42:18
8	this is that I don't think 09:42:19
9	a reasonable expectation for 09:42:20
10	anybody, of any of the 09:42:21
11	players, but for the internal 09:42:23
12	workings of Government, 09:42:24
13	which, again, I have no 09:42:25
14	insight on, was the 09:42:26
15	moratorium." 09:42:27
16	And, listen, she was very candid, and 09:42:27
17	she said. 09:42:29
18	"Listen, I guess I called it 09:42:30
19	wrong"; 09:42:32
20	Right? She was wrong in that. There 09:42:32
21	was a moratorium, and the process was put in place, 09:42:34
22	but she did not see it coming as an industry 09:42:37
23	insider. And, in my submission, there's no evidence 09:42:42
24	whatsoever that Windstream saw it coming. 09:42:45
25	And she says: 09:42:48

	Page 95
-	"Again, given the legislative 09:42:48
2	sea change, all the work he 09:42:50
3	had done in that preceding 09:42:51
Ł	year, all the goodwill, would 09:42:51
,	I have been advising clients 09:42:53
;	that there was a moratorium? 09:42:54
,	Was it a likely possibility 09:42:55
3	for offshore? I wouldn't 09:42:55
)	have. I wouldn't have 09:42:57
)	advised that." 09:42:59
	MR. TERRY: And I note in this respect 09:43:03
2	that there is a discussion here that I that we 09:43:04
3	had with in examination of Ms. Dumais about 09:43:08
ŀ	October 29, 2010, and a particular meeting that 09:43:12
,	occurred then. And Ms. Dumais indicated she 09:43:16
5	listened to Windstream's presentation and made no 09:43:22
,	commitments at that time. And I asked her: 09:43:25
3	"I take it you didn't tell 09:43:26
)	Windstream a moratorium was 09:43:28
)	coming?" 09:43:29
-	"No. Because I wasn't 09:43:29
?	involved in these 09:43:32
3	conversations." 09:43:33
Ŀ	So Windstream is sitting down with the 09:43:33
5	Ministry of Environment official October 29, 2010, 09:43:34

	Page 96		Page 97
1	and, again, no no statement about a moratorium. 09:43:38	1	the commitment to consider AOR status in a timely 09:44:38
2	Now, I'm not going to go over again 09:43:43	2	way, contrary to the commitment to provide investor 09:44:41
3	the promise of Ontario to freeze Windstream's 09:43:45	3	certainty. Unnecessary to achieve the stated 09:44:45
4	contract, because we already dealt with that under 09:43:47	4	environmental protection goal. The moratorium 09:44:46
5	the expropriation. We rely on the same evidence. 09:43:49	5	motivated by desire to kill offshore wind projects. 09:44:47
6	With respect to the breaches that 09:43:52	6	The abruptly repudiated regulatory framework: The 09:44:49
7	occurred here, again, what we're talking about 09:43:54	7	regulatory framework was pulled out from the rug 09:44:54
8	fundamentally are an arbitrary and unfair 09:43:57	8	was pulled out from under the developers. There was 09:44:58
9	repudiation of not only legitimate expectations, but 09:44:01	9	no more regulatory framework to move ahead on. 09:45:01
10	the whole regulatory framework that was in place and 09:44:06	10	The fact that little or no research 09:45:03
11	that the industry would have assumed was in place 09:44:08	11	has been done, which, in our submission, is a 09:45:04
12	for the development and of an offshore wind 09:44:10	12	crucial fact in this particular case in terms of 09:45:07
13	project. 09:44:13	13	looking at the bona fides of the reasons for the 09:45:09
14	As we say here and it's the same 09:44:14	14	moratorium, and looking, examining, the whole 09:45:12
15	slide we used in our opening argument: 09:44:16	15	context here. It's a fundamental, a fundamental, 09:45:15
16	"The moratorium and the 09:44:18	16	piece of evidence and, of course, confirm with the 09:45:18
17	failure to freeze are 09:44:19	17	Government's recent statements that no science would 09:45:21
18 19	arbitrary, grossly unfair, 09:44:21	18 19	proceed. 09:45:24
20	unjust, and idiosyncratic." 09:44:23	20	Now, we move on to damages, so I 09:45:25 would I will stop now for the break. 09:45:27
21	And I'm talking now only about the 09:44:24 imposition of the moratorium, but the combination, 09:44:24	21	would I will stop now for the break. 09:45:27 PRESIDENT: Okay. Thank you very 09:45:30
22	imposition of the moratorium, but the combination, 09:44:24 as I emphasize again, of the moratorium and failure 09:44:27	22	much. Let's break for 10 minutes. We will continue 09:45:31
23	to freeze, contrary to the commitment to freeze the 09:44:30	23	at 9:55. 09:45:34
24	FIT contract, contrary to the commitment to process 09:44:32	24	Recess taken at 9:45 a m. 09:45:36
25	regulatory approvals in a timely way, contrary to 09:44:36	25	Upon resuming at 9:58 a m. 09:58:16
	regulatory approvals and almosty was, contains to		oponiosaming at 700 a mi
	Page 98		Page 99
1	PRESIDENT: Okay. We will resume. 09:58:22	1	encroached upon. 09:59:37
2	It will be Ms. Seers, or you will still go on? 09:58:25	2	[Laughter.] 09:59:38
3	MR. TERRY: Just one clarification. 09:58:28	3	MS. SEERS: So but the intention 09:59:39
4	PRESIDENT: Yes. 09:58:29	4	here was to leave you with the slides so that you 09:59:45
5	MR. TERRY: I just wanted to make one 09:58:30	5	could marshal the damages evidence that you've heard 09:59:50
6	clarification. If you can turn to Slide 41 in the 09:58:31	6	over the past week. 09:59:52
7	book. We just saw there was a slight error. 09:58:33	7	As you as you know, a substantial 09:59:53
8	If you look at the orange boxes, the 09:58:43	8	amount of time in this hearing has been spent 09:59:56
9	second box there: Ms. Wallace did not learn the 09:58:47	9	hearing damages-related expert evidence, which of 09:59:59
10	moratorium decision from Mr. Wilkinson or anyone at 09:58:49	10	course is technical and complex. 10:00:02
11	MOE. In fact, she did learn, as we know, on January 09:58:53	11	So what we've done with the slides, 10:00:04
12	14th from Paul Evans, her ADM, who forwarded her the 09:58:58	12	whether I speak to them or not, is try to give you 10:00:06
13 14	message from Sue Lo about the Premier's Office 09:59:04	13	the relevant excerpts, and then hopefully they'll be 10:00:09
15	direction. I just wanted to make clear what we were 09:59:08	14 15	they'll be helpful to you in your deliberations. 10:00:12
16	saying there. 09:59:10  Of course what we're relying on is the 09:59:11	16	And so begin with the standard of 10:00:15
17	answer she provided to the Tribunal in that 09:59:13	17	reparation. I don't intend to belabour this point. 10:00:19 You know the test well. Chorzow Factory is the test 10:00:22
18	question. So I will turn it over to Ms. Seers. 09:59:16	18	that we say you should apply in assessing what 10:00:26
19	PRESIDENT: Okay. Thank you. Ms. 09:59:18	19	damages flow from the breaches of the NAFTA, should 10:00:30
20	Seers. 09:59:20	20	you find that breaches did, in fact, occur. And so 10:00:34
21	CLOSING SUBMISSIONS BY MS. SEERS: 09:59:20	21	the standard is to put Windstream in the position it 10:00:37
22	MS. SEERS: You will have to forgive 09:59:20	22	would have been in had the breaches not occurred. 10:00:39
	the speed at which I will attempt to take you 09:59:28	23	And in answer to the second part of 10:00:45
23	the speed at which I will attempt to take you 09.39.28	23	And in answer to the second part of 10.00.43
24	through these slides in classic senior lawyer/junior 09:59:30	24	your question, of your fifth question from 10:00:47

	Page 100		Page 101
1	applies whether the whether the breach is an 10:00:53	1	than not; or is it likely; or what would likely have 10:02:12
2	unlawful expropriation or whether it's a breach of 10:00:57	2	occurred from the Claimant's side. And from the 10:02:16
3	FET. 10:01:00	3	Respondent's side, you heard a lot of questions to 10:02:19
4	So we've given you two case law references here: 10:01:00	4	experts posed in a different way: Was there a 10:02:22
5	ADC, which you'll see applied the Chorzow Factory 10:01:03	5	guarantee? Was there any certainty? Are you 10:02:25
6	test in the case of an unlawful expropriation on the 10:01:08	6	certain that this would have occurred? Is it not 10:02:28
7	basis that the lex specialis established under the 10:01:13	7	possible that this or that would have occurred? 10:02:31
8	treaty did not apply to unlawful expropriation, only 10:01:16	8	And in our respectful submission, that 10:02:34
9	applied to lawful expropriation. 10:01:19	9	is just not the test. The test is not one of 10:02:36
10	In our submission, that applies here as well. And, 10:01:21	10	certainty. The test is not one of whether something 10:02:40
11	of course, Canada does not dispute that, if an 10:01:23	11	was guaranteed. Your task is to assess, in our 10:02:43
12	expropriation is found, it was an unlawful and not a 10:01:26	12	submission, what would more likely than not have 10:02:46
13	lawful one. 10:01:30	13	occurred to this company and to this investment had 10:02:50
14	We have given you a reference from 10:01:31	14	the breaches of the NAFTA, should you find them, not 10:02:53
15	Gold Reserve as well, applying the Chorzow Factory 10:01:33	15	occurred. And so that, we say, is the lens through 10:02:57
16	standard to a breach of FET. 10:01:38	16	which you should assess all of the expert evidence 10:03:00
17	The standard, then, of proof is the 10:01:43	17	you heard this past week. 10:03:02
18	balance of probabilities, in our submission, and we 10:01:47	18	We have given you another reference 10:03:05
19	have given you another excerpt from Gold Reserve to 10:01:49	19	there from Khan Resources and a few more: Lemire. 10:03:08
20	that effect here. And that's important because 10:01:53	20	And that one speaks to establishing the appropriate 10:03:15
21	you've heard a lot of questions this past week from 10:01:55	21	but-for scenario and to valuation not being an exact 10:03:17
22	both sides. And having reflected on this, it seems 10:02:00	22	science, as you will have seen. 10:03:21
23	that there's been a bit of a disconnect, from my 10:02:06	23	And another excerpt here from Lemire, 10:03:24
24	perspective. 10:02:08	24	which we hope will be helpful to you it's also 10:03:27
25	You have heard a lot of more likely 10:02:09	25	cited in our materials which speaks to making 10:03:30
	P. 102		
	Page 102		Page 103
1	reasonable assumptions in establishing the but-for 10:03:32	1	Page 103 have sold this investment on the date of the breach? 10:04:54
1 2	_	1 2	•
	reasonable assumptions in establishing the but-for 10:03:32		have sold this investment on the date of the breach? 10:04:54
2	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35	2	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57
2	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41 And the State party should be assumed 10:03:45	2	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00
2 3 4	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41	2 3 4	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04
2 3 4 5	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51	2 3 4 5	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07
2 3 4 5	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47	2 3 4 5 6	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10
2 3 4 5 6 7 8 9	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41 And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58	2 3 4 5 6 7 8	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18
2 3 4 5 6 7 8 9	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00	2 3 4 5 6 7 8 9	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20
2 3 4 5 6 7 8 9 10	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I — in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03	2 3 4 5 6 7 8 9 10	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24
2 3 4 5 6 7 8 9 10 11	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03 We say the appropriate valuation date 10:04:07	2 3 4 5 6 7 8 9 10 11	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27
2 3 4 5 6 7 8 9 10 11 12 13	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I — in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03 We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09	2 3 4 5 6 7 8 9 10 11 12 13	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30
2 3 4 5 6 7 8 9 10 11 12 13	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14	2 3 4 5 6 7 8 9 10 11 12 13 14	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:33
2 3 4 5 6 7 8 9 10 11 12 13 14	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:18	2 3 4 5 6 7 8 9 10 11 12 13 14	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:30 have sold it at all. 10:05:33 And your task is to establish, we say, 10:05:35
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:28 use a different valuation date, a different date, 10:04:22	2 3 4 5 6 7 8 9 10 11 12 13 14 15	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:35 or to return them to the position they would have 10:05:37
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:18 use a different valuation date, a different date, 10:04:22 than the date of the breach. 10:04:26	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:35 or to return them to the position they would have 10:05:37 been in had the moratorium not been imposed, had the 10:05:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:18 use a different valuation date, a different date, 10:04:22 than the date of the breach. 10:04:26 And that is because this is a case that's quite 10:04:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:33  And your task is to establish, we say, 10:05:37 been in had the moratorium not been imposed, had the 10:05:39 failure to freeze not occurred, and that you don't 10:05:44
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:18 use a different valuation date, a different date, 10:04:22 than the date of the breach. 10:04:27 unique, actually. And we quite candidly, we've 10:04:30	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:33 And your task is to establish, we say, 10:05:37 been in had the moratorium not been imposed, had the 10:05:39 failure to freeze not occurred, and that you don't 10:05:44 accomplish that task if what you're doing is valuing 10:05:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:18 use a different valuation date, a different date, 10:04:22 than the date of the breach. 10:04:27 unique, actually. And we quite candidly, we've 10:04:30 grappled quite a lot on the Claimant's side with 10:04:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13  And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:33  And your task is to establish, we say, 10:05:37 been in had the moratorium not been imposed, had the 10:05:49 this investment on a date at which, according to the 10:05:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:18 use a different valuation date, a different date, 10:04:22 than the date of the breach. 10:04:26 And that is because this is a case that's quite 10:04:30 grappled quite a lot on the Claimant's side with 10:04:34 what you do with this kind of situation where you 10:04:39	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:33 And your task is to establish, we say, 10:05:35 or to return them to the position they would have 10:05:37 been in had the moratorium not been imposed, had the 10:05:39 failure to freeze not occurred, and that you don't 10:05:44 accomplish that task if what you're doing is valuing 10:05:49 this investment on a date at which, according to the 10:05:51 Claimant's experts at least, it was worth nothing. 10:05:55
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:18 use a different valuation date, a different date, 10:04:22 than the date of the breach. 10:04:26 And that is because this is a case that's quite 10:04:30 grappled quite a lot on the Claimant's side with 10:04:34 what you do with this kind of situation where you 10:04:39 have a development-stage company and what your task 10:04:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:33 And your task is to establish, we say, 10:05:37 been in had the moratorium not been imposed, had the 10:05:39 failure to freeze not occurred, and that you don't 10:05:49 this investment on a date at which, according to the 10:05:51 Claimant's experts at least, it was worth nothing. 10:05:55 And, of course, our alternative 10:06:00
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	reasonable assumptions in establishing the but-for 10:03:32 scenario and that, in that but-for scenario, the 10:03:35 parties should be assumed to have acted reasonably 10:03:39 and not to have engaged in unreasonable conduct. 10:03:41  And the State party should be assumed 10:03:45 not to have engaged in further NAFTA breaches, which 10:03:47 we will come to, but I in terms of some of the 10:03:51 positions that we heard from Canada in its opening 10:03:55 statement, I would submit, is also something that 10:03:58 you should bear in mind in assessing the 10:04:00 reasonableness of the appropriate but-for scenario. 10:04:03  We say the appropriate valuation date 10:04:07 is the date of the award. In answer to one of the 10:04:09 questions that was posed, yes, it is it is 10:04:14 appropriate in cases such as this one, we say, to 10:04:18 use a different valuation date, a different date, 10:04:22 than the date of the breach. 10:04:26 And that is because this is a case that's quite 10:04:30 grappled quite a lot on the Claimant's side with 10:04:34 what you do with this kind of situation where you 10:04:39	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	have sold this investment on the date of the breach? 10:04:54 Would it have sold this investment in May 2012? 10:04:57 We say it wouldn't have done that. It wouldn't have 10:05:00 done that. If you listened to Mr. Goncalves' 10:05:04 evidence, his evidence is that, actually, 10:05:07 Windstream's investments were worth nothing to a 10:05:10 third-party investor on that date. 10:05:13 And, of course, we disagree with that. 10:05:15 But if you take that evidence, if you accept that 10:05:18 evidence, you also have to accept, we say, that they 10:05:20 wouldn't have sold that investment on that day. 10:05:24 Rather, they would have held that investment and 10:05:27 perhaps sold it on a subsequent day, perhaps not 10:05:30 have sold it at all. 10:05:33 And your task is to establish, we say, 10:05:35 or to return them to the position they would have 10:05:37 been in had the moratorium not been imposed, had the 10:05:39 failure to freeze not occurred, and that you don't 10:05:44 accomplish that task if what you're doing is valuing 10:05:49 this investment on a date at which, according to the 10:05:51 Claimant's experts at least, it was worth nothing. 10:05:55

1.0

or -- pardon me -- the investments became worthless. 10:06:15

And we say that -- you'll have heard 10:06:17
the evidence of Mr. Low. That's the date on which 10:06:21
the losses were crystallized. Before then, it's a 10:06:26
little bit like a creeping expropriation kind of 10:06:30
situation. Before then, I suppose, Windstream's 10:06:33
investments were being -- or the value was being 10:06:38
progressively eroded by the erosion of the force 10:06:42
majeure time. 10:06:44

But that didn't crystallize until much 10:06:45 later in time. And so that's why, we say, certainly 10:06:48 on the expropriation claim, the loss is crystallized 10:06:53 on that day. But also given the high standard in 10:06:56 the FET claim, we also say the loss crystallized on 10:06:58 that day and that the breach crystallized on that 10:07:01 day because that's the day on which the investments 10:07:04 became worthless. And so that didn't occur on the 10:07:06 date of the moratorium. 10:07:11 And so we say that if -- in the event that you 10:07:14 10:07:17 choose not to use the date of the award as a valuation date, this would be the appropriate 10:07:20 10:07:22 valuation date and not February 11, 2011. There was some discussion of the use 10:07:27

Page 105

valuation date that you are applying is the date of 10:07:39 the award, it is appropriate to use current 10:07:41 information. 10:07:44

So, for example, all of the expert 10:07:46 evidence that you have heard, the experts were quite 10:07:49 candid as to the difficulties sometimes of putting 10:07:53 themselves in the position or with the knowledge 10:07:56 that they had in 2012 versus today and what effect 10:07:59 that might have. 10:08:02

In our submission, it's -- the 10:08:04 evidence is entirely appropriate for you to consider 10:08:06 using current information, particularly if the 10:08:11 valuation date is the date of the award. 10:08:16

So briefly, then, on the two proposed 10:08:21 but-for scenarios that have been put forward by the 10:08:23 Claimant's side, so you've got -- we showed you this 10:08:27 slide in the opening statement. We've put forward 10:08:30 two alternatives, one of which where there was no 10:08:33 moratorium and, therefore, no -- no reason to effect 10:08:37 a freeze. The other one, we've assumed a three-year 10:08:43 moratorium and a corresponding three-year freeze. 10:08:46

Canada says the first one is not 10:08:50
appropriate because it starts before the loss 10:08:52
crystallized. Obviously that doesn't apply to the 10:08:56
second one, but what I would say about that point is 10:08:59

## Page 106

that it's a surprising submission, in our view, 10:09:01 given the submission that they've also made that 10:09:07 they had no power to effect a freeze. 10:09:09

If they had no power to effect a 10:09:13 freeze, which of course we -- we submit is not the 10:09:15 case, but if it -- even if it's true they had no 10:09:20 power to effect a freeze, then there is no other way 10:09:23 for them to have undone this loss, but to have never 10:09:25

of hindsight, another rather thorny issue that has 10:07:29

arisen in this hearing. In our submission, if the 10:07:34

for them to have undone this loss, but to have never 10:09:25
had -- never imposed a moratorium on Windstream in 10:09:30
the first place, in our submission. 10:09:33
You've seen this as well. This is our 10:09:37

timeline. So you'll see -- you'll see the project 10:09:39
restart, which based on the project schedule that 10:09:46
we've put forward, starts in February of whether 10:09:48
it's 2011 or 2014, which is the three-year delay; 10:09:52
the MCOD that applies under the FIT; the date on 10:09:56
which the project achieves commercial operation, if 10:10:03
the project schedule is achieved; and a buffer that 10:10:07
date on which the OPA can cancel the contract. 10:10:12
And then we've shown the additional 10:10:15

force majeure time available. 10:10:17The but-for scenario that Canada puts 10:10:22forward, we say, is inappropriate because what it 10:10:24does is it takes — it takes Windstream to the very 10:10:27

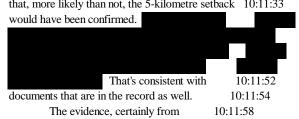

Page 107
he available force majeure time without 10:10:31

brink of the available force majeure time without 10:10:31 effecting any kind of freeze. So contrary to the 10:10:36 promise that you heard earlier to freeze the FIT 10:10:39 contract, this but-for scenario doesn't accomplish 10:10:41 that. And Canada's own experts acknowledged that, 10:10:44 if there's zero force majeure time available, nobody 10:10:48 will invest in the project. And so this but-for 10:10:52 scenario effectively would result in certain project 10:10:55 failure. So it's not -- it's not appropriate. If 10:10:59 you had a May 2012 start date, in our submission, 10:11:02

you'd have to have a corresponding freeze.

I'd like to move through the remaining 10:11:15 slides rather quickly. These are the slides that 10:11:17 establish, in our submission, that, more likely than 10:11:20 not, the project would have achieved commercial 10:11:24 operation within the parameters of the FIT contract. 10:11:27

So here you see, you have evidence 10:11:31 that, more likely than not, the 5-kilometre setback 10:11:33

10:11:06

	Page 108		Page 109
1	Windstream's side, is that they were told that the 10:11:59	1	scientific rationale. There's a document in the 10:13:18
2	setback would be confirmed either late in the fall 10:12:01	2	record that's not in your slides, but MNR was 10:13:20
3	or early 2011. 10:12:05	3	apparently told to start from that number and 10:13:23
4	The January 2011 job communications 10:12:10	4	provide a rationale for it. There is no scientific 10:13:27
5	plan that led the Premier's Chief of Staff, Chris 10:12:13	5	rationale, whatsoever, for the setback. She said 10:13:30
6	Morley, to say, "Sorry, folks. This isn't good 10:12:17	6	there's no science to support an exclusion zone and 10:13:35
7	enough. You have to kill all the projects," was one 10:12:19	7	that she had informed her colleagues of that on many 10:13:39
8	in which the 5-kilometre setback would have been 10:12:22	8	occasions. 10:13:42
9	confirmed. 10:12:24	9	Canada's own expert, Mr. Clarke, 10:13:45
10	You heard in Canada's opening 10:12:30	10	confirmed that there's no drinking water related 10:13:48
11	statement that, even if this setback had been 10:12:31	11	reason why you would have a setback established from 10:13:51
12	confirmed, that Windstream wouldn't have been able 10:12:36	12	an uninhabited peninsula or uninhabited island, and 10:13:54
13	to build the project as designed because a lot of 10:12:38	13	we certainly haven't heard any other expert evidence 10:14:00
14	the turbines would be within 5 kilometres of a small 10:12:41	14	from Canada establishing why that would be 10:14:02
15	uninhabited island called Pigeon Island and of a 10:12:45	15	necessary. 10:14:04
16	peninsula, uninhabited peninsula, called Long Point 10:12:48	16	AOR status would likely have been 10:14:08
17	and that the MOE was planning on actually not 10:12:54	17	granted, in our submission, in the but-for scenario. 10:14:11
18	allowing or applying a strict application or a 10:12:56	18	You have heard from you heard testimony from 10:14:13
19	strict definition of shoreline. 10:12:59	19	Sarah Powell that the impetus in the Government was 10:14:16
20	In our submission, it's not 10:13:01	20	to ensure that, once the key hard gate of the FIT 10:14:18
21	appropriate to assume that that would have been the 10:13:03	21	contract had been met, that the authorities and MNR 10:14:23
22	definition that would have been applied or that that 10:13:05	22	would work together with developers to ensure that 10:14:27
23	would have been strictly applied to Windstream. 10:13:07	23	AOR status was granted in a timely manner. 10:14:30
24	First of all, you heard from Ms. Lawrence that the 10:13:11	24	She said she thought, in her opinion, 10:14:35
25	5-kilometre setback in and of itself had no 10:13:14	25	more likely than not, it was reasonable for a 10:14:37
	Daga 110		Dogg 111
	Page 110		Page 111
1	developer to assume that they could have gone 10:14:41	1	moratorium not been imposed. 10:15:49
2	developer to assume that they could have gone 10:14:41 through that process. 10:14:42	2	moratorium not been imposed. 10:15:49 Now, I pause here on this slide 10:15:52
2	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45	2 3	moratorium not been imposed. 10:15:49  Now, I pause here on this slide 10:15:52  because this is an example of a statement by Canada 10:15:54
2 3 4	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48	2 3 4	moratorium not been imposed. 10:15:49  Now, I pause here on this slide 10:15:52  because this is an example of a statement by Canada 10:15:54  that, in our very respectful submission, has ended 10:15:59
2 3 4 5	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51	2 3 4 5	moratorium not been imposed. 10:15:49  Now, I pause here on this slide 10:15:52  because this is an example of a statement by Canada 10:15:54  that, in our very respectful submission, has ended 10:15:59  up being a vast overstatement that has not borne out 10:16:04
2 3 4 5 6	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53	2 3 4 5 6	moratorium not been imposed. 10:15:49  Now, I pause here on this slide 10:15:52  because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11
2 3 4 5 6 7	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53	2 3 4 5 6 7	moratorium not been imposed. 10:15:49  Now, I pause here on this slide 10:15:52  because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14
2 3 4 5 6 7 8	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55	2 3 4 5 6 7 8	moratorium not been imposed. 10:15:49  Now, I pause here on this slide 10:15:52  because this is an example of a statement by Canada 10:15:54  that, in our very respectful submission, has ended 10:15:59  up being a vast overstatement that has not borne out 10:16:04  by the evidence that you heard or that you have seen 10:16:11  and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16
2 3 4 5 6 7 8	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as possible through the 10:14:55 remainder of the application 10:14:56	2 3 4 5 6 7 8	moratorium not been imposed. 10:15:49  Now, I pause here on this slide 10:15:52  because this is an example of a statement by Canada 10:15:54  that, in our very respectful submission, has ended 10:15:59  up being a vast overstatement that has not borne out 10:16:04  by the evidence that you heard or that you have seen 10:16:11  and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16  that the Windstream Wolfe Island Shoals offshore 10:16:18
2 3 4 5 6 7 8 9	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application review process in order that 10:14:57	2 3 4 5 6 7 8 9	moratorium not been imposed. 10:15:49  Now, I pause here on this slide 10:15:52  because this is an example of a statement by Canada 10:15:54  that, in our very respectful submission, has ended 10:15:59  up being a vast overstatement that has not borne out 10:16:04  by the evidence that you heard or that you have seen 10:16:11  and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16  that the Windstream Wolfe Island Shoals offshore 10:16:18  wind facility was doomed to fail from the moment 10:16:21
2 3 4 5 6 7 8 9 10	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:55 remainder of the application 10:14:56 review process in order that you may obtain Applicant of 10:14:58	2 3 4 5 6 7 8 9 10	moratorium not been imposed.  Now, I pause here on this slide  10:15:52  because this is an example of a statement by Canada 10:15:54  that, in our very respectful submission, has ended 10:15:59  up being a vast overstatement that has not borne out 10:16:04  by the evidence that you heard or that you have seen 10:16:11  and that's in the record.  10:16:14  Canada, in its Counter-Memorial, said 10:16:16  that the Windstream Wolfe Island Shoals offshore 10:16:18  wind facility was doomed to fail from the moment 10:16:21  that the Claimant signed on the dotted line. And, 10:16:23
2 3 4 5 6 7 8 9 10 11	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as possible through the 10:14:55 remainder of the application review process in order that you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00	2 3 4 5 6 7 8 9 10 11	Mow, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27
2 3 4 5 6 7 8 9 10 11 12	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02	2 3 4 5 6 7 8 9 10 11 12 13	Mow, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14 Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30
2 3 4 5 6 7 8 9 10 11 12 13	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02	2 3 4 5 6 7 8 9 10 11 12 13	Mow, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14 Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36
2 3 4 5 6 7 8 9 10 11 12 13 14 15	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02 rare for the MNR to issue that kind of a letter. 10:15:08	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Mow, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14 Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:08 And Mr. Benedetti Mr. Benedetti 10:15:13	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Mow, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14 Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:43
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02 rare for the MNR to issue that kind of a letter. 10:15:13 confirmed that there was certainly an expectation on 10:15:16	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Mow, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14 Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:43 And in making that submission, I also urge you to 10:16:45
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:08 and Mr. Benedetti — Mr. Benedetti 10:15:13 confirmed that there was certainly an expectation on 10:15:16 the part of Windstream that that would be finalized. 10:15:19	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Mow, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14 Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:45 reflect on the evidence that you haven't heard from 10:16:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02 rare for the MNR to issue that kind of a letter. 10:15:08  And Mr. Benedetti — Mr. Benedetti 10:15:13 confirmed that there was certainly an expectation on 10:15:16 the part of Windstream that that would be finalized. 10:15:19  We have several documents in the 10:15:25	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Now, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:45 reflect on the evidence that you haven't heard from 10:16:50 any expert on Canada's side that, in fact — from 10:16:54
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02 rare for the MNR to issue that kind of a letter. 10:15:08  And Mr. Benedetti Mr. Benedetti 10:15:13 confirmed that there was certainly an expectation on 10:15:16 the part of Windstream that that would be finalized. 10:15:25 record, of which this is one, that show that MNR 10:15:26	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Now, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:45 reflect on the evidence that you haven't heard from 10:16:50 any expert on Canada's side that, in fact – from 10:16:54 any qualified expert on Canada's side, I should say, 10:16:58
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02 rare for the MNR to issue that kind of a letter. 10:15:08  And Mr. Benedetti Mr. Benedetti 10:15:13 confirmed that there was certainly an expectation on 10:15:16 the part of Windstream that that would be finalized. 10:15:25 record, of which this is one, that show that MNR 10:15:26 actually was preparing to issue AOR status for 10:15:29	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Now, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:45 reflect on the evidence that you haven't heard from 10:16:50 any expert on Canada's side that, in fact – from 10:16:54 any qualified expert on Canada's side, I should say, 10:16:58 with experience in offshore wind development, with 10:17:01
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02 rare for the MNR to issue that kind of a letter. 10:15:08  And Mr. Benedetti Mr. Benedetti 10:15:13 confirmed that there was certainly an expectation on 10:15:16 the part of Windstream that that would be finalized. 10:15:29 record, of which this is one, that show that MNR 10:15:29 Windstream, if Windstream were to proceed. 10:15:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Now, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:43 And in making that submission, I also urge you to 10:16:50 any expert on Canada's side that, in fact — from 10:16:54 any qualified expert on Canada's side, I should say, 10:16:58 with experience in offshore wind development, with 10:17:01 experience in offshore wind construction to say 10:17:03
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02 rare for the MNR to issue that kind of a letter. 10:15:08  And Mr. Benedetti Mr. Benedetti 10:15:13 confirmed that there was certainly an expectation on 10:15:16 the part of Windstream that that would be finalized. 10:15:29 record, of which this is one, that show that MNR 10:15:29 Windstream, if Windstream were to proceed. 10:15:34  And so, more likely than not, we ask 10:15:39	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Now, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:43 And in making that submission, I also urge you to 10:16:45 reflect on the evidence that you haven't heard from 10:16:50 any expert on Canada's side that, in fact — from 10:16:58 with experience in offshore wind development, with 10:17:01 experience in offshore wind construction to say 10:17:03 that, actually, the project was not buildable; the 10:17:07
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	developer to assume that they could have gone 10:14:41 through that process. 10:14:42  Of course, the letter that we've seen 10:14:45 several times now regarding the grid cell swap said: 10:14:48  "I appreciate your need for 10:14:51 certainty on this file, and 10:14:53 we will move as quickly as 10:14:53 possible through the 10:14:55 remainder of the application 10:14:56 review process in order that 10:14:57 you may obtain Applicant of 10:14:58  Record status in a timely 10:15:00 manner." 10:15:02  Ms. Lawrence confirmed that it was 10:15:02 rare for the MNR to issue that kind of a letter. 10:15:08  And Mr. Benedetti Mr. Benedetti 10:15:13 confirmed that there was certainly an expectation on 10:15:16 the part of Windstream that that would be finalized. 10:15:19  We have several documents in the 10:15:25 record, of which this is one, that show that MNR 10:15:29 Windstream, if Windstream were to proceed. 10:15:34  And so, more likely than not, we ask 10:15:39	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Now, I pause here on this slide 10:15:52 because this is an example of a statement by Canada 10:15:54 that, in our very respectful submission, has ended 10:15:59 up being a vast overstatement that has not borne out 10:16:04 by the evidence that you heard or that you have seen 10:16:11 and that's in the record. 10:16:14  Canada, in its Counter-Memorial, said 10:16:16 that the Windstream Wolfe Island Shoals offshore 10:16:18 wind facility was doomed to fail from the moment 10:16:21 that the Claimant signed on the dotted line. And, 10:16:23 of course, you have heard ample expert evidence this 10:16:27 past week that, in fact, the project was buildable; 10:16:30 the timelines were achievable; and that the project, 10:16:36 more likely than not, would have succeeded had the 10:16:40 moratorium not been imposed upon it. 10:16:43 And in making that submission, I also urge you to 10:16:50 any expert on Canada's side that, in fact — from 10:16:54 any qualified expert on Canada's side, I should say, 10:16:58 with experience in offshore wind development, with 10:17:01 experience in offshore wind construction to say 10:17:03

	Page 112		Page 113
1	You have heard evidence from 10:17:14	1 apr	propriate. 10:18:29
2	Windstream's experts that actually it was, and I 10:17:17	2	Mr. Roberts you heard from him. 10:18:33
3	will try attempt to take you through these slides 10:17:19	3 He'	s an expert witness with substantial experience 10:18:35
4	very quickly. 10:17:23		h Renewable Energy Approvals confirms that the 10:18:38
5	Here is the project schedule that you 10:17:24		elines set out in the project schedule was more 10:18:42
6	have seen already, the simplified version of it, 10:17:25		ely was achievable and would more likely than 10:18:45
7	that sets out what we say or what Windstream's 10:17:29		have been met. 10:18:48
8	experts say the project development timeline would 10:17:32	8	Here we've given you some excerpts 10:18:51
9	have been had the moratorium not been imposed on the 10:17:35	9 from	m expert reports that you did not hear. 10:18:53
10	project. And, of course, you'll see that these 10:17:39	10	MR. TERRY: For the record, my note 10:18:57
11	timelines were extendable by additional force 10:17:42	11 say	s, "Take your time." 10:18:59
12	majeure that would have been available, for example, 10:17:44	12	MS. SEERS: Take your time. That's a 10:19:00
13	in the event of permitting delays or any other 10:17:46	13 nev	v one. I haven't heard that one from Mr. Terry 10:19:00
14	unforeseeable events. 10:17:49	14 bef	ore. Usually they say, "Stop talking." 10:19:04
15	We have given you a chart here on this 10:17:51	15	So, at the top, my the speed at 10:19:08
16	slide which we hope will be helpful. You saw a 10:17:53	16 wh	ich I'm talking will slow down now. At the top, 10:19:10
17	version of it in our opening statement. What we 10:17:57	17 you	have an excerpt from the expert report of Payam 10:19:12
18	have added to the end of it, it explains the 10:17:59	18 Asl	ntiani from Aercoustics, who actually conducted 10:19:17
19	discrepancies between the experts on both sides, in 10:18:03	19 noi	se measurements at the site, actual noise 10:19:22
20	terms of project schedule. And we have added a 10:18:06		asurements at the site, using the turbines that 10:19:26
21	comment at the end about why Canada's evidence on 10:18:09	21 are	actually the Siemens 2.3-megawatt turbines 10:19:28
22	with respect to each particular point should be 10:18:13		t are actually installed on Wolfe Island. And he 10:19:30
23	rejected. And we submit that Canada's experts have 10:18:16		k he took measurements from an offshore 10:19:35
24	not, in fact, succeeded in establishing that the 10:18:21		ation to measure the sound that travels across 10:19:38
25	project schedule put forward by Windstream was not 10:18:26	25 the	water in that particular area, and he found that 10:19:40

I give you an excerpt here from the 10:26:55 testimony of Mr. Kolberg who says applying a label 10:26:57
2 3 4 5 6 7 8 9 10 11 12 13 14	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:38	2 3 4 5 6 7 8 9 10 11 12 13 14	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:55 Canada's side. I give you an excerpt here from the 10:26:55 testimony of Mr. Kolberg who says applying a label 10:26:57
2 3 4 5 6 7 8 9 10 11 12 13 14 15	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:38 timeline." 10:25:39 A couple of other issues that arose in 10:25:40 response to the URS report alleging that somehow 10:25:48	2 3 4 5 6 7 8 9 10 11 12 13 14 15	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:55 testimony of Mr. Kolberg who says applying a label 10:26:57 "first of a kind," in his opinion, isn't 10:27:00
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:38 timeline." 10:25:39 A couple of other issues that arose in 10:25:40	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:52 Canada's side. I give you an excerpt here from the 10:26:57 "first of a kind," in his opinion, isn't 10:27:00 particularly relevant or accurate, because all of 10:27:04
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:39 A couple of other issues that arose in 10:25:40 response to the URS report alleging that somehow 10:25:52	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:52 Canada's side. I give you an excerpt here from the 10:26:57 "first of a kind," in his opinion, isn't 10:27:00 particularly relevant or accurate, because all of 10:27:04 the components that are at issue with respect to an 10:27:08
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:39 A couple of other issues that arose in 10:25:40 response to the URS report alleging that somehow 10:25:52 of a problem for the project: You'll recall Mr. 10:25:56	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:52 Canada's side. I give you an excerpt here from the 10:26:55 testimony of Mr. Kolberg who says applying a label 10:26:57 "first of a kind," in his opinion, isn't 10:27:00 particularly relevant or accurate, because all of 10:27:08 offshore wind project are well used, well 10:27:11
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:39 A couple of other issues that arose in 10:25:40 response to the URS report alleging that somehow 10:25:52 of a problem for the project: You'll recall Mr. 10:25:56 Kolberg being somewhat perplexed and saying he has: 10:25:59	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:52  Canada's side. I give you an excerpt here from the 10:26:55 testimony of Mr. Kolberg who says applying a label 10:26:57 "first of a kind," in his opinion, isn't 10:27:00 particularly relevant or accurate, because all of 10:27:04 the components that are at issue with respect to an 10:27:11 understood, and well known in the Great Lakes. So, 10:27:14
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:38 timeline." 10:25:39 A couple of other issues that arose in 10:25:40 response to the URS report alleging that somehow 10:25:52 of a problem for the project: You'll recall Mr. 10:25:56 Kolberg being somewhat perplexed and saying he has: 10:25:59 "no other way of putting 10:26:02	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:52  Canada's side. I give you an excerpt here from the 10:26:57 "first of a kind," in his opinion, isn't 10:27:00 particularly relevant or accurate, because all of 10:27:04 the components that are at issue with respect to an 10:27:11 understood, and well known in the Great Lakes. So, 10:27:14 in his opinion, applying this kind of a label 10:27:17
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:38 timeline." 10:25:39 A couple of other issues that arose in 10:25:40 response to the URS report alleging that somehow 10:25:48 rogue waves in the Great Lakes would pose some sort 10:25:52 of a problem for the project: You'll recall Mr. 10:25:56 Kolberg being somewhat perplexed and saying he has: 10:25:59 "no other way of putting 10:26:02 it. This is false. There is 10:26:03	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:52  Canada's side. I give you an excerpt here from the 10:26:55 testimony of Mr. Kolberg who says applying a label 10:26:57 "first of a kind," in his opinion, isn't 10:27:00 particularly relevant or accurate, because all of 10:27:04 the components that are at issue with respect to an 10:27:11 understood, and well known in the Great Lakes. So, 10:27:14 in his opinion, applying this kind of a label 10:27:20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21 You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:38 timeline." 10:25:39 A couple of other issues that arose in 10:25:40 response to the URS report alleging that somehow 10:25:48 rogue waves in the Great Lakes would pose some sort 10:25:52 of a problem for the project: You'll recall Mr. 10:25:56 Kolberg being somewhat perplexed and saying he has: 10:25:59 "no other way of putting 10:26:02 it. This is false. There is 10:26:03 no evidence to support that 10:26:05	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	their report was that they had consulted with a 10:26:13 friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26 the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:35 their experience in connection with offshore wind 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:52  Canada's side. I give you an excerpt here from the 10:26:55 testimony of Mr. Kolberg who says applying a label 10:26:57 "first of a kind," in his opinion, isn't 10:27:00 particularly relevant or accurate, because all of 10:27:04 the components that are at issue with respect to an 10:27:08 offshore wind project are well used, well 10:27:11 understood, and well known in the Great Lakes. So, 10:27:14 in his opinion, applying this kind of a label 10:27:20  More likely than not, the project 10:27:26
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	waterfront and offshore structures and that COWI was 10:25:05 his firm, COWI, which is based in Denmark, was 10:25:07 actually the designer of the very first offshore 10:25:11 wind farm in Denmark and that COWI holds a 14 10:25:14 percent market share over all commissioned offshore 10:25:19 wind farms. 10:25:21  You heard from Mr. Roeper, the 10:25:22 engineer acting as project manager for Windstream. 10:25:24 As he saw it at the time, the project schedule was 10:25:30 doable. And he said: 10:25:33  "What you do, when you manage 10:25:34 a project is you design your 10:25:36 program around meeting a 10:25:38 timeline." 10:25:39  A couple of other issues that arose in 10:25:40 response to the URS report alleging that somehow 10:25:48 rogue waves in the Great Lakes would pose some sort 10:25:52 of a problem for the project: You'll recall Mr. 10:25:56 Kolberg being somewhat perplexed and saying he has: 10:25:59  "no other way of putting 10:26:02 it. This is false. There is 10:26:03 no evidence to support that 10:26:05 whatsoever." 10:26:06	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	their report was that they had consulted with a friend of theirs and accepted that that was the 10:26:17 case, but that it was probably not admissible 10:26:21 evidence. 10:26:24  I insert that here simply to assist 10:26:26  the Tribunal in weighing the credibility of the 10:26:29 experts that have been put forward by Windstream and 10:26:38 development versus the experts that have been put 10:26:40 forward by Canada in this case. 10:26:42  The label "first of a kind" has been 10:26:48 used a lot in the URS report and elsewhere on 10:26:52 Canada's side. I give you an excerpt here from the 10:26:55 testimony of Mr. Kolberg who says applying a label 10:26:57 "first of a kind," in his opinion, isn't 10:27:00 particularly relevant or accurate, because all of 10:27:08 offshore wind project are well used, well 10:27:11 understood, and well known in the Great Lakes. So, 10:27:14 in his opinion, applying this kind of a label 10:27:26 would have received the required financing. You 10:27:28

	Page 120		Page 121
1	various kinds. And he says: 10:27:41	1	pricing and timing certainty for investors. The 10:28:35
2	"The FIT contract gives us 10:27:43	2	investment community in Ontario, in his view, viewed 10:28:40
3	tremendous advantage in that 10:27:45	3	FIT contracts extremely favourably because they 10:28:43
4	regard. So you could 10:27:46	4	simplified the development process by putting the 10:28:47
5	essentially be assured that 10:27:48	5	contract first. And he mentioned that the that 10:28:49
6	you would have interest in 10:27:49	6	the equity providers for the project, so the 10:28:54
7	financing. You'd have a high 10:27:50	7	principals behind Windstream, had committed equity 10:28:58
8	degree of probability, the 10:27:52	8	and had a proven track record of raising debt and 10:29:01
9	wherewithal to put the 10:27:54	9	equity. 10:29:04
10	project together. You have a 10:27:55	10	I have several slides here that also 10:29:09
11	fixed price, which is a 10:27:57	11	hopefully will be helpful to you on the issue of 10:29:12
12	tremendous advantage. Your 10:27:59	12	pragmatism, which also became a bit of a theme in 10:29:16
13	financiers know what the 10:28:00	13	responding to to the suggestion that had been 10:29:19
14	price is going in, and it 10:28:02	14	made that certain things were not guaranteed or that 10:29:23
15	puts you in a totally 10:28:04	15	certain delays would have occurred and so on. And 10:29:25
16	different category." 10:28:05	16	we submit that, more likely than not, had that 10:29:29
17	You heard from Mr. Remo Bucci, who is 10:28:06	17	occurred, had, for example, permitting delays 10:29:32
18	a project finance he's put forward as an expert 10:28:13	18	occurred, the OPA would, more likely than not, have 10:29:36
19	witness in project financing from Deloitte. And he 10:28:17	19	worked pragmatically with Windstream to adjust those 10:29:39
20	said the project was likely to reach financial close 10:28:19	20	delays, because that's what it has that's what it 10:29:42
21	if not for the moratorium. 10:28:22	21	has, in fact, done. 10:29:44
22	He mentioned the Government's support 10:28:24	22	You have testimony from Sarah Powell 10:29:45
23	conditions for renewable energy that had been 10:28:27	23	to that effect; that the OPA's willing to work with 10:29:50
24	created through the FIT program and that he 10:28:30	24	developers to ensure that their projects get built 10:29:53
25	mentioned specifically that the FIT contract created 10:28:33	25	out. She also says that the OPA was pragmatic, and 10:29:57
	Page 122		Page 123
1	to the extent that there was delay, they would 10:30:03	1	projects that were, in fact, built. Even though 10:31:35
2	likely, in her view, have considered some form of 10:30:06	2	they were they achieved commercial operation past 10:31:37
3	extension. 10:30:09	3	their original milestone dates for commercial 10:31:41
4	She says that the OPA was still 10:30:12	4	operation, they were built. The projects got built. 10:31:43
5	committed to ensuring that the program, the FIT 10:30:14	5	Why? Because the OPA adopted a pragmatic approach 10:31:47
6		l .	
_	program, was a success and that they did that by 10:30:17	6	in dealing with the proponents to ensure that that 10:31:50
7	being commercially reasonable in the FIT contract. 10:30:19	7	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53
8	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22	7 8	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56
8 9	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28	7 8 9	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58
8 9 10	being commercially reasonable in the FIT contract. 10:30:19  They wanted to see the stuff be built. It was a 10:30:22  cornerstone of their commitment to the economy to 10:30:28  ensure that the FIT program was a success. 10:30:31	7 8 9 10	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58  Energy in 2011 to grant a one-year extension to 10:32:00
8 9 10 11	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38	7 8 9 10	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06
8 9 10 11 12	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41	7 8 9 10 11	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10
8 9 10 11 12 13	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45	7 8 9 10 11 12 13	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14
8 9 10 11 12 13	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49	7 8 9 10 11 12 13 14	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18
8 9 10 11 12 13 14	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51	7 8 9 10 11 12 13 14 15	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22
8 9 10 11 12 13 14 15	being commercially reasonable in the FIT contract. 10:30:19  They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51 I believe Mr. Cecchini's words were: 10:30:56	7 8 9 10 11 12 13 14	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58  Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22 during the project's life: 10:32:26
8 9 10 11 12 13 14	being commercially reasonable in the FIT contract. 10:30:19  They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51 I believe Mr. Cecchini's words were: 10:30:56 "The OPA always follows." 10:30:58	7 8 9 10 11 12 13 14 15	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22 during the project's life: 10:32:26  First, there's a general rule under 10:32:29
8 9 10 11 12 13 14 15 16	being commercially reasonable in the FIT contract. 10:30:19  They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51 I believe Mr. Cecchini's words were: 10:30:56	7 8 9 10 11 12 13 14 15 16	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22 during the project's life: 10:32:26  First, there's a general rule under 10:32:29 Ontario law that regulations do not have 10:32:32
8 9 10 11 12 13 14 15 16 17	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51 I believe Mr. Cecchini's words were: 10:30:56 "The OPA always follows." 10:30:58 You heard from Mr. Roberts of WSP that 10:31:04	7 8 9 10 11 12 13 14 15 16 17	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22 during the project's life: 10:32:26  First, there's a general rule under 10:32:32 Ontario law that regulations do not have 10:32:32
8 9 10 11 12 13 14 15 16 17 18	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51 I believe Mr. Cecchini's words were: 10:30:56 "The OPA always follows." 10:30:58 You heard from Mr. Roberts of WSP that 10:31:04 regulators and I believe he was talking about the 10:31:09	7 8 9 10 11 12 13 14 15 16 17 18	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22 during the project's life: 10:32:26  First, there's a general rule under 10:32:32 Ontario law that regulations do not have 10:32:37
8 9 10 11 12 13 14 15 16 17 18 19 20	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51 I believe Mr. Cecchini's words were: 10:30:56 "The OPA always follows." 10:30:58 You heard from Mr. Roberts of WSP that 10:31:04 regulators and I believe he was talking about the 10:31:09 OPA. Yes, he's talking about the OPA. "They deal 10:31:13	7 8 9 10 11 12 13 14 15 16 17 18 19 20	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22 during the project's life: 10:32:26  First, there's a general rule under 10:32:32 Ontario law that regulations do not have 10:32:37 statutory authority to give the regulation 10:32:40
8 9 10 11 12 13 14 15 16 17 18 19 20 21	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51 I believe Mr. Cecchini's words were: 10:30:56 "The OPA always follows." 10:30:58 You heard from Mr. Roberts of WSP that 10:31:04 regulators and I believe he was talking about the 10:31:09 OPA. Yes, he's talking about the OPA. "They deal 10:31:13 with regulatory delays in a reasonable manner." "They10:31:15	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22 during the project's life: 10:32:26  First, there's a general rule under 10:32:29 Ontario law that regulations do not have 10:32:37 retrospective application. So absent clear 10:32:40 retrospective application or necessarily implied 10:32:45
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	being commercially reasonable in the FIT contract. 10:30:19 They wanted to see the stuff be built. It was a 10:30:22 cornerstone of their commitment to the economy to 10:30:28 ensure that the FIT program was a success. 10:30:31 You heard from Mr. Benedetti that FIT 10:30:38 contract extensions had happened several times and, 10:30:41 in fact, Mr. Cecchini confirmed that as well, 10:30:45 specifically with respect to extensions that had 10:30:49 been granted based on Ministerial directions that 10:30:51 I believe Mr. Cecchini's words were: 10:30:56 "The OPA always follows." 10:30:58 You heard from Mr. Roberts of WSP that 10:31:04 regulators and I believe he was talking about the 10:31:09 OPA. Yes, he's talking about the OPA. "They deal 10:31:13 with regulatory delays in a reasonable manner." "They10:31:15 don't impose on the developer to have to sort that 10:31:20	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	in dealing with the proponents to ensure that that 10:31:50 happened. 10:31:53  And here I have given you the 10:31:56 direction or the request from the Deputy Minister of 10:31:58 Energy in 2011 to grant a one-year extension to 10:32:00 onshore onshore wind FIT contract holders to deal 10:32:06 with the issue of permitting delays. 10:32:10  Lastly, in answer to your question of 10:32:14 yesterday, what the impact of amendments to the REA 10:32:18 regulation would be if such amendments were adopted 10:32:22 during the project's life: 10:32:26  First, there's a general rule under 10:32:29 Ontario law that regulations do not have 10:32:37 statutory authority to give the regulation 10:32:45 language in the statute, regulations do not apply 10:32:47

	Page 124		Page 125
1	regulation such that amendments do not apply to 10:32:58	1	So this section is about the DCF 10:34:15
2	existing projects, and you will find those in Part 10:33:02	2	approach, and our submission is that it's the 10:34:19
3	VIII of the REA Regulation 10:33:04	3	appropriate approach for the valuation of the 10:34:23
4	However, MOE does have the power to 10:33:07	4	quantification in this case. And we have excerpted 10:34:26
5	impose new conditions on an existing REA, Renewable 10:33:10	5	in this slide the slide that you saw from Deloitte 10:34:31
6	Energy Approval, such that any new requirements that 10:33:14	6	with respect to the reasons for this revenue 10:34:33
7	were to be adopted during the life of a project 10:33:17	7	forecast with a high degree of confidence. The 10:34:38
8	could be managed on an ongoing basis forgive me 10:33:19	8	majority of capital costs would have been 10:34:41
9	for using the word pragmatic again in a pragmatic 10:33:24	9	contractual. Engineering doesn't involve any novel 10:34:44
10	way through conditions of the Renewable Energy 10:33:27	10	technology. Operating costs expected to be 10:34:47
11	Approval 10:33:29	11	relatively stable. Benchmark operating capital 10:34:50
12	And with that, I will turn it back to 10:33:32	12	costs available. And you will remember the reliance 10:34:53
13	Mr Terry to address the discounted cash flow 10:33:34	13	particularly on 4C. Regulatory risk accounted for 10:34:55
14	valuation 10:33:38	14	in the discount rate. 10:35:00
15	PRESIDENT: Thank you very much, Ms 10:33:39	15	So their conclusion, as a result: 10:35:03
16	Seers 10:33:40	16	"The inputs to the DCF 10:35:04
17	CONTINUED CLOSING SUBMISSIONS BY MR TERRY: 10:33:41	17	approach can be estimated in 10:35:06
18	PRESIDENT: Mr Terry 10:33:45	18	a reliable manner with a 10:35:07
19	MR TERRY: Thank you Perhaps I will 10:33:46	19	relatively high degree of 10:35:09
20	just ask Mr Kennedy to pass up to the Tribunal 10:33:54	20	confidence, i.e., not 10:35:10
21	in our haste to put this together, we there were 10:34 01	21	speculative." 10:35:12
22	a couple of documents we left out, so I'll pass them 10:34:05	22	And in this respect, I make the point 10:35:13
23	up to you now I won't be addressing them right 10:34:07	23	that, as you've heard from Ms. Seers, we, on the 10:35:16
24	away, but I'll address them in about 10 minutes when 10:34:10	24	Claimant's side, have gone to a considerable effort 10:35:20
25	I get to this point 10:34:13	25	to retain experts with the appropriate 10:35:24
	Page 126		
	Fage 120		Page 127
1		1	_
1 2	qualifications to provide the Tribunal with the 10:35:28	1 2	assessment of this issue and, again, reliance on 10:36:50
2	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32	2	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51
2	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34	2 3	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56
2	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39	2	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59
2 3 4	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41	2 3 4	assessment of this issue and, again, reliance on - 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03
2 3 4 5	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42	2 3 4 5	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09
2 3 4 5 6	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46	2 3 4 5 6	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12
2 3 4 5 6 7	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49	2 3 4 5 6 7	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09
2 3 4 5 6 7 8	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46	2 3 4 5 6 7 8	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14
2 3 4 5 6 7 8	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51	2 3 4 5 6 7 8	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19
2 3 4 5 6 7 8 9	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54	2 3 4 5 6 7 8 9	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23
2 3 4 5 6 7 8 9 10	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01	2 3 4 5 6 7 8 9 10	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28
2 3 4 5 6 7 8 9 10 11	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03	2 3 4 5 6 7 8 9 10 11	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31
2 3 4 5 6 7 8 9 10 11 12	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07	2 3 4 5 6 7 8 9 10 11 12 13	assessment of this issue and, again, reliance on — 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33
2 3 4 5 6 7 8 9 10 11 12 13	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07 We cite the arbitral jurisprudence, 10:36:11	2 3 4 5 6 7 8 9 10 11 12 13	assessment of this issue and, again, reliance on — 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:37
2 3 4 5 6 7 8 9 10 11 12 13 14 15	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07  We cite the arbitral jurisprudence, 10:36:11 and we put this in our opening as well, the case 10:36:13	2 3 4 5 6 7 8 9 10 11 12 13 14 15	assessment of this issue and, again, reliance on — 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07  We cite the arbitral jurisprudence, 10:36:11 and we put this in our opening as well, the case 10:36:13 law, the Stati case law emphasizing that you can 10:36:16	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:40 in the record Mr. Goncalves' expert evidence in 10:37:43
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07  We cite the arbitral jurisprudence, 10:36:11 and we put this in our opening as well, the case 10:36:16 apply DCF in a situation even when there isn't a 10:36:20	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:37 And we also talked about and it's 10:37:43 in the record Mr. Goncalves' expert evidence in 10:37:43 the Mesa Power case. And in looking at the 10:37:47
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	qualifications to provide the Tribunal with the 10:35:28 evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07  We cite the arbitral jurisprudence, 10:36:11 and we put this in our opening as well, the case 10:36:16 apply DCF in a situation even when there isn't a 10:36:20 perennial or a track record of operations. A key 10:36:25	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:37 And we also talked about and it's 10:37:40 in the record Mr. Goncalves' expert evidence in 10:37:47 transcript, you'll see that he acknowledges that, in 10:37:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	qualifications to provide the Tribunal with the evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07  We cite the arbitral jurisprudence, 10:36:11 and we put this in our opening as well, the case 10:36:13 law, the Stati case law emphasizing that you can 10:36:20 perennial or a track record of operations. A key 10:36:25 factor is whether there's a binding contractual 10:36:29	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:37 And we also talked about and it's 10:37:40 in the record Mr. Goncalves' expert evidence in 10:37:47 transcript, you'll see that he acknowledges that, in 10:37:51 the Mesa Power case, he applied a DCF analysis 10:37:52
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	qualifications to provide the Tribunal with the evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07  We cite the arbitral jurisprudence, 10:36:11 and we put this in our opening as well, the case 10:36:13 law, the Stati case law emphasizing that you can 10:36:20 perennial or a track record of operations. A key 10:36:25 factor is whether there's a binding contractual 10:36:29 revenue obligation in place that establish the 10:36:32	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:37 And we also talked about and it's 10:37:40 in the record Mr. Goncalves' expert evidence in 10:37:47 transcript, you'll see that he acknowledges that, in 10:37:51 the Mesa Power case, he applied a DCF analysis 10:37:56 the permitting stages that he has talked about here 10:37:59 or any of the indicia was that there may have been 10:38:01
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	qualifications to provide the Tribunal with the evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:07  We cite the arbitral jurisprudence, 10:36:11 and we put this in our opening as well, the case 10:36:13 law, the Stati case law emphasizing that you can 10:36:20 perennial or a track record of operations. A key 10:36:25 factor is whether there's a binding contractual 10:36:32 expectation of profit. 10:36:33	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:37 And we also talked about and it's 10:37:40 in the record Mr. Goncalves' expert evidence in 10:37:47 transcript, you'll see that he acknowledges that, in 10:37:51 the Mesa Power case, he applied a DCF analysis 10:37:56 the permitting stages that he has talked about here 10:37:59
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	qualifications to provide the Tribunal with the evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is 10:35:34 obviously an assessment that's made in a but-for 10:35:39 world. 10:35:41  And so for that reason, we, again, 10:35:42 emphasize, when you are considering the experts put 10:35:46 forward on both sides, in our submission, it's very 10:35:49 clear that the experts put forward on the Claimant's 10:35:51 side have the experience and, in my submission, the 10:35:54 appropriate expertise and the credibility to be able 10:36:01 to make the appropriate provide you with the 10:36:03 appropriate evidence to make these determinations. 10:36:11 and we put this in our opening as well, the case 10:36:13 law, the Stati case law emphasizing that you can 10:36:16 apply DCF in a situation even when there isn't a 10:36:20 perennial or a track record of operations. A key 10:36:25 factor is whether there's a binding contractual 10:36:29 revenue obligation in place that establish the 10:36:33 And this is true, as the Tribunal says 10:36:38 had we also rely on the Karaha Bodas 10:36:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	assessment of this issue and, again, reliance on 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:37 And we also talked about and it's 10:37:40 in the record Mr. Goncalves' expert evidence in 10:37:47 transcript, you'll see that he acknowledges that, in 10:37:51 the Mesa Power case, he applied a DCF analysis 10:37:52 despite the fact that the only evidence of any of 10:37:59 or any of the indicia was that there may have been 10:38:01 certain land agreements in place, but, otherwise, 10:38:05 there was nothing on that scale. 10:38:07
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	qualifications to provide the Tribunal with the evidentiary basis to make those determinations as to 10:35:32 as to the level of confidence in what is as to the level of confidence in what is as to the level of confidence in what is as to the level of confidence in what is as to the level of confidence in what is as to the level of confidence in what is 10:35:34  obviously an assessment that's made in a but-for 10:35:39  world.  And so for that reason, we, again, 10:35:42  emphasize, when you are considering the experts put 10:35:49  clear that the experts put forward on the Claimant's 10:35:51  side have the experience and, in my submission, the 10:35:54  appropriate expertise and the credibility to be able 10:36:01  to make the appropriate provide you with the 10:36:03  appropriate evidence to make these determinations 10:36:07  We cite the arbitral jurisprudence, 10:36:11  and we put this in our opening as well, the case 10:36:13  law, the Stati case law emphasizing that you can apply DCF in a situation even when there isn't a 10:36:13  apply DCF in a situation even when there isn't a 10:36:20  peremial or a track record of operations. A key 10:36:29  revenue obligation in place that establish the 10:36:32  expectation of profit 10:36:38  And this is true, as the Tribunal says 10:36:38	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	assessment of this issue and, again, reliance on — 10:36:50 this is a PPA agreement in Indonesia and reliance on 10:36:51 a contractual obligation to purchase power, so I 10:36:56 would recommend that case to you as well. 10:36:59 You'll recall just two days ago when 10:37:03 Mr. Goncalves from BRG was testifying as to the 10:37:09 stage of the project, and you'll recall that 10:37:12 Deloitte puts the project in a late-stage situation. 10:37:14 BRG puts it in an early-stage situation. I explored 10:37:19 with Mr. Goncalves how and why he had done that and 10:37:23 why, for example, he had put the X on site wind 10:37:28 assessment and an X on interconnection agreement 10:37:31 when, according to the evidence of Mr. Cecchini, the 10:37:33 OPA was guaranteeing that grid space. 10:37:37 And we also talked about — and it's 10:37:40 in the record — Mr. Goncalves' expert evidence in 10:37:43 the Mesa Power case. And in looking at the 10:37:51 the Mesa Power case, he applied a DCF analysis 10:37:56 the permitting stages that he has talked about here 10:37:59 or any of the indicia was that there may have been 10:38:01 certain land agreements in place, but, otherwise, 10:38:05

#### Page 128 Page 129 1 1 Mr. Goncalves' evidence -- and I appreciate that he 10:38:15 the date of the award, and it's appropriate to take 10:39:27 2 2 -- that his stance on the issue had moved. He said 10:38:18 into account hindsight, as Ms. Seers said. But even 10:39:30 3 3 it was informed by additional evidence, Green 10:38:21 in the event that the valuation is the earlier date, 10:39:33 4 4 Giraffe and others, to say DCF was not the 10:38:24 it's important to look closely at -- in terms of the 10:39:36 5 5 appropriate methodology. But I would submit that 10:38:26 current information versus past information and 10:39:40 6 6 it's appropriate to consider, in particular, what he 10:38:29 what's reasonable to consider in terms of 10:39:42 7 7 said now. And he said, you know, he had concerns in 10:38:33 expectations even at the time as to technology 10:39:45 8 his -- in the Rejoinder report about this, and he 8 evolving, schedules, for example, evolving. 10:39:49 10:38:38 9 9 said you have to apply the DCF prudently and 10:38:40 We had evidence from -- from 10:39:52 10 10 responsibly, and we don't disagree, and Mr. Low 10:38:45 Mr. Irvine about, you know, schedules would go 10:39:53 11 doesn't disagree with it. We think it is being 10:38:47 11 through 30 iterations and the importance to look at 10:39:56 12 12 applied prudently and responsibly here, and we think 10:38:50 this, you know, in context and with a reasonable 10:39:59 13 we've got the evidence to -- to establish that. 13 assumption that these -- that, as you move forward 10:40:03 10:38:53 14 14 And I should mention, you know, beyond 10:38:54 through the but-for world, you would have these 10:40:05 15 15 the issue with respect to valuation date and taking 10:38:56 assessments occurring. You would have schedules 10:40:08 16 16 into account current information, obviously the 10:38:59 being reconsidered. You would have -- you'd have 10:40:09 17 17 experts on both sides are, to some extent, in some 10:39:02 various things occurring in light of further 10:40:12 18 cases, relying on contemporaneous information. You 10:39:04 18 knowledge. And, you know, technological 10:40:14 19 know, we have examples, for example, of turbine 10:39:07 19 developments and all that is consistent, in my 10:40:19 20 20 costs back in 2010 and other information in 2010. submission, with -- with the reasonable assumptions 10:40:21 10:39:10 21 21 We also have examples of information beyond that, you take in place in terms of doing a valuation. 10:39:13 10:40:23 22 22 Now, for DCF assessment, you look at and, you know, we have experts from both sides 10:39:16 10:40:26 23 23 obtaining information on that basis. 10:39:19 revenue, cost, and the discount rate. Revenue --10:40:31 24 24 Our -- our position is the -- that the 10:39:21 and this is -- again, it's a Deloitte slide. 10:40:34 25 25 valuation date is -- for unlawful expropriation is 10:39:24 Deloitte emphasizes here that the certainty tied 10:40:38 Page 130 Page 131 1 10:40:41 1 10:41:59 with revenue in terms of figuring out both the in our submission, Mr. Aukland is the most 2 2 likely wind resource and the energy levels that 10:40:44 authoritative expert to look to in terms of costs. 10:42:02 3 would flow from that. And I -- Mr. Goncalves, from 10:40:47 3 You can see this is the chart he used to show how 10:42:05 4 BRG, was emphasizing that, on the basis of past 10:40:51 4 the capital costs estimates align with other wind 10:42:08 5 information, a newspaper article that, in fact, you 10:40:56 5 farms here and particularly in the context of 10:42:13 6 know, wind resource estimates weren't very accurate; 10:40:59 6 comparable wind farms. And he talked, of course, 10:42:17 7 could be off by five to 20 percent. 7 10:41:02 about some of the Baltic Sea and other wind farms 10:42:19 8 8 10.42.22 And if you look at his slides, he's 10:41:04 being comparable. 9 9 suggesting, then, that it should be -- you should 10:41:06 On the issue of turbine costs, this is 10:42:26 10 10 lower the amount of revenue, basically assume that 10:41:07 the slide that -- the next slide here that Mr. 10:42:28 11 11 the wind was blowing at 5 to 10 percent less every 10:41:09 Aukland relied on in terms of showing how he came to 10:42:32 12 12 year. And on a P50 analysis, of course, you go plus 10:41:12 his assessment of turbine costs here and the various 10:42:36 13 13 markers in addition to the Conference Board of or minus 50 percent. You don't assume that the wind 10:41:16 10:42:41 14 14 resource is going to be less every year. So, in my 10:41:18 Canada. And there are two particularly interesting 10:42:43 15 submission, that should not be a -- that's not a 15 data points here. 10:42:46 10:41:21 16 16 reasonable assumption to make. 10:41:23 The Conference Board of Canada report, 10:42:47 17 17 Here is Mr. Irvine who talks about the 10:41:25 which, as you heard, was a Vestas estimate of the 18 robust resource, wind resource, and bankable energy 10:41:26 18 actual costs for the 300-megawatt Wolfe Island 10:42:54 19 unit. And Mr. Goncalves acknowledged that one of 19 Shoals wind farm, and that was in December 2010. So 10:42:58 20 20 very contemporaneous information there. And then the firms, Garrad Hassan, who had done this work, 10:41:36 21 21 was a leading firm in this area. you also saw the AECOM document using figures from 10:43:05 22 22 With respect to project costs, we also 10:41:43 Mott McDonald, one of the leading offshore energy 10:43:08 23 23 had primarily the evidence of 4C, and the URS firms, again with capital costs. You'll recall, 24 24 experts confirmed that they had been relying, for 10:41:52 when you look at the record, the capital costs in 10:43:15 25 virtually all of their information, from 4C. And, 10:41:57 25 the AECOM report, in 2010, falling within that same 10:43:17

	Page 132		Page 133
1	range of the capital costs that 4C came up with. 10:43:23	1	and expert witnesses, appear to agree that the 10:44:41
2	And, in our submission, that evidence from 4C is the 10:43:27	2	agreement would likely be renegotiated. 10:44:43
3	most reliable in terms of assessing what the costs 10:43:31	3	And, of course, the way the agreement worked, there 10:44:45
4	should be. 10:43:33	4	was essentially an option on the part of Windstream 10:44:47
5	There is a lot of discussion of the 10:43:35	5	as to whether they wanted to trigger a binding offer 10:44:50
6	Turbine Supply Agreement and whether or not that 10:43:37	6	process that would allow the agreement to go ahead. 10:44:53
7	should be that should be a how that should be 10:43:41	7	So the question then is, whether 10:44:56
8	treated in assessing costs in a but-for world. 10:43:45	8	you know, of there was renegotiation, would the 10:44:59
9	And, in our submission, that cannot be 10:43:49	9	agreement have been renegotiated in a manner that 10:45:02
10	treated as an ordinary-course-of-business contract. 10:43:52	10	would allow the project to proceed or not. As we 10:45:04
11	Bear in mind a moratorium was in place at the time. 10:43:55	11	understood the evidence from the Respondent's 10:45:06
12	There was essentially with the pending Ontario 10:43:58	12	witnesses on this side, the argument was that 10:45:09
13	election and a potential of a new government to come 10:44:02	13	Siemens would've would've held firm at the 10:45:14
14	in, the Liberal government was quite wanted to 10:44:05	14	contract price, even if it was going to cause the 10:45:17
15	ensure that, in general, wind projects would not 10:44:09	15	project to not be economic to go forward. 10:45:20
16	be that the program would not be cancelled by the 10:44:11	16	In our submission, the more reasonable 10:45:23
17	new government. They made this offer to all 10:44:14	17	assumption is that the parties would would 10:45:25
18	developers that the unilateral termination right 10:44:17	18	bargain in a way, and clearly Siemens would want to 10:45:29
19	that was otherwise available under the FIT contracts 10:44:20	19	maximize its price, but it would also not want to do 10:45:32
20	would be waived, if there were agreements that 10:44:23	20	so in a way that would kill the project. Both 10:45:34
21	showed domestic content of 50 percent. 10:44:26	21	parties would have an interest in proceeding. 10:45:37
22	It was on that basis that Windstream 10:44:28	22	Siemens would have an interest in being part of the 10:45:39
23	enters into this agreement. You will see, and it is 10:44:31	23	first North American offshore wind project. And it 10:45:41
24	clear in the record, this wasn't an agreement that 10:44:33	24	is not likely, as we say in the fourth bullet, that 10:45:46
25	was fully negotiated. And all of the experts, fact 10:44:35	25	Siemens would insist on a price that would make the 10:45:48
	was raily negotiated. The all of the enperior, there is not the		Deficies would make the 15 feb.
	Page 134		Page 135

1 2	_	1 2	
	project uneconomic or impose a schedule that would 10:45:50		market in North America for 10:46:39
2	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52	2	market in North America for 10:46:39 turbines at the time. They 10:46:41
2	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53	2 3	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42
2 3 4	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05	2 3 4	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48
2 3 4 5	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03	2 3 4 5	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46
2 3 4 5	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05	2 3 4 5	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48
2 3 4 5 6 7	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08	2 3 4 5 6 7	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48 Now, in terms of the we have done 10:46:48
2 3 4 5 6 7 8	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11	2 3 4 5 6 7 8	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48 Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54
2 3 4 5 6 7 8 9	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14	2 3 4 5 6 7 8	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48 Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53
2 3 4 5 6 7 8 9	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17	2 3 4 5 6 7 8 9	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48 Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54
2 3 4 5 6 7 8 9 10	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's the best indicator of what that price 10:46:20	2 3 4 5 6 7 8 9 10	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48 Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56
2 3 4 5 6 7 8 9 10 11 12 13 14	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And — and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's — the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22	2 3 4 5 6 7 8 9 10 11	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48 Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:59 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04
2 3 4 5 6 7 8 9 10 11 12	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:27	2 3 4 5 6 7 8 9 10 11 12 13	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48 Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01
2 3 4 5 6 7 8 9 10 11 12 13 14	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26	2 3 4 5 6 7 8 9 10 11 12 13	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:27  "It's not a realistic term in 10:46:28 price." 10:46:30	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11 into account and the various the permitting risks 10:47:13
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:30  He says: 10:46:30	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11 into account and the various the permitting risks 10:47:13 that it brings into its discount rate. 10:47:16
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:30  "It's not a realistic term in 10:46:31  "That price in the agreement 10:46:31	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11 into account and the various the permitting risks 10:47:13 that it brings into its discount rate. 10:47:16 And this is a slide from BRG which is 10:47:17
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And — and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's — the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:30  "It's not a realistic term in 10:46:31  is not relevant in the 10:46:31	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53 And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11 into account and the various the permitting risks 10:47:13 that it brings into its discount rate. 10:47:16 And this is a slide from BRG which is 10:47:17 helpful in showing the difference between the BRG 10:47:21
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And — and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's — the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:30  He says: 10:46:30  "That price in the agreement 10:46:31 is not relevant in the 10:46:33 marketplaces. The projects 10:46:33	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53  And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11 into account and the various the permitting risks 10:47:13 that it brings into its discount rate. 10:47:16  And this is a slide from BRG which is 10:47:17 helpful in showing the difference between the BRG 10:47:21 and the Deloitte analysis as to what the likely cost 10:47:25
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And — and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's — the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:30  He says: 10:46:30  "That price in the agreement 10:46:31 is not relevant in the 10:46:33 marketplaces. The projects 10:46:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53  And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11 into account and the various the permitting risks 10:47:13 that it brings into its discount rate. 10:47:16  And this is a slide from BRG which is 10:47:21 and the Deloitte analysis as to what the likely cost 10:47:25 of equity would have been in this case. What's 10:47:27
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our 10:46:03 submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:30  He says: 10:46:30  "That price in the agreement 10:46:31 is not relevant in the 10:46:33 marketplaces. The projects 10:46:35 their turbines. 10:46:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53  And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11 into account and the various the permitting risks 10:47:13 that it brings into its discount rate. 10:47:16  And this is a slide from BRG which is 10:47:21 and the Deloitte analysis as to what the likely cost 10:47:25 of equity would have been in this case. What's 10:47:27 important here and this really became clear from 10:47:30
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	project uneconomic or impose a schedule that would 10:45:50 cause it to fail. 10:45:52  And — and to the extent the Tribunal 10:45:53 is engaging that exercise of assessing whether a 10:46:00 reasonable assumption would be made, in our submission, it's appropriate to make a reasonable 10:46:05 assumption that Siemens would be incented in this 10:46:08 way and that, therefore, the price wouldn't go up. 10:46:11 The price would be adjusted to an amount that is 10:46:14 appropriate for the project to go ahead. And if 10:46:17 there's — the best indicator of what that price 10:46:20 would be would be the market price data that Mr. 10:46:22 Aukland put forward. 10:46:24  And you will see in this respect in 10:46:26 his testimony he says: 10:46:30  He says: 10:46:30  "That price in the agreement 10:46:31 is not relevant in the 10:46:33 marketplaces. The projects 10:46:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	market in North America for 10:46:39 turbines at the time. They 10:46:41 wanted to get on with this 10:46:42 project. The industry has a 10:46:44 good context. There was 10:46:46 ambition." 10:46:48  Now, in terms of the we have done 10:46:48 revenue and costs. The next question is the 10:46:51 discount rate. 10:46:53  And in this particular case, this is 10:46:54 the Deloitte slide setting out where they land on 10:46:56 the discount rate and, particularly, the cost of 10:46:59 equity, which seemed to be the major the most 10:47:01 important difference between the experts on this 10:47:04 issue. And you'll see here Deloitte's assessment in 10:47:06 applying the discount rate and the factors it takes 10:47:11 into account and the various the permitting risks 10:47:13 that it brings into its discount rate. 10:47:16  And this is a slide from BRG which is 10:47:21 and the Deloitte analysis as to what the likely cost 10:47:25 of equity would have been in this case. What's 10:47:27

	Page 136		Page 137
1	look on the left-hand side, not just the adding 10:47:41	1	the 2 percent. 10:48:56
2	on not just 4.2 percent for his offshore technology 10:47:43	2	And if you look at the proxy group that he uses, he 10:48:56
3	risk adjustment, but also adding an additional 10 10:47:47	3	also includes, as we discussed, two companies that 10:49:01
4	percent, which was construction risk premium, which 10:47:51	4	are also in half of their business is in offshore 10:49:03
5	he described — in answer to questions because I 10:47:54	5	wind. So, really, he's you know, he's adding an 10:49:06
6	talked to him about the the development of 10:47:57	6	offshore wind risk in the 4.2 percent, the 2 10:49:09
7	onshore projects, he said, well, that was for 10:48:00	7	percent, in our respectful submission, and also to 10:49:12
8	offshore wind as well. So he was adding on to the 10:48:01	8	this proxy group. 10:49:14
9	discount rate an additional six point or, sorry, 10:48:06	9	And the appropriate thing is you choose a proxy 10:49:15
10	the cost of equity, an additional 6.2 percent. And 10:48:08	10	group that's right, that includes offshore wind, and 10:49:17
11	if you if you take off those amounts, you end up 10:48:12	11	you use that proxy group, and you don't add on these 10:49:20
12	really with a discount rate that's roughly 10:48:14	12	additional amounts. 10:49:23
13	equivalent to the Deloitte discount rate. 10:48:16	13	And if you look at what was actually 10:49:23
14	And it'd important to look at what Mr. 10:48:19	14	being used in this case and this is the expert 10:49:25
15	Goncalves was relying on, and this is also important 10:48:22	15	Mr. Irvine the 2.3-megawatt turbine is the 10:49:28
16	because because he acknowledged that, at the time 10:48:25	16	workhorse of the industry. Thousands of these are 10:49:31
17	he wrote the report, he hadn't reviewed this Green-X 10:48:27	17	operating. He talked about how, you know, the 10:49:34
18	report. And and when you look at this Green-X 10:48:30	18	nacelles are cranked off in assembly line fashion. 10:49:35
19	report this is 2004 offshore wind engine has 10:48:32	19	This is not the complex technology, new technology, 10:49:39
20	not come of age. The track record is very limited. 10:48:36	20	the large turbines that are being discussed in the 10:49:41
21	Offshore wind turbines are new-type turbines. You 10:48:39	21	Green-X report. 10:49:44
22	know, this is the basis for that beta of 1.4 that 10:48:42	22	So, for those reasons, in our 10:49:45
23	leads to the 4.2 percent. Compare that with and 10:48:45	23	submission, when you examine the expert evidence 10:49:49
24	here's the confirmation from Christopher Goncalves 10:48:49	24	carefully and look at the support that each of 10:49:52
25	as to that he's applying this 4.2 percent plus 10:48:53	25	these, Deloitte and BRG, relied upon, the 10:49:55
	tas to that he's applying this 1.2 percent plats 10.10.00		unese, seronic and sereo, rened upon, are

To limit the recovery  10:51:59  commercially intolerable.  This is from Marboe:  "If an investment turns out  10:52:07
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	appropriate approach to cost of equity is the approach that Deloitte has taken. And it's not 10:50:03 appropriate to add on this offshore premium of 6.2 10:50:07 percent in this case, given the technology that was 10:50:09 being that was going to be used. 10:50:14  And remember that these 2.3-megawatt 10:50:16 turbines were the same turbines that were spinning 10:50:18  that are spinning on Wolfe Island Shoals or, 10:50:19 sorry, on Wolfe Island itself. 10:50:22  We've got the comparable transaction 10:50:25 approach as a check on this, and Deloitte, this is 10:50:27 their slide where they are discussing this and the 10:50:30 factors they have taken into account and their 10:50:34 discussion here with with Deloitte Denmark. 10:50:37  And these are the comparables they 10:50:41 come up with in their assessment as to how the Wolfe 10:50:44 Island Shoals compares to these comparables. This 10:50:48 is the evidence of Mr. Guillet who, as we noted, put 10:50:52 the project at somewhere between 0 and 60 million 10:50:57 Euros in terms of his charts and the comparables 10:51:00 that he was using. 10:51:04  Here is, as Ms. Seers indicated, the 10:51:11 testimony of Christopher Goncalves who essentially 10:51:15	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	also certainly no value:  "You ascribe no value  10:51:27  whatsoever to the FIT  10:51:28  contract. Is that right?  10:51:30  "Subject to what I have said, 10:51:31  yes."  10:51:33  And, in our submission, that's just 10:51:34  that evidence is not appropriate, as Ms. Seers 10:51:35  it's not appropriate in the context of a damages  10:51:40  realistic effort to come to terms with the question  10:51:42  as to what an appropriate market comparable would be 10:51:44  looking at reasonable assumptions.  10:51:47  We have said this before in our  10:51:51  opening, so I will be brief that the investment cost 10:51:52  approach is not appropriate. To limit the recovery 10:51:54  the victim to its actual expenditures is  10:52:02  This is from Marboe:  10:52:04  "If an investment turns out  10:52:09  the host State could be  10:52:13
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	appropriate approach to cost of equity is the approach that Deloitte has taken. And it's not 10:50:03 appropriate to add on this offshore premium of 6.2 10:50:07 percent in this case, given the technology that was 10:50:09 being that was going to be used. 10:50:14  And remember that these 2.3-megawatt 10:50:16 turbines were the same turbines that were spinning 10:50:18  that are spinning on Wolfe Island Shoals or, 10:50:19 sorry, on Wolfe Island itself. 10:50:22  We've got the comparable transaction 10:50:25 approach as a check on this, and Deloitte, this is 10:50:27 their slide where they are discussing this and the 10:50:30 factors they have taken into account and their 10:50:34 discussion here with with Deloitte Denmark. 10:50:37  And these are the comparables they 10:50:41 come up with in their assessment as to how the Wolfe 10:50:48 is the evidence of Mr. Guillet who, as we noted, put 10:50:52 the project at somewhere between 0 and 60 million 10:50:57 Euros in terms of his charts and the comparables 10:51:00 that he was using. 10:51:04  Here is, as Ms. Seers indicated, the 10:51:11	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	also certainly no value:  "You ascribe no value  10:51:27  whatsoever to the FIT  10:51:28  contract. Is that right?  10:51:30  "Subject to what I have said, 10:51:31  yes."  10:51:33  And, in our submission, that's just 10:51:34  that evidence is not appropriate, as Ms. Seers 10:51:35  it's not appropriate in the context of a damages  10:51:40  realistic effort to come to terms with the question  10:51:42  as to what an appropriate market comparable would be 10:51:44  looking at reasonable assumptions.  10:51:47  We have said this before in our  10:51:51  opening, so I will be brief that the investment cost 10:51:52  approach is not appropriate. To limit the recovery 10:51:54  the victim to its actual expenditures is  10:52:02  This is from Marboe:  10:52:04  "If an investment turns out  10:52:09  the host State could be  10:52:09

	Page 140		Page 141
1	taken not to link the amount 10:52:18	have sort of an unusual circumstance in this case 10	):53:21
2	of compensation or damages 10:52:19	where we have both the project that is in this limbo 10	
3	closely to the investment 10:52:20		0:53:28
4	actually undertaken if the 10:52:21	4 that could be brought on, whether it could have an 1	
5	investment has good future 10:52:22	opportunity to develop the project again, and it is 10	
6	prospects." 10:52:22	also because of various limitation periods like the 10	
7	So although the point can make for 10:52:22		10:53:39
8	good rhetoric and can make for, you know, good, 10:52:24	8 pursuing a NAFTA claim. 10:53:4	
9	demonstrable charts, it's not, in terms of a serious 10:52:27	t and a second as	10:53:42
10	assessment of the appropriate and serious task to be 10:52:29	COWIs, and others developing work, and there is	
11	taken here, it's not an appropriate approach to link 10:52:33		0:53:48
12	sunk costs to actual but-for analysis. And we have 10:52:37	between, you know, the real world and the moratorium	
13	included a slide from Deloitte on this point as 10:52:43		:53:57
14	well. 10:52:45		54:00
15	And then this is also we had, 10:52:48		54:02
16	obviously, evidence about the sunk costs, and we had 10:52:52		10:54:04
17	the evidence from Mr. Goncalves in terms of what 10:52:56	and the other reports should be simply discounted in	
18	the those involved in auditing sunk costs had 10:52:59		54:09
19	done or not done. And I would just, again, urge you 10:53:05		0:54:11
20	to read carefully the evidence on that and carefully 10:53:07	than that, and there's there are genuine reasons, 10::	
21	the evidence, including this, from Deloitte as to 10:53:10	as Mr. Irvine and others had said and Mr. Low had	
22	what has been done in this respect. 10:53:13	said that those reports you know, aside from the 10	
23	And it's really in general, it's 10:53:14	reply reports later on, that those reports that were 10:	
24	also important to keep in mind in terms of sunk 10:53:16		10:54:31
25	costs and amounts expended on the project that we 10:53:18	terms of developing schedules and others, should be	
	- Color and amounts of position project that he rotes is

NEUFELD:  MR. NEUFELD: Good morning Members of the Tribunal. As my kids reminded me on the phone 11:03:16  this morning, we're almost there. 11:03:16  [Laughter.] 11:03:18  MR. NEUFELD: One very quick remark 11:09:10  peter I begin: As you can, I'm sure, appreciate, 11:03:10  peter I begin: As you can, I'm sure, appreciate, 11:03:10  upsterday was a very busy day for us, both in terms 11:00  preparing this opening and the accompanying 11:00  understandably, there are some 11:03:37  there are a few typos and, in some instances, even 11:03:47  there are a few typos and, in some instances, even 11:03:47  exhibit is being cited on occasion, but not the 11:03:47  exhibit is being cited on occasion, but not the 11:03:57  Terry and Ms. Seers, and they don't seem to object 11:03  to us filing a corrected version electronically 11:04:03  after the fact, which, of course, will work the same 11:04  for them. 11:04:12	11:03:10 11:03:12 1:03:13 03:22 :23 03:29 03:32 3:39 :44 :44 :56 :44:02 :5 :409 4:13

## Page 144 Page 145 1 1 MR. NEUFELD: Perfect. Thanks. So 11:04:20 adopt an adequately informed policy framework on 2 2 11:04:21 offshore wind, to develop offshore wind development 11:05:38 Canada has organized its closing arguments as 3 3 follows: First, I'll provide a short overview of 11:04:24 with clear upfront rules is a breach of Article 1105 11:05:41 4 4 the -- of the law, and I plan to recap the principal 11:04:27 and, second, whether the Government violated NAFTA 11:05:46 5 5 provisions of the law of Article 1105, the minimum 11:04:29 Articles 1102, 1103, 1105, and 1110 by failing to 11:05:51 6 6 standard of treatment, and Article 1110, 11:04:35 complete the approvals framework and lift the 11:05:57 7 7 expropriation, right before I apply the facts to 11:04:38 deferral within a time frame dictated by the 11:06:01 8 that law. 11:04:41 8 Claimant. 11:06:04 9 9 We've made efforts to focus 11:04:43 You'll recall that the deferral had to 11:06:04 10 principally on the testimony that we have heard over 11:04:45 10 have been lifted -- or the Claimant needed to be 11 the past two weeks. Afterwards, Ms. Squires will 11:04:47 11 insulated from it's effects by May 22, 2012 for the 11:06:09 12 address the law on damages as well as the facts 12 Claimant to be able to meet its obligations under 11:06:15 11:04:51 13 pertaining to engineering and financing, which 13 the FIT contract with the OPA. 11:06:17 14 14 demonstrate that the Claimant would never have been 11:04:57 The evidence that you heard over the 11:06:20 1.5 15 able to reach commercial operation under the terms 11:04:59 last two weeks confirmed that the Government's 11:06:22 16 16 of the FIT contract. 11:05:01 decision to pause development of offshore wind 11:06:25 17 17 And, finally, Mr. Spelliscy will 11:05:02 development was a prudent policy decision, taken in 11:06:28 18 discuss the -- the Claimant's request for lost 11:05:04 18 response to the need to finalize the policy 11:06:31 19 profits and sunk costs. 11:05:10 19 framework on offshore wind. 11:06:34 20 20 Minister Wilkinson's concern over the 11:06:37 As stated during Canada's opening, 11:05:13 21 21 regulatory framework was clearly communicated to his 11:06:39 there are two simple questions that you must 11:05:16 22 22 resolve. And I think from what I heard this morning 11:05:20 Deputy and to his Chief of Staff, who, in turn, 11:06:42 23 23 from Mr. Terry, we're approaching common ground on 11:05:25 communicated it to the Premier's Office. His 11:06:46 24 that issue. First is whether the Ontario 24 decision was based on the lack of science to inform 11:06:49 25 Government's decision to take the time it needed to 11:05:31 25 the approvals framework which needed to be strong 11:06:53 Page 146 Page 147 1 1 enough to withstand a certain challenge in the necessary to lift the deferral. 11:08:15 2 2 courts by the strong public opposition to offshore 11:06:58 The Claimant wants to have it both 11:08:19 3 wind. We heard of NIMBYs, and we heard of BANANAs. 11:07:02 3 ways. First, it refused the OPA's offer to freeze 11:08:21 4 It was entirely legitimate for the 11:07:05 4 its FIT contract beyond May 2012. Then, it accuses 11:08:25 5 Government to take the time necessary to conduct 11:07:08 5 Ontario of not undertaking the science necessary to 11:08:31 6 further scientific research in collaboration with 11:07:11 6 finalize the approvals framework within that three- 11:08:34 7 the U.S. to justify the setbacks and other rules to 11:07:14 7 to five-year period that was forecasted. The 11:08:38 8 8 approve projects. 11:07:18 position it adopts is simply illogical. 11:08:44 9 9 The evidence also demonstrates that 11:07:19 The Claimant's allegation of bad faith also relies 11:08:47 10 Ontario undertook extensive efforts to collaborate 11:07:23 10 improperly on one statement made by Canada in the 11:08:52 11 11 openings that it takes out of context. I said that 11:08:54 12 11:07:29 Ontario is not planning to commence scientific On the Ontario side, it involved 13 13 11:07:32 studies in the near term, but I also said that, once 11:09:02 multiple Ministries and significant time and energy. 11:07:35 14 14 the noise and decommissioning studies are completed, 11:09:07 15 In fact, Ontario was in the throes of 11:07:39 15 Ontario will analyze the findings, consider the 11:09:10 16 collaborating when Mr. Ziegler came to 11:07:42 16 scientific gaps that still remain, and determine 17 17 the realization that the Windstream Wolfe Island 11:07:44 whether further studies are required to develop the 11:09:17 18 18 Shoals project was no longer possible to finance. 11:07:47 regulatory framework before undertaking that work. 11:09:20 19 19 Yet the Claimant accuses Ontario of acting in bad 11:07:51 What's clear is that, for this 11:09:25 20 faith by not having undertaken the necessary 11:07:55 20 dispute, any science that Ontario plans to undertake 11:09:28 21 scientific research since that time. 11:07:58 21 after May 2012 is irrelevant for the purposes of 11:09:32 22 22 11:08:02 There is no evidence that Ontario addressing Windstream's claim, owing to the 11:09:36 23 23 acted in bad faith. The fact that the collaboration 11:08:03 Claimant's admission that it could not proceed with 11:09:39 24 24 did not go as planned cannot now be used to indicate 11:08:08 developing its project after that date. 25 that Ontario never intended to undertake the science 11:08:11 25 The Claimant focuses on the fact that 11:09:47

	Page 148		Page 149
1	five years have passed, the five years since the 11:09:51	1	way to develop a 300-megawatt wind farm. But this 11:11:13
2	decision to defer offshore wind. And it ignores all 11:09:54	2	isn't a case of a proponent that had a FIT contract 11:11:18
3	of the content, all of the all of the reasons for 11:09:59	3	and all of its permits lined up. 11:11:22
4	the delays, taking taking that information out of 11:10:03	4	According to the Claimant, the 11:11:26
5	context. 11:10:07	5	realities it faced were no different than those 11:11:27
6	Ultimately, the Claimant urges you to 11:10:09	6	faced by onshore wind projects in Ontario. 11:11:29
7	ignore the realities of the uncertain regulatory 11:10:12	7	Mr. Baines said it most succinctly, I think, when he 11:11:32
8	framework for offshore wind in Ontario, the hard 11:10:14	8	said: 11:11:35
9	deadlines of the FIT contract, the commercial 11:10:17	9	"I think the easiest way to 11:11:36
10	reality surrounding what would have been the first 11:10:20	10	say it was that if we took 11:11:37
11	offshore wind project in North America. 11:10:23	11	the Wolfe Island project and 11:11:39
12	The fact is that the Claimant was 11:10:28	12	we put it in the water, we'd 11:11:41
13	fully aware of the regulatory uncertainty 11:10:30	13	have this offshore Wolfe 11:11:43
14	surrounding offshore wind when it applied to and 11:10:33	14	Island Shoals project." 11:11:45
15	later signed back its FIT contract with the OPA. In 11:10:36	15	But as Canada's experts have made 11:11:46
16	doing so, it undertook the responsibility of 11:10:41	16	abundantly clear, the only thing in common between 11:11:51
17	bringing its project into commercial operation by 11:10:43	17	offshore and onshore wind development is the wind. 11:11:53
18	the milestone date for commercial operation 11:10:46	18	For example, Jerome Guillet of Green Giraffe, an 11:11:56
19	specified in the FIT contract. 11:10:49	19	expert in renewable energy financing, explained how 11:12:05
20	The Claimant asks you, as well, to 11:10:52	20	offshore and onshore wind are completely different 11:12:08
21	overlook this aspect of the Claimant's 11:10:56	21	industries. The costs are higher, with turbines 11:12:11
22	responsibility and find, instead, that through 11:10:59	22	amounting to 90 percent of the cost of an onshore 11:12:16
23	goodwill, pragmatism, and the support of the Ontario 11:11:02	23	wind project in comparison to only 30 percent of the 11:12:20
24	government, the OPA, industry players like Siemens, 11:11:06	24	cost of an offshore wind project. 11:12:22
25	it would have overcome every hurdle standing in its 11:11:10	25	Offshore wind development also 11:12:25
		_

The Claimant has neither 11:14:59

	Page 152		Page 153
1	Claimant continues to argue, as counsel stipulated 11:15:09	1	Consortium's projects. Accordingly, the claim that 11:16:23
2	in its opening statement, that the OPA's a state 11:15:12	2	the factual circumstances surrounding the treatment 11:16:27
3	agency and, to the extent to which it was exercising 11:15:15	3	of Samsung were unknown to the Claimant are simply 11:16:29
4	the authority of Energy, it failed to exercise that 11:15:18	4	not credible. 11:16:32
5	authority. 11:15:22	5	The Claimant's decision not to 11:16:35
6	As previously set out in Canada's 11:15:25	6	withdraw these claims is an issue that Canada will 11:16:36
7	written pleadings, whether the OPA is acting with 11:15:28	7	return to in a cost submission. 11:16:39
8	delegated governmental authority is wholly 11:15:31	8	Now, a word about the Claimant's 11:16:43
9	inapplicable, because the Claimant fails to 11:15:34	9	national treatment claim: While the Article 1102 11:16:46
10	challenge a single action of the OPA in this 11:15:36	10	claims have been briefly addressed during the 11:16:50
11	dispute. It is, frankly, unacceptable that the 11:15:39	11	hearing, the Claimant still fails to identify how 11:16:53
12	Claimant has refused to abandon these claims 11:15:42	12	the treatment it received was as a result of 11:16:56
13	involving the OPA, forcing Canada to spend 11:15:45	13	nationality-based discrimination. 11:16:59
14	additional time and resources responding to them and 11:15:48	14	It is notable that, despite having 11:17:02
15	obliging the Tribunal to resolve them. 11:15:51	15	argued in its Reply Memorial that the procurement 11:17:04
16	This is equally true of the Claimant's 11:15:55	16	exception does not extend to procurement of 11:17:07
17	Article 1103 claim. Shockingly, the Claimant has 11:15:57	17	electricity by the OPA, Claimant's counsel and 11:17:09
18	pursued this claim despite explicitly admitting that 11:16:02	18	witnesses have consistently referred over the past 11:17:12
19	the circumstances surrounding the award of the solar 11:16:03	19	two weeks to the FIT as a Ministry of Energy 11:17:17
20	project to Samsung are not currently known to 11:16:07	20	procurement program. 11:17:19
21	Windstream. This is despite having engaged Mr. 11:16:08	21	For example, in its opening remarks, 11:17:21
22	Smitherman as a witness, the very person who 11:16:13	22	the Claimant specifically referred to the Ministry's 11:17:24
23 24	negotiated the investment agreement with Samsung. 11:16:15	23	consideration of the cost of offshore procurement, 11:17:27
25	The Claimant's expert witness Sarah Powell also 11:16:18 testified to being involved in the Korean 11:16:21	25	and Mr. Benedetti referred to the procurement of 11:17:30 renewable energy managed by the Ministry of Energy. 11:17:34
	testified to being involved in the Kofean 11.10.21	23	renewable energy managed by the Ministry of Energy. 11.17.34

1	In sum, the Claimant recognizes that the program is 11:17:37	1	decision which noted that the fact that diplomatic 11:18:58
2	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41	2	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00
2	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43	2 3	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02
2 3 4	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47	2 3 4	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05
2 3 4 5	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49	2 3 4 5	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08
2 3 4 5 6	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49  Article 1105 prescribes the minimum standard of 11:17:57	2 3 4 5 6	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10
2 3 4 5 6 7	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49  Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00	2 3 4 5 6 7	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13
2 3 4 5 6 7 8	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49  Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01	2 3 4 5 6 7 8	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16
2 3 4 5 6 7 8 9	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49  Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05	2 3 4 5 6 7 8	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20
2 3 4 5 6 7 8 9	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49  Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07	2 3 4 5 6 7 8 9	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23
2 3 4 5 6 7 8 9 10	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47 Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07 Now, you've asked whether a general 11:18:10	2 3 4 5 6 7 8 9 10	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25
2 3 4 5 6 7 8 9 10 11 12	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47 Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07 Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15	2 3 4 5 6 7 8 9 10 11	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28
2 3 4 5 6 7 8 9 10 11 12	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47 Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07 Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18	2 3 4 5 6 7 8 9 10 11 12 13	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28 clause does not have a sufficient normative content 11:19:31
2 3 4 5 6 7 8 9 10 11 12	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07  Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21	2 3 4 5 6 7 8 9 10 11	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08  Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25  This is because the standalone FET 11:19:31 to constitute a rule of customary international law. 11:19:33
2 3 4 5 6 7 8 9 10 11 12 13	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07  Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21 crystallization or development of a rule of 11:18:24	2 3 4 5 6 7 8 9 10 11 12 13	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36
2 3 4 5 6 7 8 9 10 11 12 13 14	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07  Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21	2 3 4 5 6 7 8 9 10 11 12 13 14 15	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28 clause does not have a sufficient normative content 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36 provisions. And, therefore, there is no uniform 11:19:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07  Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21 crystallization or development of a rule of 11:18:24 customary international law, but there should be no 11:18:26	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47 Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07 Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21 crystallization or development of a rule of 11:18:24 customary international law, but there should be no 11:18:26 presumption that they do. 11:18:29	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28 clause does not have a sufficient normative content 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36 provisions. And, therefore, there is no uniform 11:19:40 consistent practice. And, finally, the practice of 11:19:45
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47 Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07 Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21 crystallization or development of a rule of 11:18:24 customary international law, but there should be no 11:18:26 presumption that they do. 11:18:29 She brought you to the North Sea 11:18:32	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28 clause does not have a sufficient normative content 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36 provisions. And, therefore, there is no uniform 11:19:40 consistent practice. And, finally, the practice of 11:19:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47 Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07 Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21 crystallization or development of a rule of 11:18:24 customary international law, but there should be no 11:18:26 presumption that they do. 11:18:29 She brought you to the North Sea 11:18:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28 clause does not have a sufficient normative content 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36 provisions. And, therefore, there is no uniform 11:19:40 consistent practice. And, finally, the practice of 11:19:49 standalone FET clauses is, in fact, to reject the 11:19:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07  Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21 crystallization or development of a rule of 11:18:24 customary international law, but there should be no 11:18:26 presumption that they do. 11:18:29  She brought you to the North Sea 11:18:35 the ICJ lays out, namely, that the provision must be 11:18:38 of a fundamentally norm-creating character. There 11:18:42 must be extensive and virtually uniform state 11:18:45	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28 clause does not have a sufficient normative content 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36 provisions. And, therefore, there is no uniform 11:19:40 consistent practice. And, finally, the practice of 11:19:45 States outside the signatories to the treaties with 11:19:50 application of the broader standard. 11:19:56 The latter is an important point. For a broad FET 11:19:58 provision to have become custom, it must be 11:20:03
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07  Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21 crystallization or development of a rule of 11:18:24 customary international law, but there should be no 11:18:26 presumption that they do. 11:18:32 Continental Shelf cases and the three criteria that 11:18:38 of a fundamentally norm-creating character. There 11:18:45 practice. And there must be practice that shows a 11:18:48	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28 clause does not have a sufficient normative content 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36 provisions. And, therefore, there is no uniform 11:19:40 consistent practice. And, finally, the practice of 11:19:45 States outside the signatories to the treaties with 11:19:50 application of the broader standard. 11:19:58 provision to have become custom, it must be 11:20:03 demonstrated that States consider such rules to be 11:20:06
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	In sum, the Claimant recognizes that the program is 11:17:37 the Ministry of Energy procurement program, which 11:17:41 means that Article 1102 and Article 1103 do not 11:17:43 apply. 11:17:47  Let's turn now to Article 1105. 11:17:49 Article 1105 prescribes the minimum standard of 11:17:57 treatment with respect to the treatment of 11:18:00 foreigners and their property. This was 11:18:01 definitively determined by the NAFTA Free Trade 11:18:05 Commission's binding Note of Interpretation, 2001. 11:18:07  Now, you've asked whether a general 11:18:10 practice can be discerned from the 3,000 BITs and 11:18:15 other agreements. In Canada's opening remarks, Ms. 11:18:18 Tabet noted that treaties may contribute to the 11:18:21 crystallization or development of a rule of 11:18:24 customary international law, but there should be no 11:18:26 presumption that they do. 11:18:29  She brought you to the North Sea 11:18:35 the ICJ lays out, namely, that the provision must be 11:18:38 of a fundamentally norm-creating character. There 11:18:42 must be extensive and virtually uniform state 11:18:45	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	decision which noted that the fact that diplomatic 11:18:58 protection provisions are often included in BITs is 11:19:00 not sufficient to establish they are custom. And 11:19:02 then finally she pointed to Professor Dumberry's 11:19:05 soon-to-be-published book. 11:19:08 Now, Canada agrees with the conclusion 11:19:10 that he draws, starting at page 172, that the 11:19:13 practice of states does not support the proposition 11:19:16 that standalone FET clauses have become part of the 11:19:20 customary international law minimum standard of 11:19:23 treatment. 11:19:25 This is because the standalone FET 11:19:28 clause does not have a sufficient normative content 11:19:31 to constitute a rule of customary international law. 11:19:33 BITs contain differently-worded FET and MST 11:19:36 provisions. And, therefore, there is no uniform 11:19:40 consistent practice. And, finally, the practice of 11:19:45 States outside the signatories to the treaties with 11:19:50 application of the broader standard. 11:19:56 The latter is an important point. For a broad FET 11:19:58 provision to have become custom, it must be 11:20:03

## Page 156 Page 157 1 1 rejected this. And we can look to Pope and Talbot, 11:20:17 11:21:42 Now, you have also asked what the 2 2 to Loewen, to Glamis, and Chemtura, also cited by 11:20:20 differences are between expropriation and fair and 11:21:44 11:20:24 3 3 Professor Dumberry at pages 200 and 201. equitable treatment in legal terms and in terms of 11:21:47 4 4 Turning to your fourth question, on 11:20:28 the facts that must be proven by an investor to 11:21:49 5 5 general principles, the starting point here is, 11:20:30 establish each cause of action. As Canada stated in 11:21:53 6 6 again, the binding note of interpretation, which 11:20:35 its opening, to prove a breach of Article 1105 11:21:58 7 7 refers only to a customary international law. 11:20:37 requires proving a breach of a customary 11:22:02 8 General principles constitute a different source of 11:20:41 8 international law standard, such as denial of 11:22:05 9 9 international law in Article 38 of the ICJ statute. 11:20:44 justice or a breach of an investor's full protection 11:22:07 10 10 And general principles do not establish 11:20:49 and security. 11:22:09 11 11 international custom. So a NAFTA Tribunal is 11:20:51 The facts required to prove a breach 11:22:11 12 12 of such a standard depend on the standard at issue. 11:22:14 welcome to consult them, but they will be of limited 11:20:55 13 assistance in determining the content of MST at 13 As aptly set out in our pleadings, the Claimant has 11:22:18 11:21:00 14 14 not met its burden in identifying a standard of customary international law. General principle of 11:21:03 11:22:21 15 15 law is really only relevant to determining the 11:21:07 customary international law, and instead it has 11:22:24 16 16 content of MST if it also constitutes customary 11:21:11 pointed to the principles of legitimate expectations 11:22:26 17 international law itself. 17 11:21:14 and discrimination, amongst others, without proving 11:22:29 18 So what this means is that, as Ms. 18 that these are standards of custom. And it's 19 Tabet made abundantly clear during Canada's opening 11:21:19 19 noteworthy that the Claimant has not alleged a 11:22:38 20 20 statement, to ascertain the applicable standard of 11:21:22 denial of justice or a breach of full protection and 11:22:41 21 21 treatment, the Tribunal must consider the applicable 11:21:25 security. 11:22:43 22 22 customary rules, which requires proof of extensive 11:21:27 In contrast, the legal standard of 11:22:46 23 23 uniform, consistent, and general practice by States, 11:21:32 expropriation has been laid out in the treaty, and 11:22:49 24 24 together with the States' belief that such practice 11:21:35 it's also informed by custom, and I will lay out 11:22:51 25 25 is required by law. that standard later when I turn to Article 1110. 11:22:55 11:21:38 Page 158 Page 159 1 1 11:24:18 But first let's look at the facts relevant to 11:22:59 replaced the previous proponent-driven EA-based 2 2 assessment process with universal setbacks from 11:24:21 Article 1105. 11:23:01 3 3 Canada's maintained from the beginning 11:23:05 adjacent homes and other sensitive areas. Indeed, 11:24:25 4 that this dispute -- sorry, Canada has maintained 4 Mr. Smitherman reiterated that idea when he 11:24:29 5 from the beginning of this dispute that the decision 11:23:15 5 testified, stating that, although he left office 11:24:32 6 to defer offshore development was taken by the 6 before it occurred, he expected as the Ministry of 11:24:35 7 Minister of the Environment upon being informed that 11:23:20 7 the Environment moved forward, that it would 11.24.39 8 8 the regulatory framework to approve projects was establish setback conditions for onshore and then to 11:24:41 9 9 consider those and develop them also for offshore. 11:24:44 unfinished. Ultimately, the Minister was unwilling 11:23:27 10 10 to see any project proceed without the clear, 11:23:30 The undeveloped regulatory framework 11:24:49 11 11 upfront rules upon which the approval system was 11:23:32 for offshore wind was publicly communicated through 11:24:50 12 predicated. 12 numerous postings on the Environmental Bill of 13 13 Registry, the EBR registry, starting with the MOE's 11:24:56 Naturally, the Government could have 11:23:37 14 14 decided to adopt a different approach, a different 11:23:38 REA regulation proposal in June 2009, which included 11:25:02 15 approach to permitting and a different approach to 11:23:42 15 a document outlining the proposed content of the REA 11:25:07 16 16 permitting this particular project, a process that 11:23:46 regulation and stated that MOE and MNR are working 11:25:10 17 17 may have or would have resulted in its own 11:23:49 together to develop future setbacks for offshore 18 limitations, its own delays, its own challenges, but 11:23:52 18 wind. 11:25:15 19 that's not where we are. That's not what was 19 11:23:55 The fact that these ministries were 11:25:16 20 20 continuing to work on a coordinated approach for envisaged by the regulatory framework that existed. 11:23:58 21 21 And it was not the approach that MOE was willing to 11:24:03 offshore wind facilities was reiterated, again, when 11:25:21 22 22 the decision notice for the regulations was posted 11:25:24 take. 11:24:05 23 23 The approvals framework that Minister 11:24:07 in September -- on September 24, 2009. 24 24 Smitherman envisaged in February of 2009 when 11:24:09 And then the March 1, 2010 EBR posting 11:25:32 25 introducing the GEGEA to the Ontario legislature 11:24:13 25 on the REA regulations, which attached a proposed 11:25:35

He testified that he 11:29:18 made the decision because the regulations were still 11:29:22 not finished. In his words: 11:29:25  "That fell to me. I didn't 11:29:28 else. It wasn't the 11:29:30	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	decision." 11:29:37  Mr. Wilkinson advised that he received 11:29:39 the memo on January 6, 2011 on offshore wind policy. 11:29:40 We haven't put that memo up on the screen because 11:29:46 it's confidential, but you have it in your books 11:29:48 before you from Brenda Lucas. It raises concerns 11:29:50 regarding the proposed approach to move forward with 11:29:54 offshore wind without adequate science to build a 11:29:56 more specific offshore approvals process. 11:29:59  The memo was written by his senior 11:30:03 policy adviser, and as he explained when he was 11:30:05 before you, it would have been inserted into his 11:30:08 book that he took home every evening. So he would 11:30:11 have read it that night. 11:30:14  According to Mr. Wilkinson, these 11:30:17 concerns, along with the 1,400 comments received in 11:30:19 response to the MOE's June 25th offshore wind policy 11:30:22 proposal, raised very, very big red flags. Mr. 11:30:35 Wilkinson testified that he remembers making the 11:30:35 "I met with my Deputy. I 11:30:37 remember distinctly why I met 11:30:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	received an unprecedented number of comments, 11:28:22 approximately 1,400 in total. 11:28:24  The feedback that MOE received in 11:28:28 response to its June 25, 2010 EBR posting included a 11:28:31 broad range of concerns, which went well beyond the 11:28:35 issue of noise. In contrast to the 23 respondents 11:28:39 who supported offshore wind development, 65 percent 11:28:43 of the 1,400 comments received were opposed to 11:28:46 offshore wind, raising various issues. And 12 11:28:50 percent recommended that the Government defer 11:28:56 offshore wind until the proper health and 11:28:59 environmental studies were completed to support it. 11:29:01 Ultimately, as described by Ms. Wallace, the diverse 11:29:05 range of comments received in response to the EBR 11:29:09 posting informed the deferral decision. 11:29:12  Now, you had the benefit of hearing 11:29:16 directly from Mr. Wilkinson. He testified that he 11:29:18 made the decision because the regulations were still 11:29:22 not finished. In his words: 11:29:25  "That fell to me. I didn't 11:29:27  it didn't fall to anyone 11:29:28 else. It wasn't the 11:29:30 Premier's decision. It 11:29:33	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	decision."  Mr. Wilkinson advised that he received 11:29:39  the memo on January 6, 2011 on offshore wind policy. 11:29:40  We haven't put that memo up on the screen because 11:29:46  it's confidential, but you have it in your books 11:29:48  before you from Brenda Lucas. It raises concerns 11:29:50  regarding the proposed approach to move forward with 11:29:54  offshore wind without adequate science to build a 11:29:56  more specific offshore approvals process. 11:29:59  The memo was written by his senior 11:30:03  policy adviser, and as he explained when he was 11:30:05  before you, it would have been inserted into his 11:30:08  book that he took home every evening. So he would 11:30:11  have read it that night. 11:30:14  According to Mr. Wilkinson, these 11:30:17  concerns, along with the 1,400 comments received in 11:30:19  response to the MOE's June 25th offshore wind policy 11:30:22  proposal, raised very, very big red flags. Mr. 11:30:36  Wilkinson testified that he remembers making the 11:30:33  decision clearly. In his words: 11:30:37  remember distinctly why I met 11:30:39  with my Deputy, what the 11:30:41

	Page 164		Page 165
1	the consequence of that 11:30:46	1	document that didn't necessarily includes internal 11:31:57
2	meeting was." 11:30:48	2	meetings of one side or the other. But to do away 11:31:59
3	It was at this meeting that Minister 11:30:48	3	with the concerns that that one side or the other 11:32:05
4	Wilkinson made his decision to defer offshore wind 11:30:52	4	had, we made sure to put in the headnote the 11:32:09
5	development. In particular, he was dissatisfied 11:30:55	5	following statement: 11:32:12
6	with his Deputy Minister's inability to answer 11:30:57	6	"The failure to include an 11:32:13
7	questions regarding the impact of construction of 11:30:59	7	event in this list is not an 11:32:15
8	offshore wind turbines in the Great Lakes on 11:31:03	8	admission that the event is 11:32:17
9	drinking water. 11:31:05	9	either immaterial or 11:32:19
10	Now, I'm going to pause here to refer 11:31:07	10	irrelevant." 11:32:21
11	to something that Mr. Terry said this morning. He 11:31:11	11	And I think you should take that to 11:32:22
12	specifically noted that the chronology that we 11:31:15	12	heart, given Mr. Terry's comments this morning about 11:32:24
13	supplied to you does not contain this date in it. 11:31:19	13	whether or not that June or January 6th meeting 11:32:27
14	The chronology I won't bore you with the gory 11:31:25	14	was in the in chronology. 11:32:30
15	details and the back-and-forths of, you know, what 11:31:28	15	As Mr. Wilkinson testified about that 11:32:34
16	what we lived through in producing this 11:31:31	16	meeting: 11:32:37
17	chronology. I think it's fair to say it took on a 11:31:33	17	"I asked her direct questions 11:32:37
18	life of its own, I think, as indicated by when you 11:31:38	18	" 11:32:40
19	received it. And 11:31:41	19	That's his Deputy Minister. 11:32:40
20	PRESIDENT: We are very grateful for 11:31:44	20	" which raised within me 11:32:41
21	the outcome, though. 11:31:46	21	some very serious concerns." 11:32:44
22	MR. NEUFELD: That's good to hear. 11:31:48	22	The fact that the regulation was 11:32:45
23	Our impression is that it ended up being a little 11:31:49	23	unfinished and the fact that she could not answer 11:32:48
24	bit of a dumping ground, whereas a higher-level 11:31:52	24	basic questions about the consequences of the 11:32:51
25	document would have been more more useful, a 11:31:55	25	construction, he felt, that it wasn't right to 11:32:53
	Page 166		Page 167
	1 age 100

1	proceed on a path that he thought was flawed. 11:32:56	1	documents to support the Minister's involvement. 11:34:02
2	Now, even the Claimant's expert 11:33:00	2	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was 11:34:04
2	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02	2	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was 11:34:04 actually made by the Premier's Office, not by 11:34:07
2 3 4	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05	2 3 4	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was 11:34:04 actually made by the Premier's Office, not by 11:34:07 Ministry of the Environment. 11:34:11
2 3 4 5	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07	2 3 4 5	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was 11:34:04 actually made by the Premier's Office, not by 11:34:07 Ministry of the Environment. 11:34:11 On the Claimant's first argument, it 11:34:12
2 3 4 5	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10	2 3 4 5 6	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was 11:34:04  actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15
2 3 4 5 6 7	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12	2 3 4 5 6 7	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was 11:34:04  actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17
2 3 4 5 6 7 8	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16	2 3 4 5 6 7 8	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was 11:34:04  actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20
2 3 4 5 6 7 8	Now, even the Claimant's expert 11:33:00  Claimant's own expert, Baird, would not have been 11:33:02  able to reassure the Minister that a 5-kilometre 11:33:05  setback would guarantee safe drinking water across 11:33:07  the Great Lakes. 11:33:10  When asked whether he concluded that 11:33:12  water quality issues may not arise with an offshore 11:33:16  wind farm in any other area of the Great Lakes, he 11:33:19	2 3 4 5 6 7 8	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was 11:34:04  actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21
2 3 4 5 6 7 8 9	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21	2 3 4 5 6 7 8 9	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was 11:34:04  actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25
2 3 4 5 6 7 8 9 10	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21 "No, my report doesn't 11:33:22	2 3 4 5 6 7 8 9 10	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was 11:34:04  actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26
2 3 4 5 6 7 8 9	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21 "No, my report doesn't 11:33:22 conclude that. It was 11:33:24	2 3 4 5 6 7 8 9	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was 11:34:04 actually made by the Premier's Office, not by 11:34:07 Ministry of the Environment. 11:34:11 On the Claimant's first argument, it 11:34:12 specifically accuses Canada of arguing in the 11:34:15 Counter-Memorial that the decision was made by 11:34:17 Minister Wilkinson and then, in the Rejoinder 11:34:20 Memorial, that the decision was, in fact, made by 11:34:21 Minister Wilkinson in consultation with the 11:34:25 Ministers of Natural Resources, Energy, and Minister 11:34:26 Gerretsen. 11:34:30
2 3 4 5 6 7 8 9 10 11 12	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21 "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25	2 3 4 5 6 7 8 9 10 11	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was 11:34:04  actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26  Gerretsen. 11:34:30  The fact the Minister of the 11:34:32
2 3 4 5 6 7 8 9 10 11 12 13	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26	2 3 4 5 6 7 8 9 10 11 12	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26  Gerretsen. 11:34:30  The fact the Minister of the 11:34:32  Environment consulted with his counterparts is 11:34:32
2 3 4 5 6 7 8 9 10 11 12 13	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:27	2 3 4 5 6 7 8 9 10 11 12 13	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26  Gerretsen. 11:34:30  The fact the Minister of the 11:34:32  Environment consulted with his counterparts is 11:34:32  neither an evolution nor is it surprising. Minister 11:34:36
2 3 4 5 6 7 8 9 10 11 12 13 14	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:34	2 3 4 5 6 7 8 9 10 11 12 13 14	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26  Gerretsen. 11:34:30  The fact the Minister of the 11:34:32  Environment consulted with his counterparts is 11:34:36  Wilkinson never said that he made the decision in a 11:34:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:34 scientific basis, had very little chance of 11:33:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26  Gerretsen. 11:34:30  The fact the Minister of the 11:34:32  Environment consulted with his counterparts is 11:34:36  Wilkinson never said that he made the decision in a 11:34:39  vacuum. He has never said that only his 11:34:41
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26  Gerretsen. 11:34:30  The fact the Minister of the 11:34:32  Environment consulted with his counterparts is 11:34:36  Wilkinson never said that he made the decision in a 11:34:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:37 concerned that the regulations, which lacked a 11:33:35 withstanding any appeal at the Environmental Review 11:33:38	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was 11:34:04  actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26  Gerretsen. 11:34:30  The fact the Minister of the 11:34:32  Environment consulted with his counterparts is 11:34:32  neither an evolution nor is it surprising. Minister 11:34:36  Wilkinson never said that he made the decision in a 11:34:39  vacuum. He has never said that only his 11:34:41  considerations mattered. And he has never suggested 11:34:43
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10  When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:37 concerned that the regulations, which lacked a 11:33:35 withstanding any appeal at the Environmental Review 11:33:38 Tribunal. 11:33:41  The Claimant has attacked the former 11:33:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	documents to support the Minister's involvement. 11:34:02  And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07  Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12  specifically accuses Canada of arguing in the 11:34:15  Counter-Memorial that the decision was made by 11:34:17  Minister Wilkinson and then, in the Rejoinder 11:34:20  Memorial, that the decision was, in fact, made by 11:34:21  Minister Wilkinson in consultation with the 11:34:25  Ministers of Natural Resources, Energy, and Minister 11:34:26  Gerretsen. 11:34:30  The fact the Minister of the 11:34:32  Environment consulted with his counterparts is 11:34:32  neither an evolution nor is it surprising. Minister 11:34:36  Wilkinson never said that he made the decision in a 11:34:39  vacuum. He has never said that only his 11:34:41  considerations mattered. And he has never suggested 11:34:43  that his decision didn't result in difficult 11:34:46
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10  When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:37 concerned that the regulations, which lacked a 11:33:34 scientific basis, had very little chance of 11:33:35 withstanding any appeal at the Environmental Review 11:33:38 Tribunal. 11:33:41  The Claimant has attacked the former 11:33:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07 Ministry of the Environment. 11:34:11 On the Claimant's first argument, it 11:34:12 specifically accuses Canada of arguing in the 11:34:15 Counter-Memorial that the decision was made by 11:34:17 Minister Wilkinson and then, in the Rejoinder 11:34:20 Memorial, that the decision was, in fact, made by 11:34:21 Minister Wilkinson in consultation with the 11:34:25 Ministers of Natural Resources, Energy, and Minister 11:34:26 Gerretsen. 11:34:30 The fact the Minister of the 11:34:32 Environment consulted with his counterparts is 11:34:32 neither an evolution nor is it surprising. Minister 11:34:36 Wilkinson never said that he made the decision in a 11:34:39 vacuum. He has never said that only his 11:34:41 considerations mattered. And he has never suggested 11:34:43 that his decision didn't result in difficult 11:34:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:37 concerned that the regulations, which lacked a 11:33:34 scientific basis, had very little chance of 11:33:41 The Claimant has attacked the former 11:33:41 Minister's testimony in multiple ways. It argues, 11:33:46	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07 Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12 specifically accuses Canada of arguing in the 11:34:15 Counter-Memorial that the decision was made by 11:34:17 Minister Wilkinson and then, in the Rejoinder 11:34:20 Memorial, that the decision was, in fact, made by 11:34:21 Minister Wilkinson in consultation with the 11:34:25 Ministers of Natural Resources, Energy, and Minister 11:34:26 Gerretsen. 11:34:30  The fact the Minister of the 11:34:32 Environment consulted with his counterparts is 11:34:32 neither an evolution nor is it surprising. Minister 11:34:36 Wilkinson never said that he made the decision in a 11:34:31 vacuum. He has never said that only his 11:34:41 considerations mattered. And he has never suggested 11:34:43 that his decision didn't result in difficult 11:34:50 In fact, as he testified, all the 11:34:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:37 concerned that the regulations, which lacked a 11:33:34 scientific basis, had very little chance of 11:33:35 withstanding any appeal at the Environmental Review 11:33:38 Tribunal. 11:33:41 The Claimant has attacked the former 11:33:41 Minister's testimony in multiple ways. It argues, 11:33:51	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was 11:34:04 actually made by the Premier's Office, not by 11:34:07 Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12 specifically accuses Canada of arguing in the 11:34:15 Counter-Memorial that the decision was made by 11:34:17 Minister Wilkinson and then, in the Rejoinder 11:34:20 Memorial, that the decision was, in fact, made by 11:34:21 Minister Wilkinson in consultation with the 11:34:25 Ministers of Natural Resources, Energy, and Minister 11:34:26 Gerretsen. 11:34:30  The fact the Minister of the 11:34:32 Environment consulted with his counterparts is 11:34:32 neither an evolution nor is it surprising. Minister 11:34:36 Wilkinson never said that he made the decision in a 11:34:39 vacuum. He has never said that only his 11:34:41 considerations mattered. And he has never suggested 11:34:43 that his decision didn't result in difficult 11:34:50  In fact, as he testified, all the 11:34:51 decisions that he would've made as Minister of the 11:34:55
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Now, even the Claimant's expert 11:33:00 Claimant's own expert, Baird, would not have been 11:33:02 able to reassure the Minister that a 5-kilometre 11:33:05 setback would guarantee safe drinking water across 11:33:07 the Great Lakes. 11:33:10 When asked whether he concluded that 11:33:12 water quality issues may not arise with an offshore 11:33:16 wind farm in any other area of the Great Lakes, he 11:33:19 responded: 11:33:21  "No, my report doesn't 11:33:22 conclude that. It was 11:33:24 specific to the Windstream 11:33:25 Wolfe Island Shoals project." 11:33:26 Minister Wilkinson also was also 11:33:37 concerned that the regulations, which lacked a 11:33:34 scientific basis, had very little chance of 11:33:35 withstanding any appeal at the Environmental Review 11:33:38 Tribunal. 11:33:41 The Claimant has attacked the former 11:33:41 Minister's testimony in multiple ways. It argues, 11:33:51 Wilkinson came to his decision evolved over time. 11:33:51	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	documents to support the Minister's involvement. 11:34:02 And, fourth, it argues that the decision was actually made by the Premier's Office, not by 11:34:07 Ministry of the Environment. 11:34:11  On the Claimant's first argument, it 11:34:12 specifically accuses Canada of arguing in the 11:34:15 Counter-Memorial that the decision was made by 11:34:17 Minister Wilkinson and then, in the Rejoinder 11:34:20 Memorial, that the decision was, in fact, made by 11:34:21 Minister Wilkinson in consultation with the 11:34:25 Ministers of Natural Resources, Energy, and Minister 11:34:26 Gerretsen. 11:34:30  The fact the Minister of the 11:34:32 Environment consulted with his counterparts is 11:34:32 neither an evolution nor is it surprising. Minister 11:34:36 Wilkinson never said that he made the decision in a 11:34:39 vacuum. He has never said that only his 11:34:41 considerations mattered. And he has never suggested 11:34:43 that his decision didn't result in difficult 11:34:50  In fact, as he testified, all the 11:34:51 decisions that he would've made as Minister of the 11:34:57 Environment were political. They made some people 11:34:57

	Page 168		Page 169
1	And despite the fact that the 11:35:06	1	explaining that we had no 11:36:08
2	Ministers of Energy and Natural Resources ultimately 11:35:08	2	science to support an 11:36:09
3	aligned with Minister Wilkinson's decision, it is 11:35:12	3	exclusion zone, and it left 11:36:10
4	abundantly clear that their offices and, in some 11:35:14	4	MNR in a very tricky 11:36:12
5	cases, the bureaucrats and their ministries did not 11:35:17	5	communications position, 11:36:14
6	support Minister Wilkinson's decision. It shouldn't 11:35:20	6	particularly since we had 11:36:15
7	come as a surprise to anybody who's familiar with an 11:35:22	7	indicated our comfort with 11:36:16
8	interagency process or an interdepartmental process 11:35:24	8	the knowledge that we did not 11:36:17
9	or a interministerial process. It's the way 11:35:28	9	have our confidence in the 11:36:20
10	government works. 11:35:30	10	Environmental Assessment 11:36:22
11	In fact, we know that MNR wanted to 11:35:31	11	Review processes when we 11:36:23
12	proceed with the development of offshore wind. The 11:35:35	12	lifted the window on the 11:36:25
13	bottom line for MNR was that they were as ready for 11:35:37	13	moratorium in 2006." 11:36:28
14	this project as for any others on Crown land, which, 11:35:40	14	Minister Gerretsen was another person 11:36:29
15	Ms. Lawrence explains, was consistent with MNR's 11:35:43	15	who was quite unhappy with Minister Wilkinson's 11:36:34
16	approach to ecological approvals. They're not 11:35:47	16	decision, according to a contemporaneous e-mail sent 11:36:37
17	accustomed to working with firm setbacks. Instead, 11:35:52	17	by Jeff Garrah of KEDCO to Nancy Baines, an e-mail 11:36:40
18	MNR prefers to work with the proponent on a 11:35:54	18	that was put to Mr. Baines during his 11:36:44
19	site-specific basis and, she said, "learn as we go." 11:35:57	19	cross-examination. Minister Gerretsen went to bat 11:36:46
20	The very idea of a setback was 11:36:00	20	for the project and had a serious confrontation with 11:36:50
21	unacceptable to MNR. As Ms. Lawrence explained, 11:36:02	21	Wilkinson over it. 11:36:53
22	her: 11:36:04	22	It's important to note here who 11:36:56
23	" head exploded in anger at 11:36:04	23	Minister Gerretsen was or where he was from, rather. 11:36:59
24	the thought of having spent 11:36:06	24	He was the Member of Parliament from the Kingston 11:37:01
25	some number of months 11:36:07	25	and Wolfe Island riding, and his son happened to be 11:37:04
	Page 170		Page 171
1	the mayor of Kingston. 11:37:07	1	challenges." 11:38:11
2	Additionally, it was suggested to Mr. 11:37:10	2	Internally Craig MacLennan was less 11:38:14
3	Wilkinson on cross-examination that his involvement 11:37:11	3	diplomatic, declaring: 11:38:17
4	in the decision not to proceed with offshore wind 11:37:15	4	11:38:18
5	was limited to whether or not to allow Windstream to 11:37:17	5	When I asked Mr. Baines if he believed 11:38:21
6	or whether to keep it whole. 11:37:20	6	Craig MacLennan at the time, he responded that he 11:38:24
7	However, Mr. Wilkinson testified these discussions 11:37:25	7	did not and that he thought the decision was a 11:38:25
8	occurred because of his decision not to proceed with 11:37:29	8	political decision. Then he further explained, in 11:38:28
9	offshore wind, which was made two weeks prior. 11:37:32	9	response to a question from Dr. Cremades, that: 11:38:34
10	We also know from the documents that 11:37:40	10	"A provincial election was 11:38:37
11	Minister Wilkinson's decision was very poorly 11:37:41	11	coming up, and there was 11:38:39
12	received by the Energy Minister's office, Craig 11:37:45	12	considerable opposition to 11:38:40
13	MacLennan. The Energy Minister's Chief of Staff 11:37:47	13	wind power." 11:38:41
14	sheepishly explained to Mr. Baines a week after the 11:37:51	14	The BANANAs we were referring to 11:38:41
15	decision that MOE was calling the shots, making 11:37:53	15	earlier. He added that: 11:38:45
16	clear that MOE wants to get it right before 11:37:56	16	"The Liberals had a minority 11:38:46
17	proceeding with offshore regulations. He added 11:37:58	17	government. They were just 11:38:48
18	that: 11:38:01	18	on the edge. Seven of their 11:38:48
19	"The government was concerned 11:38:01	19	ridings were at risk because 11:38:51
20	with legal challenges that 11:38:03	20	of offshore wind." 11:38:52
	were occurring with onshore 11:38:04	21	Mr. Baines insinuated that the 11:38:52
21			. 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
21 22	wind projects, which required 11:38:06	22	government made a calculated decision to defer 11:38:58
21 22 23	wind projects, which required 11:38:06 that future offshore 11:38:07	23	offshore in order to save seven seats. He suggested 11:39:00
21 22	wind projects, which required 11:38:06		<del>-</del>

	Page 172		Page 173
1	party's favour, and the government would be 11:39:07	1	government relations firm. He testified that the 11:40:15
2	re-elected. And as Mr. Baines explained: 11:39:09	2	Ministry of Environment wanted to see them proceed 11:40:18
3	"This is why the government 11:39:12	3	as a one-shot or an active research project. 11:40:19
4	cancelled the offshore very 11:39:14	4	Unfortunately, I think Mr. Baines 11:40:23
5	publicly, I believe, in an 11:39:16	5	misremembers these matters. What Windstream's 11:40:24
6	attempt to mollify public 11:39:18	6	documents indicate is that their government 11:40:26
7	concerns and win the 11:39:19	7	relations firm learned from CanWEA, the Canadian 11:40:29
8	election." 11:39:20	8	Wind Energy association, that a representative of 11:40:32
9	Now, the news article that he relies 11:39:22	9	the Energy Minister's office wanted to see 11:40:35
10	on cites to a Liberal insider who confided that 11:39:24	10	Windstream proceed as a pilot, a representative of 11:40:38
11	officials scrambled to announce the climb-down 11:39:28	11	the Ministry of the Energy, not Ministry of the 11:40:41
12	shortly afternoon on a Friday when they realized it 11:39:31	12	Environment. And the idea of an active research 11:40:43
13	would be buried by the news in Egypt. 11:39:33	13	project was raised by Windstream with MOE, but that 11:40:47
14	Burying the announcement of the deferral on a Friday 11:39:36	14	wasn't until December 7, 2011, long after the 11:40:51
15	afternoon is not consistent with Mr. Baines' idea 11:39:40	15	decision on the deferral. 11:40:55
16	that it was a very publicly announced decision. And 11:39:42	16	However, this was never the view of 11:40:57
17	as Mr. Baines himself recognized, regardless of the 11:39:47	17	the Ministry of the Environment. In fact, we know 11:40:58
18	decision, the Liberals ended up losing all seven of 11:39:51	18	that the MOE, both at the official level and in the 11:41:01
19	those seats. So the decision that Mr. Baines said 11:39:54	19	Minister's office,
20	was calculated to help the government retain seats 11:39:56		. 11:41:07
21	actually did the contrary. In fact, Mr. Wilkinson 11:39:59	21	Third, the Claimant argues that the 11:41:13
22	also lost his seat. 11:40:02	22	lack of documentary evidence involving Minister 11:41:15
23	Mr. Baines also testified that 11:40:05	23	Wilkinson somehow makes the testimony that he has 11:41:18
24	Minister Wilkinson's decision was inconsistent with 11:40:07	24	provided questionable. During his 11:41:20
25	what Windstream had been hearing through its 11:40:11	25	cross-examination, Mr. Wilkinson was asked whether 11:41:23

He said that he was not, 11:41:33 which is not surprising, given that the meeting that 11:41:37 took place was a face-to-face meeting with his 11:41:39 Deputy Minister. 11:41:42  And after confirming the decision with 11:41:43 his Deputy Minister, he told his Chief of Staff to 11:41:45 communicate it to the Premier's Office. This too 11:41:49 was an oral communication, as he stated: 11:41:52  "The decision that I made was 11:41:57 the government was on. It 11:41:59 was important before it 11:42:00 became announced that 11:42:02 everybody in the government 11:42:03 knew where we're were going, 11:42:03 and so it was a matter of 11:42:05 getting people coordinated." 11:42:06 Fourth, the Claimant clings to this 11:42:07	2 3 4 5 6 7 8 9 10 11 14 15 16 17 18 19 20 21	development and the Premier's Chief of Staff's response to it on January 11, 2011, dissatisfied 11:42:25 with the draft, made clear that the purpose of the news release was to kill all projects, except the 11:42:31 Kingston one, of course, meaning the Windstream 11:42:34 Wolfe Island Shoals project, and not suck and blow. In the same series of e-mails on In the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	he was aware of any documents in the record regarding the meeting with his Deputy Minister other 11:41:28 than the January 6th memo that he received from the 11:41:30 senior policy adviser. He said that he was not, 11:41:33 which is not surprising, given that the meeting that 11:41:37 took place was a face-to-face meeting with his 11:41:39 Deputy Minister. 11:41:42  And after confirming the decision with 11:41:43 his Deputy Minister, he told his Chief of Staff to 11:41:45 communicate it to the Premier's Office. This too 11:41:49 was an oral communication, as he stated: 11:41:52  "The decision that I made was 11:41:57 the government was on. It 11:41:59 was important before it 11:42:00 became announced that 11:42:02 everybody in the government 11:42:03 knew where we're were going, 11:42:03 and so it was a matter of 11:42:06 Fourth, the Claimant clings to this 11:42:07 idea that the decision was made by the Premier's 11:42:12	2 3 4 5 6 7 8 9 10 11 14 15 16 17 18 19 20 21 22	development and the Premier's Chief of Staff's response to it on January 11, 2011, dissatisfied 11:42:25 with the draft, made clear that the purpose of the news release was to kill all projects, except the 11:42:31 Kingston one, of course, meaning the Windstream 11:42:34 Wolfe Island Shoals project, and not suck and blow. In the same series of e-mails on In the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	he was aware of any documents in the record regarding the meeting with his Deputy Minister other 11:41:28 than the January 6th memo that he received from the 11:41:30 senior policy adviser. He said that he was not, 11:41:33 which is not surprising, given that the meeting that 11:41:37 took place was a face-to-face meeting with his 11:41:39 Deputy Minister. 11:41:42  And after confirming the decision with 11:41:43 his Deputy Minister, he told his Chief of Staff to 11:41:45 communicate it to the Premier's Office. This too 11:41:49 was an oral communication, as he stated: 11:41:52  "The decision that I made was 11:41:57 the government was on. It 11:41:59 was important before it 11:42:00 became announced that 11:42:02 everybody in the government 11:42:03 knew where we're were going, 11:42:03 and so it was a matter of 11:42:05 getting people coordinated." 11:42:07 idea that the decision was made by the Premier's 11:42:12 Office, not by Minister Wilkinson. And, here, the 11:42:14	2 3 4 5 6 7 8 9 10 11 14 15 16 17 18 19 20 21 22 23	development and the Premier's Chief of Staff's response to it on January 11, 2011, dissatisfied 11:42:25 with the draft, made clear that the purpose of the news release was to kill all projects, except the 11:42:31 Kingston one, of course, meaning the Windstream 11:42:34 Wolfe Island Shoals project, and not suck and blow. 11:42:36 In the same series of e-mails on 11:42:41 January 11, 2011, the Premier's Chief of Staff demanded that the news release be rewritten to 11:42:47 clarify that the province would not be proceeding with offshore wind due to  It's not by accident the Premier's chief of 11:42:57 staff used the very words found in MOE's documents, 11:43:08 Mr. Wilkinson indicated that he would 11:43:11 have taken that January 6th memo home that evening, 11:43:17 have taken place until the next day or possibly the 11:43:20 day after that. That puts it at either January 7th, 11:43:25 Following that meeting, he instructed his Chief of 11:43:30
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	he was aware of any documents in the record regarding the meeting with his Deputy Minister other 11:41:28 than the January 6th memo that he received from the 11:41:30 senior policy adviser. He said that he was not, 11:41:33 which is not surprising, given that the meeting that 11:41:37 took place was a face-to-face meeting with his 11:41:39 Deputy Minister. 11:41:42  And after confirming the decision with 11:41:43 his Deputy Minister, he told his Chief of Staff to 11:41:45 communicate it to the Premier's Office. This too 11:41:49 was an oral communication, as he stated: 11:41:52  "The decision that I made was 11:41:57 the government was on. It 11:41:59 was important before it 11:42:00 became announced that 11:42:02 everybody in the government 11:42:03 knew where we're were going, 11:42:03 and so it was a matter of 11:42:06 Fourth, the Claimant clings to this 11:42:07 idea that the decision was made by the Premier's 11:42:12	2 3 4 5 6 7 8 9 10 11 14 15 16 17 18 19 20 21 22	development and the Premier's Chief of Staff's response to it on January 11, 2011, dissatisfied 11:42:25 with the draft, made clear that the purpose of the news release was to kill all projects, except the 11:42:31 Kingston one, of course, meaning the Windstream 11:42:34 Wolfe Island Shoals project, and not suck and blow. In the same series of e-mails on In the

	Page 176		Page 177
1	met each morning, this suggests that his concerns 11:43:39	1	reasons to look at a few of their e-mails, 11:44:53
2	would have been brought to the Premier's Chief of 11:43:41	2	rather. 11:44:58
3	Staff on the morning of January 10th or possibly 11:43:43	3	However, as confirmed by the testimony 11:44:59
4	January 11th. 11:43:45	4	of Rosalyn Lawrence and Marcia Wallace, the 11:45:01
5	The fact that such a change was vetted 11:43:47	5	discussions on offshore wind had occurred many, many 11:45:05
6	with the Premier's Office is normal. Even Minister 11:43:49	6	months prior to January 11th. Ms. Lawrence 11:45:08
7	Smitherman agrees that, every time there is a 11:43:53	7	testified that, over the course of the fall, MNR 11:45:11
8	decision of significance that includes the centre, 11:43:57	8	began working with MOE, who was very involved in 11:45:13
9	whether that be brought through formal or informal 11:44:00	9	discussions with Similarly, Ms. Wallace 11:45:16
10	engagement of the Chief of Staff to the Premier or 11:44:03	10	testified that discussions occurred in the fall of 11:45:21
11	somebody else in his office. That's how important 11:44:06	11	2010, across the Ministries, even at the ADM and 11:45:24
12	decisions are made. So there's no surprise that the 11:44:11	12	Deputy Minister level. 11:45:30
13	Premier's Office was involved in the communication 11:44:14	13	The Claimant suggests that you ignore 11:45:31
14	of the decision to other Ministries and in the 11:44:16	14	all of that, ignore all of the policy discussions 11:45:35
15	review of communications materials. Specifically, 11:44:19	15	that occurred across the Ministries in the fall of 11:45:38
16	the message was, the message from the top, was 11:44:23	16	2010, and instead focus on a few e-mails from the 11:45:40
17	necessary to communicate that the policy was 11:44:26	17	Premier's Office. 11:45:42
18	changing and to ensure that everyone was on the same 11:44:29	18	Ultimately what is clear from the 11:45:44
19	page. As Mr. Wilkinson recognized, this was a 11:44:32	19	evidence is that the Environment Minister's decision 11:45:46
20	difficult decision for the Ministry of Energy, which 11:44:35	20	was brought to the Premier's Office, and on January 11:45:49
21	meant that it was important that he had the backing 11:44:39	21	11th, it was communicated to the Energy Minister's 11:45:52
22	of the top-level of government. 11:44:42	22	Office. No other explanation makes sense. 11:45:54
23	The Claimant suggests that we look at a few of the 11:44:44	23	Since the decision had been made by the Premier's 11:45:57
24	Premier's Chief of Staff office to conclude that the 11:44:47	24	Office and not by the Minister of Environment, the 11:46:02
25	decision was made for improper or nefarious 11:44:52	25	policy staff of the Ministry of Energy would not 11:46:04
	- 1-0

As Mr. Terry stressed again 11:47:31 Minister Wilkinson's decision with respect to the 11:47:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Wilkinson didn't make a decision on that basis. He 11:47:38 made a decision on the basis for the need for province-wide setbacks, province-wide rules. 11:47:41 province-wide setbacks, province-wide rules. 11:47:49 1105, the evidence shows clearly that the decision 11:47:51 to defer offshore wind was made by the Minister of 11:47:53 the Environment in response to concerns relating to 11:47:55 the unfinished regulatory framework. 11:47:58  Despite what Sarah Powell argued, the 11:48:00 announcement on February 11, 2011 was a direct 11:48:03 result of the EBR policy notice process, which 11:48:05 highlighted various public concerns, including 11:48:11 ecological considerations, noise, and drinking water 11:48:15 quality. 11:48:17  Although the decision made a number of people 11:48:17 unhappy, it was also ultimately endorsed by the 11:48:21 Ministers of Energy and Natural Resources. As 11:48:23 Energy Minister Brad Duguid said at the time: 11:48:29 motivated. It was done for 11:48:32 environmental reasons." 11:48:33  And as Mr. Smitherman testified when 11:48:34 it was put to him that the news release that, on 11:48:36
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	have been so angry with Minister Wilkinson. Same is 11:46:07 true for Minister Gerretsen. 11:46:11  And as Mr. Terry stressed again in his 11:46:15 remarks today I wish I could read my handwriting. 11:46:17  [Laughter.] 11:46:29  MR. NEUFELD: It was even put to 11:46:42  Minister Wilkinson during his cross-examination that 11:46:45 his decision was based on the Windstream project. 11:46:48 However, as Mr. Wilkinson testified, the decision he 11:46:50 made had nothing to with the Windstream project. 11:46:54 His decision was with respect to creating 11:46:58 province-wide rules for offshore wind. 11:47:01 Specifically, Mr. Wilkinson's decision was based on 11:47:04 the lack of science on the impacts of large-scale 11:47:06 offshore construction in the Great Lakes. The 11:47:09 Ministry was developing rules for all the Great 11:47:12 Lakes, and he was concerned that such rules must be 11:47:14 based on science and the precautionary principle. 11:47:18  And despite still not being able to 11:47:23 read my handwritten notes, now I can at least 11:47:25 remember what they say. As Mr. Terry stressed again 11:47:28 this morning, everything for the Claimant turns on 11:47:31 Minister Wilkinson's decision with respect to the 11:47:34 Windstream project. 11:47:36	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Wilkinson didn't make a decision on that basis. He 11:47:38 made a decision on the basis for the need for province-wide setbacks, province-wide rules. 11:47:41 province-wide setbacks, province-wide rules. 11:47:49 1105, the evidence shows clearly that the decision 11:47:51 to defer offshore wind was made by the Minister of 11:47:53 the Environment in response to concerns relating to 11:47:55 the unfinished regulatory framework. 11:47:58 Despite what Sarah Powell argued, the 11:48:00 announcement on February 11, 2011 was a direct 11:48:03 result of the EBR policy notice process, which 11:48:05 highlighted various public concerns, including 11:48:11 ecological considerations, noise, and drinking water 11:48:15 quality. 11:48:17 Although the decision made a number of people 11:48:17 unhappy, it was also ultimately endorsed by the 11:48:21 Ministers of Energy and Natural Resources. As 11:48:23 Energy Minister Brad Duguid said at the time: 11:48:28 "The move was not politically 11:48:39 motivated. It was done for 11:48:33 And as Mr. Smitherman testified when 11:48:36 the news release, the three Ministers had, in fact, 11:48:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	have been so angry with Minister Wilkinson. Same is 11:46:07 true for Minister Gerretsen. 11:46:11  And as Mr. Terry stressed again in his 11:46:15 remarks today I wish I could read my handwriting. 11:46:17  [Laughter.] 11:46:29  MR. NEUFELD: It was even put to 11:46:42  Minister Wilkinson during his cross-examination that 11:46:45 his decision was based on the Windstream project. 11:46:48 However, as Mr. Wilkinson testified, the decision he 11:46:50 made had nothing to with the Windstream project. 11:46:54 His decision was with respect to creating 11:46:58 province-wide rules for offshore wind. 11:47:01 Specifically, Mr. Wilkinson's decision was based on 11:47:04 the lack of science on the impacts of large-scale 11:47:06 offshore construction in the Great Lakes. The 11:47:09 Ministry was developing rules for all the Great 11:47:12 Lakes, and he was concerned that such rules must be 11:47:14 based on science and the precautionary principle. 11:47:18 And despite still not being able to 11:47:23 read my handwritten notes, now I can at least 11:47:25 remember what they say. As Mr. Terry stressed again 11:47:31 Minister Wilkinson's decision with respect to the 11:47:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Wilkinson didn't make a decision on that basis. He 11:47:38 made a decision on the basis for the need for province-wide setbacks, province-wide rules. 11:47:41 province-wide setbacks, province-wide rules. 11:47:49 1105, the evidence shows clearly that the decision 11:47:51 to defer offshore wind was made by the Minister of 11:47:53 the Environment in response to concerns relating to 11:47:55 the unfinished regulatory framework. 11:47:58  Despite what Sarah Powell argued, the 11:48:00 announcement on February 11, 2011 was a direct 11:48:03 result of the EBR policy notice process, which 11:48:05 highlighted various public concerns, including 11:48:11 ecological considerations, noise, and drinking water 11:48:15 quality. 11:48:17  Although the decision made a number of people 11:48:17 unhappy, it was also ultimately endorsed by the 11:48:21 Ministers of Energy and Natural Resources. As 11:48:23 Energy Minister Brad Duguid said at the time: 11:48:29 motivated. It was done for 11:48:32 environmental reasons." 11:48:33  And as Mr. Smitherman testified when 11:48:34 it was put to him that the news release that, on 11:48:36

	Page 180		Page 181
1	yes, that that meant each of them approved it. 11:48:45	1	PRESIDENT: Mr. Neufeld, would this 11:49:51
2	The Claimant's allegation that the 11:48:50	2	be a convenient time to have a break, because we 11:49:54
3	decision breaches Article 1105 must be rejected for 11:48:51	3	need to switch the court reporters? I trust you 11:49:57
4	all of the reasons that we've set out in our 11:48:55	4	need half an hour for rebuttal? So perhaps the most 11:50:02
5	pleadings. In particular, the Claimant has no right 11:48:57	5	practical way of proceeding would be to have the 11:50:07
6	to argue that the government prevented it from 11:48:59	6	break now, then you will continue, finish your first 11:50:10
7	accessing a fully functioning approvals framework, 11:49:02	7	part, and we have lunch, and the rebuttals after 11:50:14
8	as you heard again this morning from Mr. Terry. 11:49:04	8	lunch. It will mean a bit late lunch, but we are 11:50:17
9	They can't argue that when the facts 11:49:07	9	lawyers. 11:50:22
10	plainly show that they never made an application. 11:49:09	10	[Laughter.] 11:50:22
11	They never made an REA application. They never even 11:49:12	11	MR. NEUFELD: I think we can make that 11:50:25
12	commenced that application process. 11:49:15	12	work. 11:50:26
13	Further, if the Tribunal needs extra 11:49:19	13	PRESIDENT: Okay. Thank you. So we 11:50:26
14	comfort to dismiss this claim, as Ms. Squires will 11:49:20	14	need some 15, 20 minutes, I trust, for the 11:50:27
15	demonstrate, the Claimant has not even attempted to 11:49:23	15	logistics. So let's continue around 12:10. 11:50:32
16	prove that it suffered any harm arising out of this 11:49:26	16	Recess taken at 11:50 a m. 11:50:39
17	decision. 11:49:29	17	Upon resuming at 12:09 p m. 12:01:35
18	And before I move on to expropriation, 11:49:30	18	PRESIDENT: Yes, Mr. Neufeld. Please 12:09:37
19	I'd like to leave the Tribunal with one last 11:49:32	19	go ahead. 12:09:38
20	thought, which is that the Claimant has not always 11:49:35	20	MR. NEUFELD: Thanks. So I'll turn 12:09:39
21	taken the position that deferral was unfair. In 11:49:37	21	now to the Claimant's Article 1110 claim. 12:09:41
22	fact, Mr. Baines made clear to the Minister of 11:49:39	22	Recall here the measure at issue for 12:09:45
23	Agriculture in November 2011 that Windstream and the 11:49:41	23	the purpose of this claim is not the deferral alone, 12:09:46
24	Lake Ontario offshore network supported our 11:49:45	24	but rather the failure to lift the deferral before 12:09:48
25	government's moratorium on offshore construction. 11:49:47	25	the Claimant's project became un-financeable or the 12:09:52

In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25
2 3 4 5 6 7 8	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57 Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00 The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08 The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11	2 3 4 5 6 7 8	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28
2 3 4 5 6 7 8 9	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57 Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00 The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08 The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14	2 3 4 5 6 7 8 9	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31
2 3 4 5 6 7 8 9 10	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57 Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00 The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08 The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22	2 3 4 5 6 7 8 9 10	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32
2 3 4 5 6 7 8 9 10 11 12	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57 Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00 The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08 The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22 What's certain is that a right that is 12:10:23	2 3 4 5 6 7 8 9 10 11	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34
2 3 4 5 6 7 8 9 10 11 12 13	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57 Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00 The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08 The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22 What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25	2 3 4 5 6 7 8 9 10 11 12	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36
2 3 4 5 6 7 8 9 10 11 12 13 14	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57 Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00 The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08 The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22 What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28	2 3 4 5 6 7 8 9 10 11 12 13	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36 public welfare objectives and taken in good faith, 12:11:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57 Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00 The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08 The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22 What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28 Once a right has been identified and 12:10:30	2 3 4 5 6 7 8 9 10 11 12 13 14	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:39 will not amount to indirect expropriation except in 12:11:42
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57  Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00  The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08  The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22  What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28  Once a right has been identified and 12:10:30 the Tribunal is satisfied that there is a right that 12:10:31	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36 public welfare objectives and taken in good faith, 12:11:39 will not amount to indirect expropriation except in 12:11:42 rare circumstances. 12:11:46 Contrary to what the Claimant argues, 12:11:48 NAFTA does not require governments to compensate all 12:11:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57  Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00  The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08  The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22  What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28  Once a right has been identified and 12:10:31 the Tribunal is satisfied that there is a right that 12:10:31 can be expropriated, several factors must be 12:10:33	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36 public welfare objectives and taken in good faith, 12:11:39 will not amount to indirect expropriation except in 12:11:42 rare circumstances. 12:11:46 Contrary to what the Claimant argues, 12:11:48
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57  Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00  The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08  The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22  What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28  Once a right has been identified and 12:10:30 the Tribunal is satisfied that there is a right that 12:10:31 can be expropriated, several factors must be 12:10:33 considered to determine whether there is an indirect 12:10:37	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36 public welfare objectives and taken in good faith, 12:11:39 will not amount to indirect expropriation except in 12:11:42 rare circumstances. 12:11:46 Contrary to what the Claimant argues, 12:11:48 NAFTA does not require governments to compensate all 12:11:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57  Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00  The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08  The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22  What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28  Once a right has been identified and 12:10:30 the Tribunal is satisfied that there is a right that 12:10:31 can be expropriated, several factors must be 12:10:37 expropriation or whether the measured issue is the 12:10:40	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36 public welfare objectives and taken in good faith, 12:11:39 will not amount to indirect expropriation except in 12:11:42 rare circumstances. 12:11:46 Contrary to what the Claimant argues, 12:11:48 NAFTA does not require governments to compensate all 12:11:50 investors that may be negatively affected when a 12:11:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57  Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00  The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08  The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22  What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28  Once a right has been identified and 12:10:30 the Tribunal is satisfied that there is a right that 12:10:31 can be expropriated, several factors must be 12:10:33 considered to determine whether there is an indirect 12:10:37 expropriation or whether the measured issue is the 12:10:40 legitimate exercise of police power by the State. 12:10:43 The first factor is the impact of the 12:10:46 measure on investment. The Tribunal must determine 12:10:49	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36 public welfare objectives and taken in good faith, 12:11:39 will not amount to indirect expropriation except in 12:11:42 rare circumstances. 12:11:48 NAFTA does not require governments to compensate all 12:11:50 investors that may be negatively affected when a 12:11:52 government regulates in the public interest. 12:11:55
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57  Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00  The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08  The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22  What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28  Once a right has been identified and 12:10:30 the Tribunal is satisfied that there is a right that 12:10:31 can be expropriated, several factors must be 12:10:33 considered to determine whether there is an indirect 12:10:37 expropriation or whether the measured issue is the 12:10:40 legitimate exercise of police power by the State. 12:10:43  The first factor is the impact of the 12:10:49 whether the State conduct has resulted in a total or 12:10:54	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36 public welfare objectives and taken in good faith, 12:11:39 will not amount to indirect expropriation except in 12:11:42 rare circumstances. 12:11:48 NAFTA does not require governments to compensate all 12:11:50 investors that may be negatively affected when a 12:11:55 The Claimant has failed to prove its 12:11:58 Article 1110 claim for four reasons. 12:12:00 First, the revenue stream under the 12:12:03
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	failure to otherwise insulate the Claimant from the 12:09:53 deferral's effects. 12:09:57  Before we get into the facts, I'd like 12:09:58 to remind you of the law. 12:10:00  The prerequisite to an analysis of 12:10:01 whether there is an expropriation is correctly 12:10:05 identifying the object of a taking. 12:10:08  The question you have to ask is 12:10:09 whether the Claimant has identified a property right 12:10:11 that can be expropriated. Is it a vested or 12:10:14 contingent right? 12:10:22  What's certain is that a right that is 12:10:23 only potential or speculative cannot be 12:10:25 expropriated. 12:10:28  Once a right has been identified and 12:10:30 the Tribunal is satisfied that there is a right that 12:10:31 can be expropriated, several factors must be 12:10:33 considered to determine whether there is an indirect 12:10:37 expropriation or whether the measured issue is the 12:10:40 legitimate exercise of police power by the State. 12:10:43 The first factor is the impact of the 12:10:46 measure on investment. The Tribunal must determine 12:10:49	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Second factor is the extent to which 12:11:03 the measure interferes with distinct reasonable 12:11:04 invest-backed expectations. To stress, this is one 12:11:09 relevant consideration, not a determinative factor. 12:11:12 And the third factor to consider is 12:11:17 the character of the measure. In other words, what 12:11:18 type of measure is at issue? Is it a regulatory 12:11:22 action by government or is it a government action 12:11:25 such as seizure of property targeted at a foreign 12:11:28 investor? 12:11:31 Finally, as is well recognized under 12:11:32 international law, the measure that is 12:11:34 nondiscriminatory, designed to protect legitimate 12:11:36 public welfare objectives and taken in good faith, 12:11:39 will not amount to indirect expropriation except in 12:11:42 rare circumstances. 12:11:48 NAFTA does not require governments to compensate all 12:11:50 investors that may be negatively affected when a 12:11:55 The Claimant has failed to prove its 12:11:58 Article 1110 claim for four reasons. 12:12:00

	Page 184		Page 185
1	that is capable of being expropriated. 12:12:13	1	this claim is the alleged right to a revenue stream 12:13:27
2	Second, I'll demonstrate that the 12:12:17	2	under the FIT contract. 12:13:29
3	measure did not amount to a substantial deprivation 12:12:18	3	In its memorial, the Claimant advanced 12:13:31
4	of the Claimant's investments. 12:12:21	4	the bold assertion that the FIT contract gave it the 12:13:33
5	Third, and because the Claimant has 12:12:23	5	right to a guaranteed revenue stream. The evidence 12:13:38
6	focused so much of its alleged expectations so 12:12:25	6	has shown this to be completely inaccurate. In 12:13:41
7	much attention on its alleged expectations rather 12:12:29	7	fact, the Claimant's interest in the revenue stream 12:13:43
8	than on the objective terms and conditions of the 12:12:33	8	under the FIT contract is highly speculative and 12:13:45
9	FIT program and the regulatory framework, I'll then 12:12:35	9	contingent, and, therefore, incapable of being 12:13:48
10	explain how the measures did not interfere with any 12:12:38	10	expropriated. 12:13:50
11	distinct reasonable investment-backed expectations. 12:12:41	11	As acknowledged by Mr. Ziegler, under 12:13:52
12	The final factor I won't deal with, 12:12:44	12	section 2.5 of the FIT contract, the Claimant signed 12:13:55
13	we've addressed sufficiently with respect to the 12:12:48	13	up for the obligation to bring the project into 12:13:57
14	Article 1105 submissions, which explain how and - 12:12:51	14	commercial operation by May 4th, 2015. 12:14:00
15	how the evidence in this hearing has borne out, that 12:12:56	15	He also acknowledged that only once 12:14:03
16	the deferral is a nondiscriminatory measure of 12:13:00	16	the project enters into commercial operation is 12:14:07
17	general application that was adopted in good faith 12:13:03	17	a supplier entitled to the revenue stream under the 12:14:09
18	for the purpose of protecting the environment. 12:13:05	18	FIT contract. 12:14:12
19	So, turning first to whether the 12:13:08	19	Section 26(A)1 of the FIT contract 12:14:13
20	revenue stream is an interest capable of being 12:13:10	20	provides that the project provides that for the 12:14:17
21	expropriated. 12:13:13	21	project to enter into commercial operation, the OPA 12:14:17
22	In Canada's opening submissions, 12:13:14	22	must issue a Notice to Proceed, NTP, pursuant to 12:14:22
23	I said that we should call a spade a spade. And 12:13:15	23	Article 2(4). 12:14:26
24	over the past two weeks I believe that's become 12:13:19	24	As we're well aware, the Claimant had 12:14:28
25	crystal clear that the only interest at issue in 12:13:22	25	not obtained NTP from the OPA. In fact, it had 12:14:30
	erystar elear that the only interest at issue in 12.13.22		not obtained 1/11 from the Of 71. In fact, it fact
	Page 186		Page 187

	entered into force majeure before the deferral. 12:14:34		for proposals for environmental permitting for its 12:15:42
2	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37	2	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45
2	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38	2	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51
2 3 4	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40	2 3 4	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51 By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59
2 3 4 5	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48	2 3 4 5	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56
2 3 4 5	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46	2 3 4 5 6	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51 By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59
2 3 4 5 6 7	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48	2 3 4 5 6 7	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51 By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02
2 3 4 5 6 7 8	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50	2 3 4 5 6 7 8	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51 By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06
2 3 4 5 6 7 8	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52	2 3 4 5 6 7 8	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09
2 3 4 5 6 7 8 9	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:55	2 3 4 5 6 7 8 9	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15
2 3 4 5 6 7 8 9 10	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58	2 3 4 5 6 7 8 9 10	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11 This stands in stark contrast to the 12:16:13
2 3 4 5 6 7 8 9 10 11	entered into force majeure before the deferral.  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:06	2 3 4 5 6 7 8 9 10 11	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18 already prepared a draft project description report 12:16:20
2 3 4 5 6 7 8 9 10 11 12 13	entered into force majeure before the deferral.  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03	2 3 4 5 6 7 8 9 10 11 12	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18
2 3 4 5 6 7 8 9 10 11 12 13 14	entered into force majeure before the deferral.  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:06	2 3 4 5 6 7 8 9 10 11 12 13 14	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18 already prepared a draft project description report 12:16:20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:09  aboriginal communities to begin the consultations 12:15:11  required by the REA. 12:15:17	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:18 already prepared a draft project description report 12:16:20 and submitted it to MOE by mid 2010. 12:16:23 Second, as my colleagues will discuss 12:16:26 in further detail, the evidence shows that the 12:16:28
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:09  aboriginal communities to begin the consultations 12:15:11  required by the REA. 12:15:17  Mr. Roeper confirmed that the Claimant 12:15:18	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18 already prepared a draft project description report 12:16:20 and submitted it to MOE by mid 2010. 12:16:23  Second, as my colleagues will discuss 12:16:28 Claimant was very far, indeed, from completing 12:16:30
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:06  description report, and never requested a list of 12:15:11  required by the REA. 12:15:17  Mr. Roeper confirmed that the Claimant 12:15:18  had also not entered into consultations with the 12:15:20	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:18 already prepared a draft project description report 12:16:20 and submitted it to MOE by mid 2010. 12:16:23  Second, as my colleagues will discuss 12:16:26 in further detail, the evidence shows that the 12:16:30 a financing plan and signing commitment letters with 12:16:33
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:06  description report, and never requested a list of 12:15:09  aboriginal communities to begin the consultations 12:15:11  required by the REA. 12:15:17  Mr. Roeper confirmed that the Claimant 12:15:20  relevant federal authorities regarding the 12:15:22	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18 already prepared a draft project description report 12:16:20 and submitted it to MOE by mid 2010. 12:16:23 Second, as my colleagues will discuss 12:16:26 in further detail, the evidence shows that the 12:16:30 a financing plan and signing commitment letters with 12:16:33 investors. 12:16:37
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:06  description report, and never requested a list of 12:15:09  aboriginal communities to begin the consultations 12:15:11  required by the REA. 12:15:17  Mr. Roeper confirmed that the Claimant 12:15:20  relevant federal authorities regarding the 12:15:25	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18 already prepared a draft project description report 12:16:20 and submitted it to MOE by mid 2010. 12:16:23 Second, as my colleagues will discuss 12:16:26 in further detail, the evidence shows that the 12:16:30 a financing plan and signing commitment letters with 12:16:33 investors. 12:16:37 And finally, the evidence shows that 12:16:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:58  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:06  description report, and never requested a list of 12:15:09  aboriginal communities to begin the consultations 12:15:11  required by the REA. 12:15:17  Mr. Roeper confirmed that the Claimant 12:15:18  had also not entered into consultations with the 12:15:20  relevant federal authorities regarding the 12:15:25  Canadian Environmental Assessment Act and other 12:15:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18 already prepared a draft project description report 12:16:20 and submitted it to MOE by mid 2010. 12:16:23 Second, as my colleagues will discuss 12:16:26 in further detail, the evidence shows that the 12:16:30 a financing plan and signing commitment letters with 12:16:33 investors. 12:16:37  And finally, the evidence shows that 12:16:41
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	entered into force majeure before the deferral.  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 00taining the relevant permits for its project. 12:14:50  obtaining the relevant permits for its project. 12:14:55  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft description report, and never requested a list of 12:15:09  aboriginal communities to begin the consultations 12:15:17  Mr. Roeper confirmed that the Claimant 12:15:18  had also not entered into consultations with the 12:15:20  relevant federal authorities regarding the 12:15:25  Canadian Environmental Assessment Act and other 12:15:30	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18 already prepared a draft project description report 12:16:20 and submitted it to MOE by mid 2010. 12:16:23 Second, as my colleagues will discuss 12:16:26 in further detail, the evidence shows that the 12:16:30 a financing plan and signing commitment letters with 12:16:33 investors. 12:16:37  And finally, the evidence shows that 12:16:41 assessments required for its project as currently 12:16:44
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	entered into force majeure before the deferral. 12:14:34  The evidence also shows that the 12:14:37  Claimant has not fulfilled all the conditions 12:14:38  precedent for obtaining NTP, making its assertion 12:14:40  that it would have done so but for the deferral 12:14:43  highly speculative. 12:14:46  For example, the evidence shows that 12:14:48  the Claimant had not even begun the process of 12:14:50  obtaining the relevant permits for its project. 12:14:52  As attested by Ms. Dumais, former 12:14:58  Director of MOE's Renewable Energy Approvals 12:14:58  Program, Windstream never initiated the REA process 12:15:02  with MOE. It never requested a pre-submission 12:15:03  consultation meeting, never provided a draft 12:15:06  description report, and never requested a list of 12:15:09  aboriginal communities to begin the consultations 12:15:11  required by the REA. 12:15:17  Mr. Roeper confirmed that the Claimant 12:15:18  had also not entered into consultations with the 12:15:20  relevant federal authorities regarding the 12:15:25  Canadian Environmental Assessment Act and other 12:15:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	for proposals for environmental permitting for its 12:15:42 project until October 8th, 2010, with a response due 12:15:45 back November 26th, 2010. 12:15:51  By February 8, 2011, exactly 10 months 12:15:53 after its FIT contract offer was announced, 12:15:56 Mr. Roeper confirmed that the Claimant had still not 12:15:59 obtained an environmental permitting consultant. 12:16:02 An environmental permitting consultant would not 12:16:06 have been retained, in fact, by February 17, 2011, 12:16:09 at the earliest. 12:16:11  This stands in stark contrast to the 12:16:13 work done by other proponents of offshore wind 12:16:15 projects in Ontario such as Trillium, which had 12:16:18 already prepared a draft project description report 12:16:20 and submitted it to MOE by mid 2010. 12:16:23 Second, as my colleagues will discuss 12:16:26 in further detail, the evidence shows that the 12:16:30 a financing plan and signing commitment letters with 12:16:33 investors. 12:16:37  And finally, the evidence shows that 12:16:41

	Page 188		Page 189
1	conducted on the basis of a 3.0-megawatt Vestas 12:16:52	1	submissions have conflated these issues. The 12:18:01
2	turbine and not the 2.3-megawatt Siemens turbine 12:16:57	2	Claimant as a FIT supplier was only entitled to 12:18:03
3	that the Claimant now intends to use. 12:17:00	3	a revenue stream at a fixed price if and when it 12:18:05
4	In sum, the Claimant had not obtained 12:17:02	4	fulfilled the conditions precedent required of its 12:18:08
5	NTP and was very far from obtaining the key 12:17:08	5	FIT contract. 12:18:10
6	conditions precedent that would allow it to obtain 12:17:12	6	Before discussing the matter of 12:18:14
7	NTP. 12:17:15	7	whether there was a substantial deprivation, I'll 12:18:16
8	Not only had the right not vested, but 12:17:16	8	turn briefly to the post deferral negotiations aimed 12:18:21
9	it was from far from vesting, and it remained a 12:17:18	9	at freezing the Claimant's FIT contract. 12:18:24
10	highly contingent and speculative interest. The 12:17:21	10	The OPA decided, as you will recall, 12:18:26
11	Claimant simply did not have the type of actionable 12:17:23	11	to offer to negotiate with the Claimant to keep its 12:18:28
12	and demonstrable entitlement to a certain benefit 12:17:27	12	FIT contract on hold. And as Mr. Cecchini of the 12:18:31
13	that NAFTA Tribunals have found capable of 12:17:29	13	OPA testified, prior to the February 11, 2011, call 12:18:35
14	expropriation. 12:17:31	14	with Windstream, he had a discussion with his 12:18:38
15	In response, the Claimant has made 12:17:34	15	vice-president and director and was authorized to 12:18:40
16	much of the price certainty offered by the FIT 12:17:35	16	negotiate three items of the FIT contract: The 12:18:43
17	contract which contains a firm contract price of 19 12:17:38	17	force majeure provisions, the two-year force majeure 12:18:46
18	cents per kW hour. For example, Mr. Ziegler 12:17:41	18	termination clause related to force majeure, and 12:18:50
19	described the fixed prices as a tremendous advantage 12:17:45	19	security requirements. 12:18:52
20	to the project. Canada has never disagreed with 12:17:48	20	Mr. Cecchini and the OPA's position 12:18:54
21	this. 12:17:51	21	sorry. Mr. Cecchini presented OPA's position to 12:18:59
22	However, the fact that the FIT 12:17:51	22	Ontario prior to the call. This was the only 12:19:05
23	contract offered a fixed price is completely 12:17:53	23	solution that was offered to Windstream on the call. 12:19:07
24	irrelevant as to whether the right to claim payment 12:17:55	24	Anything else would have required a ministerial 12:19:10
25	has vested under the FIT contract. The Claimant's 12:17:58	25	direction. 12:19:14
	Page 190		Page 191
_			

Unsatisfied, Windstream attempted to 12:19:17 pursue other solutions that went beyond keeping its 12:19:18 project on hold. According to its assumption that 12:19:21 the OPA was un-able to address its request that 12:19:23 the -- that went beyond keeping the FIT contract on 12:19:25 hold, Windstream sought to have discussions with the 12:19:30 Ministry of Energy instead. 12:19:33 However, when Windstream's government 12:19:35

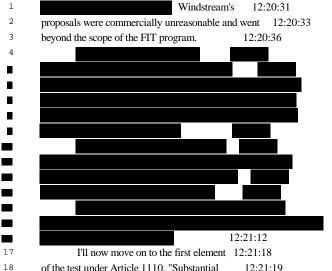

relations advisor approached the 12:19:37 Minister of Energy's Chief of Staff he was 12:19:40 specifically told that Windstream was to negotiate 12:19:42 with the OPA.

There was no basis for Windstream to 12:19:46 assume that the OPA was acting as an agent for the 12:19:48

15 Ministry of Energy. In fact, 12:19:56

> I'm going to have to go into 12:20:00 12:20:01 confidential session for a little bit here. 12:20:05 --- Confidential transcript begins

MR. NEUFELD: In the context of the 12:20:16 post deferral negotiations, Windstream admits that 12:20:17 its proposal went beyond addressing the effects of 12:20:19 the February 11th deferral. As Mr. Mars stated, 12:20:22 they proposed items including 12:20:26

of the test under Article 1110, "Substantial 12:21:19 deprivation." I'm only going to make some brief 12:21:23 comments recognizing that Mr. Spelliscy's remarks 12:21:26 later will demonstrate that the project had no 12:21:29 value. Those comments are equally applicable here 12:21:32 12:21:38 My remarks pertain to the

temporariness of the measure and the fact that the 12:21:40

12:23:12

Consequently, Ontario was forced to - 12:23:15
I'm just realizing that even if this were in the public area, there's no way that they could read these slides. 12:23:25

Consequently, Ontario was forced to 12:23:26 reconsider its plans for conducting the science for 12:23:28 offshore wind. 12:23:30

MOE maintained its lead role under the 12:23:32 research plan with a focus on the areas of noise, 12:23:35 water, and sediment quality, technical standards and 12:23:38 safety, and decommissioning, and valuation of 12:23:41 financial assurance. 12:23:43

An updated MOE-specific research plan 12:23:46 was then developed in March of 2013, which indicated 12:23:49 that research would not be completed until the end 12:23:52 of 2016 at the earliest. 12:23:54

We can go back to public session now. 12:23:56
--- Confidential transcript ends 12:23:58

MR. NEUFELD: To date, Ontario has 12:24:06 continued to pursue the science for offshore wind. 12:24:08

Throughout this hearing, the Claimant has focused on 12:24:10 the statement that I made in Canada's opening that 12:24:13 Ontario is not planning to commence further studies 12:24:15 in the near term to address areas set out in its 12:24:18 12:24:22 initial plans; however, as I went on to explain, once the noise and decommissioning studies are 12:24:26 completed, Ontario will analyze the findings to 12:24:28 determine if there are any gaps and if any further 12:24:31 study is required. 12:24:34 Now, I just want to pause here to 12:24:35 explain why Ontario's future plans to conduct the 12:24:37 science to develop a regulatory framework for 12:24:39 offshore wind have no bearing on this claim. 12:24:42 I said it at the beginning but I'd 12:24:44 like to repeat it now: By the Claimant's own 12:24:46 admission, as of May 22nd, 2012, its project could 12:24:48 no longer achieve commercial operation and it became 12:24:52 substantially worthless. What Ontario did after 12:24:55 that date does not affect the Claimant's project. 12:24:59

Here it's important to note that even 12:25:06

the Claimant admits that its FIT contract -- this is 12:25:08

measure, but the fact that its assets remain intact. 12:25:15

It's important to note that the

Claimant admits that its FIT remains in force as

now going to deal with, not the temporariness of the 12:25:11

a valid and binding contract. As Mr. Cecchini of 12:25:24
the OPA has also attested, a FIT contract is still 12:25:26
in place and under force majeure. As a result, 12:25:29
under 10(1)g of the FIT contract, both the OPA and 12:25:32
the Claimant have the right to terminated the FIT as 12:25:41
of the 24 months after the original MCOD, meaning after May 4th, 2017. 12:25:47
The evidence also establishes that the 12:25:50

Claimant could obtain its security deposit sooner if 12:25:52 it entered into a mutual termination agreement with 12:25:55 the OPA. Mr. Cecchini has testified that in 12:25:59 accordance with the OPA's practice, the OPA would 12:26:02 return the security deposit if the Claimant pursued 12:26:05 this option. 12:26:08

Not only has the Claimant failed to 12:26:09 prove any substantial deprivation of the FIT 12:26:11 contract, it has not led any evidence that it was 12:26:14 substantially deprived of the other investments it 12:26:16 originally asserted to be part of its claim, 12:26:19 including its enterprise, its work product, its 12:26:22 data, it's MET tower, turbine sales agreement with 12:26:24 Siemens or its private land leases. 12:26:27

To the extent that the Claimant has 12:26:29 experienced a substantial deprivation of the its 12:26:32 investment, the economic impact it has experienced 12:26:35

resulted from its own failure to negotation 12:26:38 a contractual solution with the OPA 12:26:40 The Charman's expectations were 12:26:51 The Charman's expectations respects. First, it 12:26:53 The Charman's expectations respects. First, it 12:26:57 The Charman's expectations respects. Now Id like to turn to the matter of 122643 4 reasonable investment backed expectations were 122651 5 The Claimant's expectations were 122653 6 unreasonable in a least three respects: First, il 122657 8 to the un-firished RFA regulation. 122659 8 Second, it had unreasonable 122703 10 expectations with respect to its Crown land, access 122745 11 to the Crown land; and, thind, it had 122703 12 unreasonable expectations regarding the revenue 122712 13 stream of the FTT contract. 122712 14 The REA established in September of 122716 15 2009 included highly prescriptive 122718 16 technology specific standards for every technology 1222730 17 except for offshore wind projects. 122734 18 As Ms. Powell has attested, REA 122737 19 applications for offshore wind projects required all 122730 20 the normal REA reports as well as an additional 122733 21 report called the Olfshore Wind Prejects required all 122730 22 the moral REA reports as well as an additional 122733 23 out a description of firee things: The nature of the 122734 24 existing environment in which the renewable energy 122744 25 project will be engaged, any negative environmental 1222940 26 project proposal natice of June 25th, 2010. 1229210 27 policy on offshore wind projects required all 122934 28 project all the company of the project in the MOEs 122935 3 project all the chains was a will as an additional 122333 4 project all the engaged any negative environmental 1222940 29 policy on offshore wind projects required all 122934 3 project all the engaged any negative environmental 122934 4 And by the firm the first FT contracts were 122936 5 was, in fact, still in the process of reviewing its 122912 20 policy on offshore wind projects required all 1229345 21 remembered that this sethack proposal was driven by 122835 22 project will be engaged, any negative environmental 122734 23 project all the engaged and the chain gave and the project was a first and the chain gave and the project was a first and the project was a first and the project was a first and the c	1	resulted from its own failure to negotiation 12:26:38	1	effects that may result from engaging in the 12:27:49
reasonable in at least three respects First, it 122:653  measonable in at least three respects First, it 122:653  measonable in at least three respects First, it 122:653  measonable in at least three respects First, it 122:653  measonable in at least three respects First, it 122:653  measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects First, it 122:653  measonable measonable in at least three respects for indication of the REA regulation in 122:28:10  measonable measonable in at least three respects for formable measonable in at least three respects in the REA regulations 122:28:10  measonable measonable in at least three respects in 122:747  to the Crown land, diffird, it had 12:27:70  to the Crown land, and, third, it had 12:27:70  to the Crown land in additional in 12:27:18  to the Crown land in the REA regulation was 12:28:10  measonable expectations reparting the reverse 12:27:12  measonable expectations reparting the reverse 12:27:12  measonable expectations reparting three reverse 12:27:12  measonable expectations were 12:27:12  measonable meason in the first FIT contracts were 12:27:13  measonable meason in the meason in this meason in the meason i	2	a contractual solution with the OPA. 12:26:40	2	renewable energy project and mitigation measures in 12:27:53
The Claimant's expectations were 122-651  urreasonable in at least three respects First, it 122-653  to overfooked the regulatory uncertainty with respect 122-657  to the un-firished REA regulation. 122-0559  Second, it had unessonable 122-7703  expectations with respect to its Crown land, access 122-795  to the Un-firished REA regulation. 122-771  urreasonable expectations regarding the revenue 122-7712  urreasonable expectations regarding the revenue 122-7712  treasonable expectations regarding the revenue 122-7716  treasonable expectations regarding the revenue 122-7717  treasonable expectations regarding the revenue 122-7716  treasonable expectations regarding the revenue 122-7717  treasonable expectations regarding the revenue 122-7718  treasonable expectations regarding the revenue 122-7717  treasonable expectations regarding the revenue 122-7717  treasonable expectations regarding the revenue 122-7717  treasonable expectations regarding the r	3	Now I'd like to turn to the matter of 12:26:43	3	respect of any negative environmental effects 12:27:56
clear upfront rules elsewhere in the REA regulations   12:28:03     vorthooked the regulatory uncertainty with respect   12:26:57     vorthooked the regulatory uncertainty with respect   12:26:57     vorthooked the regulatory uncertainty with respect   12:26:57     vorthooked the regulatory uncertainty with respect   12:26:59     vorthooked the regulatory uncertainty with respect   12:26:59     vorthooked the regulatory uncertainty with respect   12:26:59     vorthooked the regulatory uncertainty with respect   12:27:05     vorthooked the regulatory uncertainty with respect   12:27:05     vorthooked the FIT contract   12:27:16     vorthooked the regulatory the respect   12:27:16     vorthooked professor with operation of the respect   12:27:16     vorthooked professor   12:28:17	4	reasonable investment-backed expectations. 12:26:45	4	identified. 12:27:59
overlooked the regulatory uncertainty with respect 12:26:57 to the un-finished REA regulation 12:26:59 Second, it had unreasonable 12:27:03 Second, it had unreasonable 12:27:03 Interestingly, the Chimiant chose not 12:28:17 Interestingly, the Chimiant chose not 12:28:19 Interestingly, the Chimiant chose not 12:28:21 Interestingly, the Chimiant chose not 12:28:25 Interestingly and the Chimiant chose not 12:28:25 Interestingly and the Chimiant ch	5	The Claimant's expectations were 12:26:51	5	So you can see how, in contrast to the 12:28:01
to the un-finished REA regulation   122:659   8   report is not prescriptive. It gives little   122:810   10 expectations with respect to its Crown land, access   12:27:05   10   11 to the Crown land; and, third, it had   12:27:07   12   12:27:12   12   unreasonable expectations regarding the revenue   12:27:12   13   13:27:12   13:27:12   13   13:27:12   13:27:	6	unreasonable in at least three respects: First, it 12:26:53	6	clear upfront rules elsewhere in the REA regulations 12:28:03
Second, it had urreasonable 1227/03	7	overlooked the regulatory uncertainty with respect 12:26:57	7	such as the 550-metre setback for on-shore, this 12:28:07
to the Crown land; and, third, it had 12:27:07	8	to the un-finished REA regulation. 12:26:59	8	report is not prescriptive. It gives little 12:28:10
to the Crown land; and, third, it had 12:27:07 12 unreasonable expectations regarding the revenue 12:27:12 13 stream of the FIT contract. 12:27:12 13 this report was included as a place holder for the 12:28:29 14 The REA established in September of 12:27:18 15 2009 included highly prescriptive 12:27:18 15 2009 included highly prescriptive 12:27:18 16 technology-specific standards for every technology 12:27:20 16 standards for overy technology 12:27:20 16 standards for overy technology 12:27:20 16 standards for overy technology 12:27:20 17 specific standards for every technology 12:27:20 18 applications for offshore wind projects required all 12:27:33 18 As Ms. Powell has attested, REA 12:27:27 19 applications for offshore wind projects required all 12:27:33 19 the normal REA reports as well as an additional 12:27:33 19 the normal REA reports as well as an additional 12:27:33 19 the normal REA reports as well as an additional 12:27:34 19 the normal REA reports as well as an additional 12:27:35 12:28:35 12:28:45 12:	9	Second, it had unreasonable 12:27:03	9	indication of how to obtain an REA. 12:28:15
12	10	expectations with respect to its Crown land, access 12:27:05	10	Interestingly, the Claimant chose not 12:28:17
stream of the EFT contract.  12.27:12 15	11	to the Crown land; and, third, it had 12:27:07	11	to cross-examine Dr. Wallace on her testimony that 12:28:19
The REA established in September of 12:27:16  15 2009 included highly prescriptive 12:27:18  16 technology-specific standards for every technology 12:27:20  17 except for offshore wind projects. 12:27:27  18 As M. S. Powell has attested, REA 12:27:27  19 applications for offshore wind projects required all 12:27:33  19 applications for offshore wind projects required all 12:27:33  19 applications for offshore wind projects required all 12:27:33  20 the normal REA reports as well as an additional 12:27:33  21 report called the Offshore wind projects to see 12:27:36  22 That report required applicants to set 12:27:36  23 out a description of three things: The nature of the 12:27:41  24 existing environment in which the renewable energy 12:27:44  25 project will be engaged, any negative environmental 12:27:47  26 project will be engaged, any negative environmental 12:29:04  27 and by the time the first FIT contracts were 12:29:01  28 offered, the regulatory framework for offshore wind 12:29:04  29 a first call in the process of reviewing its 12:29:12  20 policy on offshore wind development. 3:12:83  21 the formal REA regulation or wind development. 3:12:83  22 stated that MOE and MNR continued to work on a 12:28:45  23 which would include a prove wise steaked minimum 12:28:45  24 existing environment in which the renewable energy 12:27:44  25 project will be engaged, any negative environmental 12:27:47  26 project will be engaged, any negative environmental 12:29:04  27 and by the time the first FIT contracts were 12:29:01  28 project shal not been any further developed. 12:29:07  39 project shal not been any further developed. 12:29:07  40 As I've already discussed, Ontario 12:29:10  41 policy on offshore wind development will be engaged any negative environment and provided that the project required approach including serbacks. 12:30:23  42 propose of project shall be engaged. any negative environmental 12:29:04  43 projects bail not been any further developed. 12:29:07  44 Sa I've already discussed, fortario 12	12	unreasonable expectations regarding the revenue 12:27:12	12	this report was included as a place holder for the 12:28:22
2009 included highly prescriptive   12:27:18   15   cstablished, the MOE clearly signaled to the public   12:28:32   17   except for offshore wind projects.   12:27:24   17   18   13:28:36   14   18   18   19:28:38   18   18   18   18   18   18   18	13	stream of the FIT contract. 12:27:12	13	yet to be adopted technology-specific rules on 12:28:26
technology-specific standards for every technology 12:27:20  record for offshore wind projects. 12:27:27  applications for offshore wind projects required all 12:27:30  the normal REA reports as well as an additional 12:27:30  the normal REA reports as well as an additional 12:27:30  the normal REA reports as well as an additional 12:27:30  the normal REA reports as well as an additional 12:27:30  the normal REA reports as well as an additional 12:27:36  That report called the Offshore wind projects required all 12:27:30  the normal REA reports as well as an additional 12:27:36  That report called the Offshore wind projects required all 12:27:30  the normal REA reports as well as an additional 12:27:36  That its policy for offshore wind development. 12:28:49  the normal REA reports as well as an additional 12:27:30  the normal REA reports as well as an additional 12:27:30  and the scription of three things: The nature of the 12:27:41  existing environment in which the renewable energy 12:27:44  existing environment in which the renewable energy 12:27:44  and by the time the first FIT contracts were 12:29:01  and and by the time the first FIT contracts were 12:29:01  and an antipart of the regulatory framework for offshore wind 12:29:01  and And by the time the first FIT contracts were 12:29:10  and An antipart of the regulatory framework for offshore wind 12:29:10  and An antipart of the regulatory framework for offshore wind dividended approach including setbacks. Including setbacks in fact, still in the process of reviewing its 12:29:10  and An antipart of the regulatory framework for offshore wind dividended approach including setbacks. Including setbacks in fact, and the fact that there's — there is no 12:30:22  and offered, the regulatory framework for offshore wind dividended approach including setbacks. Including setbacks. Including setbacks. Including setbacks. Including setbacks proposal setbacks and the fact that its policy for offshore wind davelopment. This was 12:29:16  by an antipart of the regula	14	The REA established in September of 12:27:16	14	offshore wind. When the REA regulation was 12:28:27
ax Ms. Powell as attested, REA 12:27:27 18 Is useful under development. 12:28:38 18 As Ms. Powell as attested, REA 12:27:27 18 Is posting on the EBR registry. 12:28:39 19 applications for offshore wind projects required all 12:27:30 20 19 stated that MOE and MNR continued to work on a 12:28:42 21 report called the Offshore Wind Facility Report. 12:27:36 21 report called the Offshore Wind Facility Report. 12:27:37 22 22:37 23 24 existing environment in which the renewable energy 12:27:48 24 existing environment in which the renewable energy 12:27:44 25 posting signaled that MOE and MNR were continuing to 12:28:55 25 project will be engaged, any negative environmental 12:27:47 25 work on a coordinated approach including setbacks. 12:28:58 26 27 28 29:10	15	2009 included highly prescriptive 12:27:18	15	established, the MOE clearly signaled to the public 12:28:32
As Ms. Powell has attested, REA   12:27:27   18   Its posting on the EBR registry,   12:28:39   12:28:49   12:28:45   12:	16		16	that its policy for offshore wind development was 12:28:36
applications for offshore wind projects required all 12:27:30 the normal REA reports as well as an additional 12:27:33 20 coordinated approach to offshore wind facilities 12:28:45 report called the Offshore Wind Facility Report. 12:27:36 21 which would include a province-wide settack minimum 12:28:45 thich would include a province-wide settack minimum 12:28:45 22 That report required applicants to set 12:27:39 22 separation distances for noise. 12:28:49 23 out a description of three things: The nature of the 12:27:41 24 existing environment in which the renewable energy 12:27:44 24 project will be engaged, any negative environmental 12:27:47 25 work on a coordinated approach including setbacks. 12:28:58 25 project will be engaged, any negative environmental 12:27:47 25 work on a coordinated approach including setbacks. 12:28:58 26 27:47 26 27:48 27:49 27:49 28 28:49 29:40 29:	17	except for offshore wind projects. 12:27:24	17	still under development. 12:28:38
the normal REA reports as well as an additional 12:27:33   20   coordinated approach to offshore wind facilities   12:28:45   report called the Offshore Wind Facility Report.   12:27:36   21   which would include a province-wide setback minimum   12:28:45   22:28:49   out a description of three things: The nature of the   12:27:41   23   Mr. Smitherman agreed that this   12:28:49   22:28:52   posting signaled that MOE and MNR were continuing to   12:28:58   project will be engaged, any negative environmental   12:27:47   25   work on a coordinated approach including setbacks.   12:28:58   12:28:58   25   project will be engaged, any negative environmental   12:29:40   25   project shad not been any further developed.   12:29:01   22:90:10   4   As I've already discussed, Ontario   12:29:10   4   As I've already discussed, Ontario   12:29:10   4   As I've already discussed, Ontario   12:29:10   4   As I've already discussed to the public in the MOE's   12:29:16   5   policy on offshore wind development. This was   12:29:14   5   policy proposal notice of June 25th, 2010.   12:29:20   8   All of the environmental studies that   12:30:32   12:30:32   12:30:32   12:30:34   12:30:34   12:30:34   12:30:34   12:30:34   12:30:34   12:30:34   12:30:34   12:30:34   12:30:34   12:30:34   12:30:34   12:30:35   12:30:35   12:30:35   12:30:35   12:30:35   12:30:35   12:30:35   12:30:35   12:30:35   12:30:35   12:30:35   12:30:36	18	As Ms. Powell has attested, REA 12:27:27	18	
report called the Offshore Wind Facility Report. 12:27:36   21   which would include a province-wide setback minimum   12:28:45   23   other report required applicants to set 12:27:39   22   separation distances for noise.   12:28:59   23   other facilities of three things: The nature of the 12:27:41   23   Mr. Smitherman agreed that this   12:28:52   22:85.58   22:85.58   22:85.58   22:85.58   22:85.58   22:85.58   22:85.58   23:28:58	19	applications for offshore wind projects required all 12:27:30	19	stated that MOE and MNR continued to work on a 12:28:42
That report required applicants to set 12:27:39 out a description of three things: The nature of the 12:27:44 existing environment in which the renewable energy 12:27:44 existing environment in which the renewable energy 12:27:47 25 project will be engaged, any negative environmental 12:27:47 25 work on a coordinated approach including setbacks. 12:28:58 project will be engaged, any negative environmental 12:27:47 25 work on a coordinated approach including setbacks. 12:28:58 Page 199  1 And by the time the first FTT contracts were 12:29:901 1 the project retroactively, i.e. for tasks that had 12:30:16 already been completed. 12:30:21 already been completed. 12:30:21 already been completed. 12:30:22 question, and that's that there's – there is no 12:30:23 question of retrospective application in this case 12:30:25 policy on offshore wind development. This was 12:29:14 policy on offshore wind development. This was 12:29:16 policy proposal notice of June 25th, 2010. 12:29:20 8 Ms. Powell agreed that this posting 12:29:27 policy proposal notice of June 25th, 2010. 12:29:20 1 amendments to the REA regulation or changes to the 12:29:31 remembered that this setback proposal was driven by 12:29:38 13 remembered that this setback proposal was driven by 12:29:38 14 noise. It wasnt. In fact, the discussion paper 12:29:45 16 issues, including concerns around near shore 12:29:45 17 activities, drinking water, noise, boat traffic and 12:29:48 17 activities, drinking water, noise, boat traffic and 12:29:48 17 activities, drinking water, noise, boat traffic and 12:29:52 18 tourism, habitat for fish, animals and birds, as 12:29:52 18 tourism, habitat for fish, animals and birds, as 12:29:52 18 tourism, habitat for fish, animals and birds, as 12:29:52 18 tourism, habitat for fish, animals and birds, as 12:29:52 18 tourism, habitat for fish, animals and birds, as 12:29:52 19 the first question that you posed yesterday, the day 12:30:00 21 the first question that you posed yesterday, the day 12:30:00 22 the first question that yo	20		20	coordinated approach to offshore wind facilities 12:28:45
out a description of three things: The nature of the 12:27:41 24 existing environment in which the renewable energy 12:27:44 25 project will be engaged, any negative environmental 12:27:47 25 project will be engaged, any negative environmental 12:27:47 26 posting signaled that MOE and MNR were continuing to 12:28:58  Page 198  Page 198  Page 199  And by the time the first FTT contracts were 12:29:01 offered, the regulatory framework for offshore wind 12:29:04 projects had not been any further developed. 12:29:07 and As I've already discussed, Ontario 12:29:10 was, in fact, still in the process of reviewing its 12:29:12 policy on offshore wind development. This was 12:29:14 policy proposal notice of June 25th, 2010. 12:29:20 policy proposal notice of June 25th, 2010. 12:29:20 policy proposal notice of June 25th, 2010. 12:29:20 policy proposal notice of June 25th, 2010. 12:29:21 policy groposal notice of June 25th, 2010. 12:29:21 policy groposal notice of June 25th, 2010. 12:29:20 policy proposal notice of June 25th, 2010. 12:29:20 policy groposal notice of June 25th, 2010. 12:29:20 policy groposal notice of June 25th, 2010. 12:29:20 policy proposal notice of June 25th, 2010. 12:29:31 policy proposal notice of June 25th, 2010. 12:29:32 policy groposal notice of June 25th, 2010. 12:29:32 policy groposal notice of June 25th, 2010. 12:29:32 policy groposal notice of June 25th, 2010. 12:29:33 policy groposal notice of June 25th, 2010. 12:29:34 policy groposal notice of June 25th, 2010. 12:29:35 policy gropo	21	report called the Offshore Wind Facility Report. 12:27:36	21	which would include a province-wide setback minimum 12:28:45
existing environment in which the renewable energy 12:27:44 project will be engaged, any negative environmental 12:27:47 project will be engaged, any negative environmental 12:29:01 project will be engaged, any negative environmental 12:29:01 the project retroactively, i.e. for tasks that had 12:30:16 already been completed. 12:30:21 Now, there is a short answer to your 12:30:22 question, and that's that there's - there is no 12:30:23 question of fishore wind development. This was 12:29:14 project proposal notice of June 25th, 2010. 12:29:20 projects, and that's that there's - there is no 12:30:26 because the Claimant hadn't even begun its REA 12:30:29 process, hadn't initiated the process. 12:30:32 process, hadn't initiated the process. 12:30:33 projects and that change was on the horizon, including 12:29:27 process, hadn't initiated the process. 12:30:34 purposes of this arbitration, and not for the 12:30:36 purposes of this arbitration, and not for the 12:30:34 purposes of development of 12:30:41 purposes of development of 12:30:43 the Claimant's project and the fact that it hadn't 12:30:45 made an application for an REA, there is, therefore, 12:30:48 made an application for an REA, there is, therefore, 12:30:48 made an application for an REA, there is, therefore, 12:30:48 made an application for an REA, there is, therefore, 12:30:49 the project was in and the nature of the amendment to 12:30:59 the project was in and the nature of the amendment to 12:30:59 the project was in and the nature of the amendment to 12:30:59 the project was in and the nature of the amendment to 12:30:51 the REA amendments to 12:31:17 An an amendment could still have been	22	That report required applicants to set 12:27:39	22	separation distances for noise. 12:28:49
Page 198  And by the time the first FIT contracts were 12:29:01  offered, the regulatory framework for offshore wind 12:29:07  As I've already discussed, Ontario 12:29:10  make a signaled that change was on the horizon, including 12:29:20  Ms. Powell agreed that this posting 12:29:24  membered that this setback proposal discusses a range of 12:29:45  moise. It wasn't. In fact, the discussion paper 12:29:40  moise. It wasn't. In fact, the discussion paper 12:29:45  moise. It wasn't have the make the tact that it hadn't. 12:30:51  mot	23		23	Mr. Smitherman agreed that this 12:28:52
Page 198  And by the time the first FTC contracts were 12:29:01 offered, the regulatory framework for offshore wind 12:29:04 projects had not been any further developed. 12:29:10 4 question, and that's that there's – there is no 12:30:21 4 As I've already discussed, Ontario 12:29:11 4 question, and that's that there's – there is no 12:30:22 question of retrospective application in this case 12:30:26 policy on offshore wind development. This was 12:29:14 6 because the Claimant hadn't even begun its REA 12:30:29 policy on offshore wind development. This was 12:29:16 7 policy proposal notice of June 25th, 2010. 12:29:20 8 All of the environmental studies that 12:30:34 10 signaled that change was on the horizon, including 12:29:24 9 it has conducted have been undertaken for the 12:30:39 amendments to the REA regulation or changes to the 12:29:31 12 REA process; however, Ms. Powell incorrectly 12:29:35 12 Based on the stages of development of 12:30:41 12 attached to the proposal discusses a range of 12:29:42 15 no doubt that any amendments to the REA regulation near shore 12:29:45 16 issues, including concerns around near shore 12:29:45 16 issues, including concerns around near shore 12:29:45 17 tourism, habitat for fish, animals and birds, as 12:29:56 19 well as shipping activities. 12:29:58 19 well as shipping activities. 12:29:58 10 So, allow me to pause here to answer 12:29:58 10 the first question that you posed yesterday, the day 12:30:00 12 the first question that you posed yesterday, the day 12:30:01 24 the REA, but she didn't point you to one part of 12:31:15 the first question that you posed yesterday, the day 12:30:11 24 the first question that you posed yesterday, the day 12:30:11 24 the first question that you posed yesterday the 12:30:11 24 the project was in and the nature of the amendment 12:31:17 the first question that you posed yesterday, the day 12:30:00 12:31:17 the first question that you posed yesterday, the day 12:30:01 24 the REA, but she didn't point you to other sections. 12:31:17 the firs	24	existing environment in which the renewable energy 12:27:44	24	posting signaled that MOE and MNR were continuing to 12:28:55
And by the time the first FIT contracts were 12:29:01 1 the project retroactively, i.e. for tasks that had 12:30:16 offered, the regulatory framework for offshore wind 12:29:04 2 projects had not been any further developed. 12:29:07 3 Now, there is a short answer to your 12:30:22 4 As I've already discussed, Omario 12:29:10 4 question, and that's that there's there is no 12:30:23 2 was, in fact, still in the process of reviewing its 12:29:12 5 question of retrospective application in this case 12:30:26 6 policy on offshore wind development. This was 12:29:14 6 because the Claimant hadn't even begun its REA 12:30:29 7 clearly communicated to the public in the MOE's 12:29:16 7 process, hadn't initiated the process. 12:30:32 9 policy proposal notice of June 25th, 2010. 12:29:20 8 All of the environmental studies that 12:30:34 13 remembered that this setback proposal was driven by 12:29:38 13 the Claimant's project and the fact that it hadn't 12:30:45 12:30:34 13 remembered that this setback proposal was driven by 12:29:38 13 the Claimant's project and the fact that it hadn't 12:30:45 14 2:30:34 14 2:30:34 15 2:30:34	25	project will be engaged, any negative environmental 12:27:47	25	work on a coordinated approach including setbacks. 12:28:58
offered, the regulatory framework for offshore wind 12:29:04 projects had not been any further developed. 12:29:07 As I've already discussed, Ontario 12:29:10 As I've already discussed, Ontario 12:29:10  was, in fact, still in the process of reviewing its 12:29:12  policy on offshore wind development. This was 12:29:14  clearly communicated to the public in the MOE's 12:29:16  molicy proposal notice of June 25th, 2010. 12:29:20  Ms. Powell agreed that this posting 12:29:24  mendments to the REA regulation or changes to the 12:29:21  REA process; however, Ms. Powell incorrectly 12:29:35  REA process; however, Ms. Powell incorrectly 12:29:35  moise. It wasn't. In fact, the discussion paper 12:29:42  moise. It wasn't. In fact, the discussion paper 12:29:45  moise, lit wasn't. In fact, the discussion paper 12:29:45  mother of the proposal discusses a range of 12:29:45  mother of the proposal discusses a range of 12:29:45  mother of the proposal discusses a range of 12:29:56  mother of the Claimant had initiated an REA 12:30:57  mother of the Claimant had initiated an REA 12:30:57  mother of the mother of 12:30:49  mother of the mother of the mother of 12:30:49  mother of the mother of the mother of 12:30:49  mother of the mother of the mother of the mother of the mother of 12:30:49  mother of the mo		Page 198		Page 199
offered, the regulatory framework for offshore wind 12:29:04 projects had not been any further developed. 12:29:07 As I've already discussed, Ontario 12:29:10 As I've already discussed, Ontario 12:29:10  was, in fact, still in the process of reviewing its 12:29:12  policy on offshore wind development. This was 12:29:14  clearly communicated to the public in the MOE's 12:29:16  molicy proposal notice of June 25th, 2010. 12:29:20  Ms. Powell agreed that this posting 12:29:24  mendments to the REA regulation or changes to the 12:29:21  REA process; however, Ms. Powell incorrectly 12:29:35  REA process; however, Ms. Powell incorrectly 12:29:35  moise. It wasn't. In fact, the discussion paper 12:29:42  moise. It wasn't. In fact, the discussion paper 12:29:45  moise, lit wasn't. In fact, the discussion paper 12:29:45  mother of the proposal discusses a range of 12:29:45  mother of the proposal discusses a range of 12:29:45  mother of the proposal discusses a range of 12:29:56  mother of the Claimant had initiated an REA 12:30:57  mother of the Claimant had initiated an REA 12:30:57  mother of the mother of 12:30:49  mother of the mother of the mother of 12:30:49  mother of the mother of the mother of 12:30:49  mother of the mother of the mother of the mother of the mother of 12:30:49  mother of the mo	1	And by the time the first FIT contracts were 12:29:01	1	the project retroactively, i.e. for tasks that had 12:30:16
projects had not been any further developed. 12:29:07  As I've already discussed, Ontario 12:29:10  As I've already discussed, Ontario 12:29:10  As I've already discussed, Ontario 12:29:10  Was, in fact, still in the process of reviewing its 12:29:12  Early communicated to the public in the MOE's 12:29:14  Policy proposal notice of June 25th, 2010. 12:29:20  Ms. Powell agreed that this posting 12:29:24  Ms. Powell agreed that this posting 12:29:24  REA process; however, Ms. Powell incorrectly 12:29:35  remembered that this setback proposal was driven by 12:29:40  moise. It wasn't. In fact, the discussion paper 12:29:40  sisues, including concerns around near shore 12:29:45  dissues, including concerns around near shore 12:29:45  well as shipping activities. 12:29:56  So, allow me to pause here to answer 12:30:04  Policy proposal notice of June 25th, 2010. 12:29:58  under Ontario law, amendments to the REA, like the 12:30:04  As I've already discussed, ontario and the stage of the stage of development in this case 12:30:29  question, and that's that there's — there is no 12:30:20  question of retrospective application in this case 12:30:29  process, hadn't initiated the process. 12:30:32  all of the environmental studies that 12:30:34  it has conducted have been undertaken for the 12:30:34  purposes of this arbitration, and not for the 12:30:34  Based on the stages of development of 12:30:43  the Claimant's project and the fact that it hadn't 12:30:45  made an application for an REA, there is, therefore, 12:30:57  would apply to it. 12:30:57  Well as shipping activities. 12:30:59  Well as shipping activities. 12:29:56  Ms. Seers pointed you to one part of 12:31:15  the project would have depended on the stage that 12:31:05  the project would have depended on the stage that 12:31:05  Ms. Seers pointed you to one part of 12:31:15  the REA, but she didn	2		2	
As I've already discussed, Ontario 12:29:10 4 question, and that's that there's there is no 12:30:23  was, in fact, still in the process of reviewing its 12:29:12 5 question of retrospective application in this case 12:30:26  policy on offshore wind development. This was 12:29:14 6 because the Claimant hadn't even begun its REA 12:30:29  clearly communicated to the public in the MOE's 12:29:16 7 process, hadn't initiated the process. 12:30:32 12:30:29  Ms. Powell agreed that this posting 12:29:24 9 All of the environmental studies that 12:30:34 it has conducted have been undertaken for the 12:30:36 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:41 12:30:45 12:30:51 12:30:51 12:30:51 12:30:51 12:30:51 12:30:51 12:30:59 12:30:59 12:30:59 12:30:59 12:30:50 12:30:50 12:30:50 12:30:51 12:30:50 12:30:51 12:30:	3		3	Now, there is a short answer to your 12:30:22
policy on offshore wind development. This was 12:29:14 clearly communicated to the public in the MOE's 12:29:16 7 clearly communicated to the public in the MOE's 12:29:16 7 process, hadn't initiated the process. 12:30:32 process, hadn't initiated the process. 12:30:32 process, hadn't initiated the process. 12:30:32 All of the environmental studies that 12:30:34 it has conducted have been undertaken for the 12:30:36 purposes of this arbitration, and not for the 12:30:39 purposes of obtaining an REA. 12:30:41 purposes of obtaining an REA. 12:30:42 purposes of obtaining an REA. 12:30:43 the Claimant's project and the fact that it hadn't 12:30:45 purposes. It wasn't. In fact, the discussion paper 12:29:40 purpose of obtaining an REA. 12:30:45 purposes o	4		4	question, and that's that there's there is no 12:30:23
policy on offshore wind development. This was 12:29:14 clearly communicated to the public in the MOE's 12:29:16 7 clearly communicated to the public in the MOE's 12:29:16 7 process, hadn't initiated the process. 12:30:32 process, hadn't initiated the process. 12:30:32 process, hadn't initiated the process. 12:30:32 All of the environmental studies that 12:30:34 it has conducted have been undertaken for the 12:30:36 purposes of this arbitration, and not for the 12:30:39 purposes of obtaining an REA. 12:30:41 purposes of obtaining an REA. 12:30:42 purposes of obtaining an REA. 12:30:43 the Claimant's project and the fact that it hadn't 12:30:45 purposes. It wasn't. In fact, the discussion paper 12:29:40 purpose of obtaining an REA. 12:30:45 purposes o	5	was, in fact, still in the process of reviewing its 12:29:12	5	question of retrospective application in this case 12:30:26
Ms. Powell agreed that this posting 12:29:24 9 it has conducted have been undertaken for the 12:30:34  Ms. Powell agreed that this posting 12:29:27 10 purposes of this arbitration, and not for the 12:30:39  mendments to the REA regulation or changes to the 12:29:31 11 purposes of obtaining an REA. 12:30:41  REA process; however, Ms. Powell incorrectly 12:29:35 12 Based on the stages of development of 12:30:43  remembered that this setback proposal was driven by 12:29:38 13 the Claimant's project and the fact that it hadn't 12:30:45  moise. It wasn't. In fact, the discussion paper 12:29:40 14 made an application for an REA, there is, therefore, 12:30:48 15 attached to the proposal discusses a range of 12:29:42 15 modult that any amendments to the REA regulation 12:30:51 issues, including concerns around near shore 12:29:45 16 would apply to it. 12:30:54 17 activities, drinking water, noise, boat traffic and 12:29:48 17 If the Claimant had initiated an REA 12:30:57 19 well as shipping activities. 12:29:56 19 the project was in and the nature of the amendments to 12:30:59 19 the project was in and the nature of the amendment 12:31:07 12:31:17 12:30:44 24 15 12:30:00 12:31:11 12:30:04 12:31:15 15 12:31:15 12:30:11 12:30:	6		6	because the Claimant hadn't even begun its REA 12:30:29
Ms. Powell agreed that this posting 12:29:24  10 signaled that change was on the horizon, including 12:29:27  11 amendments to the REA regulation or changes to the 12:29:31  12 REA process; however, Ms. Powell incorrectly 12:29:35  13 remembered that this setback proposal was driven by 12:29:38  14 noise. It wasn't. In fact, the discussion paper 12:29:40  15 attached to the proposal discusses a range of 12:29:42  16 issues, including concerns around near shore 12:29:45  17 activities, drinking water, noise, boat traffic and 12:29:48  18 tourism, habitat for fish, animals and birds, as 12:29:52  19 well as shipping activities. 12:29:56  10 purposes of this arbitration, and not for the 12:30:34  11 purposes of obtaining an REA. 12:30:43  12 Based on the stages of development of 12:30:43  13 the Claimant's project and the fact that it hadn't 12:30:45  14 made an application for an REA, there is, therefore, 12:30:48  15 no doubt that any amendments to the REA regulation 12:30:51  16 would apply to it. 12:30:54  17 If the Claimant had initiated an REA 12:30:57  18 tourism, habitat for fish, animals and birds, as 12:29:52  19 well as shipping activities. 12:29:56  20 So, allow me to pause here to answer 12:29:58  20 the project would have depended on the stage that 12:31:07  21 the first question that you posed yesterday, the day 12:30:00  21 at issue. 12:31:11  22 before yesterday: The Tribunal has asked whether, 12:30:04  23 under Ontario law, amendments to the REA, like the 12:30:11  24 ones just being discussed, if introduced during the 12:30:11  24 An amendment could still have been made to the REA 12:31:22	7	clearly communicated to the public in the MOE's 12:29:16	7	process, hadn't initiated the process. 12:30:32
signaled that change was on the horizon, including 12:29:27  amendments to the REA regulation or changes to the 12:29:31  REA process; however, Ms. Powell incorrectly 12:29:35  remembered that this setback proposal was driven by 12:29:38  noise. It wasn't. In fact, the discussion paper 12:29:40  attached to the proposal discusses a range of 12:29:42  issues, including concerns around near shore 12:29:45  activities, drinking water, noise, boat traffic and 12:29:48  tourism, habitat for fish, animals and birds, as 12:29:56  So, allow me to pause here to answer 12:29:58  the first question that you posed yesterday, the day 12:30:00  the first question that you posed yesterday, the day 12:30:00  the first question discussed, if introduced during the 12:30:11  amendments to the REA regulation or changes to the 12:30:30  purposes of this arbitration, and not for the 12:30:39  purposes of btaining and not for the 12:30:39  purposes of this arbitration, and not for the 12:30:43  purposes of btaining and not for the 12:30:41  purposes of btaining and not for the 12:30:43  the Claimant's project and the fact that it hadn't 12:30:45  made an application for an REA, there is, therefore, 12:30:48  no doubt that any amendments to the REA regulation 12:30:51  would apply to it. 12:30:54  If the Claimant had initiated an REA 12:30:57  process, the applicability of the REA amendments to 12:30:59  the project would have depended on the stage that 12:31:05  the project was in and the nature of the amendment 12:31:07  at issue. 12:31:11  Ms. Seers pointed you to one part of 12:31:15  the REA, but she didn't point you to other sections. 12:31:17  An amendment could still have been made to the REA 12:31:22	8	policy proposal notice of June 25th, 2010. 12:29:20	8	All of the environmental studies that 12:30:34
amendments to the REA regulation or changes to the 12:29:31  REA process; however, Ms. Powell incorrectly 12:29:35  remembered that this setback proposal was driven by 12:29:38  remembered that this setback proposal was driven by 12:29:38  noise. It wasn't. In fact, the discussion paper 12:29:40  attached to the proposal discusses a range of 12:29:42  issues, including concerns around near shore 12:29:45  tourism, habitat for fish, animals and birds, as 12:29:52  well as shipping activities. 12:29:56  So, allow me to pause here to answer 12:29:58  the Claimant's project and the fact that it hadn't 12:30:45  the Claimant's project and the fact that it hadn't 12:30:45  made an application for an REA, there is, therefore, 12:30:48  no doubt that any amendments to the REA regulation 12:30:51  would apply to it. 12:30:54  If the Claimant had initiated an REA 12:30:57  If the Claimant had initiated an REA 12:30:57  process, the applicability of the REA amendments to 12:30:59  the project would have depended on the stage that 12:31:05  the project was in and the nature of the amendment 12:31:07  at issue. 12:31:11  before yesterday: The Tribunal has asked whether, 12:30:04  under Ontario law, amendments to the REA, like the 12:30:08  ones just being discussed, if introduced during the 12:30:11  An amendment could still have been made to the REA 12:31:22	9		9	it has conducted have been undertaken for the 12:30:36
REA process; however, Ms. Powell incorrectly 12:29:35 remembered that this setback proposal was driven by 12:29:38 remembered that this setback proposal was driven by 12:29:38 roise. It wasn't. In fact, the discussion paper 12:29:40 roise. It wasn't. In fact, the discussion paper 12:29:42 roise, including concerns around near shore 12:29:45 roise, drinking water, noise, boat traffic and 12:29:48 roise, habitat for fish, animals and birds, as 12:29:52 roise, allow me to pause here to answer 12:29:58 roise first question that you posed yesterday, the day 12:30:04 roise fore yesterday: The Tribunal has asked whether, 12:30:04 roise first question daw, amendments to the REA, like the 12:30:08 roise first part of the REA, but she didn't point you to other sections. 12:31:17 roise fore yestermal that this setback proposal was driven by 12:29:35 roise and the fact that it hadn't 12:30:45 roise for an REA, there is, therefore, 12:30:48 made an application for an REA, there is, therefore, 12:30:48 made an application for an REA, there is, therefore, 12:30:48 mode out that any amendments to the REA regulation 12:30:51 would apply to it. 12:30:54 roise would apply to it. 12:30:55 roise would apply to it. 12:30:57 rocess, the applicability of the REA amendments to 12:30:59 the project would have depended on the stage that 12:31:05 roise fore yesterday: The Tribunal has asked whether, 12:30:04 roise fore yesterday: The Tribunal has asked whether, 12:30:04 roise fore yesterday in and the nature of the amendment 12:31:15 roise fore yesterday; The Tribunal has asked whether, 12:30:04 roise fore yesterday in and the nature of the amendment 12:31:15 roise fore yesterday; The Tribunal has asked whether, 12:30:08 roise fore yesterday in another you to one part of 12:31:17 roise fore yesterday in introduced during the 12:30:11 roise fore yesterday in the Claimant's project and the fact that it hadn't 12:30:45 made an appl	10	signaled that change was on the horizon, including 12:29:27	10	purposes of this arbitration, and not for the 12:30:39
REA process; however, Ms. Powell incorrectly 12:29:35 remembered that this setback proposal was driven by 12:29:38 roise. It wasn't. In fact, the discussion paper 12:29:40 noise. It wasn't. In fact, the discussion paper 12:29:40 attached to the proposal discusses a range of 12:29:42 15 no doubt that any amendments to the REA regulation 12:30:51 issues, including concerns around near shore 12:29:45 16 would apply to it. 12:30:54 17 activities, drinking water, noise, boat traffic and 12:29:48 17 If the Claimant had initiated an REA 12:30:57 18 tourism, habitat for fish, animals and birds, as 12:29:52 18 process, the applicability of the REA amendments to 12:30:59 19 well as shipping activities. 12:29:58 19 the project would have depended on the stage that 12:31:05 19 the first question that you posed yesterday, the day 12:30:00 21 the first question that you posed yesterday, the day 12:30:04 22 Inder Ontario law, amendments to the REA, like the 12:30:08 23 the REA, but she didn't point you to other sections. 12:31:17 24 An amendment could still have been made to the REA 12:31:22	11		11	
remembered that this setback proposal was driven by 12:29:38 noise. It wasn't. In fact, the discussion paper 12:29:40  attached to the proposal discusses a range of 12:29:42 issues, including concerns around near shore 12:29:45  activities, drinking water, noise, boat traffic and 12:29:48 tourism, habitat for fish, animals and birds, as 12:29:52  well as shipping activities. 12:29:56  So, allow me to pause here to answer 12:29:58 the first question that you posed yesterday, the day 12:30:04 the first question that you posed yesterday, the day 12:30:04 under Ontario law, amendments to the REA, like the 12:30:01  the Claimant's project and the fact that it hadn't 12:30:48 made an application for an REA, there is, therefore, 12:30:48 no doubt that any amendments to the REA regulation 12:30:51 would apply to it. 12:30:54  If the Claimant had initiated an REA 12:30:57  If the Claimant had initiated an REA 12:30:59  would apply to it. 12:30:54  If the Claimant's project and the fact that it hadn't 12:30:48  no doubt that any amendments to the REA aregulation 12:30:59  would apply to it. 12:30:54  If the Claimant had initiated an REA 12:30:55  process, the applicability of the REA amendments to 12:30:59  the project would have depended on the stage that 12:31:05  the project was in and the nature of the amendment 12:31:07  at issue. 12:31:11  Ms. Seers pointed you to one part of 12:31:15  the REA, but she didn't point you to other sections. 12:31:17  An amendment could still have been made to the REA 12:31:22	12		12	Based on the stages of development of 12:30:43
noise. It wasn't. In fact, the discussion paper 12:29:40  14 made an application for an REA, there is, therefore, 12:30:48  15 attached to the proposal discusses a range of 12:29:42  16 issues, including concerns around near shore 12:29:45  17 activities, drinking water, noise, boat traffic and 12:29:48  18 tourism, habitat for fish, animals and birds, as 12:29:52  19 well as shipping activities. 12:29:56  20 So, allow me to pause here to answer 12:29:58  20 So, allow me to pause here to answer 12:29:58  21 the first question that you posed yesterday, the day 12:30:00  22 the first question that you posed yesterday, the day 12:30:04  23 under Ontario law, amendments to the REA, like the 12:30:01  24 ones just being discussed, if introduced during the 12:30:11  25 made an application for an REA, there is, therefore, 12:30:48  15 no doubt that any amendments to the REA are in doubt that any amendments to the REA, there is, therefore, 12:30:48  15 no doubt that any amendments to the REA are in doubt that any amendments to the REA are regulation 12:30:51  16 would apply to it. 12:30:54  17 If the Claimant had initiated an REA 12:30:57  18 process, the applicability of the REA amendments to 12:30:59  19 the project was in and the nature of the amendment 12:31:07  20 Ms. Seers pointed you to one part of 12:31:15  21 the REA, but she didn't point you to other sections. 12:31:17  22 An amendment could still have been made to the REA 12:31:22	13	-	13	the Claimant's project and the fact that it hadn't 12:30:45
attached to the proposal discusses a range of 12:29:42 15 no doubt that any amendments to the REA regulation 12:30:51 issues, including concerns around near shore 12:29:45 16 would apply to it. 12:30:54 17 activities, drinking water, noise, boat traffic and 12:29:48 17 If the Claimant had initiated an REA 12:30:57 18 tourism, habitat for fish, animals and birds, as 12:29:52 18 process, the applicability of the REA amendments to 12:30:59 19 well as shipping activities. 12:29:56 19 the project would have depended on the stage that 12:31:05 19 19 the first question that you posed yesterday, the day 12:30:00 12:30:00 12:31:11 18 12:30:04 12:30:04 12:30:04 12:30:04 12:30:08	14		14	made an application for an REA, there is, therefore, 12:30:48
issues, including concerns around near shore 12:29:45  activities, drinking water, noise, boat traffic and 12:29:48  tourism, habitat for fish, animals and birds, as 12:29:52  well as shipping activities. 12:29:56  So, allow me to pause here to answer 12:29:58  the first question that you posed yesterday, the day 12:30:04  before yesterday: The Tribunal has asked whether, 12:30:04  under Ontario law, amendments to the REA, like the 12:30:01  activities, drinking water, noise, boat traffic and 12:29:48  17  If the Claimant had initiated an REA 12:30:57  process, the applicability of the REA amendments to 12:30:59  the project would have depended on the stage that 12:31:05  the project was in and the nature of the amendment 12:31:07  at issue. 12:31:11  Ms. Seers pointed you to one part of 12:31:15  the REA, but she didn't point you to other sections. 12:31:17  An amendment could still have been made to the REA 12:31:22	15		15	no doubt that any amendments to the REA regulation 12:30:51
activities, drinking water, noise, boat traffic and 12:29:48 tourism, habitat for fish, animals and birds, as 12:29:52  well as shipping activities. 12:29:56  So, allow me to pause here to answer 12:29:58 the first question that you posed yesterday, the day 12:30:00 the first question that you posed wether, 12:30:04 under Ontario law, amendments to the REA, like the 12:30:11  activities, drinking water, noise, boat traffic and 12:29:48 17 If the Claimant had initiated an REA 12:30:57 18 process, the applicability of the REA amendments to 12:30:59 the project would have depended on the stage that 12:31:05 the project was in and the nature of the amendment 12:31:07 at issue. 12:31:11  Ms. Seers pointed you to one part of 12:31:15 the REA, but she didn't point you to other sections. 12:31:17 An amendment could still have been made to the REA 12:31:22	16		16	would apply to it. 12:30:54
tourism, habitat for fish, animals and birds, as 12:29:52 18 process, the applicability of the REA amendments to 12:30:59 well as shipping activities. 12:29:56 19 the project would have depended on the stage that 12:31:05  So, allow me to pause here to answer 12:29:58 20 the project was in and the nature of the amendment 12:31:07 at issue. 12:31:11  before yesterday: The Tribunal has asked whether, 12:30:04 21 at issue. 12:31:15  under Ontario law, amendments to the REA, like the 12:30:08 23 the REA, but she didn't point you to other sections. 12:31:17  an amendment could still have been made to the REA 12:31:22		activities, drinking water, noise, boat traffic and 12:29:48	17	If the Claimant had initiated an REA 12:30:57
So, allow me to pause here to answer 12:29:58  the first question that you posed yesterday, the day 12:30:00  the first question that you posed yesterday, the day 12:30:04  before yesterday: The Tribunal has asked whether, 12:30:04  under Ontario law, amendments to the REA, like the 12:30:08  ones just being discussed, if introduced during the 12:30:11  the project was in and the nature of the amendment 12:31:07  at issue. 12:31:11  Ms. Seers pointed you to one part of 12:31:15  the REA, but she didn't point you to other sections. 12:31:17  An amendment could still have been made to the REA 12:31:22	17	tourism habitat for fish animals and birds as 12:29:52	18	process, the applicability of the REA amendments to 12:30:59
the first question that you posed yesterday, the day 12:30:00  before yesterday: The Tribunal has asked whether, 12:30:04  under Ontario law, amendments to the REA, like the 12:30:08  ones just being discussed, if introduced during the 12:30:11  the first question that you posed yesterday, the day 12:30:00  at issue. 12:31:11  Ms. Seers pointed you to one part of 12:31:15  the REA, but she didn't point you to other sections. 12:31:17  An amendment could still have been made to the REA 12:31:22		tourism, mattat for rism, animals and ords, as 12.25.52	1 1 9	the project would have depended on the stage that 12:31:05
the first question that you posed yesterday, the day 12:30:00  before yesterday: The Tribunal has asked whether, 12:30:04  under Ontario law, amendments to the REA, like the 12:30:08  ones just being discussed, if introduced during the 12:30:11  the first question that you posed yesterday, the day 12:30:00  21 at issue. 12:31:11  22 Ms. Seers pointed you to one part of 12:31:15  the REA, but she didn't point you to other sections. 12:31:17  An amendment could still have been made to the REA 12:31:22	18			and project would have depended on the stage that
before yesterday: The Tribunal has asked whether, 12:30:04 under Ontario law, amendments to the REA, like the 12:30:08 ones just being discussed, if introduced during the 12:30:11 24 Ms. Seers pointed you to one part of 12:31:15 the REA, but she didn't point you to other sections. 12:31:17 An amendment could still have been made to the REA 12:31:22	18 19	well as shipping activities. 12:29:56		
under Ontario law, amendments to the REA, like the 12:30:08 the REA, but she didn't point you to other sections. 12:31:17 ones just being discussed, if introduced during the 12:30:11 24 An amendment could still have been made to the REA 12:31:22	18 19 20	well as shipping activities. 12:29:56  So, allow me to pause here to answer 12:29:58	20	the project was in and the nature of the amendment 12:31:07
ones just being discussed, if introduced during the 12:30:11 24 An amendment could still have been made to the REA 12:31:22	18 19 20 21	well as shipping activities. 12:29:56  So, allow me to pause here to answer 12:29:58 the first question that you posed yesterday, the day 12:30:00	20 21	the project was in and the nature of the amendment 12:31:07 at issue. 12:31:11
	18 19 20 21 22	well as shipping activities. 12:29:56 So, allow me to pause here to answer 12:29:58 the first question that you posed yesterday, the day 12:30:00 before yesterday: The Tribunal has asked whether, 12:30:04	20 21 22	the project was in and the nature of the amendment 12:31:07 at issue. 12:31:11  Ms. Seers pointed you to one part of 12:31:15
	18 19 20 21 22 23	well as shipping activities. 12:29:56 So, allow me to pause here to answer 12:29:58 the first question that you posed yesterday, the day 12:30:00 before yesterday: The Tribunal has asked whether, 12:30:04 under Ontario law, amendments to the REA, like the 12:30:08	20 21 22 23	the project was in and the nature of the amendment 12:31:07 at issue. 12:31:11  Ms. Seers pointed you to one part of 12:31:15 the REA, but she didn't point you to other sections. 12:31:17

	Page 200		Page 201
1	which would it relates to the application process 12:31:27	1	The same day that the REA regulation 12:32:41
2	in the REA. Or an amendment could have been made to 12:31:30	2	and FIT program were established, that's on 12:32:43
3	the prohibition section, the setback section, which 12:31:33	3	September 24th, 2009, the Minister of Natural 12:32:47
4	are set out in part 5 of the regulation and it 12:31:36	4	Resources sent the Claimant this letter which you 12:32:50
5	restricts where a renewable energy project may be 12:31:39	5	saw again this morning in Mr. Terry's presentation. 12:32:52
6	constructed. 12:31:41	6	It stated that in order to maintain 12:32:56
7	Now, again, pausing on this idea 12:31:44	7	its priority position within MNR's site release 12:32:58
8	because, Mr. Terry said this morning, that there was 12:31:46	8	process, it had to submit an application to the FIT 12:33:01
9	a promise to go through the regulatory process. 12:31:49	9	program within the FIT program launch period. 12:33:03
10	Now not only was there not such 12:31:53	10	Despite what the Claimant has argued, 12:33:09
11	promise, the fact is that the Claimant didn't in 12:31:56	11	this letter could not have given rise to any 12:33:11
12	even initiate its REA process. It didn't it 12:31:59	12	expectations relevant to an expropriation analysis, 12:33:13
13	hadn't approached the MOE to trigger that process. 12:32:02	13	and the testimony proves it. 12:33:16
14	In such a situation, if it hadn't 12:32:05	14	Mr. Baines admitted that the letter 12:33:19
15	applied for an REA, the government would have to 12:32:08	15	was not an instruction for the Minister to apply to 12:33:20
16	consider the best way sorry. In a situation 12:32:10	16	the FIT program, rather the Claimant's decision to 12:33:23
17	where, if it would have applied for an REA, at that 12:32:13	17	apply to the FIT program was a business decision. 12:33:25
18	point the government would have had to figure out 12:32:17	18	And Mr. Mars agreed, stating that they did not apply 12:33:28
19	how to proceed with it. At that point it would have 12:32:19	19	because the Minister told them to; they applied 12:33:31
20	had to figure out how, through due process 12:32:22	20	because they thought they had a really wonderful 12:33:34
21	considerations, what to do with its application, but 12:32:25	21	project. 12:33:36
22	it had not initiated that process. 12:32:27	22	Even Mr. Smitherman agreed that 12:33:37
23	Now, I'd like to highlight some of the 12:32:32	23	Minister Canfield's letter left it entirely up to 12:33:40
24	testimony relating to the second area of regulatory 12:32:34	24	proponents as to whether they wanted to proceed with 12:33:43
25	uncertainty, the Claimant's Crown land applications. 12:32:36	25	a FIT application. 12:33:45
	Page 202		Page 203
1	Page 202	1	Page 203
1 2	Mr. Terry said this morning that you 12:33:51	1 2	Mr. Smitherman had to say about that speech when he 12:35:03
2	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53	2	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06
2	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57	2	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09
2 3 4	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01	2 3 4	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13
2 3 4 5	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04	2 3 4 5	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14
2 3 4 5	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08	2 3 4 5	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16
2 3 4 5 6 7	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11	2 3 4 5 6 7	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19
2 3 4 5	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14	2 3 4 5 6 7 8	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25
2 3 4 5 6 7 8	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14 Although the Claimant says that it 12:34:16	2 3 4 5 6 7 8	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28
2 3 4 5 6 7 8	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14 Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18	2 3 4 5 6 7 8	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30
2 3 4 5 6 7 8 9	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14 Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20	2 3 4 5 6 7 8 9	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33
2 3 4 5 6 7 8 9 10	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14  Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22	2 3 4 5 6 7 8 9 10	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35
2 3 4 5 6 7 8 9 10 11 12	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14 Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26	2 3 4 5 6 7 8 9 10 11	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:35 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38
2 3 4 5 6 7 8 9 10 11 12 13	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14  Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28	2 3 4 5 6 7 8 9 10 11 12 13	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41
2 3 4 5 6 7 8 9 10 11 12 13 14	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14  Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28 developers and lenders to indicate the Crown's 12:34:32	2 3 4 5 6 7 8 9 10 11 12 13	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:44
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14 Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28 developers and lenders to indicate the Crown's 12:34:32 commitment to the issuance of future tenure. 12:34:34	2 3 4 5 6 7 8 9 10 11 12 13 14	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14 Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:32 developers and lenders to indicate the Crown's 12:34:34 The Claimant also relies on a speech 12:34:38	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41 progress or a kind of growing certainty. So it 12:35:44 wasn't certainty, certainty, certainty, as you heard 12:35:47
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14 Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28 developers and lenders to indicate the Crown's 12:34:34 The Claimant also relies on a speech 12:34:38 that Minister Cansfield gave in October 2009, which 12:34:39	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41 progress or a kind of growing certainty. So it 12:35:47 this morning; it was growing certainty or emerging 12:35:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14 Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28 developers and lenders to indicate the Crown's 12:34:32 commitment to the issuance of future tenure. 12:34:34  The Claimant also relies on a speech 12:34:38 that Minister Cansfield gave in October 2009, which 12:34:44	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41 progress or a kind of growing certainty. So it 12:35:47 this morning; it was growing certainty or emerging 12:35:50 certainty.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14  Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28 developers and lenders to indicate the Crown's 12:34:32 commitment to the issuance of future tenure. 12:34:34  The Claimant also relies on a speech 12:34:38 that Minister Cansfield gave in October 2009, which 12:34:44 for Crown land for offshore wind projects. However, 12:34:47	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41 progress or a kind of growing certainty. So it 12:35:47 this morning; it was growing certainty or emerging 12:35:50 certainty. 12:35:54  Now, to add to the uncertainty around 12:35:56
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14  Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28 developers and lenders to indicate the Crown's 12:34:32 commitment to the issuance of future tenure. 12:34:34  The Claimant also relies on a speech 12:34:38 that Minister Cansfield gave in October 2009, which 12:34:44 for Crown land for offshore wind projects. However, 12:34:47	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41 progress or a kind of growing certainty. So it 12:35:44 wasn't certainty, certainty, certainty, as you heard 12:35:50 certainty. 12:35:54  Now, to add to the uncertainty around 12:35:56  Crown land, the Claimant also required a grid cell 12:35:58
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14  Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28 developers and lenders to indicate the Crown's 12:34:32 commitment to the issuance of future tenure. 12:34:34  The Claimant also relies on a speech 12:34:38 that Minister Cansfield gave in October 2009, which 12:34:44 for Crown land for offshore wind projects. However, 12:34:47 the speech also stipulated that MNR was going to 12:34:50	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41 progress or a kind of growing certainty. So it 12:35:47 this morning; it was growing certainty, as you heard 12:35:50 certainty. 12:35:54  Now, to add to the uncertainty around 12:35:58 swap on account of the five-kilometre setback 12:36:02
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14  Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:28 developers and lenders to indicate the Crown's 12:34:32 commitment to the issuance of future tenure. 12:34:34  The Claimant also relies on a speech 12:34:38 that Minister Cansfield gave in October 2009, which 12:34:39 announced that MNR would be considering applications 12:34:47 the speech also stipulated that MNR was going to 12:34:50 carry out a review of its site release policies, 12:34:53	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41 progress or a kind of growing certainty. So it 12:35:47 this morning; it was growing certainty or emerging 12:35:50 certainty. 12:35:54  Now, to add to the uncertainty around 12:35:56  Crown land, the Claimant also required a grid cell 12:35:06
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Mr. Terry said this morning that you 12:33:51 have to get the FIT contract first before you could 12:33:53 get site access. Now, that's just not true. There 12:33:57 is no order established in how you go about doing 12:34:01 these these things. We heard from Ms. Powell's 12:34:04 interpretation of this letter, the Minister 12:34:08 Cansfield letter, we heard about her interpretation 12:34:11 from a legal perspective. 12:34:14  Although the Claimant says that it 12:34:16 took great comfort in this letter, Ms. Powell 12:34:18 attested that the letter did not impact MNR's 12:34:20 discretionary power to grant or refuse access to 12:34:22 Crown land, nor did it amount to the sort of 12:34:26 comprehensive comfort letter that MNR may provide to 12:34:32 developers and lenders to indicate the Crown's 12:34:32 commitment to the issuance of future tenure. 12:34:34  The Claimant also relies on a speech 12:34:38 that Minister Cansfield gave in October 2009, which 12:34:44 for Crown land for offshore wind projects. However, 12:34:47 the speech also stipulated that MNR was going to 12:34:50 carry out a review of its site release policies, 12:34:53 which would not be completed until the end of 2010 12:34:57	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Mr. Smitherman had to say about that speech when he 12:35:03 was asked. And he was asked about that speech in 12:35:06 conjunction with MOE's decision notice on the REA 12:35:09 regulation. 12:35:13  What he called it was: A positive step 12:35:14 in the right direction towards certainty. He 12:35:16 couldn't confirm that they created any regulatory 12:35:19 certainty for investors. According to him the 12:35:25 letter merely indicated that there was a process 12:35:28 underway, or both these processes, the letter and 12:35:30 the REA process, both indicated that there was 12:35:33 a process underway with a destination point and that 12:35:35 the process, moving forward to finalizing decision 12:35:38 points which investors might see as a piece of 12:35:41 progress or a kind of growing certainty. So it 12:35:44 wasn't certainty, certainty, certainty, as you heard 12:35:47 this morning; it was growing certainty or emerging 12:35:50 certainty. 12:35:54  Now, to add to the uncertainty around 12:35:56 Crown land, the Claimant also required a grid cell 12:35:58 swap on account of the five-kilometre setback 12:36:02 proposal. It relies on our August 9th letter from 12:36:08 Mr. Boysen as a firm commitment that MNR would grant 12:36:08

1	morning as "Rare." Now, it's telling that the 12:36:20	1	relation to the revenue stream under it. 12:37:34
2	Claimant takes comfort from a process that is rare, 12:36:23	2	I'd like to look first at the 12:37:38
3	meaning, unusual or the first time it ever happens. 12:36:27	3	representations made to the Claimant, made to the 12:37:39
4	The fact is that it was rare and that 12:36:31	4	Claimant by the OPA. These are important because, 12:37:42
5	only added to the uncertainty. 12:36:35	5	as Mr. Ziegler acknowledged, the OPA is the 12:37:44
6	The MNR committed only to discussing 12:36:38	6	contractual counterparty to the FIT contract; it's 12:37:49
7	a Crown land swap and only after the offshore wind 12:36:40	7	not the government, it's the OPA. 12:37:52
8	policy review and Crown land policy review were 12:36:44	8	As I have already discussed, in 12:37:56
9	finished. 12:36:47	9	signing the FIT contract the Claimant assumed the 12:37:58
10	What's even more significant is that 12:36:48	10	obligation of bringing the project into commercial 12:38:01
11	Mr. Boysen's letter specifically exclude the 12:36:50	11	operation, including obtaining all the necessary 12:38:04
12	commitment that the Claimant itself requested, 12:36:53	12	permits and approvals such as the REA, access to 12:38:05
13	namely to be granted AOR within 30 days. It wanted 12:36:55	13	Crown land, and completing applicable federal 12:38:08
14	access to that site within 30 days and that wasn't 12:37:00	14	permits. 12:38:12
15	put into the letter. 12:37:03	15	Mr. Terry, interestingly this morning, 12:38:14
16	Windstream's witness confirmed the 12:37:05	16	pointed to Mr. Ziegler's aversion to risk. And I'd 12:38:17
17	letter did not align Windstream's request for a grid 12:37:06	17	also like to point out that the same witness 12:38:21
18	cell swap with the timelines in its FIT contract. 12:37:09	18	admitted to not having read the FIT contract when he 12:38:24
19	There were no assurances as to when 12:37:14	19	appeared before you. 12:38:28
20	Windstream could expect to receive Applicant of 12:37:16	20	Section 3.3 of the FIT Rules which 12:38:30
21	Record status, and there was no commitment as to the 12:37:18	21	govern the Claimant's application to the program, 12:38:33
22	specific timing when Applicant of Record status 12:37:22	22	made clear that the Claimant was solely responsible 12:38:35
23	would be awarded. 12:37:25	23	for ensuring the technical, regulatory and financial 12:38:37
24	Finally, I'd like to turn to the FIT 12:37:27	24	viability of its project. 12:38:42
25	contract and the Claimant's alleged expectations in 12:37:29	25	Ms. Powell agreed that the OPA 12:38:44

1	disclaimed any responsibility for undertaking due 12:38:47	1 2	OPA's Director of Contracts Management, personally 12:39:56
2	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49	2	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59
2	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51	2 3	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02
2 3 4	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53	2 3 4	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05
2 3 4 5	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55	2 3 4 5	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08
2 3 4 5 6	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59	2 3 4 5 6	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09
2 3 4 5 6 7	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51 And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02	2 3 4 5 6 7	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12
2 3 4 5 6 7 8	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05	2 3 4 5 6 7 8	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14
2 3 4 5 6 7 8	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08	2 3 4 5 6 7 8	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20
2 3 4 5 6 7 8 9	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10	2 3 4 5 6 7 8 9	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22
2 3 4 5 6 7 8	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10 The high level of regulatory 12:39:13	2 3 4 5 6 7 8	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22  Claimant in writing on May 14th, 2010 that the OPA 12:40:27
2 3 4 5 6 7 8 9 10	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10 The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15	2 3 4 5 6 7 8 9 10	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22 Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32
2 3 4 5 6 7 8 9 10 11	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15 notified of its FIT contract offer in April of 2010. 12:39:17	2 3 4 5 6 7 8 9 10 11	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22  Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32 it ought to manage the regulatory risk associated 12:40:34
2 3 4 5 6 7 8 9 10 11 12	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15 notified of its FIT contract offer in April of 2010. 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20	2 3 4 5 6 7 8 9 10 11 12 13	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22 Claimant in writing on May 14th, 2010 that the OPA 12:40:37 was not in a position to advise the Claimant on how 12:40:34 with the project. 12:40:37
2 3 4 5 6 7 8 9 10 11 12 13	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15 notified of its FIT contract offer in April of 2010. 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23	2 3 4 5 6 7 8 9 10 11 12 13	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22 Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38
2 3 4 5 6 7 8 9 10 11 12 13 14 15	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23 generous or secure environment, Windstream was 12:39:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22 Claimant in writing on May 14th, 2010 that the OPA 12:40:37 was not in a position to advise the Claimant on how 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38 reassurances from the government, however, what 12:40:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15 notified of its FIT contract offer in April of 2010. 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22 Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23 generous or secure environment, Windstream was 12:39:27 reluctant, was, in fact, reluctant to sign back that 12:39:32	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22 Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38 reassurances from the government, however, what 12:40:39 followed gave the Claimant no reasonable expectation 12:40:43
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23 generous or secure environment, Windstream was 12:39:37 reluctant, was, in fact, reluctant to sign back that 12:39:32 FIT contract due to concerns regarding the 12:39:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22  Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38 reassurances from the government, however, what 12:40:39 followed gave the Claimant no reasonable expectation 12:40:43 of regulatory certainty that it would be able to 12:40:45
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23 generous or secure environment, Windstream was 12:39:37 reluctant, was, in fact, reluctant to sign back that 12:39:32 FIT contract due to concerns regarding the 12:39:35 regulatory uncertainty of offshore wind. 12:39:38	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22  Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38 reassurances from the government, however, what 12:40:39 followed gave the Claimant no reasonable expectation 12:40:43 of regulatory certainty that it would be able to 12:40:45 fill the NTP requirements and bring its project into 12:40:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15 notified of its FIT contract offer in April of 2010. 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23 generous or secure environment, Windstream was 12:39:27 reluctant, was, in fact, reluctant to sign back that 12:39:32 FIT contract due to concerns regarding the 12:39:38  And the OPA made clear to the Claimant 12:39:40	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22  Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38  reassurances from the government, however, what 12:40:43 of regulatory certainty that it would be able to 12:40:45 fill the NTP requirements and bring its project into 12:40:49 commercial operation within the timelines 12:40:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15 notified of its FIT contract offer in April of 2010. 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23 generous or secure environment, Windstream was 12:39:27 reluctant, was, in fact, reluctant to sign back that 12:39:32 FIT contract due to concerns regarding the 12:39:38  And the OPA made clear to the Claimant 12:39:40 at all relevant times that the Claimant bore the 12:39:42	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22  Claimant in writing on May 14th, 2010 that the OPA 12:40:27 was not in a position to advise the Claimant on how 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38 reassurances from the government, however, what 12:40:39 followed gave the Claimant no reasonable expectation 12:40:43 of regulatory certainty that it would be able to 12:40:45 fill the NTP requirements and bring its project into 12:40:49 commercial operation within the timelines 12:40:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15 notified of its FIT contract offer in April of 2010. 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23 generous or secure environment, Windstream was 12:39:27 reluctant, was, in fact, reluctant to sign back that 12:39:35 regulatory uncertainty of offshore wind. 12:39:38  And the OPA made clear to the Claimant 12:39:40 at all relevant times that the Claimant bore the 12:39:45	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22  Claimant in writing on May 14th, 2010 that the OPA 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38 reassurances from the government, however, what 12:40:39 followed gave the Claimant no reasonable expectation 12:40:43 of regulatory certainty that it would be able to 12:40:49 commercial operation within the timelines 12:40:51 contemplated by the FIT contract. 12:40:51  On May 13th, 2010, Mr. Baines wrote to 12:40:54
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	disclaimed any responsibility for undertaking due 12:38:47 diligence in terms of the regulatory risk. That was 12:38:49 for the Claimant to assess. 12:38:51  And Mr. Cecchini confirmed that, 12:38:53 indeed, the OPA did no due diligence work on behalf 12:38:55 of proponents. Like most commercial counterparties, 12:38:59 the OPA places a responsibility to conduct due 12:39:02 diligence on the proponent and the supplier. Before 12:39:05 they sign the contract, they ought to satisfy 12:39:08 themselves that they can meet its obligations. 12:39:10  The high level of regulatory 12:39:13 uncertainty did not dissipate after Windstream was 12:39:15 notified of its FIT contract offer in April of 2010. 12:39:17 Despite the statements by the Claimant's witnesses 12:39:20 and experts that Ontario provided an attractive or 12:39:23 generous or secure environment, Windstream was 12:39:27 reluctant, was, in fact, reluctant to sign back that 12:39:32 FIT contract due to concerns regarding the 12:39:35 regulatory uncertainty of offshore wind. 12:39:38  And the OPA made clear to the Claimant 12:39:40 at all relevant times that the Claimant bore the 12:39:45 including permitting. 12:39:50	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	OPA's Director of Contracts Management, personally 12:39:56 reiterated to the Claimant in a meeting that the FIT 12:39:59 program was a standard offer program, and it was for 12:40:02 the Claimant to determine whether it wanted to 12:40:05 accept the terms of the standard FIT contract. 12:40:08  The OPA was not in a position, nor was 12:40:09 it willing to modify the terms of the FIT contract 12:40:12 for an individual proponent. 12:40:14  The record also shows that 12:40:20  Mr. Killeavy followed up personally, advising the 12:40:22  Claimant in writing on May 14th, 2010 that the OPA 12:40:32 it ought to manage the regulatory risk associated 12:40:34 with the project. 12:40:37  This caused the Claimant to seek 12:40:38 reassurances from the government, however, what 12:40:39 followed gave the Claimant no reasonable expectation 12:40:43 of regulatory certainty that it would be able to 12:40:45 fill the NTP requirements and bring its project into 12:40:49 commercial operation within the timelines 12:40:51  On May 13th, 2010, Mr. Baines wrote to 12:40:54 the Renewable Energy Facilitation Office stating 12:40:57

	Page 208		Page 209
1	•	1	statement that he had dealt with it as a direction 12:42:11
2	identified was caused by unknown setback 12:41:06	2	
3	requirements for offshore wind, uncertainty in the 12:41:08 site review process, Crown land, and uncertainty in 12:41:11	3	from the Ministry of Energy, however, the email 12:42:14 itself provides no detail of a direction. Moreover, 12:42:17
4	the detailed requirements for the REA. 12:41:14	4	as Mr. Mars acknowledged, the OPA's offer did not 12:42:21
5	The Claimant argues that it eliminated 12:41:16	5	include any specific commitments. 12:42:24
6	the regulatory uncertainty by obtaining comfort from 12:41:18	6	Although Mr. Benedetti stated that 12:42:26
7	the Ontario government. In its pleadings it points 12:41:18	7	Windstream believed that the extension would provide 12:42:28
8	to the August 9 letter that we discussed from 12:41:25	8	sufficient time for it to obtain its approvals, he 12:42:33
9	Mr. Boysen, and it points, as well, to a one-year 12:41:26	9	acknowledged that the OPA's offer did not contain 12:42:36
10	extension to the MCOD in its FIT contract as 12:41:30	10	any assurances that it would. Windstream simply 12:42:38
11	evidence of specific assurances that it received 12:41:34	11	assumed that the extension would be sufficient. 12:42:42
12	from the Ontario government, which it relied on, it 12:41:38	12	In sum, the Claimant received no 12:42:45
13	says, it relied on in its decision to enter into the 12:41:40	13	specific commitments from MOE, MNR, MEI or the OPA 12:42:48
14	FIT contract. 12:41:42	14	that could have caused it to expect that the 12:42:52
15	Like the MNR letter, the extension did 12:41:44	15	regulatory requirements would be developed in time 12:42:55
16	not contain a commitment that the regulatory 12:41:46	16	for it to proceed and that they would be developed 12:42:57
17	requirements for offshore wind would be developed on 12:41:48	17	in time to proceed with its project within the 12:43:00
18	a particular timeline. The OPA did not grant 12:41:50	18	timelines of that FIT contract. 12:43:02
19	Windstream's request for a conditional extension, 12:41:54	19	The Claimant proceeded on the basis of 12:43:06
20	only to a one-year extension to the milestone date 12:41:57	20	its own assumptions, not on the basis of 12:43:10
21	for commercial operation. 12:41:59	21	commitments. 12:43:12
22	The Claimant's suggestion that the OPA 12:42:01	22	To conclude, I'm going to take 12:43:13
23	was directed by the Minister of Energy to provide 12:42:03	23	a moment to answer your second question. You've 12:43:14
24	such an extension is completely unfounded. The 12:42:06	24	asked what the scope of the alleged regulatory 12:43:16
25	Claimant asked you to read into Paul Ungerman's 12:42:09	25	uncertainty was as of February 11, 2011. 12:43:19
	Page 210		Page 211
1	Page 210 As Sarah Powell acknowledged, in 12:43:24	1	Page 211 project is not the only reason the project had 12:44:35
1 2	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26	1 2	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37
	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29		project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41
2 3 4	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32	2 3 4	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43
2 3 4 5	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35	2 3 4 5	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41 As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45
2 3 4 5 6	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35 Likewise, Mr. Baines acknowledges the 12:43:37	2 3 4 5	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. This was clearly communicated to the public 12:44:48
2 3 4 5 6 7	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35 Likewise, Mr. Baines acknowledges the 12:43:37 government's right to regulate. And the 12:43:39	2 3 4 5 6 7	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. This was clearly communicated to the public 12:44:48 on June 25th, 2010. 12:44:51
2 3 4 5 6 7 8	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35  Likewise, Mr. Baines acknowledges the 12:43:37 government's right to regulate. And the 12:43:39 government's right to change its regulations. 12:43:41	2 3 4 5 6 7 8	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. This was clearly communicated to the public 12:44:48 on June 25th, 2010. 12:44:51 It is useful to refer to the 12:44:52
2 3 4 5 6 7 8	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35  Likewise, Mr. Baines acknowledges the 12:43:37 government's right to regulate. And the 12:43:39 government's right to change its regulations. 12:43:41 But beyond this general regulatory 12:43:44	2 3 4 5 6 7 8	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. This was clearly communicated to the public 12:44:48 on June 25th, 2010. 12:44:51  It is useful to refer to the 12:44:52 discussion paper that accompanied that EBR notice in 12:44:55
2 3 4 5 6 7 8 9	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35  Likewise, Mr. Baines acknowledges the 12:43:37 government's right to regulate. And the 12:43:39 government's right to change its regulations. 12:43:41 But beyond this general regulatory 12:43:44 risk, Ms. Powell also acknowledged that the risk 12:43:46	2 3 4 5 6 7 8 9	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. This was clearly communicated to the public 12:44:48 on June 25th, 2010. 12:44:51  It is useful to refer to the 12:44:52 discussion paper that accompanied that EBR notice in 12:44:55 order to respond to the second part of your 12:45:00
2 3 4 5 6 7 8 9 10	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35  Likewise, Mr. Baines acknowledges the 12:43:37 government's right to regulate. And the 12:43:39 government's right to change its regulations. 12:43:41  But beyond this general regulatory 12:43:44 risk, Ms. Powell also acknowledged that the risk 12:43:46 associated with offshore wind development in Ontario 12:43:49	2 3 4 5 6 7 8 9 10	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. This was clearly communicated to the public 12:44:48 on June 25th, 2010. 12:44:51  It is useful to refer to the 12:44:52 discussion paper that accompanied that EBR notice in 12:44:55 order to respond to the second part of your 12:45:00 question, because what the rules or regulations that 12:45:02
2 3 4 5 6 7 8 9 10 11	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35 Likewise, Mr. Baines acknowledges the 12:43:37 government's right to regulate. And the 12:43:39 government's right to change its regulations. 12:43:41 But beyond this general regulatory 12:43:44 risk, Ms. Powell also acknowledged that the risk 12:43:49 was unique because we had not done offshore wind in 12:43:51	2 3 4 5 6 7 8 9 10 11	project is not the only reason the project had 12:44:35 unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35  Likewise, Mr. Baines acknowledges the 12:43:37 government's right to regulate. And the 12:43:39 government's right to change its regulations. 12:43:41  But beyond this general regulatory 12:43:44 risk, Ms. Powell also acknowledged that the risk 12:43:46 associated with offshore wind development in Ontario 12:43:49 was unique because we had not done offshore wind in 12:43:51 this jurisdiction. The regulatory risk for offshore 12:43:54 wind projects was different than for on-shore, as 12:43:58 you heard at the beginning of my closing statement. 12:44:00 Similarly, Mr. Roberts, from WSP 12:44:03 agreed that the project was a first of a kind from 12:44:07 a permitting perspective under Ontario's REA 12:44:10 process. Mr. Roberts agreed that WSP's 2010 12:44:13 proposal to Windstream acknowledged the possibility 12:44:19 of permitting delays and uncertainty due to the lack 12:44:22 of experience of MOE and other regulatory agencies 12:44:28 in Ontario, which hadn't yet dealt with an offshore 12:44:28	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	project is not the only reason the project had unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. This was clearly communicated to the public 12:44:48 on June 25th, 2010. 12:44:51  It is useful to refer to the 12:44:52 discussion paper that accompanied that EBR notice in 12:44:55 order to respond to the second part of your 12:45:00 question, because what the rules or regulations that 12:45:02 have yet to be promulgated. Or were technically 12:45:05 required for Windstream to be able to complete its 12:45:09 project, that was your question, and that discussion 12:45:11 paper discusses a whole range of issues including 12:45:13 concerns around near-shore activities, drinking 12:45:16 water, noise, boat traffic and tourism, habitat for 12:45:24 activities. 12:45:27  The paper highlights all of the items 12:45:28 that have yet to be considered for the sake of 12:45:30 establishing clear, upfront rules, whether by way of 12:45:33 regulation or by technical guidance. 12:45:37
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	As Sarah Powell acknowledged, in 12:43:24 general, nothing is a sure thing in permitting. 12:43:26 There is always regulatory uncertainty. And there 12:43:29 is always a regulatory framework that is changing; 12:43:32 it's never static. 12:43:35  Likewise, Mr. Baines acknowledges the 12:43:37 government's right to regulate. And the 12:43:39 government's right to change its regulations. 12:43:41  But beyond this general regulatory 12:43:44 risk, Ms. Powell also acknowledged that the risk 12:43:49 was unique because we had not done offshore wind in 12:43:51 this jurisdiction. The regulatory risk for offshore 12:43:54 wind projects was different than for on-shore, as 12:43:58 you heard at the beginning of my closing statement. 12:44:00 Similarly, Mr. Roberts, from WSP 12:44:03 agreed that the project was a first of a kind from 12:44:10 process. Mr. Roberts agreed that WSP's 2010 12:44:13 proposal to Windstream acknowledged the possibility 12:44:22 of experience of MOE and other regulatory agencies 12:44:25	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	project is not the only reason the project had unique and different regulatory risk or uncertainty 12:44:37 than on-shore wind projects. 12:44:41  As I've already discussed, Ontario is 12:44:43 in the midst of reviewing its policy on offshore 12:44:45 wind. This was clearly communicated to the public 12:44:48 on June 25th, 2010. 12:44:51  It is useful to refer to the 12:44:52 discussion paper that accompanied that EBR notice in 12:44:55 order to respond to the second part of your 12:45:00 question, because what the rules or regulations that 12:45:02 have yet to be promulgated. Or were technically 12:45:05 required for Windstream to be able to complete its 12:45:09 project, that was your question, and that discussion 12:45:11 paper discusses a whole range of issues including 12:45:13 concerns around near-shore activities, drinking 12:45:16 water, noise, boat traffic and tourism, habitat for 12:45:24 activities. 12:45:27  The paper highlights all of the items 12:45:28 that have yet to be considered for the sake of 12:45:30 establishing clear, upfront rules, whether by way of 12:45:33

12:47:03

## Page 212 1 1 that would be a sufficient setback for noise or for 12:45:46 Over the course of the next hour, 2 2 the protection of water quality. 12:45:49 3 This is the most obvious example of 12:45:50 3 4 4 a rule that had yet to be promulgated and which was 12:45:52 5 technically required. And unless Ontario decides to 12:45:57 5 6 6 move off the approach that it originally set out of 12:45:59 a breach. 7 7 approving projects based on clear benchmarks, clear 12:46:02 8 upfront rules, additional setbacks may also have to 12:46:06 8 9 be considered. 12:46:09 9 10 10 This could include setbacks from fish 12:46:10 11 habitat, as well as setbacks for commercial fishing, 12:46:12 11 12 12 as well as setbacks for recreational activities like 12:46:15 13 fishing and boating. And similar how to the REA 12:46:19 13 14 establishes clear setbacks from roads and railways, 12:46:23 14 15 15 one might also expect the establishment of a setback 12:46:27 16 16 from a shipping lane. 17 At this point I can turn the floor 12:46:33 17 18 over to Ms. Squires who will address or begin to 12:46:34 18 19 address damages. 12:46:38 19 20 20 PRESIDENT: Thank you very much, 12:46:40 21 21 Mr. Neufeld. 12:46:41 tell a fantastic tale. Trust us, we can get this 12:47:55 22 CLOSING SUBMISSIONS BY MS. SQUIRES: 22 12:46:47 done, they say. 23 23 PRESIDENT: Ms. Squires, please. 12:46:49 24 MS. SQUIRES: Thank you, Mr. Neufeld, 12:46:59 25 and good afternoon members of the Tribunal. 12:46:59

Page 213

myself and my colleague, Mr. Spelliscy, hope to 12:47:04 provide you with some additional guidance on why the 12:47:07 Claimant is not entitled to any damages in this 12:47:10 arbitration, even if you are to determine there was 12:47:12 12:47:15 As far as damages go, the Claimant, in 12:47:16 a sense has straightforward burden to prove, show 12:47:18 how the measures caused an actual loss. 12:47:22 Instead, what you have before you is 12:47:25 a claim based on a fundamentally flawed theory of 12:47:26 damages, lacking in causation, and using a valuation 12:47:30 methodology that does not account for the risk the 12:47:34 project faced or its stage of development. 12:47:36 Over the course of this hearing, the 12:47:40 tribunal has heard the Claimant on many occasions 12:47:41 argue that its project could be built. Indeed, the 12:47:44 Claimant has hired some of the world's leading players in the offshore wind industry for the 12:47:51 purposes of this arbitration to come before you and 12:47:53

12:47:59

damages?

Page 215

2 They told you they can secure 12:48:11 3 a jack-up vessel to install the turbines when the 12:48:13 4 time comes despite their high demand and their 12:48:15 5 limited access to the Great Lakes. 12:48:18 6 12:48:20 They've told you they can do their 7 field studies in shorter times than the regulators 12:48:22 8 require without having ever met with the regulators 12:48:25 9 or having presented a project description, let alone 12:48:28 10 12:48:33 know where their project would be sited. 11 They've told you that an average 12:48:35 12 five-kilometre setback from an uninhabited point 12:48:37 13 would have been selected despite language from the 12:48:40 14 regulators indicating its five kilometres from the 12:48:42 15 shoreline. 12:48:45 16 They've also told you that 12:48:46 17 a well-established decades old shipping lane shared 12:48:48 18 between Canada and the United States will be reduced 12:48:51 19 to a third of its size just for their project. And 12:48:53 20 they've told you that not only will the foundations 12:48:56 21 be successfully installed using a method never 12:48:58 22 before used in the offshore wind industry, but that 12:49:01 23 any uncertainty with respect to those foundations 12:49:04 24 can simply be overcome. And they will do this 12:49:06 25 faster than any other offshore wind farm has ever 12:49:10

done it. Yes, we can, that's their theme. 12:49:13 On the cover, the tale they've told is 12:49:16 quite captivating, but it's not the cover that 12:49:19 matters. The Tribunal must look at the pages 12:49:22 themselves, and what you'll find is a project that 12:49:24 not be constructed in a FIT contracts timelines, 12:49:29 12:49:31 either by design or due to the high level of risk. The message, therefore, for the 12:49:36 Tribunal is simple: At the end of the day, as Canada 12:49:37 has demonstrated, the devil is in the details. And 12:49:41 in this case, those details are what the Claimant 12:49:44 has fought so hard to bury under the reputation of 12:49:47 numerous experts, asking you to judge a book by its 12:49:50 cover and, as a result, award it a windfall of 12:49:53 damages. 12:49:58 Now, in order to assess the damages in 12:49:59 this arbitration, should the Tribunal find that there is a breach, the Tribunal must ask itself two 12:50:02 fundamental questions: First, has the Claimant 12:50:06 proven that any of the challenged measures caused 12:50:09 an actual loss, let alone the specific loss that it 12:50:12 seeks? And second, if causation has been proven, what is the specific valuation methodology that the 12:50:20 Tribunal should use in addressing the quantum of 12:50:24

1

12:50:26

	Page 216		Page 217
1	I will answer the first question in 12:50:27	1	fraction of what it has alleged in this arbitration. 12:51:35
2	two parts: First, by demonstrating that the 12:50:29	2	But before we turn to answering these 12:51:38
3	claimants but-for scenario is entirely inappropriate 12:50:32	3	questions, I'd like to start with the key legal 12:51:40
4	and therefore leaves the Tribunal without a proper 12:50:35	4	principles that the Tribunal must address in 12:51:42
5	method to evaluate the claimants' alleged damages. 12:50:38	5	assessing damages in the case before it. 12:51:44
6	And second, that when the appropriate 12:50:42	6	At international law, an award of 12:51:48
7	but-for scenario is applied, the measure at issue 12:50:45	7	monetary damages should repair the wrongful conduct 12:51:50
8	could not have caused the Claimant any harm, as both 12:50:47	8	by returning the Claimant to the position it would 12:51:54
9	on February 11, 2011 and May 22nd, 2012, the 12:50:50	9	have been in absent such wrongful conduct. This 12:51:57
10	Claimant's project could not have been constructed 12:50:54	10	follows the reasoning of the Permanent Court of 12:52:00
11	within the FIT contract timelines. There was simply 12:50:56	11	International Justice in the Chorzow Factory case 12:52:03
12	too many unknowns. 12:51:00	12	where it was noted that damages must, as far as 12:52:04
13	I will then turn the floor over to my 12:51:01	13	possible, wipe out the consequences of the illegal 12:52:08
14	colleague, Mr. Spelliscy who, in response to the 12:51:03	14	act and reestablish the situation that would have, 12:52:10
15	second question I posed, will demonstrate that if 12:51:06	15	in all probability, existed if an act had not been 12:52:13
16	the Tribunal finds there has been a breach, the only 12:51:09	16	committed. 12:52:16
17	appropriate remedy in this case is the return of the 12:51:12	17	Of fundamental importance to the 12:52:16
18	claimant's sunk costs. 12:51:15	18	notion of damages, however, is the issue of 12:52:18
19	In doing so, he will demonstrate that 12:51:17	19	causation. NAFTA Articles 1116 and 1117 provide 12:52:21
20	the DCF methodology itself, is an inappropriate 12:51:18	20	that a Claimant may only bring a claim if 12:52:26
21	valuation methodology to be used given the 12:51:23	21	an investor has occurred loss or damage by reason of 12:52:29
22	speculative nature of the Claimant's project. 12:51:26	22	or arising out of a substantive breach of parties 12:52:32
23	Finally, Mr. Spelliscy will 12:51:28	23	chapter 11 obligations. 12:52:37
24	demonstrate that applying a market comparables 12:51:29	24	The burden to prove these damages have 12:52:38
25	approach, the Claimant is entitled to only a mere 12:51:32	25	been suffered rests squarely on the Claimant, not 12:52:41
	Page 218		Page 219

With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17
2 3 4 5 6 7 8 9 10	just their existence, but also their quantum. 12:52:44  At the heart of this analysis, is 12:52:47 a requirement for the Claimant to show a sufficient 12:52:49 causal link between the alleged breach of the NAFTA 12:52:51 and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58 a breach and to prove a loss; there must be 12:52:59 a connection. This requirement prevents a Claimant 12:53:02 from using the NAFTA as a tool to recover money 12:53:05 related to failure of their business due to factors 12:53:08 unrelated to a breach of the treaty. 12:53:11	2 3 4 5 6 7 8 9 10	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58 default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06 last couple of days on the question of the proper 12:54:07 date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13 permitted to choose from between a valuation date 12:54:17 under the expropriation date and the date of the 12:54:21
2 3 4 5 6 7 8 9 10 11	just their existence, but also their quantum. 12:52:44  At the heart of this analysis, is 12:52:47 a requirement for the Claimant to show a sufficient 12:52:49 causal link between the alleged breach of the NAFTA 12:52:51 and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58 a breach and to prove a loss; there must be 12:52:59 a connection. This requirement prevents a Claimant 12:53:02 from using the NAFTA as a tool to recover money 12:53:05 related to failure of their business due to factors 12:53:11  Now, I would like to pause here for 12:53:14	2 3 4 5 6 7 8 9 10 11	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58 default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06 last couple of days on the question of the proper date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13 permitted to choose from between a valuation date 12:54:17 under the expropriation date and the date of the award, based on whichever is higher, but the 12:54:25
2 3 4 5 6 7 8 9 10 11 12 13	just their existence, but also their quantum. 12:52:44  At the heart of this analysis, is 12:52:47 a requirement for the Claimant to show a sufficient 12:52:49 causal link between the alleged breach of the NAFTA 12:52:51 and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58 a breach and to prove a loss; there must be 12:52:59 a connection. This requirement prevents a Claimant 12:53:02 from using the NAFTA as a tool to recover money 12:53:05 related to failure of their business due to factors 12:53:11  Now, I would like to pause here for 12:53:14 a minute to discuss the question from the Tribunal 12:53:15	2 3 4 5 6 7 8 9 10 11 12 13	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27
2 3 4 5 6 7 8 9 10 11 12 13	just their existence, but also their quantum. 12:52:44  At the heart of this analysis, is 12:52:47 a requirement for the Claimant to show a sufficient 12:52:49 causal link between the alleged breach of the NAFTA 12:52:51 and the loss sustained by the investors. 12:52:54 It is not enough to simply prove 12:52:58 a breach and to prove a loss; there must be 12:52:59 a connection. This requirement prevents a Claimant 12:53:02 from using the NAFTA as a tool to recover money 12:53:05 related to failure of their business due to factors 12:53:08 unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14 a minute to discuss the question from the Tribunal 12:53:15 when you asked: What is the difference between 12:53:19	2 3 4 5 6 7 8 9 10 11 12 13	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27  The only relevant date is the date of 12:54:28
2 3 4 5 6 7 8 9 10 11 12 13 14	just their existence, but also their quantum. 12:52:44  At the heart of this analysis, is 12:52:47 a requirement for the Claimant to show a sufficient 12:52:49 causal link between the alleged breach of the NAFTA 12:52:51 and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58 a breach and to prove a loss; there must be 12:52:59 a connection. This requirement prevents a Claimant 12:53:02 from using the NAFTA as a tool to recover money 12:53:05 related to failure of their business due to factors 12:53:08 unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14 a minute to discuss the question from the Tribunal 12:53:15 when you asked: What is the difference between 12:53:19 Article 1110, and 1105, if any, in terms of the 12:53:22	2 3 4 5 6 7 8 9 10 11 12 13 14 15	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58 default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06 last couple of days on the question of the proper 12:54:07 date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13 permitted to choose from between a valuation date 12:54:17 under the expropriation date and the date of the 12:54:21 award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:28  The only relevant date is the date of 12:54:31
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	just their existence, but also their quantum. 12:52:44  At the heart of this analysis, is 12:52:47 a requirement for the Claimant to show a sufficient 12:52:49 causal link between the alleged breach of the NAFTA 12:52:51 and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58 a breach and to prove a loss; there must be 12:52:59 a connection. This requirement prevents a Claimant 12:53:02 from using the NAFTA as a tool to recover money 12:53:05 related to failure of their business due to factors 12:53:08 unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14 a minute to discuss the question from the Tribunal 12:53:15 when you asked: What is the difference between 12:53:22 quantification of the loss or damage? 12:53:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:28  the breach. It should not be for the Claimant to, 12:54:31  on the one hand, reap the benefits of an increase, 12:54:33
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	just their existence, but also their quantum. 12:52:44  At the heart of this analysis, is 12:52:47 a requirement for the Claimant to show a sufficient 12:52:49 causal link between the alleged breach of the NAFTA 12:52:51 and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58 a breach and to prove a loss; there must be 12:52:59 a connection. This requirement prevents a Claimant 12:53:02 from using the NAFTA as a tool to recover money 12:53:05 related to failure of their business due to factors 12:53:08 unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14 a minute to discuss the question from the Tribunal 12:53:15 when you asked: What is the difference between 12:53:29  Article 1110, and 1105, if any, in terms of the 12:53:27 Because Article 1110 requires 12:53:29	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27  The only relevant date is the date of 12:54:31  on the one hand, reap the benefits of an increase, 12:54:33  while on the other hand, if the value of the 12:54:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	just their existence, but also their quantum.  At the heart of this analysis, is 12:52:44  a requirement for the Claimant to show a sufficient 12:52:49  causal link between the alleged breach of the NAFTA 12:52:51  and the loss sustained by the investors.  It is not enough to simply prove 12:52:58  a breach and to prove a loss; there must be 12:52:59  a connection. This requirement prevents a Claimant 12:53:02  from using the NAFTA as a tool to recover money 12:53:05  related to failure of their business due to factors 12:53:08  unrelated to a breach of the treaty.  Now, I would like to pause here for 12:53:11  Now, I would like to pause here for 12:53:15  when you asked: What is the difference between 12:53:19  Article 1110, and 1105, if any, in terms of the 12:53:27  Because Article 1110 requires 12:53:29  a substantial deprivation of the entire investment, 12:53:31	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27  The only relevant date is the date of 12:54:31  on the one hand, reap the benefits of an increase, 12:54:33  while on the other hand, if the value of the 12:54:39  investment has decreased following the alleged 12:54:41
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	just their existence, but also their quantum.  At the heart of this analysis, is 12:52:44  At the heart of this analysis, is 12:52:47  a requirement for the Claimant to show a sufficient 12:52:49  causal link between the alleged breach of the NAFTA 12:52:51  and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58  a breach and to prove a loss; there must be 12:52:59  a connection. This requirement prevents a Claimant 12:53:02  from using the NAFTA as a tool to recover money 12:53:05  related to failure of their business due to factors 12:53:08  unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14  a minute to discuss the question from the Tribunal 12:53:15  when you asked: What is the difference between 12:53:19  Article 1110, and 1105, if any, in terms of the 12:53:27  Because Article 1110 requires 12:53:31  Article 1102(2), indicates that restitution requires 12:53:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27  The only relevant date is the date of 12:54:31  on the one hand, reap the benefits of an increase, 12:54:33  while on the other hand, if the value of the 12:54:41  expropriation, asked for a higher valuation by using 12:54:43
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	just their existence, but also their quantum.  At the heart of this analysis, is 12:52:44  At the heart of this analysis, is 12:52:47  a requirement for the Claimant to show a sufficient 12:52:49  causal link between the alleged breach of the NAFTA 12:52:51  and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58  a breach and to prove a loss; there must be 12:52:59  a connection. This requirement prevents a Claimant 12:53:02  from using the NAFTA as a tool to recover money 12:53:05  related to failure of their business due to factors 12:53:08  unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14  a minute to discuss the question from the Tribunal 12:53:15  when you asked: What is the difference between 12:53:19  Article 1110, and 1105, if any, in terms of the 12:53:22  quantification of the loss or damage? 12:53:29  a substantial deprivation of the entire investment, 12:53:34  compensation equal to the fair market value of the 12:53:37	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27  The only relevant date is the date of 12:54:28  the breach. It should not be for the Claimant to, 12:54:31  on the one hand, reap the benefits of an increase, 12:54:33  while on the other hand, if the value of the 12:54:41  expropriation, asked for a higher valuation by using 12:54:43  the date of the breach. 12:54:47
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	just their existence, but also their quantum.  At the heart of this analysis, is 12:52:44  At the heart of this analysis, is 12:52:47  a requirement for the Claimant to show a sufficient 12:52:49  causal link between the alleged breach of the NAFTA 12:52:51  and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58  a breach and to prove a loss; there must be 12:52:59  a connection. This requirement prevents a Claimant 12:53:02  from using the NAFTA as a tool to recover money 12:53:05  related to failure of their business due to factors 12:53:08  unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14  a minute to discuss the question from the Tribunal 12:53:15  when you asked: What is the difference between 12:53:19  Article 1110, and 1105, if any, in terms of the 12:53:22  quantification of the loss or damage? 12:53:29  a substantial deprivation of the entire investment, 12:53:31  Article 1102(2), indicates that restitution requires 12:53:37  entire investment. 12:53:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27  The only relevant date is the date of 12:54:31  on the one hand, reap the benefits of an increase, 12:54:33  while on the other hand, if the value of the 12:54:41  expropriation, asked for a higher valuation by using 12:54:43  the date of the breach. 12:54:47  And perhaps this has been best summed 12:54:48
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	just their existence, but also their quantum.  At the heart of this analysis, is 12:52:44  At the heart of this analysis, is 12:52:47  a requirement for the Claimant to show a sufficient 12:52:49  causal link between the alleged breach of the NAFTA 12:52:51  and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58  a breach and to prove a loss; there must be 12:52:59  a connection. This requirement prevents a Claimant 12:53:02  from using the NAFTA as a tool to recover money 12:53:05  related to failure of their business due to factors 12:53:08  unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14  a minute to discuss the question from the Tribunal 12:53:15  when you asked: What is the difference between 12:53:19  Article 1110, and 1105, if any, in terms of the 12:53:22  quantification of the loss or damage? 12:53:27  Because Article 1110 requires 12:53:31  Article 1102(2), indicates that restitution requires 12:53:37  entire investment. 12:53:41  This may also be the appropriate 12:53:42	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27  The only relevant date is the date of 12:54:31  on the one hand, reap the benefits of an increase, 12:54:33  while on the other hand, if the value of the 12:54:41  expropriation, asked for a higher valuation by using 12:54:43  the date of the breach. 12:54:47  And perhaps this has been best summed 12:54:48  up by Arbitrator Stern, when she stated that such 12:54:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	just their existence, but also their quantum.  At the heart of this analysis, is 12:52:47  a requirement for the Claimant to show a sufficient 12:52:49  causal link between the alleged breach of the NAFTA 12:52:51  and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58  a breach and to prove a loss; there must be 12:52:59  a connection. This requirement prevents a Claimant 12:53:02  from using the NAFTA as a tool to recover money 12:53:05  related to failure of their business due to factors 12:53:08  unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14  a minute to discuss the question from the Tribunal 12:53:15  when you asked: What is the difference between 12:53:19  Article 1110, and 1105, if any, in terms of the 12:53:22  quantification of the loss or damage? 12:53:29  a substantial deprivation of the entire investment, 12:53:31  Article 1102(2), indicates that restitution requires 12:53:37  entire investment. 12:53:41  This may also be the appropriate 12:53:42  standard for damages for non-expropriatory breach 12:53:43	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	With respect to Article 1105 then, the 12:53:52 Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58 default to fair market value with respect to 12:54:00 Article 1105. 12:54:03 We have also spent some time over the 12:54:06 last couple of days on the question of the proper 12:54:07 date on which to value the breach. With respect to 12:54:09 Article 1110, the Claimant alleged that it should be 12:54:13 permitted to choose from between a valuation date 12:54:17 under the expropriation date and the date of the 12:54:21 award, based on whichever is higher, but the 12:54:25 Claimant is incorrect. 12:54:27 The only relevant date is the date of 12:54:31 on the one hand, reap the benefits of an increase, 12:54:33 while on the other hand, if the value of the 12:54:39 investment has decreased following the alleged 12:54:43 the date of the breach. 12:54:47 And perhaps this has been best summed 12:54:48 up by Arbitrator Stern, when she stated that such 12:54:51 an approach. 12:54:54
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	just their existence, but also their quantum.  At the heart of this analysis, is 12:52:47  a requirement for the Claimant to show a sufficient 12:52:49  causal link between the alleged breach of the NAFTA 12:52:51  and the loss sustained by the investors. 12:52:54  It is not enough to simply prove 12:52:58  a breach and to prove a loss; there must be 12:52:59  a connection. This requirement prevents a Claimant 12:53:02  from using the NAFTA as a tool to recover money 12:53:05  related to failure of their business due to factors 12:53:08  unrelated to a breach of the treaty. 12:53:11  Now, I would like to pause here for 12:53:14  a minute to discuss the question from the Tribunal 12:53:15  when you asked: What is the difference between 12:53:19  Article 1110, and 1105, if any, in terms of the 12:53:22  quantification of the loss or damage? 12:53:27  Because Article 1110 requires 12:53:31  Article 1102(2), indicates that restitution requires 12:53:37  entire investment. 12:53:41  This may also be the appropriate 12:53:42	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	With respect to Article 1105 then, the 12:53:52  Tribunal must assess what specific damages the alleged wrongful conduct caused. There is no 12:53:58  default to fair market value with respect to 12:54:00  Article 1105. 12:54:03  We have also spent some time over the 12:54:06  last couple of days on the question of the proper 12:54:07  date on which to value the breach. With respect to 12:54:09  Article 1110, the Claimant alleged that it should be 12:54:13  permitted to choose from between a valuation date 12:54:17  under the expropriation date and the date of the 12:54:21  award, based on whichever is higher, but the 12:54:25  Claimant is incorrect. 12:54:27  The only relevant date is the date of 12:54:31  on the one hand, reap the benefits of an increase, 12:54:33  while on the other hand, if the value of the 12:54:41  expropriation, asked for a higher valuation by using 12:54:43  the date of the breach. 12:54:47  And perhaps this has been best summed 12:54:48  up by Arbitrator Stern, when she stated that such 12:54:51

the solution which systematically appli harshest of damages Respondent State re	12:54:58		
harshest of damages Respondent State re		1	Tribunal has before it. 12:55:48
4 Respondent State re	es the 12:54:59	2	At the time of the alleged breach the 12:55:49
	s on the 12:55:01	3	Claimant's project was nothing more than an Excel 12:55:50
	sembles 12:55:04	4	chart. Even if the project had have proceeded on 12:55:54
5 punitive damages, w	which are 12:55:04	5	the Claimant's schedule in this arbitration, it 12:55:57
6 [prohibited] at inter	national 12:55:04	6	would still not be operational today. Nor can the 12:56:01
7 law." [As read]	12:55:08	7	Claimant point to any intervening event to state 12:56:04
8 As she notes:	12:55:08	8	that the value of its investment has increased since 12:56:07
9 "A legal solution can	nnotbe 12:55:10	9	the date of the alleged breach. 12:56:10
based on what is mo		10	As Mr. Low noted, the Claimant's 12:56:12
favourable to just or	ne of the 12:55:13	11	higher valuation as of the date of the award is 12:56:13
parties." [As read]	12:55:14	12	based solely on math and pushing the date of 12:56:15
Further, even if the Trib	unal were to 12:55:15	13	valuation closer to positive cash flows. 12:56:18
consider the legal authorities that	have discussed 12:55:16	14	As a result, the appropriate date to 12:56:21
the issue, not only will you find t		15	be used by this Tribunal in the event a breach of 12:56:22
NAFTA award supports the clair		16	Article 1110 is found is the date of the alleged 12:56:25
there is simply no justification fo		17	breach itself, May 22nd, 2012. 12:56:28
approach based on the legal auth	orities that they 12:55:30	18	Now, while I will explain to you 12:56:32
cite either.	12:55:32	19	shortly that the Claimant has failed to demonstrate 12:56:34
Indeed, the only case th		20	causation in this case, in the event the Tribunal is 12:56:37
Claimant can point to in order to		21	inclined to decide against Canada in that regard, 12:56:40
valuation of its position are those		22	the Claimant is entitled to no more than its sunk 12:56:43
operational asset that increased in		23	costs. 12:56:45
the date of the breach and the da		24	Now, the Claimant has suggested that 12:56:47
This is simply not the si	tuation the 12:55:45	25	they must prove only that the project is more likely 12:56:48
	Page 222		Page 223
than not that it would have succe	eeded in order to 12:56:52	1	"the sufficient certainty 12:57:40
have damages awarded to them.		2	standard [associated with the 12:57:40
3 However, in the circum		3	discounted cash-flow method] 12:57:40
4 you have a development-stage p		4	is usually quite difficult to 12:57:44
5 assessment cannot be about spec		5	meet in the absence of 12:57:45
6 international Tribunals have note	d, where 12:57:03	6	a going concern and a proven 12:57:46
7 an investment is still in the pre-o	perational stage 12:57:05	7	record of profitability." [As 12:57:48
8 or has no history of profits, awa	rding an amount for 12:57:08	8	read] 12:57:49
9 future profits would require an in	mpermissible degree 12:57:12	9	As these cases demonstrate, an ongoing 12:57:50
of speculation. At a Tribunal in	PSEG in Turkey 12:57:15	10	asset must be valued based on its sunk costs alone. 12:57:52
noted, a Tribunal should be,	12:57:18	11	Now, Mr. Low in his presentation 12:57:57
12 " reluctant to awa	rd lost 12:57:19	12	earlier this week, indicated that any damages award 12:57:59
profits for a beginning	_	13	issued to the Claimant should include a tax gross up 12:58:01
industry and unperfe	ormed 12:57:21	14	to account for Windstream having to pay tax on the 12:58:04
15 work."'	12:57:23	15	money awarded to it. 12:58:06
Similarly, as the Tribun		16	However, as the Tribunal in Mobil and 12:58:08
Metalclad noted:	12:57:27	17	Canada noted, there is no. 12:58:10
18 "When an investment		18	" requirement under 12:58:11
19 non-operational, fai		19	international law to gross up 12:58:12
value is best arrived		20	compensation as a result of 12:58:14
reference to the inv		21	tax considerations" 12:58:15
22 actual investments i		22	Nor has the Claimant provided any 12:58:16
project." [As read]	12:57:35	23	justification in law or in fact for this request 12:58:19
	oan Micula v. 12:57:37	24	beyond the calculation done by Mr. Low. As 12:58:21
Romania noted:	12:57:38	25	a result, its claim for a tax gross up should fail. 12:58:25

	Page 224		Page 225
1	The Claimant's argument for pre and 12:58:29	1	TransCanada whole in any way caused it loss. 12:59:40
2	post judgment interest should similarly fail. The 12:58:31	2	Whether or not the quantum of loss is 12:59:44
3	Claimant has failed to establish why it is entitled 12:58:33	3	the same for these three breaches is irrelevant, if 12:59:47
4	to interest in this particular case. It has failed 12:58:36	4	you cannot link the specific harm to the specific 12:59:49
5	to point to a single fact at all, in that regard, 12:58:39	5	loss to the specific action, the Tribunal is not 12:59:52
6	leaving the Tribunal with no choice but to dismiss 12:58:41	6	in a position to award any damages. 12:59:55
7	this part of its claim. 12:58:45	7	As a result the Claimant's claim for 12:59:57
8	I'd now like to turn to the facts 12:58:48	8	damages based on a breach of Article 1102 must also 12:59:58
9	before us and specifically how they relate to 12:58:50	9	be dismissed. 13:00:02
10	causation. I would like to pause here to briefly 12:58:52	10	As a result, for the remainder of my 13:00:03
11	discuss Articles 1102 and 1103. 12:58:55	11	time today I will focus on the Claimant's alleged 13:00:05
12	The Claimant has not even attempted to 12:58:58	12	breaches of Article 1105 and 1110, namely, the 13:00:09
13	quantify the losses it allegedly suffered as 12:59:01	13	implementation of the deferral itself as a breach of 13:00:12
14	a breach of 1103. As such, its claim should be 12:59:04	14	1105 and the failure to lift the deferral and 13:00:16
15	dismissed for failure to meet this burden alone. 12:59:07	15	insulate Windstream from its effects as a breach of 13:00:18
16	With respect to 1102, Dr. Cremades 12:59:10	16	both Article 1105 and 1110. 13:00:21
17	asked Mr. Low earlier this week how the Tribunal can 12:59:15	17	And I will approach this by speaking 13:00:24
18	determine damages resulting from a breach of 1102 12:59:18	18	to two points: First, the Claimant's failure to 13:00:26
19	when the claimant's damages case lumps together, 12:59:21	19	provide an appropriate but-for schedule. 13:00:29
20	Article 1105, Article 1110, and Article 1102. 12:59:25	20	And second, the fact that the 13:00:32
21	This question put a finger on the 12:59:29	21	Claimant's project could not be built within the FIT 13:00:34
22	button of a fundamental flaw in the Claimant's 12:59:31	22	contract timelines. 13:00:36
23	approach. The Claimant's valuation ignores the 12:59:34	23	Let's look first at the implementation 13:00:38
24	principle of causation. The Claimant has made no 12:59:37	24	of the deferral itself as a potential violation of 13:00:40
25	attempt to demonstrate how a decision to keep 12:59:39	25	Article 1105. And I won't spend much time here as 13:00:42
	Page 226		Page 227
1	-	1	•
1 2	Page 226  I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49	1 2	Page 227 the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51
	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49		the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51

2	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51	2 3	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55
2 3 4	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53	2 3 4	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57
2 3 4 5	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55	2 3 4 5	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59
2 3 4 5 6	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57	2 3 4 5	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03
2 3 4 5 6 7	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00	2 3 4 5 6 7	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03 If we turn to look at the Claimant's 13:02:08
2 3 4 5 6 7 8	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02	2 3 4 5 6 7 8	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03 If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10
2 3 4 5 6 7 8 9 10	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09	2 3 4 5 6 7 8 9 10	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20
2 3 4 5 6 7 8 9 10 11	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10	2 3 4 5 6 7 8 9 10 11 12	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23
2 3 4 5 6 7 8 9 10 11 12	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12	2 3 4 5 6 7 8 9 10 11 12 13	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25
2 3 4 5 6 7 8 9 10 11 12 13	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12  However, as Mr. Bucci noted in his 13:01:17	2 3 4 5 6 7 8 9 10 11 12 13	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03 If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25 The Claimant has valued the breach 13:02:26
2 3 4 5 6 7 8 9 10 11 12 13 14	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12  However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19	2 3 4 5 6 7 8 9 10 11 12 13 14 15	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:26 using a three-year deferral in the February 11th, 13:02:28
2 3 4 5 6 7 8 9 10 11 12 13 14 15	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12  However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22	2 3 4 5 6 7 8 9 10 11 12 13 14 15	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25  The Claimant has valued the breach 13:02:26 using a three-year deferral in the February 11th, 13:02:28 2014 with a schedule start date of February 11th, 13:02:32
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53 To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02 This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09 The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12 However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22 By the Claimant's own admissions, a deferral that 13:01:26	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25  The Claimant has valued the breach 13:02:26 using a three-year deferral in the February 11th, 13:02:32 2014 with a schedule start date of February 11th, 13:02:32
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53 To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02 This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09 The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12 However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22 By the Claimant's own admissions, a deferral that 13:01:26 was lifted prior to May 22nd, 2012, could not have 13:01:29	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25  The Claimant has valued the breach 13:02:26 using a three-year deferral in the February 11th, 13:02:32 2011. 13:02:35 However, if the breach is the failure 13:02:36
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12  However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22 By the Claimant's own admissions, a deferral that 13:01:26 was lifted prior to May 22nd, 2012, could not have 13:01:29 resulted in the loss of the full value of the 13:01:32	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25  The Claimant has valued the breach 13:02:26 using a three-year deferral in the February 11th, 13:02:28 2014 with a schedule start date of February 11th, 13:02:32 13:02:35  However, if the breach is the failure 13:02:36 to lift the deferral or insulate Windstream from its 13:02:37
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12  However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22 By the Claimant's own admissions, a deferral that 13:01:26 was lifted prior to May 22nd, 2012, could not have 13:01:29 resulted in the loss of the full value of the 13:01:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25  The Claimant has valued the breach 13:02:26 using a three-year deferral in the February 11th, 13:02:28 2014 with a schedule start date of February 11th, 13:02:32 2011. 13:02:35  However, if the breach is the failure 13:02:37 effects before its financing ran out on May 22nd, 13:02:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12  However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22 By the Claimant's own admissions, a deferral that 13:01:26 was lifted prior to May 22nd, 2012, could not have 13:01:29 resulted in the loss of the full value of the 13:01:34  A proper but-for scenario for the 13:01:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25  The Claimant has valued the breach 13:02:26 using a three-year deferral in the February 11th, 13:02:32 2011. 13:02:35  However, if the breach is the failure 13:02:37 effects before its financing ran out on May 22nd, 13:02:40 2012, a correct but-for scenario would assume that 13:02:44
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12  However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22 By the Claimant's own admissions, a deferral that 13:01:26 was lifted prior to May 22nd, 2012, could not have 13:01:39 resulted in the loss of the full value of the 13:01:35 implementation of the deferral itself, would have 13:01:37	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25  The Claimant has valued the breach 13:02:26 using a three-year deferral in the February 11th, 13:02:32 2014 with a schedule start date of February 11th, 13:02:32 to lift the deferral or insulate Windstream from its 13:02:37 effects before its financing ran out on May 22nd, 13:02:40 2012, a correct but-for scenario would assume that 13:02:44 the deferral was lifted or the Claimant insulated 13:02:46
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12 However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22 By the Claimant's own admissions, a deferral that 13:01:26 was lifted prior to May 22nd, 2012, could not have 13:01:39 resulted in the loss of the full value of the 13:01:35 implementation of the deferral itself, would have 13:01:37 both the project resuming development and the 13:01:39	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	I believe Mr. Terry indicated this morning that the 13:00:46 breach itself did not occur when the deferral was 13:00:49 implemented, however, for the sake of completeness 13:00:51 we will continue to discuss the matter briefly. 13:00:53  To value the losses arising out of 13:00:55 a mere implementation of a deferral, the Claimant 13:00:57 has assumed project development recommences on 13:01:00 February 11, 2011. 13:01:02  This makes sense, instead of the 13:01:05 deferral occurring on that day, the project resumes 13:01:07 development. 13:01:09  The Claimant has then valued this 13:01:10 breach, using a May 22nd, 2012 valuation date. 13:01:12  However, as Mr. Bucci noted in his 13:01:17 testimony, if the deferral were lifted on 13:01:19 February 11, 2011, the May 22nd date is irrelevant. 13:01:22 By the Claimant's own admissions, a deferral that 13:01:26 was lifted prior to May 22nd, 2012, could not have 13:01:39 resulted in the loss of the full value of the 13:01:35 implementation of the deferral itself, would have 13:01:37	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the Claimant has not valued the mere imposition of 13:01:48 the deferral itself. The claimants' failure to it 13:01:51 this means that it has not provided a but-for 13:01:55 scenario for the Tribunal and the Claimant has not 13:01:57 met its burden, and, as a result, any claim that the 13:01:59 deferral itself breached Article 1105 must fail. 13:02:03  If we turn to look at the Claimant's 13:02:08 valuation for damages arising out of failure to lift 13:02:10 the deferral or failure to insulate Windstream from 13:02:13 its effects, the Claimant's 1110 and alternative 13:02:16 1105 argument, we see that the Claimant has also 13:02:20 failed to provide an appropriate but-for scenario in 13:02:23 that situation as well. 13:02:25  The Claimant has valued the breach 13:02:26 using a three-year deferral in the February 11th, 13:02:32 2014 with a schedule start date of February 11th, 13:02:32 to lift the deferral or insulate Windstream from its 13:02:37 effects before its financing ran out on May 22nd, 13:02:40 2012, a correct but-for scenario would assume that 13:02:44 the deferral was lifted or the Claimant insulated 13:02:46

	Page 228		Page 229
1	February 11th, 2011 as Windstream has done is simply 13:02:58	1	Claimant alleges in its schedule. This six months 13:04:11
2	illogical and the Claimant's use of, as Mr. Low put 13:03:02	2	is significant, as Mr. Clarke from URS noted, moving 13:04:15
3	it, a subjective three-year deferral, should be 13:03:05	3	the time of the permitting in the Claimant's own 13:04:19
4	dismissed. 13:03:08	4	schedule by six months delays the entire project by 13:04:21
5	So, where does that leave us? Even 13:03:09	5	a year. 13:04:24
6	before getting to the specifics of the project, the 13:03:11	6	This, in effect, leaves the Claimant 13:04:25
7	Claimant has failed to meet its burden of proving 13:03:14	7	with not enough buffer time before the OPA can 13:04:27
8	damages. But even if we were to continue into our 13:03:16	8	terminate the contract to even make the project 13:04:30
9	analysis, it's apparent that the project had no 13:03:21	9	financeable. 13:04:32
10	value on the valuation date. 13:03:23	10	Even by Ms. Powell's own experience 13:04:33
11	Now, over the past two weeks, we have 13:03:26	11	dealing with on-shore wind where financing is much 13:04:35
12	heard the Claimant ask every one of its experts if, 13:03:28	12	easier to obtain. As Mr. Guillet noted, with 13:04:39
13	in their view, the project was more likely than not 13:03:31	13	respect to offshore wind financing, with less than 13:04:42
14	to succeed. With unlimited time, money, and 13:03:33	14	a year of buffer between the expected construction 13:04:45
15	resources, the answer is surely, yes. However, if 13:03:37	15	start date and the date you risk to lose your FIT 13:04:47
16	we dig deeper into the project specifics, we can see 13:03:42	16	contract, would make the project un-bankable, full 13:04:51
17	that the extreme sensitivities of the project to 13:03:45	17	stop. One simple change to the project schedule and 13:04:54
18	even minor variations show just how speculative this 13:03:48	18	the project is potentially dead before even 13:04:57
19	whole project was. And remember, the Claimant did 13:03:51	19	a foundation is in the water. 13:05:00
20	not have unlimited time. Under the FIT contract 13:03:53	20	But it doesn't stop there. The 13:05:05
21	they had five years to reach commercial operation. 13:03:56	21	Claimant faced numerous other regulatory risks, and 13:05:07
22	Let's look at some of those issues 13:04:00	22	while the Claimant has spent some time at this 13:05:10
23	then. Both Canada and the Claimant's expert, 13:04:01	23	hearing trying to establish that the OPA gives 13:05:12
24	Ms. Powell, agree that the REA permitting for the 13:04:05	24	extensions for delays, what it fails to address is 13:05:14
25	project would have taken 36 months, not 30 as the 13:04:08	25	the outcome of that permitting, including how it 13:05:18
	Page 230		Page 231
1	-	1	
1	would effect the project layout. 13:05:21		
2		1	there's no evidence the federal regulatory 13:06:28
2	Now, we heard Mr. Roeper last week 13:05:23	2	authorities would have permitted this. 13:06:31
3	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25	2	authorities would have permitted this. 13:06:31 The consequence of such a refusal? 13:06:33
3 4	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27	2 3 4	authorities would have permitted this. 13:06:31 The consequence of such a refusal? 13:06:33 Well, let's have a look at that as well. A buffer 13:06:36
3 4 5	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32	2 3 4 5	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39
3 4 5 6	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34	2 3 4 5 6	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41
3 4 5 6 7	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35	2 3 4 5 6 7	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44
3 4 5 6 7 8	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40	2 3 4 5 6 7 8	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48
3 4 5 6 7 8	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42	2 3 4 5 6 7 8	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52
3 4 5 6 7 8 9	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42 this layout, however, was brought to the forefront 13:05:43	2 3 4 5 6 7 8 9	authorities would have permitted this.  The consequence of such a refusal?  13:06:31  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55
3 4 5 6 7 8 9 10	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42 this layout, however, was brought to the forefront 13:05:43 by Mr. Roeper when, despite indicating that the 13:05:47	2 3 4 5 6 7 8 9 10	authorities would have permitted this.  The consequence of such a refusal?  13:06:31  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58
3 4 5 6 7 8 9 10 11	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42 this layout, however, was brought to the forefront 13:05:47 setback was meant to deal with noise, he believed 13:05:49	2 3 4 5 6 7 8 9 10 11	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00
3 4 5 6 7 8 9 10 11 12 13	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42 this layout, however, was brought to the forefront 13:05:47 setback was meant to deal with noise, he believed 13:05:49 that having a turbine at the noise receptor and one 13:05:52	2 3 4 5 6 7 8 9 10 11 12 13	authorities would have permitted this.  The consequence of such a refusal?  13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:58  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02
3 4 5 6 7 8 9 10 11 12 13 14	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42 this layout, however, was brought to the forefront 13:05:47 setback was meant to deal with noise, he believed 13:05:49 that having a turbine at the noise receptor and one 13:05:52 ten kilometres away meets noise requirements because 13:05:55	2 3 4 5 6 7 8 9 10 11 12 13 14	authorities would have permitted this.  The consequence of such a refusal?  13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:58  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:04
3 4 5 6 7 8 9 10 11 12 13 14 15	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback indicate in	2 3 4 5 6 7 8 9 10 11 12 13 14 15	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:04  foundation manufacturing facilities would not be 13:07:07
3 4 5 6 7 8 9 10 11 12 13 14 15 16	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback indicate in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09
3 4 5 6 7 8 9 10 11 12 13 14 15	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback indicate in	2 3 4 5 6 7 8 9 10 11 12 13 14 15	authorities would have permitted this. 13:06:31  The consequence of such a refusal? 13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09  agrees with that approach. As such, the claimants' 13:07:14
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42 this layout, however, was brought to the forefront 13:05:43 by Mr. Roeper when, despite indicating that the 13:05:47 setback was meant to deal with noise, he believed 13:05:49 that having a turbine at the noise receptor and one 13:05:52 ten kilometres away meets noise requirements because 13:05:55 the turbines are, on average, five kilometres away 13:05:57 from that receptor. 13:06:00  So what does this mean? When 13:06:04 a five-kilometre setback from the shoreline is 13:06:08	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	authorities would have permitted this.  The consequence of such a refusal?  13:06:31  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09  agrees with that approach. As such, the claimants' 13:07:14  schedule has the development of the facility 13:07:18
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Now, we heard Mr. Roeper last week 13:05:23 indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42 this layout, however, was brought to the forefront 13:05:43 by Mr. Roeper when, despite indicating that the 13:05:47 setback was meant to deal with noise, he believed 13:05:49 that having a turbine at the noise receptor and one 13:05:52 ten kilometres away meets noise requirements because 13:05:55 the turbines are, on average, five kilometres away 13:05:57 from that receptor. 13:06:00  So what does this mean? When 13:06:04 a five-kilometre setback from the shoreline is 13:06:08 applied as the regulators intended, 24 turbines are 13:06:10	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	authorities would have permitted this.  The consequence of such a refusal?  13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09  agrees with that approach. As such, the claimants' 13:07:14  schedule has the development of the facility 13:07:18  occurring well before the REA approval is obtained 13:07:21
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback indicate in 13:05:27  Windstream's project layout was not only indicate in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	authorities would have permitted this.  The consequence of such a refusal?  13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:04  foundation manufacturing facilities would not be 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09  agrees with that approach. As such, the claimants' 13:07:14  schedule has the development of the facility 13:07:18  occurring well before the REA approval is obtained 13:07:21  so that once financial close is reached, the first 13:07:24
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only 13:05:32 inconsistent with the word shoreline and water's 13:05:34 edge, but also based solely on his own opinion and 13:05:35 not those of the regulators. 13:05:40  Perhaps the most stark absurdity with 13:05:42 this layout, however, was brought to the forefront 13:05:47 setback was meant to deal with noise, he believed 13:05:49 that having a turbine at the noise receptor and one 13:05:52 ten kilometres away meets noise requirements because 13:05:55 the turbines are, on average, five kilometres away 13:05:57 from that receptor. 13:06:00  So what does this mean? When 13:06:04 a five-kilometre setback from the shoreline is 13:06:10 eliminated from the 2015 project layout. 13:06:14  We also heard Mr. Kolberg indicate 13:06:17	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	authorities would have permitted this.  The consequence of such a refusal?  13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09  agrees with that approach. As such, the claimants' 13:07:14  schedule has the development of the facility 13:07:21  so that once financial close is reached, the first 13:07:24  foundation can roll off the line. However, this is 13:07:26
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback in 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only indicate ind	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	authorities would have permitted this.  The consequence of such a refusal?  13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09  agrees with that approach. As such, the claimants' 13:07:14  schedule has the development of the facility 13:07:18  occurring well before the REA approval is obtained 13:07:24  foundation can roll off the line. However, this is 13:07:26  idealistic at best. 13:07:26
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback indicate that the average five-kilometre setback indicate that the average five-kilometre setback in 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only inconsistent with the word shoreline and water's inconsistent with the word shoreline in inconsistent with inconsist	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	authorities would have permitted this.  The consequence of such a refusal?  13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:04  foundation manufacturing facilities would not be 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09  agrees with that approach. As such, the claimants' 13:07:14  schedule has the development of the facility 13:07:18  occurring well before the REA approval is obtained 13:07:21  so that once financial close is reached, the first 13:07:24  foundation can roll off the line. However, this is 13:07:26  idealistic at best. 13:07:28  First, it assumes a third party would 13:07:31
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Now, we heard Mr. Roeper last week indicate that the average five-kilometre setback in 13:05:25 from uninhabited or uninhabitable points used in 13:05:27 Windstream's project layout was not only indicate ind	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	authorities would have permitted this.  The consequence of such a refusal?  13:06:33  Well, let's have a look at that as well. A buffer 13:06:36  zone that requires the project to be pushed back 13:06:39  from the edge of the existing shipping lane by one 13:06:41  nautical mile removes another 27 turbines. If 13:06:44  a two-nautical mile buffer is applied, that results 13:06:48  in the possible loss of up to 62 turbines, that's 13:06:52  nearly 65 percent of the turbines lost. 13:06:55  But it just gets worse from there. 13:06:58  Let's have a look at the on-shore 13:07:00  manufacturing facility. 13:07:02  As Ms. Powell notes, the on-shore 13:07:07  permitted as part of the REA. Mr. Roberts from WSP 13:07:09  agrees with that approach. As such, the claimants' 13:07:14  schedule has the development of the facility 13:07:18  occurring well before the REA approval is obtained 13:07:24  foundation can roll off the line. However, this is 13:07:26  idealistic at best. 13:07:26

	Page 232		Page 233
1	project would proceed. 13:07:39	1	turbines are called into question. 13:08:45
2	Further as SgurrEnergy noted in their 13:07:41	2	As Mr. Cooper from COWI also noted, 13:08:50
3	report, paying a third party for use of this 13:07:44	3	an additional 20 turbines are located in an area of 13:08:53
4	facility prior to permitting is simply not fiscally 13:07:45	4	deep sediment. They may not be appropriate for the 13:08:56
5	prudent. 13:07:50	5	foundation type that Windstream has chosen for 13:08:59
6	The reality is, whether or not the 13:07:51	6	itself. 13:09:01
7	facility is part of the REA or not is irrelevant. 13:07:53	7	The result of that, the possible 13:09:02
8	Commercial realities and fiscal prudence will lead 13:07:56	8	elimination of another 13 turbines, because 13:09:03
9	to shovels in the ground for the manufacturing 13:07:59	9	remember, given the depths of the water and the 13:09:07
10	facility only once financial close has occurred with 13:08:01	10	shoals on which Windstream needs to build, there is 13:09:10
11	subsequent impact on the construction activities and 13:08:04	11	simply nowhere else to go. 13:09:12
12	failure of the project to meet its own deadlines. 13:08:07	12	In the end, Windstream is left with 13:09:14
13	The result: Possible termination of the FIT 13:08:10	13	only 29 turbines, and this is likely a conservative 13:09:16
14	contract. 13:08:13	14	number, as by Sgurr's own estimates, over 65 percent 13:09:22
15	And then let's look at the foundations 13:08:14	15	of the project is located in lakebed conditions 13:09:26
16	themselves. As Mr. Cooper from COWI confirmed, up 13:08:17	16	where gravity-based foundations are not the right 13:09:28
17	to five more turbines are located in water depths so 13:08:22	17	choice. 13:09:32
18	shallow that the installation vessels can not even 13:08:26	18	And again, the Claimant provides no 13:09:32
19	reach the area, and the Claimant has offered no 13:08:28	19	alternative solutions, no means to install 13:09:34
20	alternative. In fact, Mr. Cooper noted that his 13:08:31	20	alternative foundations or where they would be 13:09:37
21	firm was not even involved in the siting of the 13:08:34	21	procured from or manufactured. 13:09:40
22	foundations at all. 13:08:36	22	And recall, the FIT contract requires 13:09:42
23	And what does this mean? Accounting 13:08:37	23	the Claimant to reach 75 percent of their stated 13:09:43
24 25	for these five turbines, three of which are located 13:08:40	24 25	contract capacity. With 29 turbines left the 13:09:46
23	in the shipping buffer, means the fate of two other 13:08:43	23	project is at 22 percent. 13:09:50
	Page 234		Page 235
1	Further, while the record shows that 13:09:54	1	As Mr. Guillet emphasised, this is 13:11:04
2	Pigeon Island is likely not available for use as 13:09:55	2	a major risk to the financing of the project, yet 13:11:06
3	an offshore substation, a gravity-based foundation 13:09:59	3	we're left to just speculate on Windstream's ability 13:11:10
4	is also out of the picture. 13:10:02	4	to secure these vessels. 13:11:12
5	The claimants have proposed a 230 kV 13:10:04	5	Nor has the Claimant provided a design 13:11:15
6	offshore substation, however, a substation of this 13:10:10	6	for a manufacturing facility that can produce 13:11:17
7	size is prohibited under the renewable energy 13:10:12	7	foundations at the rate required for their schedule. 13:11:20
8 9	approvable because a Class IV wind facility cannot 13:10:15	8 9	Nor is it clear if the location proposed is large 13:11:23
	have an offshore substation over 50 kVs. 13:10:17		enough without undergoing substantial renovations 13:11:26
10 11	Once again, the Claimant provides you 13:10:21	10 11	with additional costs. 13:11:29
12	with no alternative solutions. And if we turn to 13:10:23	12	Moreover, the unknown location of the 13:11:30
13	construction issues, the story gets even bleaker. 13:10:27	13	foundation manufacturing facility can have a large 13:11:33 impact on project schedule. As Mr. Palmer also 13:11:36
14	And you will recall Mr. Cecchini when 13:10:29 he noted that the OPA does not generally give force 13:10:32	14	impact on project schedule. As Mr. Palmer also 13:11:36 noted, some of the proposed locations are more than 13:11:39
15	majeure for construction-related issues, including 13:10:35	15	double the distance from the project site than the 13:11:42
16	those related to weather, since, as he noted, and as 13:10:37	16	representative facility. Increased travel time 13:11:46
17	we're all well aware, winter comes every year in 13:10:39	17	means delay to the schedule or as Mr. Palmer noted, 13:11:49
18	Ontario. 13:10:43	18	hiring more vessels with increased project costs. 13:11:52
19	With respect to construction, of 13:10:43	19	The Claimant has accounted for this in neither its 13:11:55
20	crucial importance is having a jack-up vessel 13:10:46	20	schedule or its budget. 13:11:58
21	secured to install the turbines. Yet, as Mr. Palmer 13:10:49	21	We're going to go into confidential 13:12:00
22	noted, as of the deferral, Windstream had not 13:10:52	22	session just for a minutes. 13:12:02
23	retained any vessels to do the job, even though 13:10:55	23	Confidential transcript begins 13:12:03
24	3, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1,		1 8
25	their schedule required two of the six vessels in 13:10:59 the world that were able to access the Great Lakes. 13:11:01	24	

parmits and the leading industry players on your 12:12:27
permits and the leading industry players on your 13:13:27
side like Weeks and SgurrEnergy, it simply may not 13:13:32
matter. 13:13:33
As Mr. Palmer noted with respect to 13:13:35
that project, there were no technical issues, no 13:13:37
permitting issues, yet they were not able to reach 13:13:40
financial close. The project failed. 13:13:42
The Claimant has asked you to assume 13:13:44
a completely unrealistic scenario with respect to 13:13:45
project risk. And perhaps, Mr. Guillet summed it up 13:13:48
best when he noted that the: 13:13:51
" assumptions that have been 13:13:53
made by the Claimant and his 13:13:55
counsels are all 13:13:56
best-in-class in pretty much 13:13:57
every category, so none of 13:13:59
them is completely 13:14:01
unrealistic on its own but 13:14:01
the combination itself is 13:14:03
absolutely unrealistic." 13:14:05
[As read] 13:14:08
And therein lie the details of the 13:14:08
tale that the Claimant has told the Tribunal over 13:14:10
First time to the control of the con
The reality is that the project could 13:14:15

1 not be built within the FIT project timelines, and 13:14:17 2 as a result, causation has not been proven and the 13:14:19 3 Claimant has not been entitled to any damages. 13:14:22 4 I will now turn it over to 13:14:25 5 Mr. Spelliscy to finish off Canada's closing 13:14:27 6 submissions. 13:14:29 7 PRESIDENT: Thank you very much, 13:14:30 8 Ms. Squires. Mr. Spelliscy. 13:14:30 CLOSING SUBMISSIONS BY SPELLISCY: 9 13:14:46 10 PRESIDENT: Please. 13:14:54 MR. SPELLISCY: Good afternoon, and 13:14:56 11 12 thank you, Ms. Squires. 13 As Mr. Neufeld and Ms. Squires noted, 13:14:59 14 my job this afternoon is to go even further down the 13:15:02 15 rabbit hole and to talk to you about the conclusions 13:15:05 16 you should reach if you determine that the measures 13:15:07 17 in question breached Canada's obligations under 13:15:09 18 NAFTA, and also determine that the measures in 13:15:12 19 question actually caused the Claimant loss. 13:15:15 20 I'm going to divide the remainder of 13:15:20 21 my remarks today into three areas: sunk costs; lost 13:15:22 22 profits, primarily as being claimed through a DCF 13:15:28 23 analysis; and market comparables. 13:15:32 24 Let's start with the first: sunk 13:15:34 25 13:15:35 costs.

Page 239 As Ms. Squires has explained: In cases 13:15:37 where there is a development project with no history 13:15:39 of profits, the law is clear, looking to future 13:15:41 losses is too speculative. 13:15:45 In such a case, on the assumption that 13:15:48 there is a breach and loss, how should the qualification be done? 13:15:53 In our view, there is only one answer: 13:15:55 They get their money back. Simple as that. As Ms. Squires explained, though, what amount of money 13:16:03 is for them to prove. It is the Claimant's burden 13:16:08 to prove the quantum of their losses. 13:16:12 Now, during these last few days the 13:16:14 Claimant has asked questions of Canada's witnesses 13:16:16 about what they and Canada requested to prove that 13:16:18 the Claimant did not suffer the losses in sunk costs 13:16:22 that they claimed, that turns the burden on its head. 13:16:29 If the Claimant wants to recover sunk 13:16:29 costs, it bears the burden of proving with 13:16:31 sufficient certainty that it has suffered those 13:16:34 costs. It is never the other way around. 13:16:37 Now I want to pause to understand what 13:16:42 13:16:44 sufficient certainty means for sunk costs. And

I think we can contrast is here with future profits, 13:16:47

	Page 240		Page 241
1	which we'll talk about in a minute. Because with 13:16:51	1	It is what they called their 13:18:11
2	future losses, of course, there is always some 13:16:54	2	"Capitalised Development Costs" as well as costs 13:18:13
3	question of uncertainty. And the question for the 13:16:56	3	that they said they incurred in 2015, at least in 13:18:16
4	Tribunal is what level of certainty is enough, 13:16:58	4	the report for development and engineering. 13:18:19
5	without speculation? 13:17:01	5	First, you will recall that Mr. Low 13:18:22
6	But sunk costs is different. Proving 13:17:03	6	admitted in his presentation that it was 13:18:24
7	sunk costs requires nothing other than due diligence 13:17:06	7	inappropriate to include the costs from January 1st, 13:18:26
8	and disclosure by a Claimant. 13:17:09	8	2015 because these actually related to the 13:18:30
9	Contrary to what Mr. Low has said, it 13:17:13	9	arbitration and not the development of the project. 13:18:33
10	is neither significant overkill, nor extreme to 13:17:15	10	So, let's cross those out and let's 13:18:36
11	demand that the Claimant meet that burden. In fact, 13:17:19	11	move on and see what's left. 13:18:42
12	such demanding exactitude is a way for the public to 13:17:24	12	Now, with respect to the capitalised 13:18:45
13	maintain confidence in this system. 13:17:28	13	costs on the first line, which total 3.773 million, 13:18:48
14	So let's look at what the Claimant has 13:17:34	14	Mr. Low referred refused to exclude other expenses 13:18:53
15	claimed for its sunk costs. And here I need to go 13:17:36	15	related to the arbitration that occurred after the 13:18:56
16	into confidential session. 13:17:38	16	valuation date, and you heard Mr. Terry talk about 13:18:58
17	Confidential transcript begins 13:17:39	17	it here this morning. 13:19:01
18	MR. SPELLISCY: The Claimant has 13:17:52	18	And this is something that baffles me. 13:19:02
19	claimed \$17,428,000 in sunk costs. 13:17:53	19	Apparently expert reports done for a memorial are 13:19:05
20	The evidence has shown over the past 13:17:57	20	development costs, but expert reports done for 13:19:08
21	few days there is absolutely no support for this 13:17:58	21	a reply memorial are not development costs. 13:19:11
22	claim. 13:18:02	22	Mr. Low tried two explanations as to 13:19:15
23	Let's take the first two items that 13:18:04	23	why that was so; neither are credible. First, he 13:19:18
24	they have in their schedule 3(b), and I'm working 13:18:06	24	said that management did not know in May of 2012 the 13:19:23
25	from their reply report. 13:18:10	25	project couldn't be developed, but Mr. Low's claim 13:19:28
	Page 242		Page 243
1	was demonstrably false as a matter of fact. 13:19:34	1	That makes no sense. Sunk cost aren't about the 13:20:46
2	Mr. Ziegler testified in his witness statement that 13:19:37	2	but-for world; sunk costs are about the actual 13:20:51
3	the Claimant did know in May of 2012, and when I put 13:19:40		
		3	world. 13:20:54
4	that to Mr. Low he had to admit that. And I would 13:19:43	4	world. 13:20:54 We would submit that there is no doubt 13:20:55
4 5			We would submit that there is no doubt 13:20:55
	that to Mr. Low he had to admit that. And I would 13:19:43	4	We would submit that there is no doubt 13:20:55
5	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47	4 5	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57
5 6	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50	4 5 6	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59
5 6 7	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52	4 5 6 7	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02
5 6 7 8	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54	4 5 6 7 8	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06
5 6 7 8 9	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57	4 5 6 7 8 9	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07
5 6 7 8 9	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01	4 5 6 7 8 9	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10
5 6 7 8 9 10	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05	4 5 6 7 8 9 10	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13
5 6 7 8 9 10 11	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08	4 5 6 7 8 9 10 11	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17
5 6 7 8 9 10 11 12	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10	4 5 6 7 8 9 10 11 12 13	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19
5 6 7 8 9 10 11 12 13	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13	4 5 6 7 8 9 10 11 12 13	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19 in this proceeding. That's where a claim for costs 13:21:23
5 6 7 8 9 10 11 12 13 14	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13 the development of the project. 13:20:16	4 5 6 7 8 9 10 11 12 13 14	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19 in this proceeding. That's where a claim for costs 13:21:23 of these sort belong, just as Canada will claim its 13:21:27
5 6 7 8 9 10 11 12 13 14 15 16 17	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13 the development of the project. 13:20:16  As Mr. Low admitted, he included their 13:20:22 reports were being prepared for the purposes of the 13:20:25	4 5 6 7 8 9 10 11 12 13 14 15 16 17	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19 in this proceeding. That's where a claim for costs 13:21:23 of these sort belong, just as Canada will claim its 13:21:27 costs in that phase. 13:21:30
5 6 7 8 9 10 11 12 13 14 15 16	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13 the development of the project. 13:20:16  As Mr. Low admitted, he included their 13:20:22 cost as sunk costs even though he knew that their 13:20:25 arbitration. 13:20:25	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02 I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:29 in this proceeding. That's where a claim for costs 13:21:23 of these sort belong, just as Canada will claim its 13:21:27 costs in that phase. 13:21:30 So let's come back to what the 13:21:34
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13 the development of the project. 13:20:16  As Mr. Low admitted, he included their 13:20:22 cost as sunk costs even though he knew that their 13:20:25 arbitration. 13:20:27  The second explanation given by 13:20:30	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02  I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19 in this proceeding. That's where a claim for costs 13:21:23 of these sort belong, just as Canada will claim its 13:21:27 costs in that phase. 13:21:30 So let's come back to what the 13:21:34 Claimant claimed. And let's eliminate now, 13:21:40 all of the costs from line item 1 that occurred 13:21:43
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13 the development of the project. 13:20:16  As Mr. Low admitted, he included their 13:20:20 cost as sunk costs even though he knew that their 13:20:25 arbitration. 13:20:27  The second explanation given by 13:20:30  Mr. Low as to why these initial reports should be 13:20:32	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02  I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19 in this proceeding. That's where a claim for costs 13:21:23 of these sort belong, just as Canada will claim its 13:21:27 costs in that phase. 13:21:30  So let's come back to what the 13:21:34 Claimant claimed. And let's eliminate now, 13:21:36 according to the information produced by Deloitte, 13:21:40 all of the costs from line item 1 that occurred 13:21:43 after May 22nd, 2012. What's left at the top there 13:21:47
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13 the development of the project. 13:20:16  As Mr. Low admitted, he included their 13:20:20 cost as sunk costs even though he knew that their 13:20:25 arbitration. 13:20:27  The second explanation given by 13:20:30  Mr. Low as to why these initial reports should be 13:20:35	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02  I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19 in this proceeding. That's where a claim for costs 13:21:23 of these sort belong, just as Canada will claim its 13:21:27 costs in that phase. 13:21:34 Claimant claimed. And let's eliminate now, 13:21:36 according to the information produced by Deloitte, 13:21:40 all of the costs from line item 1 that occurred 13:21:43 after May 22nd, 2012. What's left at the top there 13:21:47 is 2.4 million and 15 million overall. 13:21:52
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13 the development of the project. 13:20:16  As Mr. Low admitted, he included their 13:20:20 cost as sunk costs even though he knew that their 13:20:22 reports were being prepared for the purposes of the 13:20:25 arbitration. 13:20:27  The second explanation given by 13:20:30  Mr. Low as to why these initial reports should be 13:20:35 my colleague, Mr. Terry, this morning, is that he 13:20:38	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02  I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19 in this proceeding. That's where a claim for costs 13:21:23 of these sort belong, just as Canada will claim its 13:21:27 costs in that phase. 13:21:30  So let's come back to what the 13:21:34 Claimant claimed. And let's eliminate now, 13:21:36 according to the information produced by Deloitte, 13:21:40 all of the costs from line item 1 that occurred 13:21:43 after May 22nd, 2012. What's left at the top there 13:21:47 is 2.4 million and 15 million overall. 13:21:52 What do we know about that 13:21:57
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that to Mr. Low he had to admit that. And I would 13:19:43 suggest that an admission like this goes to his 13:19:47 independence and credibility in the proceeding. 13:19:50  The fact is the Claimant knew in May 13:19:52 of 2012 that the project could not be developed. 13:19:54  Any expenses from that point on relate not to the 13:19:57 development of the project, but to this arbitration. 13:20:01  And, in fact, every expert the 13:20:05  Claimant has retained and has brought here to 13:20:08 present to you has confirmed that they were retained 13:20:10 for the arbitration or after the deferral and not 13:20:13 the development of the project. 13:20:16  As Mr. Low admitted, he included their 13:20:20 cost as sunk costs even though he knew that their 13:20:25 arbitration. 13:20:27  The second explanation given by 13:20:30  Mr. Low as to why these initial reports should be 13:20:35	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	We would submit that there is no doubt 13:20:55 that what the Claimant is doing here is 13:20:57 inappropriately trying to include arbitration costs 13:20:59 as sunk costs, as development costs. 13:21:02  I would suggest that unlike what my 13:21:06 colleague Mr. Terry said this morning, this is not 13:21:07 a complicated question. There is an Article, 13:21:10 Article 40 in the UNCITRAL arbitration rules that 13:21:13 deals with arbitration costs and how they will be 13:21:17 allocated. There will be a separate phase for costs 13:21:19 in this proceeding. That's where a claim for costs 13:21:23 of these sort belong, just as Canada will claim its 13:21:27 costs in that phase. 13:21:34 Claimant claimed. And let's eliminate now, 13:21:36 according to the information produced by Deloitte, 13:21:40 all of the costs from line item 1 that occurred 13:21:43 after May 22nd, 2012. What's left at the top there 13:21:47 is 2.4 million and 15 million overall. 13:21:52

	Page 244		Page 245
1	of some un-disclosed sample of the invoices. 13:22:08	1	The Claimant seeks 710,000 for that. 13:23:29
2	Now, we have no idea how much was 13:22:13	2	Well let's turn now to the sheet showing how they 13:23:32
3	actually tested, and we don't know how much of what 13:22:15	3	calculated that. I apologize, this one is small. 13:23:35
4	was tested actually occurred before the valuation 13:22:18	4	We tried. But we're going to do something to help 13:23:40
5	date. 13:22:23	5	us out a little bit. 13:23:43
6	BRG tried to do an audit. 13:22:26	6	First, almost the entire amount 13:23:45
7	During the examination of 13:22:29	7	relates to post-2010 costs. As we just saw, those 13:23:48
8	Mr. Goncalves, we saw a couple of invoice that can 13:22:31	8	are not related to the development of the project 13:23:51
9	be included that the auditors of BRG didn't 13:22:34	9	and not losses caused by the deferral. They are 13:23:53
10	recognize because of their nature. They didn't 13:22:37	10	internal costs by of the Claimant and not losses 13:23:55
11	refer to the Windstream project, they referred to 13:22:39	11	caused by the deferral and can't be allowed. Let's 13:23:59
12	Kingston or offshore. 13:22:42	12	cross them out. 13:24:03
13	But that isn't really the question 13:22:45	13	Of the remaining entries, what 13:24:04
14	here. The question is: What do we think of the 13:22:45	14	evidence do we have? The only evidence we've seen 13:24:05
15	other 67 percent of the sample of the sample? Where 13:22:49	15	is a memo sent by Mr. Mars to investors. It's not 13:24:08
16	is the evidence of that? All the Claimant has 13:22:51	16	an agreement; it's a memo. 13:24:10
17	proven is a 1.7 million that BRG was able to 13:22:54	17	But as is clear from the memo itself, 13:24:12
18	substantiate, plus the few invoices that Ms. Seers 13:22:59	18	which I won't pull up here, but the memo states that 13:24:14
19	was able to show to Mr. Goncalves. 13:23:03	19	the charges would begin in January of 2011. 13:24:17
20	So, let's take the un-proven amounts 13:23:06	20	Mr. Low claimed all the way back to 13:24:21
21	out of the sunk cost claim. 13:23:09	21	October 2010. There's no basis for that in the 13:24:23
22	Stay on the previous one. It leaves 13:23:13	22	record. He said he'd seen tax slips. Those tax 13:24:27
23	us with just over 1.8 million at the top. 13:23:21	23	slips aren't in the record. Let's cross those out. 13:24:30
24	Now, let's take a look at the third 13:23:23	24	What of the remaining entries between January 2011 13:24:37
25	item. The White Owl Capital Management cost. 13:23:25	25	and May 2012? 13:24:41
	Page 246		Page 247
1	· ·	1	· ·
1 2	Mr. Low admitted that the evidence was 13:24:43	1 2	Now we get to the bigger items. Let's 13:25:56
	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44		Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59
2	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46	2	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59  This is not a sunk cost at all. 13:26:02
2	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50	2	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59  This is not a sunk cost at all. 13:26:02  There's been no draw on it; it still exists exactly 13:26:04
2 3 4	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50	2 3 4	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59  This is not a sunk cost at all. 13:26:02  There's been no draw on it; it still exists exactly 13:26:04
2 3 4 5	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50  So what are we left with? A big 13:24:51	2 3 4 5	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09
2 3 4 5	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50  So what are we left with? A big 13:24:51 question mark. 13:24:54	2 3 4 5 6	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12
2 3 4 5 6 7	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54	2 3 4 5 6 7	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14
2 3 4 5 6 7 8	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58	2 3 4 5 6 7 8	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17
2 3 4 5 6 7 8	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00	2 3 4 5 6 7 8	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20
2 3 4 5 6 7 8 9	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03	2 3 4 5 6 7 8 9	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23
2 3 4 5 6 7 8 9 10 11 12	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07	2 3 4 5 6 7 8 9 10	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23 Even if we leave that aside, the 13:26:32 credit may be cancelled no later than May 4th, 13:26:36
2 3 4 5 6 7 8 9 10 11 12 13	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:11 of Control Tech, the next item on there. Again, 13:25:14	2 3 4 5 6 7 8 9 10 11 12 13	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23 Even if we leave that aside, the 13:26:32 credit may be cancelled no later than May 4th, 13:26:36 2017, next year. Mr. Cecchini confirmed that, as 13:26:39
2 3 4 5 6 7 8 9 10 11 12 13 14	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23 Even if we leave that aside, the 13:26:32 credit may be cancelled no later than May 4th, 13:26:36
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:21	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59  This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09  And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23  Even if we leave that aside, the 13:26:28 incontrovertible evidence is that the letter of 13:26:32 credit may be cancelled no later than May 4th, 13:26:36 2017, next year. Mr. Cecchini confirmed that, as 13:26:39 does the plain language of section 10(1)g of the FIT 13:26:43 contract. 13:26:48
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:21 for his assistance in this dispute, not for the 13:25:23	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59  This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09  And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23  Even if we leave that aside, the 13:26:28 incontrovertible evidence is that the letter of 13:26:32 credit may be cancelled no later than May 4th, 13:26:36 2017, next year. Mr. Cecchini confirmed that, as 13:26:39 does the plain language of section 10(1)g of the FIT 13:26:43 contract. 13:26:48  In fact, the Tribunal will recall that 13:26:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:23 development of this project. Such a claim is 13:25:26	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23 Even if we leave that aside, the 13:26:28 incontrovertible evidence is that the letter of 13:26:32 credit may be cancelled no later than May 4th, 13:26:36 2017, next year. Mr. Cecchini confirmed that, as 13:26:49 does the plain language of section 10(1)g of the FIT 13:26:43 contract. 13:26:48 In fact, the Tribunal will recall that 13:26:49 a few days ago when we came back from a break before 13:26:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:23 development of this project. Such a claim is 13:25:26 inappropriate as sunk costs. Further, as Mr. Baines 13:25:31	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Now we get to the bigger items. Let's 13:25:56  talk about the letter of credit. 13:25:59  This is not a sunk cost at all. 13:26:02  There's been no draw on it; it still exists exactly 13:26:04  as it was when they filed it with the OPA. 13:26:09  And Mr. Cecchini made clear that it 13:26:12  can be returned. I believe he said he'd return it 13:26:14  tomorrow. There's no evidence that this amount 13:26:17  cannot be claimed back now, if the Claimant is 13:26:20  willing to cancel their FIT contract. 13:26:23  Even if we leave that aside, the 13:26:28  incontrovertible evidence is that the letter of 13:26:32  credit may be cancelled no later than May 4th, 13:26:36  2017, next year. Mr. Cecchini confirmed that, as 13:26:39  does the plain language of section 10(1)g of the FIT 13:26:43  contract. 13:26:48  In fact, the Tribunal will recall that 13:26:49  a few days ago when we came back from a break before 13:26:51  I started asking questions, Mr. Low admitted that, 13:26:55
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:21 for his assistance in this dispute, not for the 13:25:26 inappropriate as sunk costs. Further, as Mr. Baines 13:25:31 admitted, at the time he was also working on other 13:25:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23 Even if we leave that aside, the 13:26:28 incontrovertible evidence is that the letter of 13:26:32 credit may be cancelled no later than May 4th, 13:26:36 2017, next year. Mr. Cecchini confirmed that, as 13:26:39 does the plain language of section 10(1)g of the FIT 13:26:43 contract. 13:26:48 In fact, the Tribunal will recall that 13:26:49 a few days ago when we came back from a break before 13:26:51 I started asking questions, Mr. Low admitted that, 13:26:55 in the current circumstance, he found that it was 13:26:57
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:21 for his assistance in this dispute, not for the 13:25:23 development of this project. Such a claim is 13:25:31 admitted, at the time he was also working on other 13:25:34 projects. And the Claimant has offered no means to 13:25:37	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23 Even if we leave that aside, the 13:26:28 incontrovertible evidence is that the letter of 13:26:32 credit may be cancelled no later than May 4th, 13:26:36 2017, next year. Mr. Cecchini confirmed that, as 13:26:39 does the plain language of section 10(1)g of the FIT 13:26:43 contract. 13:26:48 In fact, the Tribunal will recall that 13:26:49 a few days ago when we came back from a break before 13:26:51 I started asking questions, Mr. Low admitted that, 13:26:55 in the current circumstance, he found that it was 13:26:57 now likely inappropriate to include the letter of 13:26:59
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:21 for his assistance in this dispute, not for the 13:25:23 development of this project. Such a claim is 13:25:31 admitted, at the time he was also working on other 13:25:34 projects. And the Claimant has offered no means to 13:25:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23 Even if we leave that aside, the 13:26:28 incontrovertible evidence is that the letter of 13:26:32 credit may be cancelled no later than May 4th, 13:26:36 2017, next year. Mr. Cecchini confirmed that, as 13:26:39 does the plain language of section 10(1)g of the FIT 13:26:43 contract. 13:26:48 In fact, the Tribunal will recall that 13:26:49 a few days ago when we came back from a break before 13:26:51 I started asking questions, Mr. Low admitted that, 13:26:57 now likely inappropriate to include the letter of 13:26:59 credit amount as a sunk cost because it would lead 13:27:02
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:21 for his assistance in this dispute, not for the 13:25:23 development of this project. Such a claim is 13:25:26 inappropriate as sunk costs. Further, as Mr. Baines 13:25:31 admitted, at the time he was also working on other 13:25:37 allow an allocation between what those projects were 13:25:41 and the Wolfe Island Shoals one. It's failed to 13:25:44	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Now we get to the bigger items. Let's 13:25:56  talk about the letter of credit. 13:25:59  This is not a sunk cost at all. 13:26:02  There's been no draw on it; it still exists exactly 13:26:04  as it was when they filed it with the OPA. 13:26:09  And Mr. Cecchini made clear that it 13:26:12  can be returned. I believe he said he'd return it 13:26:14  tomorrow. There's no evidence that this amount 13:26:17  cannot be claimed back now, if the Claimant is 13:26:20  willing to cancel their FIT contract. 13:26:23  Even if we leave that aside, the 13:26:28  incontrovertible evidence is that the letter of 13:26:32  credit may be cancelled no later than May 4th, 13:26:36  2017, next year. Mr. Cecchini confirmed that, as 13:26:39  does the plain language of section 10(1)g of the FIT 13:26:43  contract. 13:26:48  In fact, the Tribunal will recall that 13:26:49  a few days ago when we came back from a break before 13:26:51  I started asking questions, Mr. Low admitted that, 13:26:55  in the current circumstance, he found that it was 13:26:59  credit amount as a sunk cost because it would lead 13:27:02  to the possibility of a double recovery. 13:27:05
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Mr. Low admitted that the evidence was 13:24:43 clear that some of these fees would have related to 13:24:44 activities other than Windstream Wolfe Island Shoals 13:24:46 project. 13:24:50 So what are we left with? A big 13:24:51 question mark. 13:24:54 So let's come back to our sunk cost 13:24:54 table and recall that it is the Claimant's burden to 13:24:58 prove the quantum of loss caused by the measure. It 13:25:00 has failed to do so for the White Owl Capital 13:25:03 management costs. 13:25:07 You can cost out that claim as well. 13:25:08 Let's look next at the accrued amounts 13:25:11 of Control Tech, the next item on there. Again, 13:25:14 these amounts are all accrued post May 2012. 13:25:18 This is the Claimant paying Mr. Baines 13:25:21 for his assistance in this dispute, not for the 13:25:23 development of this project. Such a claim is 13:25:31 admitted, at the time he was also working on other 13:25:34 projects. And the Claimant has offered no means to 13:25:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Now we get to the bigger items. Let's 13:25:56 talk about the letter of credit. 13:25:59 This is not a sunk cost at all. 13:26:02 There's been no draw on it; it still exists exactly 13:26:04 as it was when they filed it with the OPA. 13:26:09 And Mr. Cecchini made clear that it 13:26:12 can be returned. I believe he said he'd return it 13:26:14 tomorrow. There's no evidence that this amount 13:26:17 cannot be claimed back now, if the Claimant is 13:26:20 willing to cancel their FIT contract. 13:26:23 Even if we leave that aside, the 13:26:28 incontrovertible evidence is that the letter of 13:26:32 credit may be cancelled no later than May 4th, 13:26:36 2017, next year. Mr. Cecchini confirmed that, as 13:26:39 does the plain language of section 10(1)g of the FIT 13:26:43 contract. 13:26:48 In fact, the Tribunal will recall that 13:26:49 a few days ago when we came back from a break before 13:26:51 I started asking questions, Mr. Low admitted that, 13:26:57 now likely inappropriate to include the letter of 13:26:59 credit amount as a sunk cost because it would lead 13:27:02

	Page 248		Page 249
1	line, which is interest on the letter of credit. 13:27:14	1	they could have put 1,000 percent fee for themselves 13:28:24
2	Well that's what it's stated in the Deloitte 13:27:18	2	in there. This is not the way this should work. 13:28:28
3	schedule anyways. But as the evidence showed, this 13:27:21	3	What I would suggest is the way this 13:28:31
4	is not interest on the letter of credit, but a fee 13:27:23	4	should work, is that the parties have already agreed 13:28:33
5	that Windstream's investors are causing Windstream 13:27:26	5	on the opportunity costs related to Claimant's money 13:28:36
6	to pay back to themselves for putting up the money 13:27:29	6	being unavailable to it. They have agreed on the 13:28:39
7	to secure the letter of credit. 13:27:31	7	applicable rate of pre-judgment interest and there 13:28:42
8	Before we get to the economics of 13:27:34	8	is a legal question of whether you should award it, 13:28:44
9	that, let's get to and talk about a little legal 13:27:36	9	but they've agreed on the applicable rate if you do. 13:28:46
10	principle. Sunk costs should be external costs; 13:27:39	10	That is exactly the same thing as 13:28:49
11	they should not be internal costs of the investors. 13:27:43	11	a matter of principle. It is the opportunity cost 13:28:50
12	This fee is just something that the 13:27:47	12	of not having that money. It is not 12 and a half 13:28:52
13	investor decided to pay back to themselves as a way 13:27:49	13	per cent; it's 3 percent. 13:28:57
14	to take out additional money out of the company. It 13:27:51	14	The Claimant hasn't done that 13:29:00
15	shouldn't be recoverable as a sunk cost, but even if 13:27:54	15	calculation, but we have. We did that calculation, 13:29:01
16	it were, let's talk a little economics. 13:27:58	16	and this is what it shows in U.S. dollars. The 13:29:05
17	If this was going to be awarded, what 13:28:00	17	total is not 5 some odd million dollars in interest, 13:29:10
18	should it represent? It should represent the 13:28:03	18	which would essentially be a rate that would allow 13:29:13
19	opportunity cost of having the money that was locked 13:28:04	19	the Claimant to have doubled its money over the last 13:29:15
20	in our Royal Bank of Scotland to secure the line of 13:28:07	20	few years, a pretty nice return. It's actually over 13:29:18
21	credit. 13:28:12	21	a million dollars in fees. 13:29:20
22	Now, we can't allow a Claimant to set 13:28:12	22	Now that's more reasonable, but we 13:29:22
23	that opportunity cost rate itself. This is not 13:28:15	23	can't stop there because the Claimant actually has 13:29:24
24	a negotiated rate at all. It is the investor 13:28:19	24	a duty to mitigate its damages. 13:29:27
25	setting it for themselves, and so, on that logic, 13:28:22	25	On the day when the Claimant knew that 13:29:31
	Page 250		Page 251
1	it no longer had an opportunity to develop its 13:29:32	1	than question marks. 13:30:51
2	project, it had the duty to seek to mitigate by 13:29:35	2	As a result, the Claimant has failed 13:30:55
3	asking for its letter of credit back under 13:29:39	3	to meet its burden and this line item must be taken 13:30:57
4	section 10(1)g of its FIT contract. It never did 13:29:42	4	off the sunk cost claim as well. 13:31:02
5	that. What it did was it asked for its letter back 13:29:48	5	As of May 22nd, 2012, the evidence in 13:31:04
6	and asked to keep its FIT contract. 13:29:51	6	the record establishes that about 1.8 million had 13:31:07
7	So, any claim for interest past those 13:29:55	7	been invested in the development of the company. 13:31:11
8	days is inappropriate as well, and that reduces it 13:30:00	8	That is money they should get back if there is 13:31:14
9	substantially. As you see we've run the numbers. 13:30:03	9	a finding about the breach and causation, nothing 13:31:17
10	The claim now comes down to 437,000 in opportunity 13:30:07	10	more. 13:31:21
11	costs. 13:30:14	11	Now let me turn to my second topic 13:31:26
12	But again, we are not done because, 13:30:16	12	this morning, the Claimant's claim for lost profits 13:31:28
13	remember, the investors are making interest on this 13:30:18	13	using the DCF analysis. And I think we can come out 13:31:31
14	bank account in the Royal Bank of Scotland, which 13:30:20	14	of confidential session for at least a little while 13:31:34
15	also compensates them it some extent for the 13:30:23	15	here. 13:31:38
16	opportunity of having that money tied up. 13:30:26	16	Confidential transcript ends 13:31:38
17	The problem is will there is no 13:30:28	17	MR. SPELLISCY: Now, as I come to 13:31:42
18	evidence on the record as to what that interest rate 13:30:30	18	talking about lost profits, I do want to pause and 13:31:45
19	is. 13:30:33	19	talk about why I spent so much time on sunk costs. 13:31:48
20	Mr. Ziegler, the only one here who 13:30:33	20	Not only is it our view that that is 13:31:53
21	came to testify whose money is at stake, he did not 13:30:35	21	the appropriate legal principle for how to calculate 13:31:55
22	know. 13:30:40	22	damages for a project that is not even beginning its 13:31:58
23	So, for the real opportunity cost of 13:30:42	23	development, but I also would suggest to you that 13:32:00
24	this money being held to secure the letter of 13:30:45	24	the way in which it was prepared, the way in which 13:32:03
25	credit, what are we left with? Again, nothing other 13:30:47	25	that amount was claimed, the inclusion without 13:32:06

	Page 252		Page 253
1	evidence, the inclusion of things that were not 13:32:09	1	sufficient certainty, and Mr. Terry this morning 13:33:28
2	sunk, the letter of credit, this should reflect on 13:32:11	2	said that Mr. Low was prudent and careful in his 13:33:30
3	the credibility of the entire damages claim that the 13:32:15	3	analysis. I would suggest that the evidence shows 13:33:34
4	Claimant is presenting here. 13:32:18	4	that he was not. 13:33:36
5		5	
6	I think that reflects as well, because 13:32:21	6	Let's look at what he relies upon. 13:33:38
	when we look at what their discount cash-flow 13:32:24	7	He relies upon the FIT contract as 13:33:41
7	analysis is, the Claimant is reaching for the stars 13:32:27		providing certainty that is enough to using a DCF 13:33:43
8	in this case. It is asking for 100 percent of the 13:32:29	8	analysis in his mind, but remember, price the 13:33:47
9	future value, even though it has spent, as we just 13:32:32	9	price one gets for a product is only one single 13:33:52
10	saw, less than 10 percent, a 10th of a percent on 13:32:35	10	aspect of a DCF. DCF requires a number of other 13:33:54
11	the budget required to develop the project. 13:32:39	11	inputs. On the cost side there is CAPEX and 13:33:58
12	Claimant says it's not the future 13:32:42	12	financing cost and OPEX, and on the revenue side 13:34:01
13	operating value, but it is the value as if the 13:32:44	13	there is the amount of the product that will be 13:34:04
14	project started to produce profits. 13:32:47	14	generated and the price that you get for it. 13:34:07
15	As Mr. Guillet explained, DCF is not 13:32:52	15	The Claimant only has reliable 13:34:10
16	appropriate for development projects until they have 13:32:57	16	information regarding the last one, the price. 13:34:11
17	reached financial close. 13:33:00	17	The evidence this week and throughout 13:34:14
18	Mr. Guillet is the only one in this 13:33:06	18	the hearing showed it has no reliability regarding 13:34:16
19	market in this hearing, who has experience in 13:33:08	19	the other inputs. 13:34:20
20	transactions of offshore wind farms. 13:33:11	20	I want to spend here in assessing that 13:34:26
21	That is what he does. 13:33:14	21	reliability, spend a fair amount of time on one of 13:34:28
22	And he tells you that the market does 13:33:16	22	those inputs, because it's really important, what it 13:34:31
23	not use DCF, in the not at this stage. 13:33:18	23	would have cost to build this project. So let's 13:34:34
24	Mr. Low suggests that a DCF is 13:33:23	24	look at what's on the record. 13:34:37
25	appropriate here because, in his view, there was 13:33:26	25	Remember, Mr. Guillet explained when 13:34:39
	Page 254		Page 255
1	he was questioned that two of the most prominent 13:34:41	1	Sgurr. They didn't get a cost estimate from COWI. 13:36:01
2	builders for offshore wind were Mott and Sgurr. 13:34:44	2	They didn't get a cost estimate from Weeks Marine. 13:36:05
3	The Claimant had Mott MacDonald as 13:34:49	3	Why not? We would submit to you that the inference 13:36:10
4	a technical advisor prior to the arbitration. In 13:34:51	4	you should draw from the evidence is that the 13:36:13
5	fact, the Claimant had Mott MacDonald prepare 13:34:56	5	project-specific estimates would have shown the 13:36:14
6	a revised cost estimate for the project on 13:34:59	6	uncertainty of their capital cost estimates. So 13:36:17
7	October 12th, 2012. 13:35:02	7	what did they do? They rely on benchmark costs for 13:36:20
8	They submitted a notice intent to 13:35:03	8	building a project in Europe. 13:36:24
9	arbitration, five days later on October 17th, 2012. 13:35:05	9	There are a number of problems with 13:36:27
10	I would suggest that timing is not coincidental. 13:35:09	10	this approach. First, there is no reason to assume 13:36:28
11	But where's Mott? Why are they not 13:35:11	11	mature European pricing is at all relevant. 13:36:31
12	here? Mott's estimate is on the record and we did 13:35:17	12	In fact, the evidence is to the 13:36:35
13	refer to it in examination. I won't bring it up 13:35:22	13	contrary. 13:36:37
14	here because it is confidential, but it is 13:35:24	14	Mr. Guillet explained, in his reports 13:36:38
15	Exhibit C-0625, and you will see that Mott's 13:35:26	15	and his experience, that North American projects 13:36:39
16	estimate was about 1.2 billion Euros in October of 13:35:33	16	that pay a premium. And I asked 4C about North 13:36:42
17	2012. 13:35:36	17	American projects, and though his job was to track 13:36:45
18	More than 20 percent of what the 13:35:37	18	the market, he said he had no idea about the cost 13:36:49
19	Claimant has said is reliable here. I think the 13:35:39	19	for North American projects and confirmed that he 13:36:52
20	answer to where is Mott? Is relatively clear. 13:35:44	20	had not even looked at it, even though they were in 13:36:55
21	Their estimate is too high. 13:35:46	21	his database. 13:36:58
22	Now, let's remember, as well, that the 13:35:50	22	What we do know some information on 13:37:04
23	Claimant had Sgurr appear at this arbitration, the 13:35:52	23	North American projects, there are two that we have 13:37:07
24	other prominent engineer. 13:35:57	24	on the record: Block Island and Cape Wind. 13:37:09
25	They didn't get a cost estimate from 13:35:59	25	Block Island, 30-megawatts and you'll 13:37:13

	Page 256		Page 257
1	see there, investment 360 million, over 10 million 13:37:15	1	report, they did exactly that. 13:38:30
2	U.S. dollars a megawatt. 13:37:20	2	They used the actual foreign exchange 13:38:33
3	Cape Wind, 2.6 billion in financing. 13:37:22	3	rate on the date of projected financial close, 13:38:35
4	It's a 468-megawatt project. It's about 5.6 million 13:37:26	4	explaining in their report exactly why they thought 13:38:37
5	U.S. a megawatt. 13:37:30	5	it was appropriate to do so. Now, this, of course, 13:38:40
6	This is all substantially higher than 13:37:33	6	was very beneficial for them, because their 13:38:43
7	the Claimant's value of a little over 4 million 13:37:35	7	projected financial close date was September 2012, 13:38:45
8	Canadian per megawatt, and, of course, these funds 13:37:38	8	a period when the Canadian dollar was the strongest 13:38:48
9	are in U.S. dollars, which would mean they'd be even 13:37:40	9	that it's been against the Euro in the last six or 13:38:51
10	higher converted to Canadian. 13:37:44	10	seven years. 13:38:54
11	And of course that's the other big 13:37:45	11	Now, when they changed their schedule, 13:38:55
12	issue with the capital cost estimate provided; the 13:37:48	12	once Sgurr realises that the one they were relying 13:38:57
13	pricing it in Euros. 13:37:51	13	on would lead errors and inaccurate conclusions, 13:38:59
14	The sensitivity analysis that we 13:37:54	14	financial close moves to February 11th, 2014. 13:39:02
15	talked through with 4C showed that, in fact, merely 13:37:56	15	What happens next? Deloitte all of 13:39:07
16	using proper exchange rates would result in 13:37:59	16	a sudden identifies a fundamental rule of valuation 13:39:09
17	an increase, and in fact, a massive increase in the 13:38:02	17	analysis that means that they can ignore the impact 13:39:14
18	amount of the CAPEX required for the project. 13:38:05	18	of actual foreign exchange risk and instead use 13:39:16
19	Now, Deloitte suggested that it was 13:38:11	19	a forecast. 13:39:19
20	inappropriate to use actual exchange rates on the 13:38:12	20	They applied that forecast to the 13:39:20
21	date of financial close because, in his opinion, 13:38:15	21	Siemens turbine agreement, but then continue to use 13:39:22
22	this violated a fundamental rule of valuation 13:38:18	22	the actual foreign exchange rate on May 22nd, 2012 13:39:24
23	analysis and that was against using hindsight. 13:38:21	23	for the rest of the costs. But on May 22nd, 2012, 13:39:28
24 25	That was an exceptionally curious 13:38:24	24	Mr. Low admits that less than 3 percent of the 13:39:32
45	thing for Deloitte to claim, because in their first 13:38:28	25	budget would have been spent. 13:39:36
	Page 258		Page 259
1	It makes no sense to use foreign 13:39:39	1	There were differences in estimates of 13:40:49
2	exchange on that rate, except, of course, for the 13:39:41	2	CAPEX between the experts on things like 13:40:50
3	fact that it's favourable for the claimants. 13:39:45	3	decommissioning. 13:40:53
4	In short, Mr. Low's sudden 13:39:48	4	As Mr. Barillaro explained, the 13:40:55
5	identification of this fundamental rule of valuation 13:39:50	5	Claimant's assertion, for example, that they should 13:40:56
6	analysis gives them a benefit, a windfall of 19 13:39:54	6	not have to provision for decommissioning because of 13:40:58
7	cents on the dollar for the Siemens TSA, and more, 13:39:58	7	the scrap value generally associated with wind 13:41:01
8	21 cents, I think, for the rest of the cost. 13:40:01	8	turbines is irrelevant. Massive concrete 13:41:02
9	The other reason this doesn't make 13:40:05	9	foundations don't have scrap value; they just cost. 13:41:05
10	sense, and we've heard it today, it's not a credible 13:40:07	10	There was also the issue of the 13:41:09
11 12			.' TEL CI.'
	position for the Claimant to take because all of 13:40:09	11	contingency. The Claimant put theirs at 10 percent, 13:41:11
	their expert reports use hindsight. 13:40:11	12	which we heard from Mr. Barillaro was more typical 13:41:16
13	their expert reports use hindsight. 13:40:11 We heard Ms. Seers say it today, they 13:40:15	12 13	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21
13 14	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17	12 13 14	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23
13 14 15	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20	12 13 14 15	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26
13 14 15 16	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20  The Claimant cannot have it both ways. 13:40:21	12 13 14 15 16	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26 banks to have a 20 percent contingency or around 13:41:28
13 14 15 16 17	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20  The Claimant cannot have it both ways. 13:40:21 It cannot eschew hindsight when it doesn't work in 13:40:24	12 13 14 15 16 17	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26 banks to have a 20 percent contingency or around 13:41:28 there. Again, he's the only one who's done offshore 13:41:32
13 14 15 16	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20  The Claimant cannot have it both ways. 13:40:21 It cannot eschew hindsight when it doesn't work in 13:40:24 their favour and embrace it when it does. 13:40:28	12 13 14 15 16	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26 banks to have a 20 percent contingency or around 13:41:28 there. Again, he's the only one who's done offshore 13:41:32 wind financing of that sort. 13:41:34
13 14 15 16 17	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20  The Claimant cannot have it both ways. 13:40:21 It cannot eschew hindsight when it doesn't work in 13:40:24 their favour and embrace it when it does. 13:40:28  Changing their estimates to recognize 13:40:32	12 13 14 15 16 17 18	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26 banks to have a 20 percent contingency or around 13:41:28 there. Again, he's the only one who's done offshore 13:41:32 wind financing of that sort. 13:41:34  But, obviously, the biggest difference 13:41:36
13 14 15 16 17 18	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20  The Claimant cannot have it both ways. 13:40:21 It cannot eschew hindsight when it doesn't work in 13:40:24 their favour and embrace it when it does. 13:40:28  Changing their estimates to recognize 13:40:32 the reality of the foreign exchange risks for the 13:40:35	12 13 14 15 16 17 18	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26 banks to have a 20 percent contingency or around 13:41:28 there. Again, he's the only one who's done offshore 13:41:32 wind financing of that sort. 13:41:34  But, obviously, the biggest difference 13:41:36 was the TSA. And I want to take a deeper dive into 13:41:38
13 14 15 16 17 18 19	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20  The Claimant cannot have it both ways. 13:40:21 It cannot eschew hindsight when it doesn't work in 13:40:24 their favour and embrace it when it does. 13:40:28  Changing their estimates to recognize 13:40:32 the reality of the foreign exchange risks for the 13:40:35 project eliminates a significant value for the 13:40:37	12 13 14 15 16 17 18 19 20	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26 banks to have a 20 percent contingency or around 13:41:28 there. Again, he's the only one who's done offshore 13:41:32 wind financing of that sort. 13:41:34  But, obviously, the biggest difference 13:41:36 was the TSA. And I want to take a deeper dive into 13:41:38 the TSA here and to do so, we need to go back into 13:41:41
13 14 15 16 17 18 19 20 21	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20  The Claimant cannot have it both ways. 13:40:21 It cannot eschew hindsight when it doesn't work in 13:40:24 their favour and embrace it when it does. 13:40:28  Changing their estimates to recognize 13:40:32 the reality of the foreign exchange risks for the 13:40:35	12 13 14 15 16 17 18 19 20 21	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26 banks to have a 20 percent contingency or around 13:41:28 there. Again, he's the only one who's done offshore 13:41:32 wind financing of that sort. 13:41:34  But, obviously, the biggest difference 13:41:36 was the TSA. And I want to take a deeper dive into 13:41:41
13 14 15 16 17 18 19 20 21	their expert reports use hindsight. 13:40:11  We heard Ms. Seers say it today, they 13:40:15 think hindsight is appropriate. They think using 13:40:17 current information is appropriate. 13:40:20  The Claimant cannot have it both ways. 13:40:21 It cannot eschew hindsight when it doesn't work in 13:40:24 their favour and embrace it when it does. 13:40:28  Changing their estimates to recognize 13:40:32 the reality of the foreign exchange risks for the 13:40:35 project eliminates a significant value for the 13:40:37 Claimant. 13:40:43	12 13 14 15 16 17 18 19 20 21	which we heard from Mr. Barillaro was more typical 13:41:16 for standard power companies. Mr. Guillet explained 13:41:21 in his report why this project, the first of its 13:41:23 kind in Ontario would have been required by the 13:41:26 banks to have a 20 percent contingency or around 13:41:28 there. Again, he's the only one who's done offshore 13:41:32 wind financing of that sort. 13:41:34  But, obviously, the biggest difference 13:41:36 was the TSA. And I want to take a deeper dive into 13:41:41 the TSA here and to do so, we need to go back into 13:41:41 confidential session. 13:41:44

Page 261

Page 263

	1 age 200
1	beginning of the hearing, the Claimant is 13:42:02
2	essentially desperate to have the Tribunal assume 13:42:03
3	that this agreement could be negotiated on price and 13:42:05
4	terms because of the effect on value that it has if 13:42:09
5	it must comply. 13:42:12
6	As a matter of law and practice we 13:42:14
7	would suggest that Tribunals cannot just simply 13:42:16
8	assume that signed and binding contracts will be 13:42:18
9	renegotiated unless they have both parties here 13:42:20
10	telling them that this is so. 13:42:23
11	Siemens is not here. And there was no 13:42:25
12	reason to allow the Claimant to unilaterally amend 13:42:28
13	a signed and binding agreement. 13:42:31
14	In fact, as Mr. Mars explained about 13:42:34
15	a different contract, he said "We believe there's 13:42:37
16	a sanctity to a contract. When you sign it, you are 13:42:39
17	signing up to obligations." 13:42:42
18	Again, the Claimant cannot have it 13:42:44
19	both ways. They can't embrace the contracts they 13:42:45
20	like and eschew the ones they don't. Moreover, the 13:42:48
21	Siemens TSA itself, as the evidence shows, makes 13:42:56
22	clear that the price flexibility was there to 13:42:58
23	protect Siemens. There are no price adjustment 13:43:00
24	rights for Windstream. 13:43:03
25	The Siemens TSA also makes clear that 13:43:05

there were no further agreements, oral or written, 13:43:09 nor other terms or conditions that were not -- that 13:43:14 neither party has relied on any representations, 13:43:17 express or implied, not contained in this contract. 13:43:20 Now, Mr. Guillet explained this 13:43:31 contract was not bankable, but there is no reason to 13:43:33 expect the price to go down. The claimant has 13:43:36 offered several theories on why the price would go 13:43:40 down, but none holds water. 13:43:43 First, they have suggested that 13:43:45 Siemens would bring the price down in order to 13:43:47 assist Windstream to be the first project in North 13:43:48 America. We heard that again this morning, but as 13:43:51 Mr. Goncalves explained, it is naive to suggest that 13:43:54 the Claimant's single project of 300-megawatts would 13:43:58 give them some sort of leverage over a massive 13:44:00 company like Siemens. There is no reason to expect 13:44:03 Siemens to bend over backwards to help them. 13:44:07 Second, the Claimant has also 13.44.10 suggested, and you did hear this this morning, that 13:44:13 the price would go down because of market pressures. 13:44:15 Essentially, Siemens would have to complete with 13:44:17 other turbine manufacturers. 13:44:20 As Mr. Goncalves explained, the 13:44:22 problem is Siemens had a virtual monopoly in Ontario 13:44:25

Page 262 1 13:44:30 at the time. 2 13:45:44

13:45:44 --- Confidential transcript ends MR. SPELLISCY: Now, those are some of 13:45:46 the biggest areas of specific disagreement in terms 13:45:47 of CAPEX, but I do want to come to one other point. 13:45:48 The Claimant has placed great reliance 13:45:52 on the Conference Board of Canada paper prepared by 13:45:54 Vestas as providing some sort of independent 13:45:57 corroboration of its estimate. In fact, we've 13:45:59 probably seen it half a dozen times and we heard it 13:46:01 again this morning, but they haven't taken you to 13:46:04 the part of the conference paper where Vestas 13:46:06 admitted -- where Vestas talks about their 13:46:08 methodology. 13.46.10 So let's go there. Vestas says their 13:46:11 methodology is based upon international experience 13:46:13 over the past three years. 13:46:15 So, in short, they're using the same 13:46:17 methodology that 4C is using; they're looking at 13:46:21 international experience. 13:46:25 13:46:26 This paper does not offer an independent method leading to the same result; it 13:46:27 is the same method leading to the same result. 13:46:30 That is not verification and that is 13:46:34 not surprising. More importantly, the emphasis on 13:46:36 this paper over the last several days went back 13:46:42

	Page 264		Page 265
1	through the record and see if we had anything there 13:46:45	1	again, to this report, during this date, or during 13:47:40
2	about what the Claimant said about it. 13:46:48	2	this hearing, it seems to us that at the time in 13:47:46
3	Now let's pull up an exhibit that 13:46:50	3	question, their strenuous contention was that report 13:47:49
4	I don't think has come up yet, though it is referred 13:46:52	4	was not accurate. 13:47:54
5	to in Canada's written pleadings. 13:46:54	5	Now, in addition to the problems with 13:47:56
6	This is a draft of a letter that 13:46:56	6	their capital cost analysis, there are other 13:47:58
7	Mr. Baines apparently prepared to the Conference 13:46:58	7	problems with their DCF, like inputs on OPEX, 13:48:00
8	Board of Canada when he received an advance copy of 13:47:00	8	financing and resources, wind resource. 13:48:05
9	that report. I would suggest you read this letter 13:47:02	9	I didn't want to spend a lot of time 13:48:08
10	when you have time. Mr. Baines is not happy about 13:47:05	10	here. We rely upon our pleadings and our expert 13:48:10
11	the report. 13:47:07	11	reports, but I would suggest there was no certainty 13:48:12
12	Now, this is all we have that was 13:47:10	12	on operational expenses. And as Mr. Goncalves 13:48:14
13	produced. I don't know whether it was sent, but 13:47:12	13	explained in his presentation, there is always 13:48:17
14	Mr. Baines writes at the time, his opinion: 13:47:14	14	uncertainty on how much the wind will blow. 13:48:19
15	"The conference board report 13:47:15	15	These are the inputs and the 13:48:26
16	is inaccurate," he says, and 13:47:18	16	uncertainty of the inputs that go into the DCF, but 13:48:27
17	among his reasons is that, 13:47:19	17	if we look at the actual model that was used by 13:48:30
18	"The capital cost assumed for 13:47:20	18	Deloitte with these inputs we see that it is also 13:48:33
19	a project is incorrect. If 13:47:23	19	inappropriate. 13:48:35
20	it is based upon some 13:47:24	20	There is a large amount of uncertainty 13:48:37
21	detailed design work done by 13:47:26	21	on the Claimant's financial inputs into the DCF 13:48:41
22	Vestas, this should be noted, 13:47:28	22	model, like its cost of equity in particular, and 13:48:43
23	as we feel that capital cost 13:47:29	23	you heard about this from my colleague, Mr. Terry. 13:48:46
24	is much higher than shown." 13:47:31	24	I won't spend, again, a lot of time on 13:48:49
25	So while they've come back again and 13:47:38	25	this because, frankly, I'm a little bit tired of 13:48:51
	Page 266		Page 267
1	talking about betas. But I do want to highlight 13:48:53	1	beta and his cost of equity. 13:50:06
2	that the inappropriately low cost of equity the 13:48:57	2	He didn't appropriately adjust his 13:50:08
3	Claimant has suggested for a project at this stage 13:49:01	3	results for the stage of development, claiming 13:50:10
4	of development. 13:49:03	4	instead that he was valuing not what Windstream was, 13:50:12
5	Now, Ms. Squires has already walked 13:49:04	5	but what he assumed it would be on the valuation 13:50:16
6	you through all of the major risks associated with 13:49:07	6	date in the but-for world. 13:50:18
7	project layout, design, schedule, and more. 13:49:09	7	Again that is not appropriate. 13:50:20
8	Now, curiously, Mr. Low actually 13:49:11	8	The question was: What stage was 13:50:22
9	suggested that his weighted average cost of capital 13:49:14	9	Windstream at on the valuation date, not where one 13:50:25
10	wasn't related to the stage of this project. 13:49:17	10	would assume it might be if everything goes 13:50:28
11	In doing so, he had to disagree with 13:49:20	11	according to their plans. 13:50:30
12	his own report. He had to back away from what he 13:49:22	12	The fact that Mr. Low's beta does not 13:50:31
13	had written. 13:49:26	13	accurately calculate the specific risk Windstream 13:50:34
14	It as Mr. Goncalves explained, Mr. Low 13:49:28	14	faces, also evidenced by the fact that his 13:50:38
15	is wrong. 13:49:33	15	adjustment for Windstream's company-specific risk is 13:50:41
16	The cost of equity is related to the 13:49:33	16	at least mathematically wiped out by his country 13:50:44
17	project's stage of development. Now, perhaps it is 13:49:35	17	adjustment. 13:50:48
18	Mr. Low's failure to take the stage of development 13:49:39	18	To say by investing in Windstream 13:50:48
19	to account that led him to select the proxy group 13:49:42	19	should result in an adjustment that can be 13:50:50
20	that he did, because the proxy group that he 13:49:44	20	mathematically eliminated simply by the fact that 13:50:52
21	selected is primarily large, diversified, operating 13:49:48	21	it's an investment in Canada versus the United 13:50:55
22	companies. And not only did he rely upon results 13:49:50	22	States is simply not plausible. 13:50:58
23	from three companies with less than five years of 13:49:58	23	Windstream had no permits, no site, no 13:51:01
24	operating data, which although he said it was 13:50:00	24	turbines, no revenues, no plants. 13:51:03
25	"Okay," he admitted it did significantly reduce his 13:50:03	25	It was more risky than merely the 13:51:05

	Page 268		Page 269
1	difference between investing between the two 13:51:08	1	purposes of the stage of the project analysis, but 13:52:15
2	countries. 13:51:10	2	then eschew it when it comes to considering its 13:52:18
3	And this is exactly why Mr. Low's cost 13:51:11	3	costs. 13:52:21
4	of equity is so inappropriately low, and why 13:51:13	4	No doubt, having a TSA was something. 13:52:22
5	Mr. Goncalves' adjustments that Mr. Terry talked 13:51:17	5	But it's he not enough to make the project a late 13:52:23
6	about this morning, are appropriate. They 13:51:21	6	stage project. Similarly, having a FIT contract is 13:52:27
7	reflect Mr. Goncalves' adjustments reflect 13:51:24	7	something. It's a milestone, but not in enough to 13:52:32
8	appropriate risks for offshore wind projects, 13:51:27	8	give the project any sort of significant bump in 13:52:35
9	especially considered in light of the particular 13:51:32	9	value. 13:52:37
10	circumstances of Windstream. 13:51:33	10	The FIT contract is a piece of paper, 13:52:40
11	Finally, I will turn to my third area 13:51:36	11	if you can't build your contract, your project, that 13:52:42
12	today, the use of a market multiples analysis. 13:51:39	12	piece of paper is worth nothing. As Mr. Goncalves 13:52:44
13	Now, again, in our view, the only 13:51:42	13	explained on Wednesday, a FIT contract is a single 13:52:50
14	appropriate damages here, if causation is 13:51:44	14	milestone on the path towards value. That is it. 13:52:53
15	established, would be sunk costs. But let's talk 13:51:46	15	Hence, by comparing itself to late stage projects, 13:52:58
16	market multiples quickly as well. The Claimant says 13:51:50	16	the Claimant is not using the right comparables. 13:53:01
17	that it should be considered a late stage 13:51:53	17	Let's look to what Mr. Guillet says. 13:53:04
18	development company and be compared to other late 13:51:55	18	He's the only one with market 13:53:09
19	stage companies because it had a FIT contract and 13:51:58	19	experience here. As Mr. Neufeld has explained, the 13:53:11
20	a turbine sales agreement. 13:52:00	20	Claimant was not permitted at all. They hadn't even 13:53:16
21	Now, their claim to the latter is 13:52:02	21	submitted an application, there is no dispute about 13:53:19
22	strange, because they've essentially said that they 13:52:05	22	that. They did not have site control. They needed 13:53:21
23	are going to renegotiate every aspect of that TSA. 13:52:07	23	the Crown land lease and did not have it. They did 13:53:23
24	Again, the Claimant cannot have it both ways. 13:52:10	24	not have a grid connection. Let's pause on that one 13:53:26
25	It cannot embrace the TSA for the 13:52:13	25	because there's some dispute about that. 13:53:29
	Page 270		Page 271
	- 1.61 - 1.4		1 agc 2/1
1	The Claimant has placed great emphasis 13:53:32		not as important as what it did not have, in terms 13:54:54
2	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35	2	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57
2	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37	2	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58
2 3 4	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40	2 3 4	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57 As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01
2 3 4 5	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things – your FIT 13:53:44	2 3 4 5	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57 As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03
2 3 4 5	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things – your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48	2 3 4 5 6	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57 As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03 The Claimant has suggested that this 13:55:08
2 3 4 5 6 7	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40  Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52	2 3 4 5 6 7	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57 As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03 The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09
2 3 4 5 6 7 8	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55	2 3 4 5 6 7 8	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13
2 3 4 5 6 7 8	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00	2 3 4 5 6 7 8	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16
2 3 4 5 6 7 8 9	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things – your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02	2 3 4 5 6 7 8 9	not as important as what it did not have, in terms 13:54:54 of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20
2 3 4 5 6 7 8 9 10	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things — your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06	2 3 4 5 6 7 8 9 10	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20
2 3 4 5 6 7 8 9 10 11	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things — your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt — 13:54:09	2 3 4 5 6 7 8 9 10 11	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23
2 3 4 5 6 7 8 9 10 11 12	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40  Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12	2 3 4 5 6 7 8 9 10 11 12	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58  report, without site control, Windstream likely had 13:55:01  no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08  was simply a misunderstanding based upon a European 13:55:09  experience where space is constrained; that is 13:55:13  wrong. It's not about space; its about common 13:55:16  sense. 13:55:20  To make money from a wind farm, you 13:55:20  need to produce power. To produce power, you need 13:55:23  to have turbines spinning. To have turbines 13:55:26
2 3 4 5 6 7 8 9 10 11 12 13	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17	2 3 4 5 6 7 8 9 10 11 12 13	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58  report, without site control, Windstream likely had 13:55:01  no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08  was simply a misunderstanding based upon a European 13:55:09  experience where space is constrained; that is 13:55:13  wrong. It's not about space; its about common 13:55:16  sense. 13:55:20  To make money from a wind farm, you 13:55:23  to have turbines spinning. To have turbines 13:55:26  spinning, you need a spot to put those turbines. If 13:55:28
2 3 4 5 6 7 8 9 10 11 12 13 14 15	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:20	2 3 4 5 6 7 8 9 10 11 12 13 14	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58  report, without site control, Windstream likely had 13:55:01  no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08  was simply a misunderstanding based upon a European 13:55:09  experience where space is constrained; that is 13:55:13  wrong. It's not about space; its about common 13:55:16  sense. 13:55:20  To make money from a wind farm, you 13:55:20  need to produce power. To produce power, you need 13:55:23  to have turbines spinning. To have turbines 13:55:28  you have no spot to put the turbines, what are you 13:55:31
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:20 as Mr. Guillet's report makes clear, as a result, it 13:54:22	2 3 4 5 6 7 8 9 10 11 12 13 14 15	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23 to have turbines spinning. To have turbines 13:55:28 you have no spot to put the turbines, what are you 13:55:31 selling? Nothing. 13:55:34
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:20 as Mr. Guillet's report makes clear, as a result, it 13:54:22 would be worth only a fraction of the amount of 13:54:24	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58  report, without site control, Windstream likely had 13:55:01  no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08  was simply a misunderstanding based upon a European 13:55:09  experience where space is constrained; that is 13:55:13  wrong. It's not about space; its about common 13:55:16  sense. 13:55:20  To make money from a wind farm, you 13:55:20  need to produce power. To produce power, you need 13:55:23  to have turbines spinning. To have turbines 13:55:26  spinning, you need a spot to put those turbines. If 13:55:28  you have no spot to put the turbines, what are you 13:55:31  selling? Nothing. 13:55:34  So let me sum up our view, on 13:55:39
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:20 as Mr. Guillet's report makes clear, as a result, it 13:54:24 would be worth only a fraction of the amount of 13:54:24 that. Mr. Goncalves' multiples analysis comes up 13:54:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23 to have turbines spinning. To have turbines 13:55:26 spinning, you need a spot to put those turbines. If 13:55:28 you have no spot to put the turbines, what are you 13:55:31 selling? Nothing. 13:55:34  So let me sum up our view, on 13:55:42
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things — your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt — 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:22 would be worth only a fraction of the amount of 13:54:24 that. Mr. Goncalves' multiples analysis comes up 13:54:27 with a similar number using a far more sophisticated 13:54:32	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23 to have turbines spinning. To have turbines. 13:55:26 spinning, you need a spot to put those turbines. If 13:55:28 you have no spot to put the turbines, what are you 13:55:31 selling? Nothing. 13:55:34  So let me sum up our view, on 13:55:42 discussed and that are further detailed in our 13:55:44
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things — your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt — 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:20 as Mr. Guillet's report makes clear, as a result, it 13:54:24 would be worth only a fraction of the amount of 13:54:27 with a similar number using a far more sophisticated 13:54:32 approach and looking at transactions that do no, in 13:54:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23 to have turbines spinning. To have turbines 13:55:26 spinning, you need a spot to put those turbines. If 13:55:28 you have no spot to put the turbines, what are you 13:55:31 selling? Nothing. 13:55:34 So let me sum up our view, on 13:55:42 discussed and that are further detailed in our 13:55:47
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:20 as Mr. Guillet's report makes clear, as a result, it 13:54:22 would be worth only a fraction of the amount of 13:54:27 with a similar number using a far more sophisticated 13:54:32 approach and looking at transactions that do no, in 13:54:35 fact have all of the requirements identified by Mr. 13:54:38	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23 to have turbines spinning. To have turbines 13:55:26 spinning, you need a spot to put those turbines. If 13:55:28 you have no spot to put the turbines, what are you 13:55:31 selling? Nothing. 13:55:34 So let me sum up our view, on 13:55:42 discussed and that are further detailed in our 13:55:47 measure of damages in this case, should you 13:55:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:20 as Mr. Guillet's report makes clear, as a result, it 13:54:22 would be worth only a fraction of the amount of 13:54:27 with a similar number using a far more sophisticated 13:54:32 approach and looking at transactions that do no, in 13:54:38 Guillet. He comes up with a multiple of .05 per 13:54:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23 to have turbines spinning. To have turbines 13:55:26 spinning, you need a spot to put those turbines. If 13:55:28 you have no spot to put the turbines, what are you 13:55:31 selling? Nothing. 13:55:34 So let me sum up our view, on 13:55:42 discussed and that are further detailed in our 13:55:47 measure of damages in this case, should you 13:55:59 details in the turbine and causation, 13:55:52
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:20 as Mr. Guillet's report makes clear, as a result, it 13:54:22 would be worth only a fraction of the amount of 13:54:27 with a similar number using a far more sophisticated 13:54:32 approach and looking at transactions that do no, in 13:54:35 fact have all of the requirements identified by Mr. 13:54:41 megawatt for a total of between 0 and 15 million. 13:54:45	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23 to have turbines spinning. To have turbines 13:55:26 spinning, you need a spot to put those turbines. If 13:55:28 you have no spot to put the turbines, what are you 13:55:31 selling? Nothing. 13:55:34  So let me sum up our view, on 13:55:42 discussed and that are further detailed in our 13:55:44 pleadings, we would submit that the only appropriate 13:55:47 measure of damages in this case, should you 13:55:52 would be to give the Claimant back the money it had 13:55:55
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	The Claimant has placed great emphasis 13:53:32 on the fact that they had a spot reserved on the 13:53:35 grid, but as Mr. Guillet explained, that is not 13:53:37 enough. You need an actual agreement. 13:53:40 Those are the things your FIT 13:53:44 contract, your PPA, permitting, site control, and 13:53:48 a grid access agreement, that's what leads to a bump 13:53:52 in value. You need all four. We saw the number 13:53:55 come up earlier where it was Mr. Guillet estimating 13:54:00 that it's between 0 and 60 million Euros. 13:54:02 60 million Euros is for a project that has all four; 13:54:06 that's what he said. \$200,000 a Euro or megawatt 13:54:09 or 200,000 Euros a megawatt for a project that has 13:54:12 all four, that is fully permitted. 13:54:17 Windstream did not have all four. And 13:54:20 as Mr. Guillet's report makes clear, as a result, it 13:54:22 would be worth only a fraction of the amount of 13:54:27 with a similar number using a far more sophisticated 13:54:32 approach and looking at transactions that do no, in 13:54:38 Guillet. He comes up with a multiple of .05 per 13:54:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	not as important as what it did not have, in terms 13:54:54  of market value. 13:54:57  As Mr. Guillet concluded in his 13:54:58 report, without site control, Windstream likely had 13:55:01 no material value at all in the market at the time. 13:55:03  The Claimant has suggested that this 13:55:08 was simply a misunderstanding based upon a European 13:55:09 experience where space is constrained; that is 13:55:13 wrong. It's not about space; its about common 13:55:16 sense. 13:55:20  To make money from a wind farm, you 13:55:20 need to produce power. To produce power, you need 13:55:23 to have turbines spinning. To have turbines 13:55:26 spinning, you need a spot to put those turbines. If 13:55:28 you have no spot to put the turbines, what are you 13:55:31 selling? Nothing. 13:55:34 So let me sum up our view, on 13:55:42 discussed and that are further detailed in our 13:55:47 measure of damages in this case, should you 13:55:59 details in the turbine and causation, 13:55:52

	Page 272		Page 273
1	1.8 million. 13:56:02	1	presentations. 14:22:09
2	Thank you. 13:56:11	2	And with respect to Mr. Neufeld's 14:22:09
3	PRESIDENT: Thank you very much, 13:56:15	3	submissions, I want to respond to his submissions 14:22:14
4	Mr. Spelliscy. I think that was on the minute of 13:56:15	4	with respect to Mr. Wilkinson, and I've already 14:22:18
5	1:30, 2:30. 13:56:19	5	in my closing argument, talked about Mr. Wilkinson 14:22:23
6	28 minutes left. Thank you. So, we 13:56:24	6	and how his evidence lines up with respect to the 14:22:30
7	had 22 minutes left for the Claimant, 28 minutes 13:56:28	7	evidence of the other officials at the time. 14:22:33
8	left for the Respondent for rebuttal. 13:56:32	8	And when you are going back and 14:22:35
9	I would expect these minutes are quite 13:56:35	9	examining this issue and deliberating, I'd ask you 14:22:39
10	valuable. And they will be used. 13:56:38	10	to ask yourself the following questions: 14:22:42
11	I suggest we break now for 20 minutes, 13:56:42	11	Why is it that there are no documents 14:22:48
12	that should be sufficient for the sandwiches that 13:56:47	12	whatsoever showing evidence of a decision being made 14:22:51
13	are waiting for us. 13:56:49	13	by Minister Wilkinson at the dates that he said they 14:22:55
14	So we continue at 2:15. 13:56:51	14	were made and communications to both down 14:22:59
15	That should then leave also enough 13:56:57	15	through from the Deputy Minister through to her 14:23:04
16	time for discussing any housekeeping issues that we 13:56:59	16	staff in the ministry and horizontally throughout 14:23:08
17	will have a few to discuss at the end of the day. 13:57:02	17	minister's offices and to the Premier's office, 14:23:14
18	Thank you. 13:57:05	18	among other places. 14:23:17
19	Recess taken at 2:00 p.m. 14:00:55	19	Secondly, why is it, in contrast, that 14:23:19
20	Upon resuming at 2:21 p.m. 14:00:55	20	there is an ample documentary record which shows 14:23:24
21	PRESIDENT: We resume. Mr. Terry, 14:21:44	21	Minister Wilkinson and is office involved later in 14:23:28
22	please. 14:21:46	22	January and in February, where the focus in that 14:23:28
23	REPLY SUBMISSIONS BY MR. TERRY: 14:21:49	23	case is about the Windstream project and whether it 14:23:32
24 25	MR. TERRY: I want to respond to some 14:22:05 points that each of my friends made in their 14:22:06	24 25	Can 14:23:35 And, of course, as my friend took you 14:23:38
23	points that each of my friends made in their 14:22:06	23	And, of course, as my mend took you 14.25.56
	Page 274		Page 275
1	to, subsequently, when the issue was discussed in 14:23:40	1	from the Ministry of Energy official, Sue Lo, 14:25:08
2	the caucus and when there were discussions in the 14:23:43	2	providing that information, as opposed to from their 14:25:14
3	media about that particular issue, in my submission, 14:23:45	3	own from her own deputy or her own Minister's 14:25:18
4	in terms of the actual documentary record, and the 14:23:47	4	office. 14:25:23
5	most reliable evidence in this case is the 14:23:52	5	And another question: How do you 14:25:24
6	documentary record. We just don't have support for 14:23:54	6	explain Mr. Wilkinson's evidence that he informed 14:25:32
7	Mr. Wilkinson's statements. 14:23:59	7	his Chief of Staff to let the Premier's office know 14:25:35
8	And in that respect, it's important to 14:24:01	8	about the decision that he made, in light of his 14:25:39
9	look back at the various submissions that have been 14:24:07	9	testimony at paragraphs 18 and 19 of his witness 14:25:41
10	made in the counter memorial, in the rejoinder, in 14:24:09	10	statement in terms of involvement, in contact with 14:25:43
			•
11	the witness statements, and to look at the point at 14:24:12	11	the Premier's office, in the decision? 14:25:46
12	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15	12	the Premier's office, in the decision? 14:25:46 And among other questions, fifthly, 14:25:50
12 13	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17	12 13	the Premier's office, in the decision? 14:25:46 And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53
12 13 14	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20	12 13 14	the Premier's office, in the decision? 14:25:46 And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58
12 13 14 15	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23	12 13 14 15	the Premier's office, in the decision? 14:25:46 And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58 offshore wind at the energy issues meeting. In the 14:25:59
12 13 14 15 16	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28	12 13 14 15 16	the Premier's office, in the decision? 14:25:46 And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58 offshore wind at the energy issues meeting. In the 14:25:59 absence of any involvement – this is 14:26:03
12 13 14 15 16 17	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28 us a lot about how things or when that decision 14:24:31	12 13 14 15 16 17	the Premier's office, in the decision? 14:25:46 And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58 offshore wind at the energy issues meeting. In the 14:25:59 absence of any involvement — this is 14:26:03 January 13th — at the absence of any involvement at 14:26:04
12 13 14 15 16 17	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28 us a lot about how things or when that decision 14:24:31 was made and the bona fides of that decision. 14:24:34	12 13 14 15 16 17 18	the Premier's office, in the decision? 14:25:46  And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58 offshore wind at the energy issues meeting. In the 14:25:59 absence of any involvement this is 14:26:03 January 13th at the absence of any involvement at 14:26:04 that meeting with MOE staff or either in the 14:26:07
12 13 14 15 16 17 18	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28 us a lot about how things or when that decision 14:24:31 was made and the bona fides of that decision. 14:24:34 Now, you should also, in my 14:24:43	12 13 14 15 16 17 18 19	the Premier's office, in the decision? 14:25:46  And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58 offshore wind at the energy issues meeting. In the 14:25:59 absence of any involvement – this is 14:26:03 January 13th – at the absence of any involvement at 14:26:04 that meeting with MOE staff or either in the 14:26:07 bureaucracy or the Minister's office. 14:26:11
12 13 14 15 16 17 18 19	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28 us a lot about how things or when that decision 14:24:31 was made and the bona fides of that decision. 14:24:34 Now, you should also, in my 14:24:43 submission, ask why it was that Marcia Wallace who 14:24:44	12 13 14 15 16 17 18 19 20	the Premier's office, in the decision?  And among other questions, fifthly,  14:25:50  how do you explain that Chris Morley, the Premier's  14:25:53  Chief of Staff, is the one who gave the update on  14:25:58  offshore wind at the energy issues meeting. In the  14:25:59  absence of any involvement — this is  14:26:03  January 13th — at the absence of any involvement at  14:26:04  that meeting with MOE staff or either in the  14:26:11  In our submission, the documentary  14:26:19
12 13 14 15 16 17 18 19 20 21	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28 us a lot about how things or when that decision 14:24:31 was made and the bona fides of that decision. 14:24:34 Now, you should also, in my 14:24:43 submission, ask why it was that Marcia Wallace who 14:24:44 testified that she'd led the development of the 14:24:48	12 13 14 15 16 17 18 19 20 21	the Premier's office, in the decision?  And among other questions, fifthly,  14:25:50  how do you explain that Chris Morley, the Premier's  14:25:53  Chief of Staff, is the one who gave the update on  14:25:58  offshore wind at the energy issues meeting. In the  14:25:59  absence of any involvement — this is  14:26:03  January 13th — at the absence of any involvement at  14:26:04  that meeting with MOE staff or either in the  14:26:07  bureaucracy or the Minister's office.  14:26:11  In our submission, the documentary  14:26:19  evidence is the most credible in this case. And  14:26:22
12 13 14 15 16 17 18 19 20 21	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28 us a lot about how things — or when that decision 14:24:31 was made and the bona fides of that decision. 14:24:34 Now, you should also, in my 14:24:43 submission, ask why it was that Marcia Wallace who 14:24:44 testified that she'd led the development of the 14:24:48 Renewable Energy Program at the Ministry, and why is 14:24:51	12 13 14 15 16 17 18 19 20 21 22	the Premier's office, in the decision? 14:25:46 And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58 offshore wind at the energy issues meeting. In the 14:25:59 absence of any involvement this is 14:26:03 January 13th at the absence of any involvement at 14:26:04 that meeting with MOE staff or either in the 14:26:07 bureaucracy or the Minister's office. 14:26:11 In our submission, the documentary 14:26:19 evidence is the most credible in this case. And 14:26:22 this evidence has to be considered, together with 14:26:25
12 13 14 15 16 17 18 19 20 21	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28 us a lot about how things or when that decision 14:24:31 was made and the bona fides of that decision. 14:24:34 Now, you should also, in my 14:24:43 submission, ask why it was that Marcia Wallace who 14:24:44 testified that she'd led the development of the 14:24:48 Renewable Energy Program at the Ministry, and why is 14:24:51 it that she and her ADM, Mr. Evans, so direct 14:24:57	12 13 14 15 16 17 18 19 20 21	the Premier's office, in the decision?  And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58 offshore wind at the energy issues meeting. In the 14:25:59 absence of any involvement — this is 14:26:03 January 13th — at the absence of any involvement at 14:26:04 that meeting with MOE staff or either in the 14:26:07 bureaucracy or the Minister's office. 14:26:11 In our submission, the documentary 14:26:19 evidence is the most credible in this case. And 14:26:22 this evidence has to be considered, together with 14:26:25 the subsequent fact that the offshore — the science 14:26:28
12 13 14 15 16 17 18 19 20 21 22 23	the witness statements, and to look at the point at 14:24:12 which documents were disclosed, and you can see 14:24:15 an evolution of a story, and we heard the latest 14:24:17 version of it this morning from Mr. Neufeld 14:24:20 explaining how things fit together. But in my 14:24:23 submission the shifting nature of that story tells 14:24:28 us a lot about how things — or when that decision 14:24:31 was made and the bona fides of that decision. 14:24:34 Now, you should also, in my 14:24:43 submission, ask why it was that Marcia Wallace who 14:24:44 testified that she'd led the development of the 14:24:48 Renewable Energy Program at the Ministry, and why is 14:24:51	12 13 14 15 16 17 18 19 20 21 22 23	the Premier's office, in the decision? 14:25:46 And among other questions, fifthly, 14:25:50 how do you explain that Chris Morley, the Premier's 14:25:53 Chief of Staff, is the one who gave the update on 14:25:58 offshore wind at the energy issues meeting. In the 14:25:59 absence of any involvement this is 14:26:03 January 13th at the absence of any involvement at 14:26:04 that meeting with MOE staff or either in the 14:26:07 bureaucracy or the Minister's office. 14:26:11 In our submission, the documentary 14:26:19 evidence is the most credible in this case. And 14:26:22 this evidence has to be considered, together with 14:26:25

matter because Windstream had already, because of 14:26:45 its own fault, done itself out of a FIT contract." 14:26:47 14:26:52 Now, whatever you think of that argument, the fact is that the other thing that you 14:26:54 can tell and draw as an inference from the fact that 14:26:56 the science wasn't done, you can use that to assess 14:26:59 the nature and the purpose of the decision for the 14:27:02 moratorium and whether it truly was a decision based 14:27:05 on science or not. And that's an appropriate thing 14:27:09 for the Tribunal to do in terms of drawing 14:27:12 inferences as to how the decision was made and what 14:27:15 its purpose was, so, in my submission, it is 14:27:18 a relevant factor. 14:27:20

And when you do look at the witness 14:27:24 statements also, please, bear in mind that Marcia 14:27:25 Wallace, in her witness statement on January 6th, 14:27:29 talks about a meeting with her deputy, and the 14:27:31 deputy instructs her to take certain steps with 14:27:35 respect to offshore wind and, again, 14:27:37 see how the timing of that squares with what we have 14:27:41 heard subsequent to the witness statement in 14:27:45 Mr. Wilkinson's testimony about the timing of these 14:27:47 decisions. 14:27:51 Now, Mr. Neufeld, to move to other 14:27:51

topic, Mr. Neufeld talked about the fact that

Page 278

14:27:57

And what you see when you look at the 14:29:14 contemporaneous documentation, is you see that 14:29:17 Windstream is having meetings with the Ministry of 14:29:21 the Environment and there are records of meetings in 14:29:23 April, in June. There's, of course, during the 14:29:25 summer, a lot of focus on working with Ministry 14:29:28 14:29:31 offices and the OPA to obtain appropriate extensions. And then we have another meeting, we 14:29:35 have meetings with MNR in September and then with 14:29:38 Ministry of the Environment in October, and that's 14:29:41 a meeting where Doris Dumais, as she mentioned in 14:29:43 her testimony, did not mention anything about 14:29:46 a pending moratorium. 14:29:49 So Windstream is doing what it can, 14:29:50 and in addition, as my friend acknowledged, 14:29:52 Windstream is taking the steps at that point to put 14:29:55 out an RFP to retain the consultants, because the thinking around this time -- and this is consistent 14:30:02 with the phone conversation we heard this morning -- 14:30:04 the thinking is that the setback policy is going to 14:30:06

be dealt with, within the government at least, in 14:30:08

late summer, August, early September time period,

and certainly outside --

Page 277

Windstream hadn't taken any steps to apply for REA 14:27:59
under the renewable regulation and the suggestion 14:28:03
that somehow we couldn't have been serious about the 14:28:06
project, we had to have known there was regulatory 14:28:09
uncertainty because we hadn't taken any steps. And 14:28:13
he compared the situation of Windstream to Trillium, 14:28:16
another offshore project. 14:28:19
Now, Trillium, of course, didn't have 14:28:20

a FTT contract. What Trillium did have is it had 14:28:22 its AOR status. So it knew about its site, and its 14:28:27 site was more than five kilometres offshore, so it 14:28:31 was in a position to apply for REA, and, in fact, 14:28:34 there's contemporaneous documentation that shows 14:28:34 that it was applying for REA and that the Ministry 14:28:39 of the Environment was telling it that, of course, 14:28:41 it could apply for a REA, which, in my submission, 14:28:43 is actually evidence that we could have also applied 14:28:46 for a REA, we, meaning Windstream. 14:28:45

And why did Windstream not? Because 14:28:51
of course Windstream didn't know what the exact 14:28:53
location of its turbines would be. Windstream was 14:28:55
waiting for the setback policy to be determined, for 14:28:58
the AOR status to be determined before it could take 14:29:02
the steps necessary under the REA regulation to 14:29:07
apply for those studies. 14:29:12

Page 279

that will be resolved, and at that point the 14:30:24 consultants who Windstream has retained -- and the 14:30:27 evidence is they retained Stantec -- would be able 14:30:30 to move ahead with their REA process, so that's what 14:30:33 the evidence shows about moving forward under the REA. 14:30:38

In response to Ms. Squires, again, as 14:30:39 we've said before, what we're hearing on this issue 14:30:45 and we have made the point already about, and 14:30:50 I think Ms. Squires acknowledged it, in terms of the 14:30:53 experience of the claims experts on this issue. 14:30:56 What we're hearing is questions of risks and 14:30:59 possible risks and what might happen. What we're 14:31:04 not hearing is an assessment of what's probable. 14:31:09 And the question for the Tribunal to answer is 14:31:11 what -- more likely than not, what is probable in 14:31:13 terms of the development of the project? 14:31:16

And that's an issue that should be 14:31:18
determined in the best available evidence including 14:31:21
the evidence from the agencies about working 14:31:23
pragmatically with the developers and the use of 14:31:28
force majeure, the use of extensions, the 14:31:33
information you heard from the experts in that area about working to deadlines, working back from 14:31:41
deadlines, the whole sort of approach in the 14:31:45

	Page 280		Page 281
1	industry of working to be able to get these types of 14:31:50	1	question to the appropriate witness to be able to 14:33:07
2	projects permitted, constructed, and operated within 14:31:53	2	answer the question, and there are severe 14:33:09
3	the timelines with the support from Ontario 14:31:57	3	limitations as to the conclusions this Tribunal can 14:33:12
4	agencies. 14:32:00	4	draw when allegations are made about a particular 14:33:15
5	And in my respectful submission, it's 14:32:02	5	document or a particular event without having asked 14:33:18
6	not a question of in terms of the evidence, 14:32:04	6	the witness about that particular event and what 14:33:21
7	looking at the evidence from the other side about 14:32:09	7	occurred. 14:33:24
8	what was possible; it's what was probable. 14:32:10	8	To move to damages, with respect to 14:33:27
9	And just to point out one issue that 14:32:14	9	sunk costs, again, it is important to keep in mind 14:33:33
10	was made, and this is something I want to just make 14:32:18	10	first of all, and you've seen this in the evidence, 14:33:37
11	sure is very clear on the record: There was 14:32:21	11	that the project could have been turned on at any 14:33:40
12	an argument that the offshore substation would not 14:32:24	12	time. We heard for the first time last Monday, that 14:33:43
13	have been possible on Pigeon Island. Now, that was 14:32:28	1.3	from and this is in response to a question that 14:33:46
14	based on the fact that a met mast approval had been 14:32:31	14	the Tribunal had asked: What is Ontario's current 14:33:49
15	denied by the coastguard. 14:32:36	15	intent with respect to the project? And at that 14:33:52
16	My friends never asked Ian Baines, who 14:32:41	16	point Ontario said, "Well, effectively, we're not 14:33:55
17	was the person to ask about the reason that had been 14:32:44	17	going to be doing more science in the near term; the 14:33:58
18	denied, and there is simply no basis for the 14:32:47	18	project is dead." 14:34:02
19 20	Tribunal to make any determination that 14:32:49	19	That's the first time Windstream heard 14:34:04
21	a transformer station could not have been put on the 14:32:54 island on the basis of a denial for a met mast 14:32:58	20	about that. And even even knowing that, it still 14:34:05
22		22	remains unclear. Mr. Cecchini's testimony was that 14:34:11 from the OPA's perspective, there is certainly no 14:34:16
23	1	23	from the OPA's perspective, there is certainly no 14:34:16 definitive intention to terminate the agreement; 14:34:19
24	And this is something I'll return 14:33:02 to this in dealing with damages. Where my friends 14:33:04	24	it's a question of whether Windstream wants to 14:34:21
25	have, in my respectful submission, have not put the 14:33:06	25	terminate the agreement. And, of course, Windstream 14:34:23
	nave, in my respectful submission, have not put the 14.55.00		terminate the agreement. Find, of course, windsteam 14.54.25
	Page 282		Page 283
1	can't do that until the termination until the 14:34:26	1	to it you don't have to bring it up but slide 14:35:59
2	May 2017 termination date. And as we said, I think 14:34:32	2	208, they describe the audit here: 14:36:02
3	it was two days ago in the cross-examination of 14:34:39	3	"Since the date of Deloitte's 14:36:05
4	examination of one of the witnesses, the effect of 14:34:42	4	second report in response to 14:36:06
5	this is that the respondents are saying that 14:34:44	5	the BRG rejoinder we have 14:36:08
6	Windstream essentially should terminate its most 14:34:49	6	verified all payments that 14:36:09
7	valuable asset in order to somehow get back the 14:34:52	7	BRG indicated were 14:36:12
8 9	letter of credit and bring this all to an end. 14:34:58	8 9	substantiated, but payment 14:36:14
10	And that's in a context where there is 14:35:01	10	could not be verified. We've 14:36:15
11	no and we heard from Mr. Cecchini in his 14:35:06 testimony, that the OPA is willing to enter into 14:35:09	11	reviewed the amounts 14:36:17 categorized as 14:36:18
12	testimony, that the OPA is willing to enter into 14:35:09 some sort of agreement but specifically when he was 14:35:10	12	categorized as 14:36:18 unsubstantiated by BRG and 14:36:18
13	asked about how this affects the NAFTA claim, he's 14:35:13	13	believe that the analysis was 14:36:18
14	advised by Mr. Spelliscy, and Mr. Spelliscy objects 14:35:16	14	not thorough, i.e. the BRG 14:36:20
15	and is not able to answer a question on that. 14:35:19	15	analysis was not thorough." 14:36:23
16	With respect to the issue of the 14:35:22	16	[As read] 14:36:24
17	audit, it's important to be very clear on the record 14:35:25	17	And you saw some of that in the 14:36:24
18	audit, it's important to be very clear on the record 14.33.23		- J
		18	cross-examination on Wednesday of Mr. Goncalves. 14:36:26
19		18 19	cross-examination on Wednesday of Mr. Goncalves. 14:36:26 So, there was been a thorough audit 14:36:28
	here, as to what as to what Deloitte has done. 14:35:30		
19	here, as to what as to what Deloitte has done. 14:35:30 Deloitte did, in response to issues that were raised 14:35:35	19	So, there was been a thorough audit 14:36:28
19 20	here, as to what as to what Deloitte has done. 14:35:30 Deloitte did, in response to issues that were raised 14:35:35 in the counter memorial well, in the counter 14:35:38	19 20	So, there was been a thorough audit 14:36:28 done by Deloitte, and it's also important to keep in 14:36:31
19 20 21	here, as to what as to what Deloitte has done. 14:35:30  Deloitte did, in response to issues that were raised 14:35:35  in the counter memorial well, in the counter 14:35:38  memorial, initially conducted an audit, a sampling 14:35:44  audit with the 30 percent sample, but then when the 14:35:47  rejoinder memorial when further comments were made, 14:35:51	19 20 21	So, there was been a thorough audit 14:36:28 done by Deloitte, and it's also important to keep in 14:36:31 mind in this context that always the Claimant has 14:36:35
19 20 21 22	here, as to what as to what Deloitte has done. 14:35:30 Deloitte did, in response to issues that were raised 14:35:35 in the counter memorial well, in the counter 14:35:38 memorial, initially conducted an audit, a sampling 14:35:44 audit with the 30 percent sample, but then when the 14:35:47	19 20 21 22	So, there was been a thorough audit 14:36:28 done by Deloitte, and it's also important to keep in 14:36:31 mind in this context that always the Claimant has 14:36:35 responded to questions and requests with respect to 14:36:40

### Page 284

needs to file every single one of their invoices 14:36:54 when they make a claim and file it with their 14:36:57 memorial is simply inconsistent with their practice, 14:37:00 international arbitration. 14:37:04

It is fair to respond to the other 14:37:06 side when they raise questions, and that's what's 14:37:07 been done in this particular case, but any 14:37:10 suggestion that there's actually an onus in 14:37:13 a memorial to do something like that is, again, in 14:37:17 my submission, not consistent. 14:37:20

And it's important in that respect, 14:37:22
again, to note that my friend, Mr. Spelliscy 14:37:24
chooses — he chose to put his questions to Mr. Low 14:37:30
in cross-examination. He did not ask Mr. Mars, for 14:37:34
example, about the particular arrangements for 14:37:39
paying, the list of the \$10,000 per month payments 14:37:43
and how those were allocated. He didn't ask 14:37:46
Mr. Baines about the allocations with respect to the 14:37:50
Control Tech company. 14:37:53

He chose to put the questions to 14:37:56

Deloitte and there's – if he had put them to the 14:37:59

witnesses who were actually making those 14:38:02

arrangements and incurring those expenses, in my 14:38:05

submission, he would have obtained relevant answers 14:38:09

to his questions. And, again, I would submit that 14:38:12

Page 285

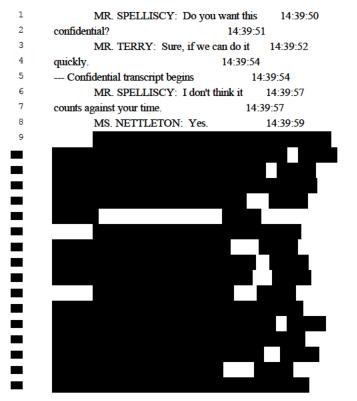

Page 287

the Tribunal, in the absence – in the case of only partial information, I suggest that you should be very cautious about making any particular 14:38:22 determination on that basis. 14:38:24

With respect to the LC, again, there 14:38:27 is no ability -- just to make sure this is clear on 14:38:31 the record - there's no ability for Windstream, prior to May 2017, to terminate under 10.1(g). As 14:38:38 I said before, to do so or to suggest that that 14:38:48 should be the resolution of this matter, that 14:38:50 Windstream should give this up in the absence of any 14:38:53 step being taken from the OPA, in terms of 14:38:58 termination, and really, given the fact that in this 14:39:01 particular case, we still have Canada saying on 14:39:05 behalf of Ontario, "Well, we're not going to do 14:39:10 anymore science in the near term." And what does 14:39:13 the "near term" mean? And is this project, you 14:39:16 know, really dead?

So, to move on to the cost issue — 14:39:20
and I want to take a moment on this point, the 14:39:23
Turbine Supply Agreement, if we could — if I could 14:39:26
hand up to you, the — it's important to look at the 14:39:31
agreement and take you to the provisions that Mr. 14:39:37
Spelliscy didn't take you to, and you saw this in 14:39:40
one of the witnesses. 14:39:43

## Page 286

14:41:24

Now, with respect to the slide at 190, 14:41:25 this is the one where Mr. Baines is raising 14:41:28 questions with respect to the Conference Board of 14:41:30 Canada Report and the Vestas capital cost. Again, 14:41:32 here's another example. My friend could have asked 14:41:37 Mr. Baines about it. He didn't. 14:41:40

And with respect, you have to treat 14:41:41
with great skepticism, assessments now that you 14:41:43
should make determinations on the basis of that 14:41:47
letter when it's - there's never been - it's never 14:41:49
been put to a witness. 14:41:52

Finally, on the market comparables 14:41:54
point, the evidence -- the uncontroverted evidence 14:41:59
is that Mr. Guillet put -- put an estimate in terms 14:42:02
of market comparables for a project at the -- at 14:42:09

	Page 288		Page 289
1	stage before it had all its permits somewhere 14:42:13	1	lower end of the range on the basis of a European 14:43:23
2	between 0 and \$60 million. 14:42:17	2	perspective as to whether site access had been 14:43:26
3	And we've had, you know, arguments as 14:42:20	3	secured or not, consider that he doesn't have the 14:43:28
4	to whether the project is in late stage or in 14:42:21	4	relevant information as he himself acknowledged to 14:43:33
5	Euros whether it's a late stage or an early stage 14:42:23	5	be able to assess this in an Ontario context under 14:43:35
6	project. 14:42:26	6	a FIT contract. 14:43:38
7	Now, Mr. Guillet, from his 14:42:27	7	Those are subject to any questions 14:43:43
8	perspective, may have said, well, it's on it's on 14:42:29	8	you may have those are our submissions. 14:43:44
9	the spectrum; we go all the way to zero for this 14:42:32	9	PRESIDENT: Any questions? 14:43:49
10	project, but Mr. Guillet admitted he hadn't read the 14:42:36	10	Okay. Thank you very much, Mr. Terry. 14:43:52
11	FIT project. Didn't know about the Crown land 14:42:43	11	MR. SPELLISCY: I will request just 14:43:57
12	release process. 14:42:45	12	a couple of minutes to discuss with my colleagues. 14:43:58
13	He didn't know about as Ms. Powell 14:42:47	13	PRESIDENT: Sure. 14:44:00
14	said, the first step is to get a FIT contract and 14:42:50	14	[Counsel confer] 14:44:01
15	then the agencies MNR will work with you as well 14:42:53	15	Confidential transcript ends 14:44:08
16	as Lawrence said, going through the site release 14:42:56	16	PRESIDENT: Okay, Mr. Spelliscy, 14:46:39
17	process. 14:43:00	17	please. 14:46:40
18	The whole process here, as Sarah 14:43:00	18	REPLY SUBMISSIONS BY MR. SPELLISCY: 14:46:40
19	Powell said, was flipped, it wasn't site access 14:43:03	19	MR. SPELLISCY: Thank you. I will not 14:46:42
20	first; it was power purchase agreement. And it was 14:43:05	20	try to address all of what my colleague, Mr. Terry, 14:46:47
21	a very good power purchase agreement. So keep that 14:43:09	21	has raised in his rebuttal. 14:46:50
22	in mind, again, when you are considering market 14:43:11	22	I think that most of it is addressed 14:46:53
23	comparables, that when you're looking at the range 14:43:15	23	already in the documents and the pleadings on the 14:46:55
24	that Mr. Guillet has set out and bear in mind 14:43:18	24	record, so I don't intend to rehash old ground here. 14:46:57
25	that, to the extent he's saying it should be in the 14:43:20	25	I would suggest to you, when he asks 14:47:02
	Page 290		Page 291
1	-	1	-
1 2	the five questions about Minister Wilkinson and his 14:47:04	1 2	carefully. 14:48:18
	the five questions about Minister Wilkinson and his decision, I would suggest to you when you go back 14:47:10		carefully. 14:48:18  Because what I would suggest to you to 14:48:19
2	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13	2	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21
2	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16	2	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25
2 3 4	the five questions about Minister Wilkinson and his decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20	2 3 4	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26
2 3 4 5	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22	2 3 4 5	carefully. 14:48:18  Because what I would suggest to you to 14:48:19  you is that the Claimant talked about the failure to 14:48:21  present or the failure to bring questions to 14:48:25  witnesses. 14:48:26  The person who made the decision, who 14:48:27
2 3 4 5 6	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent.	2 3 4 5 6	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28
2 3 4 5 6 7	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25  We walked you through some of that. 14:47:28	2 3 4 5 6 7	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28 They questioned him, not for very 14:48:32
2 3 4 5 6 7 8	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25  We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30	2 3 4 5 6 7 8	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28 They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35
2 3 4 5 6 7 8 9	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:35	2 3 4 5 6 7 8	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40
2 3 4 5 6 7 8 9	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:35 For example, at the end, he brought 14:47:37	2 3 4 5 6 7 8 9	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44
2 3 4 5 6 7 8 9 10	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39	2 3 4 5 6 7 8 9 10	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:32 Ing. They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46
2 3 4 5 6 7 8 9 10 11	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42	2 3 4 5 6 7 8 9 10 11	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46 The Claimant is more intent on telling 14:48:47
2 3 4 5 6 7 8 9 10 11 12	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45	2 3 4 5 6 7 8 9 10 11 12 13	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49
2 3 4 5 6 7 8 9 10 11 12 13 14	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45 It squares perfectly. 14:47:48	2 3 4 5 6 7 8 9 10 11 12 13 14	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49 the documents and then suggests that we haven't put 14:48:52
2 3 4 5 6 7 8 9 10 11 12 13 14 15	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45	2 3 4 5 6 7 8 9 10 11 12 13 14 15	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49 the documents and then suggests that we haven't put 14:48:52
2 3 4 5 6 7 8 9 10 11 12 13 14 15	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45 It squares perfectly. 14:47:48 Mr. Wilkinson testified that he got 14:47:51	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49 the documents and then suggests that we haven't put 14:48:52 the questions to the right witnesses. 14:48:54
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45 It squares perfectly. 14:47:48 Mr. Wilkinson testified that he got 14:47:51 the briefing note in his package on the evening of 14:47:54 January 6th. 14:47:57	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:52 the documents and then suggests that we haven't put 14:48:52 the questions to the right witnesses. 14:48:54 I would urge you to go back and look 14:48:56
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45 It squares perfectly. 14:47:48 Mr. Wilkinson testified that he got 14:47:51 the briefing note in his package on the evening of 14:47:54	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49 the documents and then suggests that we haven't put 14:48:52 the questions to the right witnesses. 14:48:56 at the transcript, from the beginning this has been 14:48:58
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45 It squares perfectly. 14:47:48 Mr. Wilkinson testified that he got 14:47:51 the briefing note in his package on the evening of 14:47:54 January 6th. 14:47:57 There would be nothing about what his 14:47:58 decision was at that time. He hadn't seen the 14:48:00	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:32 long. They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49 the documents and then suggests that we haven't put 14:48:52 the questions to the right witnesses. 14:48:56 at the transcript, from the beginning this has been 14:48:58 told as the story of a Ministry of the Environment 14:49:01 decision. 14:49:04
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45 It squares perfectly. 14:47:48 Mr. Wilkinson testified that he got 14:47:51 the briefing note in his package on the evening of 14:47:54 January 6th. 14:47:57 There would be nothing about what his 14:48:00 briefing note yet, and he hadn't met with his 14:48:00	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:32 long. They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49 the documents and then suggests that we haven't put 14:48:52 the questions to the right witnesses. 14:48:54  I would urge you to go back and look 14:48:56 at the transcript, from the beginning this has been 14:48:58 told as the story of a Ministry of the Environment 14:49:01 decision. 14:49:04
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45 It squares perfectly. 14:47:48 Mr. Wilkinson testified that he got 14:47:51 the briefing note in his package on the evening of 14:47:54 January 6th. 14:47:57 There would be nothing about what his 14:47:58 decision was at that time. He hadn't seen the 14:48:00	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:32 long. They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49 the documents and then suggests that we haven't put 14:48:52 the questions to the right witnesses. 14:48:54  I would urge you to go back and look 14:48:56 at the transcript, from the beginning this has been 14:48:58 told as the story of a Ministry of the Environment 14:49:01 decision. 14:49:04 You had people from the Ministry of 14:49:04
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the five questions about Minister Wilkinson and his 14:47:04 decision, I would suggest to you when you go back 14:47:10 and look to the documentary record, you will 14:47:13 actually see, as Mr. Neufeld walked you through, 14:47:16 that it is consistent with the story that we're 14:47:20 telling. The timing is consistent. The content of 14:47:22 the communications are consistent. 14:47:25 We walked you through some of that. 14:47:28 I don't intend to go through it again, but I think 14:47:30 you also have to pay attention to those dates. 14:47:37 you to and referred to a comment by Marcia Wallace 14:47:39 in talking about how our timeline could square 14:47:42 because she had a meeting on January the 6th. 14:47:45 It squares perfectly. 14:47:48 Mr. Wilkinson testified that he got 14:47:51 the briefing note in his package on the evening of 14:47:54 January 6th. 14:47:57 There would be nothing about what his 14:48:00 briefing note yet, and he hadn't met with his 14:48:03 Deputy. So, go back and look at that timeline, pay 14:48:06	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	carefully. 14:48:18  Because what I would suggest to you to 14:48:19 you is that the Claimant talked about the failure to 14:48:21 present or the failure to bring questions to 14:48:25 witnesses. 14:48:26  The person who made the decision, who 14:48:27 says he made the decision, he was here. 14:48:28  They questioned him, not for very 14:48:32 long. The other two individuals from the Ministry 14:48:35 of the Environment, Marcia Wallace and Doris Dumais, 14:48:40 they were here. They didn't question them for very 14:48:44 long. 14:48:46  The Claimant is more intent on telling 14:48:47 a story based upon how it would like to interpret 14:48:49 the documents and then suggests that we haven't put 14:48:52 the questions to the right witnesses. 14:48:54  I would urge you to go back and look 14:48:56 at the transcript, from the beginning this has been 14:48:58 told as the story of a Ministry of the Environment 14:49:01 decision. 14:49:04  You had people from the Ministry of 14:49:04 the Environment, including the very Minister who 14:49:06

#### Page 292 Page 293 1 1 14:49:16 In my opening submissions, what I had 14:50:34 suggest to you that it squares perfectly. 2 2 said was that the question of whether, given 14:50:36 On the same lines, we now hear in his 14:49:22 3 3 closing submissions today, my colleague, Mr. Terry, 14:49:25 unlimited time, resources, and money, could it be 14:50:38 4 4 built was irrelevant, and the Claimant suggested referred to an email from Sue Lo, on January the 14:49:27 14:50:41 5 5 13th, as the person conveying the news to her 14:49:33 that the real issue was a balance of the 14:50:43 probabilities. 6 6 colleagues. 14:49:38 14:50:45 7 Ms. Lo was scheduled to be here. The 14:49:40 7 It is an issue of whether it could 14:50:45 8 Claimant chose not to call her. For the Claimant 14:49:42 8 actually be built in the time required by the FIT 14:50:49 9 9 now, to suggest that it was Canada not putting the 14:49:46 contract. That is a relevant question that you have 14:50:52 10 questions to the right witnesses, I would suggest 14:49:49 10 to answer -- ask yourselves. The Claimant is here 14:50:55 11 that it's the exact opposite. We've made those 14:49:51 11 to suggest, again, it could just renegotiate those 14:50:59 12 witnesses available who could answer the questions 14:49:55 12 timelines, the OPA would work with them. You heard 14:51:02 13 about this timeline. The Claimant hasn't asked the 14:49:57 13 from Mr. Cecchini about the extensions that were 14:51:05 14 14 questions because it doesn't want to know the answer 14:50:01 14:51:08 granted to groups across the industry. 15 1.5 14:50:02 to the questions. You heard about the problems and what 14:51:11 16 16 It would prefer, instead, to operate 14:50:03 his comments were on force majeure for construction 14:51:13 17 17 on the basis of inferences from documents that are 14:50:05 delays. He said that's not the OPA's practice. We 14:51:16 18 actually about different things, about 14:50:08 18 saw a slide at the very beginning of two weeks ago, 14:51:20 19 communications plans, reflecting decisions that are 14:50:10 19 that was a slide done by General Electric on the 20 20 made. 14:50:12 wind industry. 14:51:28 21 21 Now, let me address another point, let 14:50:15 Two out of every 20 projects that are 14:51:30 22 22 me talk about the balance of the probabilities, and, 14:50:23 wind projects, succeed. 14:51:32 23 23 14:51:34 again, this gets back to what my colleague, 14:50:27 We had ample evidence through 24 Ms. Squires, said, the balance of the probabilities 14:50:30 24 Cape Wind and other projects of proposed 14:51:38 25 is what they've said. 14:50:32 25 developments that had the same roster of the experts 14:51:42 Page 294 Page 295 1 1 that the Claimant has brought here, they fail. 14:51:46 when they knew it couldn't be developed, when 14:53:16 2 2 I come back to something I said again, to wrap more 14:51:50 pursuant to Mr. Ziegler's testimony, he doesn't say 14:53:19 3 3 of this up: Projects fail. They do. That's why 14:51:53 we learned later, he said in May 2012 we knew it 14:53:22 4 Tribunals are consistently -- are consistent in 14:51:58 4 could not be developed, at that point they have 14:53:24 5 rejecting the idea that they should speculate as to 14:52:02 5 a duty to mitigate. 14:53:26 6 the future of bringing a project into operation, the 14:52:05 6 We see the claim was brought in 14:53:28 7 future in awarding future profits. There can be not 14:52:09 7 October of 2012. It is a claim for expropriation in 14:53:31 8 8 sufficient certainty to allow this damages October of 2012. A claim for expropriation, October 14:53:35 14:52:14 9 9 calculation to be done. 14:52:19 of 2012 is fundamentally inconsistent with the idea 14:53:38 10 10 that the project still had value as of that date. 14:53:43 I want to talk also about some of the 14:52:24 11 11 things that my colleague, Mr. Terry, said about some 14:52:26 My colleague, Ms. Squires, walked you 14:53:46 12 12 of the sunk costs in 10.1(g) and what has happened 14:52:30 through this, for there to be an expropriation has 14:53:49 13 13 since the claimant knew in May 2012, that it 14:52:40 to be substantially deprived of all value. And 14:53:51 14 14 couldn't develop its project. I would suggest that 14:52:42 I would note the same about the value of the FIT 14:53:54 15 you look at 10.1(g) carefully, because 10.1(g) sets 14:52:44 15 contract. 14:53:57 16 16 out a rule that establishes if a project will be The FIT contract was raised by my 14:53:58 17 17 delayed by events of force majeure for more than 24 14:52:52 colleague, Mr. Terry, saying, "Why would they have 14:54:00 18 months past its milestone date of commercial 14:52:55 18 to give up their most valuable asset?" The 14:54:02 19 19 operation, there are no obligations; you will get 14:52:58 claimant's claim here is premised that that most 14:54:05 20 14:53:00 20 your money back. valuable asset is worth zero and has been since May 14:54:09 21 Mr. Cecchini was here. He testified 14:53:01 21 of 2012. 14.54.14 22 22 that, even outside of the context of waiting past 14:53:03 There is no reason to hold on to it. 14:54:15 23 23 that date, the OPA negotiations with developers. It can't be developed under it. If in fact, that 14:54:17 24 24 If this is really a question of what 14:53:09 asset was worth something, you should have seen that 14:54:19 25 25 should have happened in May of 2012, at that point 14:53:12 in their damages analysis. 14:54:23

	Page 296		Page 297
1	Look at what Mr. Low said. What 14:54:24	1	costs, it bears the burden. And I would caution you 14:55:45
2	Mr. Low said is the project only had nominal value 14:54:26	2	that my colleague, Mr. Terry, said at some point, 14:55:47
3	as of May of 2012 because it could not be developed; 14:54:29	3	"If there is only partial information, you should be 14:55:49
4	the FIT contract had no value as at that date. 14:54:32	4	cautious." 14:55:54
5	There was no reason not to seek relief under 14:54:35	5	You should be cautious when there is 14:55:55
6	10.1(g). 14:54:46	6	only partial information. And it is the claimant's 14:55:56
7	On the issue of sunk costs. 14:54:48	7	burden to prove to you its loss. You cannot assume 14:55:59
8	At one time we talked about the audit. 14:54:59	8	in favour of the Claimant. The Claimant bears the 14:56:03
9	We also talked, again, about things being put to 14:55:00	9	burden, in the words of Jerome, full stop. 14:56:06
10	certain witnesses. With respect to Control Tech it 14:55:02	10	I will come to the last issue which 14:56:13
11	was put to Mr. Baines, and he explained, "I wasn't 14:55:04	11	I will address, which is Mr. Baines' letter; and 14:56:14
12	only working for Wolfe Island Shoals." That's where 14:55:07	12	there was a question, again, that we should have put 14:56:20
13	the quote in my slide came from, we did put it to 14:55:11	13	it to Mr. Baines. 14:56:22
14	him. 14:55:15	14	I urge you just to read the letter. 14:56:23
15	But I would put to you that the role 14:55:15	15	It is clear on its face as to what he thinks of the 14:56:25
16	of a damages expert is to understand the basis of 14:55:17	16	report that was being prepared and that was being 14:56:29
17	his cost evaluation. We asked Mr. Low because he 14:55:23	17	relied upon by the Claimant extensively at this 14:56:32
18	submitted an opinion these were sunk costs. We have 14:55:27	18	arbitration. 14:56:35
19	the documents in the record. We have the document 14:55:29	19	There is no need to ask Mr. Baines 14:56:36
20	that says it's a memo; it's dated the right date. 14:55:29	20	a question about a contemporaneous document produced 14:56:39
21	We see the costs before that. We eliminated those 14:55:34	21	to us that is clear, that contradicts the very story 14:56:42
22	costs. 14:55:37	22	that they're offering you here. 14:56:47
23	We have documents showing what they 14:55:38	23	Thank you. That's all I have. If 14:56:51
24	were doing, the allocation of time. The documents 14:55:40	24	there are questions, I'd be happy to answer them. 14:56:54
25	are clear. And if the Claimant wants to claim some 14:55:42	25	PRESIDENT: Thank you very much. 14:56:57
	Page 298		Page 299
1	Thank you, Mr. Spelliscy. 14:57:02	1	MR. SPELLISCY: I would be happy 14:58:13
2	That concludes the substantive part of 14:57:13	2	and and the consideration of legal authorities. 14:58:14
3	the hearing. 14:57:15	3	I would be happy to give you our view on that. 14:58:17
4	We had flagged a few items for 14:57:16	4	PRESIDENT: That could be discussed 14:58:20
5	discussion. I believe there are at least three. We 14:57:20	5	first. It is sort of linked to the post hearing 14:58:20
6	invited the parties to discuss and see whether there 14:57:24	6	issue as well. 14:58:24
7	would be any need for post hearing submissions, 14:57:28	7	So, maybe we can discuss those 14:58:25
8	that's one item. Then we should discuss cost 14:57:32	8	together. 14:58:28
9	submissions, and a more mundane subject of 14:57:37	9	The Tribunal's feeling certainly is 14:58:28
10	corrections to transcript, which you may wish to 14:57:42	10	that in our view there is no need for post hearing 14:58:30
11	leave for the parties to see how they want to go 14:57:48	11	submissions unless the parties have agreed otherwise 14:58:35
12	about this. 14:57:50	12	whether that there are any specific issues you would 14:58:39
13			11 4 11 14.50.41
14	On these three items, may we start 14:57:52	13	like to address. 14:58:41
	with the post hearing briefs. The Tribunal's 14:57:54	14	The case has been thoroughly briefed 14:58:42
15	with the post hearing briefs. The Tribunal's 14:57:54 feeling 14:57:58	14 15	The case has been thoroughly briefed 14:58:42 in terms of law and facts. We have a sense that the 14:58:45
16	with the post hearing briefs. The Tribunal's 14:57:54 feeling 14:57:58 MR. SPELLISCY: Could I add one more 14:57:59	14 15 16	The case has been thoroughly briefed 14:58:42 in terms of law and facts. We have a sense that the 14:58:45 issues have been set out for us as clearly as they 14:58:49
16 17	with the post hearing briefs. The Tribunal's 14:57:54 feeling 14:57:58 MR. SPELLISCY: Could I add one more 14:57:59 item to the agenda that I don't think 14:58:00	14 15 16 17	The case has been thoroughly briefed 14:58:42 in terms of law and facts. We have a sense that the 14:58:45 issues have been set out for us as clearly as they 14:58:49 can be. But we are happy to hear how the parties 14:58:51
16 17 18	with the post hearing briefs. The Tribunal's 14:57:54 feeling 14:57:58 MR. SPELLISCY: Could I add one more 14:57:59 item to the agenda that I don't think 14:58:00 PRESIDENT: Sure. 14:58:02	14 15 16 17 18	The case has been thoroughly briefed 14:58:42 in terms of law and facts. We have a sense that the 14:58:45 issues have been set out for us as clearly as they 14:58:49 can be. But we are happy to hear how the parties 14:58:51 feel about this. Mr. Terry? 14:58:57
16 17 18 19	with the post hearing briefs. The Tribunal's 14:57:54 feeling 14:57:58  MR. SPELLISCY: Could I add one more 14:57:59 item to the agenda that I don't think 14:58:00  PRESIDENT: Sure. 14:58:02  MR. SPELLISCY: either party 14:58:02	14 15 16 17 18 19	The case has been thoroughly briefed 14:58:42 in terms of law and facts. We have a sense that the 14:58:45 issues have been set out for us as clearly as they 14:58:49 can be. But we are happy to hear how the parties 14:58:51 feel about this. Mr. Terry? 14:58:57  MR. TERRY: I think our I think all 14:59:01
16 17 18 19 20	with the post hearing briefs. The Tribunal's 14:57:54  feeling 14:57:58  MR. SPELLISCY: Could I add one more 14:57:59  item to the agenda that I don't think 14:58:00  PRESIDENT: Sure. 14:58:02  MR. SPELLISCY: either party 14:58:02  covered in their submissions, but we should for the 14:58:03	14 15 16 17 18 19 20	The case has been thoroughly briefed 14:58:42 in terms of law and facts. We have a sense that the 14:58:45 issues have been set out for us as clearly as they 14:58:49 can be. But we are happy to hear how the parties 14:58:51 feel about this. Mr. Terry? 14:58:57  MR. 16 17 18 19 20 21	with the post hearing briefs. The Tribunal's 14:57:54 feeling 14:57:58  MR. SPELLISCY: Could I add one more 14:57:59 item to the agenda that I don't think 14:58:00 PRESIDENT: Sure. 14:58:02 MR. SPELLISCY: either party 14:58:02 covered in their submissions, but we should for the 14:58:03 Tribunal, which was question 7 on the questions the 14:58:04 Tribunal posed to us, which was really more of 14:58:06	14 15 16 17 18 19 20 21 22	The case has been thoroughly briefed 14:58:42 in terms of law and facts. We have a sense that the 14:58:45 issues have been set out for us as clearly as they 14:58:49 can be. But we are happy to hear how the parties 14:58:51 feel about this. Mr. Terry? 14:58:57  MR. TERRY: I think our I think all 14:59:01 three of us, Tribunal, ourselves, and my friends, 14:59:04 are of the same view with respect to post hearing 14:59:06 briefs that and of course I'll let Canada speak 14:59:09

MR. NEUFELD: We agree and Mr. Terry 4459-26 was correct in stating our view. We had some quick 1459-28 discussions. The reason we set up on bearing his 1459-30 way was to have a break before our closing 1459-34 submission, which was quich beford in or graining 1459-36 our thoughts, and we thouk the Tribunal for the 1459-93 questions again because that was also very helpshil 1459-94 So given the format and your villingness to 1459-94 a commodate us in that regard, I think that's was 1459-95 thelped us to fully brief the natters. 1459-95 thelped us to fully brief the natters. 1459-95 those Maybe Mr. Terry forst. 1500-07  MR. TERRY: From our perspective, we 1500-09 developing and authorities as suggested. 1590-15 don't have my concerns with the Tribunal since to 1500-20 commodate with that regard that the 1500-24 commodate with that regard that the 1500-25 in this same way concerns with the Tribunal and wish to 1501-12 for this way to the control that the Tribunal since to 1500-13 don't have my concerns with the Tribunal results in 1501-13 for this way to the control the particle views on 1500-09 MR. TERRY: From our perspective, we 1500-09 control that the tribunal sould be 1500-02 to control the particle views on 1500-09 may be sufficient to the particle with the tribunal sould be particle with the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that the Tribunal and the 1501-03 man perspective as well is that		Page 300		Page 301
was correct in stating our view. We had some quick   145928   discussions. The reason we set up on hering this   145934   supposes to have a heals before our closing   145934   submissions, which was quine helpful in organizing   145939   our throughts, and we thank the Tribunal for the   145939   questions again because that was also very helpful.   145942   so given the format and your willingness to   145943   accommodate us in that regard, I think that's what   145947   helped us to fully heric the matters.   145954   helped us to fully heric the matters.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   145954   tare on the same page, or mith particular issue.   150007   those. Maybe Mr. Terry first.   150007   doubt have any concerns with the Tribunal constituting.   150011   those. Maybe Mr. Terry first.   150001   doubt have any concerns with the Tribunal constituting.   150011   thegal authorities as suggested.   1500216   doubt have any concerns with the Tribunal si fee to   150020   consult legal authorities consultance in the particular issue.   150020   tare on those authorities we think is advisable.   150024   tare on the same page, or mith the tribunal is fee to   150024   tare on the same page, or mith particular issue.   150024   tare on the same page, or mith the tribunal is fee to   150024   tare on the same page, or mith particular issue.   150024   tare on the same page, or mith thread the parties views on   150020   the parties on those authorities we think is advisable.   150024   tare was no thinking car	1	_	1	•
discussions. The reason we set up our hearing this 14-59-30 yaw was to have a break before our closing 14-59-34 submission which was quite helpful in organizing 14-59-36 our thoughts, and we thank the Tribunal for the 14-59-39 questions again because that was also very helpful. 14-59-42 a commodate us in that read was also very helpful. 14-59-43 a commodate us in that ready alt hits kit has that 14-59-45 a commodate us in that reaged. I think that shat 14-59-50 helped us to fully brief the mutters. 15-50-000 question 7, we haven't heard the parties' views on 15-00-01 those. Maybe Mr. Terry first. 15-00-01 helped anabrorities as suggested. 15-00-15 hours whether the Tribunal consulting 15-00-15 hours may be a commodate us in that the Tribunal consulting 15-00-15 those. Maybe Mr. Terry first. 15-00-00 don't have any concerns with the Tribunal consulting 15-00-15 hours may be a commodate us in that was the world draw 15-00-20 perspective as well is that the Tribunal used is free to 15-00-20 perspective as well is that the Tribunal consulting 15-00-15 perspective as well is that the Tribunal consulting 15-00-15 perspective was well as that the Tribunal and the Tribunal consulting 15-00-15 perspective was well as that the Tribunal and 15-00-15 perspective was well as that the Tribunal and 15-00-15 perspective was well as that the Tribunal and 15-00-15 perspective was well as that the Tribunal and 15-00-16 perspective well is that the Tribunal and 15-00-16 perspective as well is that the Tribunal and 15-00-16 perspective well is 15-00-16 perspective as well is that the Tribunal and 15-00-16 perspective well is 15-00-16 perspective as well is that the Tribunal and 15-00-16 perspective well is 15-00-16 perspective well is 15-00-16 perspective as well is that the Tribunal and 15-00-16 perspective well is 15-00-16 perspective well is 15		·		
submissions with was ugue before four closing of 1459-36 our thoughts, and we thank the Tribunal for the 1459-36 our thoughts, and we thank the Tribunal for the 1459-39 guestions again became that was also very helpful. 1459-42 guestions again became that was also very helpful. 1459-43 accommodate us in that regard, I think that's what 1459-94 accommodate us in that regard. I think that's what 1459-95 the helpful and the matters. 1459-95 Then there is the question of - 150000 question from the same page, on that particular issue. 1459-95 thought of those, Maybe Mr. Terry first. 1500007 those authorities and still the think in the Tribunal consulting 1500.11 those, Maybe Mr. Terry first. 1500.020 consult legal authorities as suggested. 1500.15 and their relevance to the case. 1501.09 That was the thinking. Certainly 1501:11 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:15 and their relevance to the case. 1501:15 and their relevance to the case. 1501:19 and the parties of the parties and so the minimum 1501:12 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:15 and their relevance to the case. 1501:15 the was not thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14 there was no thinking that the Tribunal would 1501:14				
5 submission, which was quite helpful in organizing 14-59-36 our thoughts, and we thank the Tribunal for the 14-59-39 gestions again because that was also very helpful. 14-59-42 a geomethe format and your willingness to 1 4-59-47 helped us to fully brief the matters. 14-59-50 helped us to fully brief the matters. 14-59-50 helped us to fully brief the matters. 14-59-50 method to see the parties of the parties of the parties that, if there are 15-500-57 we end up in the deliberations, but the proposal was 15-500-57 we end up in the deliberations, but the proposal was 15-500-50 simply to flag to the parties that, if there are 15-500-57 to flag to the parties that, if there are 15-500-57 to smith, if they are not on record we would convey 15-00-59 and their relevance to the case. 15-501-19 method that the parties of the parties and set them to 15-501-30 and their relevance to the case. 15-501-19 method that the parties of the parties and set them to 15-501-30 and their relevance to the case and their relevance to the case. 15-501-19 method that the Tribunal consulting 15-500-11 to see which is advisable. 15-500-24 parties on those authorities we think is advisable. 15-500-25 to consult legal authorities, consultation with the 15-500-24 parties on those authorities we think is advisable. 15-500-25 to consult legal authorities, consultation with the 15-500-24 parties on those authorities we think is advisable. 15-500-25 to consult legal authorities, consultation with the 15-500-24 parties on those authorities we think is advisable. 15-500-25 to consult legal authorities, consultation with the 15-500-24 parties on those authorities we think is advisable. 15-500-25 to consult legal authorities, consultation with the 15-500-25 to consult legal authorities, consultation with th				•
our thoughts, and we thank the Tribural for the 14-59-39 of the proposal was actually—and we dorn know yet where 15:00-37 we ead up in the deliberations, but the proposal was 15:00-37 helped to to fully brief hematters. 14-59-50 11 PRESIDENT: Okay, thank you. So we 14-59-54 12 are on the same page, on that puricular issue. 14-59-55 12 are on the same page, on that puricular issue. 14-59-55 12 are on the same page, on that puricular issue. 14-59-55 12 are on the same page, on that puricular issue. 14-59-55 12 are on the same page, on that puricular issue. 14-59-55 12 are on the same page, on that puricular issue. 14-59-55 12 are on the same page, on that puricular issue. 14-59-55 12 are on the same page, on the puricular issue. 14-59-55 12 are on the same page, on the puricular issue of the puricular issue. 15-50-15 12-15 issue. In happy to do whatever makes sense of direction from the Tribunal or we could have 15-02-25 and is most efficient. 15-02-26 direction from the Tribunal or we could have 15-02-27 and is most efficient. 15-02-28 this issue. In happy to do whatever makes sense 15-02-15 the puricular purpose. Which is advision have a 15-02-28 this happy to oticine the conversation with the 15-02-29 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-25 terms of costs quite often we find this an effective 15-02-		•		•
guestions again because that was also very helpful. 14:59:42 8 So given the format and your willignesses to 14:59:43 9 accommodate us in that regard, I think that's what 14:59:50 10 helped us to fully brief the matters. 14:59:50 11 PRESIDENT: Okay, thank you, So we 14:59:55 12 are on the same page, on that particular issue. 14:59:55 13 Then there is the question of - 15:00:00 14 question 7, we haven't heard the parties' views on 15:00:01 15 those. Maybe Mr. Terry fist. 15:00:07 16 kgal authorities as uggested. 15:00:07 17 don't have any concerns with the parties' views on 15:00:01 18 kgal authorities as uggested. 15:00:11 19 MR. TERRY: From our perspective, we 15:00:02 10 perspective as well is that the Tribunal consulting 15:00:11 20 perspective as well is that the Tribunal consulting 15:00:12 21 consult legal authorities as uggested. 15:00:02 22 parties on those authorities is utilities with the information to the purious and as them to 15:01:03 23 The only cantion that we would draw 15:00:23 24 is, I think in our view there's a difference between 15:00:31 25 consulting legal authorities and consulting such 15:00:02 26 perspective as well is that the Tribunal consulting 15:00:11 27 think that the Tribunal consulting 15:00:12 28 parties on those authorities we think is advisable 15:00:23 29 perspective as well is that the Tribunal ormstiling 15:00:12 20 perspective as well is that the Tribunal ormstiling 15:00:12 21 consult legal authorities are the case. 15:00:13 22 parties on the guestion of - 15:00:00:00 23 The only cantion that we would draw 15:00:21 24 is, I think in our view there's a difference between 15:00:31 25 consulting legal authorities. 20:00:00 26 Think the rear 15:00:00:00 27 the parties that the Tribunal ormstiling 15:00:12 28 parties on the active that the Tribunal consulting 15:00:12 29 parties on the Tribunal consulting 15:00:12 20 perspective as well is that the Tribunal ormstiling 15:00:23 21 think is nour view there's a difference between 15:00:31 22 parties on the case and the rear 15:0				
So given the format and your willingness to 14:5943 a accommodate us in that regard. I think thats what 14:5947 beheld us to fully brief the matters. 14:59:50 11 PRESIDENT: Okay, thank you. So we 14:59:54 12 are on the same page, on that particular issue. 14:59:55 13 Then there is the question of - 15:00:00 14 question? we haven't heard the parties issue. 14:59:50 15 Then there is the question of - 15:00:00 16 MR. TERRY: From our perspective, we 15:00:07 17 don't have any concerns with the Tribunal consulting 15:00:11 18 legal authorities as suggested. 15:00:15 19 MR. SPELLSCY: Certainly our 15:00:19 20 perspective as well is that the Tribunal is free to 15:00:24 21 consult legal authorities, consultation with the 15:00:24 22 consult legal authorities, consultation with the 15:00:24 23 The only caution that we would draw 15:00:25 24 is, I think in our view there's a difference between 15:00:31 25 consulting legal authorities and consulting such 15:00:34 26 consulting legal authorities and consulting such 15:00:24 27 discussions yet. Of course, we're happy to take 15:02:15 28 discussions between 15:00:215 29 MR. TERRY: We haven't had any 15:02:10 20 discussions then follow up with the Tribunal on 15:00:24 21 discussions set the follow up with the Tribunal on 15:00:24 22 discussions set the follow up with the 15:00:24 23 discussions set the follow up with the 15:00:215 24 discussions set the follow up with the 15:00:215 25 direction from the Tribunal or we could have 15:00:215 26 direction from the Tribunal or we could have 15:00:215 27 discussions set then follow up with the 15:00:215 28 discussions set the follow up with the 15:00:215 29 discussions set that the they 15:00:25 20 discussions set that the grade to 15:00:00 21 discussions set that the grade to 15:00:00 22 discussions set that in the grade to 15:00:00 23 discussions set that in the grade to 15:00:00 24 the parties as the grade to 15:00:00 25 discussions set that fribunal on 15:00:10 26 discussions set that fribunal on 15:00:10 27 discussions set th				
yes accommodate us in that rogard. Lifnink that's what 14:59:47 helped us to fully brief the matters. 14:59:50 11 PRESIDENT: Okay, thanky you. So we 14:59:54 12 are on the same page, on that particular issue. 14:59:55 13 Then there is the question of - 15:00:001 14 question 7, we haven't heard the parties views on 15:00:01 15 those. Maybe Mr. Terry first. 15:00:07 16 MR. TERRY: From our perspective, we 15:00:09 17 don't have any concerns with the Tribunal consulting 15:00:11 18 legal authorities as suggested. 15:00:15 19 MR. SPELLISCY: Certainly our 15:00:19 20 perspective as well is that the Tribunal forest thing is consult legal authorities, consultation that we would draw 15:00:29 21 consult legal authorities, consultation with the 15:00:29 22 parties on those authorities, we think is advisable. 15:00:25 23 The only caution that we would draw 15:00:29 24 is, I think in our view there's a difference between 15:00:31 25 consulting legal authorities and consulting such 15:00:34 26 discussions yet. Of corres, we're happy to take 15:02:15 27 direction from the Tribunal or we could have 15:02:15 28 direction from the Tribunal or we could have 15:02:15 29 MR. FIERRY: We haven't had any 15:02:025 30 MR. TERRY: We haven't had any 15:02:03 31 discussions yet. Of corres, we're happy to take 15:02:25 32 direction from the Tribunal or we could have 15:02:19 33 MR. TERRY: We haven't had any 15:02:26 34 discussions yet. Of corres, we're happy to take 15:02:50 35 direction from the Tribunal or we could have 15:02:19 36 discussions yet. Of corres, we're happy to take 15:02:25 37 dis sesse. Thanppy to do whatever makes sense 15:02:15 38 and is most efficient. 15:02:29 39 MR. NEUFELD: Likewise, were always 15:02:21 40 whether cost submissions has been rendered, so 15:02:37 41 whether cost submissions has been rendered, so 15:02:34 42 whether cost submissions mill be filled, but we're 15:02:49 43 an appropriate approach. In this case, I think its 15:02:54 44 ehere cost submissions will be filled and ofference in 15:02:49 45 par			1	
helped us to fully brief the matters.  14:59:50  12 PRESIDENT: Okay, thank you. So we 14:59:54  23 aro to the same page, on that particular issue. 14:59:55  24 aro to the same page, on that particular issue. 14:59:55  25 Then there is the question of — 15:00:00  4 question? we haverth heard the parties views on 15:00:001  4 question? we havered heard the parties views on 15:00:001  4 those. Maybe Mr. Terry first. 15:00:007  4 those. Maybe Mr. Terry first. 15:00:007  4 don't have any concerns with the Tribural consulting 15:00:11  26 don't have any concerns with the Tribural consulting 15:00:15  27 don't have any concerns with the Tribural consulting 15:00:19  28 perspective as well is that the Tribural is free to 15:00:29  29 perspective as well is that the Tribural is free to 15:00:24  20 parties on those authorities we think is advisable. 15:00:24  21 is, I think in our view there's a difference between 15:00:31  22 consulting legal authorities and consulting such 15:00:34  23 MR. TERRY: We haven't had any 15:02:04  4 discussions yet. Of course, were happy to take 15:02:15  5 direction from the Tribural or we could have 15:02:15  6 discussions with the 16:00 up with the Tribural or 15:02:13  4 this issue. This happy to do whatever markes sense 15:02:15  24 and is most efficient. 15:02:49  25 and is most efficient. 15:02:49  26 and pappy to discuss. One thing we note is that they'te 15:02:25  27 and may be described by the described have 15:02:15  28 and is most efficient. 15:00:24  29 and proporties the conversation with Claimant 15:02:24  20 that, perhaps, is a first step to — before deciding 15:02:34  21 whether cost submissions have 15:02:24  22 partly reflecting Camadhan domestic practice in 15:02:24  23 and is most efficient. 15:00:249  24 an appropriate approach. In this case, I think its 15:02:24  25 connected a proposal may be a discussion because of the parties to discussion with the 15:00:30:30  26 preflection from the Tribural or we could be a proposal may be a proposal may be a partly or decidenti		•		• • •
PRESIDENT: Okay, thank you. So we 14:59:54 are on the same page, on that particular issue. 14:59:55 13 Then there is the question of - 15:00:00 14 question 7, we haven't heard the parties' views on 15:00:07 15 those. Maybe Mr. Terry first. 15:00:07 16 MR. TERRY: From our perspective, we 15:00:09 17 don't have any concerns with the Tribunal consulting 15:00:11 18 legal authorities as suggested. 15:00:15 19 MR. SPELLISCY: Certainly our 15:00:12 20 perspective as well is davisable. 15:00:20 21 consult legal authorities, consultation with the 15:00:24 22 parties on those authorities we think is advisable. 15:00:25 23 The only caution that we would draw 15:00:29 24 is, I think in our view there's a difference between 15:00:31 25 consulting legal authorities and consulting such 15:00:34 26 discussions yell. Of course, we're happy to to take 15:02:15 27 discussions and then follow up with the Tribunal or 15:02:15 28 and is most efficient. 15:00:219 29 MR. NEUFFLD: Likewise, we're always 15:00:228 21 that, perhaps, is a first step to – before deciding 15:00:23 21 that, perhaps, is a first step to – before deciding 15:00:24 23 many propriate approach. In this case, I think it is 15:00:249 24 an appropriate approach. In this case, I think it is 15:00:249 25 many the decision has been rendered, so 15:00:247 26 many the first purple of the parties is the term to 15:00:00 27 many the information to the case. 15:00:10 28 many the information to the case. 15:00:10 29 many the information to the case. 15:00:10 20 man their relevance to the case. 15:00:10 20 man their relevance to the case. 15:00:11 21 the three was no thinking that the tribunal 15:00:11 22 the authorities and the first the tribunal consulting 15:00:12 23 to consult legal authorities or think is davisable. 15:00:249 24 is, I think in our view there's a difference between 15:00:31 25 to consider this, Mr. Terry. 15:01:58 26 discussions yell of course, we're happy to take 15:02:259 27 this issue. Thappy to do whatever makes sense 15:02:15 28 and is most efficient				
are on the same page, on that particular issue. I4:59:55 Then there is the question of — 15:00:00 14 question 7, we haven't heard the parties' views on 15:00:17 15 those. Maybe Mr. Terry first. 15:00:07 16 MR. TERRY: From our perspective, we 15:00:09 17 don't have any concerns with the Tribunal consulting 15:00:11 18 legal authorities as suggested. 15:00:15 19 MR. SPELJISCY: Certainly our 15:00:19 20 perspective as well is that the Tribunal is free to 15:00:20 21 consult legal authorities, consultation with the 15:00:24 22 a The only caution that we would draw 15:00:24 23 The only caution that we would draw 15:00:34 24 is, I think in our view there's a difference between 15:00:34 25 to consider this, Mr. Terry. 15:01:38 26 and is most efficient. 15:02:25 27 discussions yet. Of course, we're happy to dake discussions and then follow up with the 15:00:213 29 discussions yet. Of course, we're happy to a discuss. One thing we note is that they're 15:02:25 30 MR. NEUFELD: Likewise, we're always 15:02:25 40 discussions. One other question is for the parties to 15:03:40 41 whether cost submissions will be filed, but we're 15:02:24 42 may to deal with it. 15:02:47 43 MR. TERRY: But that might be 15:02:47 44 whether cost submissions will be filed, but we're 15:02:25 45 party to deal with it. 15:02:47 46 man appropriate approach. In this case, I think it's 15:02:249 47 man TERRY: But that might be 15:02:47 48 man propriate approach. In this case, I think it's 15:02:50 49 man propriate approach. In this case, I think it's 15:02:50 40 man propriate approach. In this case, I think it's 15:02:50 40 man propriate approach. In this case, I think it's 15:02:54 40 been rendered? 15:03:08 40 perspective we could agree on the deadlines, whether or not 15:04:12 41 we're the propriate approach. In this case, I think it's 15:02:249 42 been rendered? 15:03:08 43 perspective we're the practice to make series of costs quite often we find this an effective 15:02:249 44 terms of costs quite often we find this an effective 15:02:254 45 bee				
Then there is the question of — 15:00:00  question 7, we haven't heard the parties views on 15:00:07  the Maybe Mr. Terry first. 15:00:07  don't have any concerns with the Tribunal consulting 15:00:11  don't have any concerns with the Tribunal consulting 15:00:11  don't have any concerns with the Tribunal consulting 15:00:11  degal authorities as suggested. 15:00:15  don't have any concerns with the Tribunal consulting 15:00:11  degal authorities as suggested. 15:00:15  don't have any concerns with the Tribunal consulting 15:00:12  perspective as well is advisable. 15:00:20  consult legal authorities, consultation with the 15:00:20  parties on those authorities we think is advisable. 15:00:25  parties on those authorities we think is advisable. 15:00:26  to consulting legal authorities and consulting such 15:00:31  I don't know whether the parties have had a chance 15:01:56  to consider this, Mr. Terry. 15:01:58  discussions yet Of course, we're happy to take 15:02:15  discussions with of the or thinking. Certainly 15:01:11  these was not thinking that the Tribunal orus 15:00:17  the threat was no thinking that the Tribunal onsult there was no thinking that the Tribunal would 15:00:17  the authorities as a supressed the authorities as any need for reliance on 15:01:26  to consider this, and the reliance on 15:01:29  The only caution that we would draw 15:00:29  I don't know whether the parties have had a chance 15:01:56  to consider this, Mr. Terry. 15:01:58  discussions yet of course, we're happy to take 15:02:40  discussions yet Of course, we're happy to take 15:02:29  This is sue. I'm happy to do whatever makes sense 15:02:15  and is most efficient. 15:00:29  MR. NEUFFLD: Likewise, we're always 15:02:29  MR. NEUFFLD: Likewise, we're always 15:02:29  MR. Terry: But that might be 15:02:49  MR. Terry: But that might be				-
those. Maybe Mr. Terry first. 15:00:07 those. Maybe Mr. Terry first. 15:00:07 those Maybe Mr. Terry first. 15:00:09 don't have any concerns with the Tribunal consulting 15:00:11 legal authorities as suggested. 15:00:15 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal is free to 15:00:20 maybe perspective as well is that the Tribunal on the 15:00:24 maybe consulting legal authorities and consulting such 15:00:34 maybe consider this, Mr. Terry.  Page 302  1 I dom't know whether the parties have had a chance 15:00:34 maybe consider this, Mr. Terry.  1 I dom't know whether the parties have had a chance 15:00:34 maybe discussions yet. Of course, were happy to take 15:00:20 discussions yet. Of course, were happy to take 15:00:215 discussions yet. Of course, were happy to take 15:00:236 mand is most efficient.  1 Soluzional to the manufacture of the manufacture				
those. Maybe Mr. Terry first. 15:00:07  MR. TERRY: From our perspective, we 15:00:09  don't have any concerns with the Tribunal consulting 15:00:11  legal authorities as suggested. 15:00:19  perspective as well is that the Tribunal is free to 15:00:20  consult legal authorities, consultation with the 15:00:24  parties on those authorities we think is advisable. 15:00:25  The only caution that we would draw 15:00:29  tis, I think in our view there's a difference between 15:00:31  To consulting legal authorities and consulting such 15:00:34  The only caution that we would draw 15:00:29  The only caution that we would draw 15:00:39  The only caution that we would draw 15:00:30  The only caution that we would have 15:00:31  To don't know whether the parties have had a chance 15:01:56  to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:05  direction from the Tribunal on 15:02:15  discussions and then follow up with the Tribunal on 15:02:15  discussions and then follow up with the Tribunal on 15:02:15  mand is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  happy to discuss. One thing we note is that they're 15:02:26  whether cost submissions have 15:02:31  that perspective as well is that they're 15:02:26  whether cost submissions have 15:02:27  MR. TERRY: But that might be 15:02:40  where parties to discussion shewher 15:03:41  terms of costs quite often we find this an effective 15:02:27  way to deal with it. 15:03:036  PRESIDENT: You mean that the cost 15:03:05  submissions will be made only after the award has 15:03:06  24  been rendered? 15:03:08				
don't have any concerns with the Tribunal or southing 15:00:15    Regal authorities as suggested.		-	1	
don't have any concerns with the Tribunal consulting 15:00:11 legal authorities as suggested.  MR. SPELISCY: Certainly our 15:00:19 perspective as well is that the Tribunal is free to 15:00:20 consult legal authorities, consultation with the 15:00:24 parties on those authorities we think is advisable. 15:00:25 is, I think in our view there's a difference between 15:00:31 to consulting legal authorities and consulting such 15:00:34  The only caution that we would draw 15:00:39 is, I think in our view there's a difference between 15:00:34  Then the question of cost submissions. 15:01:52  Page 302  I I don't know whether the parties have had a chance 15:01:58 MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:13 this issue. I'm happy to do whatever makes serse 15:02:15 direction from the Tribunal or we could have 15:02:19 MR. MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:02:13 discussions and then follow up with the Tribunal on 15:03:24 mand is most efficient. 15:02:19 MR. NEUFELD: Likewise, we're always 15:02:25 MR. NEUFELD: Likewise, we're always 15:02:25 MR. NEUFELD: Likewise, we're always 15:02:26 discussions on the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 team-or after the decision has been rendered, so 15:02:28 that, perhaps, is a first step to before deciding 15:02:36 that, perhaps, is a first step to before deciding 15:02:36 that, perhaps, is a first step to before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41 whether cost submissions will be filed, but we're 15:02:41 discussions in the deadlines, which we 15:03:57 fif happy to continue the conversation with Claimant 15:02:44 whether cost submissions will be made only after the ward has 15:02:59  MR. TERRY: But that might be 15:02:49  MR. TERRY: But that might be 15:02:59  MR. TERRY: But that might be 15:02:59  MR. TERRY: I think it might be useful 15:04:16 way to deal with	1	I don't know whether the parties have had a chance 15:01:56	1	_
direction from the Tribunal or we could have 15:02:11 5 PRESIDENT: Without consulting my 15:03:28 discussions and then follow up with the Tribunal on 15:02:13 6 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:32 would prefer to have the cost submissions now. 15:03:34 would prefer to have the cost submissions now. 15:03:40 like to make full cost submissions or simply 15:03:44 we can leave for the parties to discuss and agree. 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 we can leave for the parties to discuss and agree. 15:03:57 lab preficiency we could agree on the deadlines, which we 15:03:57 lab preficiency we could agree on the deadlines, whether 15:04:03 a week for the second round, in terms of efficiency, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06 or we can leave it for the parties to agree. 15:04:12 way to deal with it. 15:03:03 would prefer to have the cost submissions on the parties to agree. 15:04:16 way to deal with it. 15:03:03 would prefer to have the cost submissions on the could agree on the deadlines, whether 15:04:04 having a discussion, because I think whether or not 15:04:16 we just file costs or actually file cost 15:04:18 we just file costs or actually file cost			1	be also discussions between the parties, but, again, 15:03:16
discussions and then follow up with the Tribunal on 15:02:13  discussions and then follow up with the Tribunal on 15:02:13  this issue. I'm happy to do whatever makes sense 15:02:15  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  made is most efficient. 15:02:40  made is most efficient. 15:03:30  made is most efficient. 15:02:25  made is most efficient. 15:03:04  made is most efficient is mode of the most of the parties to discuss and agree. 15:03:49  made is most efficient. 15:03:04  made is most efficient. 15:03:04  made is most efficient. 15:03:04  made is most efficien	2	to consider this, Mr. Terry. 15:01:58	2	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20
this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19 8 What we could do is the usual two 15:03:37  MR. NEUFELD: Likewise, we're always 15:02:25 9 rounds. One other question is whether you would 15:03:40  happy to discuss. One thing we note is that they're 15:02:26 10 like to make full cost submissions or simply 15:03:42  often quite helpful after the submissions have 15:02:28 11 statements of costs, that's perhaps one thing, which 15:03:44  been or after the decision has been rendered, so 15:02:31 12 we can leave for the parties to discuss and agree. 15:03:49  that, perhaps, is a first step to before deciding 15:02:36 13 The second is the deadlines, which we 15:03:54 14 whether cost submissions will be filed, but we're 15:02:41 14 could discuss now if there is for reasons of 15:03:57 15:02:47 16 upon need three weeks, for instance, first-round, 15:04:01 16 upon need three weeks, for instance, first-round, 15:04:01 16 upon need three weeks, for the parties to agree. 15:04:12 15:04:06 17 a week for the parties to agree. 15:04:14 15:04:08 17 a week for the parties to agree. 15:04:14 15:04:08 17 a week for the parties to agree. 15:04:14 15:04:08 18 15:03:03 18 15:03:05 18 15:04:08 19 PRESIDENT: You mean that the cost 15:03:05 21 usubmissions, it may increase the length of time 15:04:24 15:04:04 15:0	2	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04	2 3	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22
and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25  happy to discuss. One thing we note is that they're 15:02:26  often quite helpful after the submissions have 15:02:28  that, perhaps, is a first step to before deciding 15:02:31  whether cost submissions will be filed, but we're 15:02:41  happy to continue the conversation with Claimant 15:02:44  counsel. 15:02:47  MR. TERRY: But that might be 15:02:50  man appropriate approach. In this case, I think it's 15:02:54  partly reflecting Canadian domestic practice in 15:02:54  way to deal with it. 15:03:03  man is most efficient. 15:02:19  MR. TERRY: You mean that the cost 15:03:05  man discussion, we're always 15:02:25  like to make full cost submissions or simply 15:03:42  statements of costs, that's perhaps one thing, which 15:03:44  we can leave for the parties to discuss and agree. 15:03:49  The second is the deadlines, which we 15:03:57  refficiency we could agree on the deadlines, whether 15:04:01  a week for the second round, in terms of efficiency, 15:04:03  a week for the second round, in terms of efficiency, 15:04:06  an appropriate approach. In this case, I think it's 15:02:54  partly reflecting Canadian domestic practice in 15:02:54  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:05  submissions will be made only after the award has 15:03:06  PRESIDENT: You mean that the cost 15:03:08  What we could do is the usual two 15:03:40  like to make full cost submissions or simply 15:03:42  we can leave for the parties to discuss and agree. 15:03:49  a week for the second is the deadlines, which we 15:03:50  a week for instance, first-round, 15:04:03  a week for the second round, in terms of efficiency, 15:04:06  an appropriate approach. In this case, I think it's 15:02:54  partly reflecting Canadian domestic practice in 15:02:54  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:05  a ubushissions, it may increase the length of time 15:04:22  that's required for doing it. 15:04:24  PRE	2 3 4	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05	2 3 4	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26
MR. NEUFELD: Likewise, we're always 15:02:25	2 3 4 5	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take direction from the Tribunal or we could have 15:02:11	2 3 4 5	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28
happy to discuss. One thing we note is that they're 15:02:26  often quite helpful after the submissions have 15:02:28  that, perhaps, is a first step to before deciding 15:02:36  whether cost submissions will be filed, but we're 15:02:41  happy to continue the conversation with Claimant 15:02:44  counsel. 15:02:47  MR. TERRY: But that might be 15:02:50  an appropriate approach. In this case, I think it's 15:02:50  partly reflecting Canadian domestic practice in 15:02:57  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:08  like to make full cost submissions or simply 15:03:42  statements of costs, that's perhaps one thing, which 15:03:44  statements of costs, that's perhaps one thing, which 15:03:44  we can leave for the parties to discuss and agree. 15:03:49  and gree. 15:03:49  could discuss now if there is for reasons of 15:03:57  efficiency we could agree on the deadlines, whether 15:04:01  you need three weeks, for instance, first-round, 15:04:03  a week for the second round, in terms of efficiency, 15:04:06  or we can leave it for the parties to agree. 15:04:12  MR. TERRY: I think it might be useful 15:04:14  having a discussion, because I think whether or not 15:04:18  PRESIDENT: You mean that the cost 15:03:05  submissions will be made only after the award has 15:03:06  president of the parties to discuss and agree. 15:03:49  a week for the second round, in terms of efficiency, 15:04:06  or we can leave it for the parties to agree. 15:04:12  MR. TERRY: I think it might be useful 15:04:14  having a discussion, because I think whether or not 15:04:16  we just file costs or actually file cost 15:04:24  submissions will be made only after the award has 15:03:06  PRESIDENT: You mean that the cost 15:03:06  PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04  discussions yet. Of course, we're happy to take 15:02:05  direction from the Tribunal or we could have 15:02:11  discussions and then follow up with the Tribunal on 15:02:13	2 3 4 5 6	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29
often quite helpful after the submissions have 15:02:28  been or after the decision has been rendered, so 15:02:31  that, perhaps, is a first step to before deciding 15:02:36  that, perhaps, is a first step to before deciding 15:02:36  whether cost submissions will be filed, but we're 15:02:41  happy to continue the conversation with Claimant 15:02:44  counsel. 15:02:47  MR. TERRY: But that might be 15:02:49  an appropriate approach. In this case, I think it's 15:02:50  partly reflecting Canadian domestic practice in 15:02:57  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:08  15:03:08  15 statements of costs, that's perhaps one thing, which 15:03:44  we can leave for the parties to discuss and agree. 15:03:49  13 The second is the deadlines, which we 15:03:54  14 could discuss now if there is for reasons of 15:03:57  15 efficiency we could agree on the deadlines, whether 15:04:01  15 you need three weeks, for instance, first-round, 15:04:03  a week for the second round, in terms of efficiency, 15:04:06  or we can leave it for the parties to agree. 15:04:12  MR. TERRY: I think it might be useful 15:04:14  having a discussion, because I think whether or not 15:04:16  we just file costs or actually file cost 15:04:18  submissions will be made only after the award has 15:03:06  23 submissions, it may increase the length of time 15:04:24  24 been rendered? 15:03:08  24 PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15	2 3 4 5 6 7	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32
been or after the decision has been rendered, so 15:02:31  that, perhaps, is a first step to before deciding 15:02:36  whether cost submissions will be filed, but we're 15:02:41  happy to continue the conversation with Claimant 15:02:44  counsel. 15:02:47  MR. TERRY: But that might be 15:02:49  an appropriate approach. In this case, I think it's 15:02:50  partly reflecting Canadian domestic practice in 15:02:54  terms of costs quite often we find this an effective 15:02:57  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:06  pen rendered? 15:03:08  12 we can leave for the parties to discuss and agree. 15:03:49  The second is the deadlines, which we 15:03:54  could discuss now if there is for reasons of 15:03:57  efficiency we could agree on the deadlines, whether 15:04:01  you need three weeks, for instance, first-round, 15:04:03  a week for the second round, in terms of efficiency, 15:04:06  or we can leave for the parties to discuss and agree. 15:03:57  efficiency we could agree on the deadlines, whether 15:04:04  a week for the second round, in terms of efficiency, 15:04:04  a week for the second round, in terms of efficiency, 15:04:04  a week for the second round, in terms of efficiency, 15:04:04  a week for the parties to agree. 15:04:04  a week for the parties to discuss and agree. 15:04:04  a week for the parties to discuss and agree. 15:04:04  a week for the parties to agree. 15:04:04  b we can leave for the parties to discuss and agree. 15:04:04  a week for the parties to discuss and agree. 15:04:04  a week for the parties to discuss and agree. 15:0	2 3 4 5 6 7 8	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19	2 3 4 5 6 7 8	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37
that, perhaps, is a first step to — before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44 counsel. 15:02:47  MR. TERRY: But that might be 15:02:49 an appropriate approach. In this case, I think it's 15:02:50 partly reflecting Canadian domestic practice in 15:02:54 terms of costs quite often we find this an effective 15:02:57 way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:06 been rendered? 15:03:08  13 The second is the deadlines, which we 15:03:54 could discuss now if there is — for reasons of 15:03:54 could discuss now if there is — for reasons of 15:03:54 could discuss now if there is — for reasons of 15:03:04 15 could discuss now if there is — for reasons of 15:04:01 you need three weeks, for instance, first-round, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06 or we can leave it for the parties to agree. 15:04:12  MR. TERRY: I think it might be useful 15:04:14 having a discussion, because I think whether or not 15:04:16 we just file costs or actually file cost 15:04:18  PRESIDENT: You mean that the cost 15:03:06 22 submissions will be made only after the award has 15:03:06 23 that's required for doing it. 15:04:24  PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25	2 3 4 5 6 7 8	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40
whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44 counsel. 15:02:47  MR. TERRY: But that might be 15:02:49 an appropriate approach. In this case, I think it's 15:02:50 partly reflecting Canadian domestic practice in 15:02:54 terms of costs quite often we find this an effective 15:02:57 way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:05  pently reflecting? 15:04:06  president of the parties to agree. 15:04:12  president of the parties to agree. 15:04:14  president of the parties to agree. 15:04:14  president of the parties to agree. 15:04:14  president of the parties to agree. 15:04:15  president of the parties to agree. 15:04:16  president of the parties to agree. 15:04:10  president of the parties to agree. 15:04:10  president of the parties to agree. 15:04:06  president of the parties of the parties to agree. 15:04:10  president of the parties to agree. 15:04:04  president of the parties of the parties to agree. 15:04:10  president of the parties of the parties to agree. 15:04:10  president of the parties of the parties to agree. 15:04:10  president of the parties of the parties to agree. 15:04:10  president of the parties of	2 3 4 5 6 7 8 9	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26	2 3 4 5 6 7 8 9	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42
happy to continue the conversation with Claimant 15:02:44  counsel. 15:02:47  MR. TERRY: But that might be 15:02:49  an appropriate approach. In this case, I think it's 15:02:50  partly reflecting Canadian domestic practice in 15:02:54  terms of costs quite often we find this an effective 15:02:57  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:05  submissions will be made only after the award has 15:03:08  partly reflecting Canadian that the cost 15:03:08  partly reflecting Canadian domestic practice in 15:02:54  partly reflecting Canadian domestic practice in 15:04:12  partly reflecting Canadian domestic practice in 15:02:54  partly reflecting Canadian domestic practice in 15:04:04  partly reflecting Canadian domestic practice in 15:0	2 3 4 5 6 7 8 9 10	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:28	2 3 4 5 6 7 8 9 10	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44
counsel. 15:02:47  MR. TERRY: But that might be 15:02:49  an appropriate approach. In this case, I think it's 15:02:50  partly reflecting Canadian domestic practice in 15:02:54  terms of costs quite often we find this an effective 15:02:57  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:05  submissions will be made only after the award has 15:03:08  16  you need three weeks, for instance, first-round, 15:04:03  a week for the second round, in terms of efficiency, 15:04:06  or we can leave it for the parties to agree. 15:04:12  19  MR. TERRY: I think it might be useful 15:04:14  having a discussion, because I think whether or not 15:04:16  we just file costs or actually file cost 15:04:18  21  22  32  33  34  34  35:04:05  35:04:06  40  40  40  41  42  42  42  43  44  44  45:04:07  46  47  48  49  49  40  40  40  40  40  40  40  40	2 3 4 5 6 7 8 9 10 11	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:31	2 3 4 5 6 7 8 9 10 11	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49
MR. TERRY: But that might be 15:02:49 an appropriate approach. In this case, I think it's 15:02:50 18 or we can leave it for the parties to agree. 15:04:12 partly reflecting Canadian domestic practice in 15:02:54 19 MR. TERRY: I think it might be useful 15:04:14 terms of costs quite often we find this an effective 15:02:57 20 having a discussion, because I think whether or not 15:04:16 way to deal with it. 15:03:03 21 we just file costs or actually file cost 15:04:18 22 PRESIDENT: You mean that the cost 15:03:05 22 submissions will be made only after the award has 15:03:06 24 been rendered? 15:03:08 24 PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9 10 11 12	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:31 that, perhaps, is a first step to before deciding 15:02:36	2 3 4 5 6 7 8 9 10 11 12 13	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:54
an appropriate approach. In this case, I think it's 15:02:50  partly reflecting Canadian domestic practice in 15:02:54  terms of costs quite often we find this an effective 15:02:57  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:05  submissions will be made only after the award has 15:03:06  been rendered? 15:03:05  an appropriate approach. In this case, I think it's 15:02:50  MR. TERRY: I think it might be useful 15:04:14  having a discussion, because I think whether or not 15:04:16  we just file costs or actually file cost 15:04:18  submissions, it may increase the length of time 15:04:22  that's required for doing it. 15:04:24  PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9 10 11 12 13 14	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:31 that, perhaps, is a first step to before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41	2 3 4 5 6 7 8 9 10 11 12 13	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:54 could discuss now if there is for reasons of 15:03:57
partly reflecting Canadian domestic practice in 15:02:54  terms of costs quite often we find this an effective 15:02:57  way to deal with it. 15:03:03  PRESIDENT: You mean that the cost 15:03:05  submissions will be made only after the award has 15:03:06  been rendered? 15:03:08  19  MR. TERRY: I think it might be useful 15:04:14  having a discussion, because I think whether or not 15:04:16  we just file costs or actually file cost 15:04:18  submissions, it may increase the length of time 15:04:22  that's required for doing it. 15:04:24  PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:31 that, perhaps, is a first step to — before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44	2 3 4 5 6 7 8 9 10 11 12 13 14 15	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01
terms of costs quite often we find this an effective 15:02:57  20 having a discussion, because I think whether or not 15:04:16  21 way to deal with it. 15:03:03  22 PRESIDENT: You mean that the cost 15:03:05  23 submissions will be made only after the award has 15:03:06  24 been rendered? 15:03:08  20 having a discussion, because I think whether or not 15:04:16  21 we just file costs or actually file cost 15:04:28  22 submissions, it may increase the length of time 15:04:22  23 that's required for doing it. 15:04:24  24 PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:31 that, perhaps, is a first step to — before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44 counsel. 15:02:47	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01 you need three weeks, for instance, first-round, 15:04:03
way to deal with it. 15:03:03 21 we just file costs or actually file cost 15:04:18  PRESIDENT: You mean that the cost 15:03:05 22 submissions will be made only after the award has 15:03:06 23 that's required for doing it. 15:04:24  been rendered? 15:03:08 24 PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:31 that, perhaps, is a first step to before deciding 15:02:31 whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44 counsel. 15:02:47  MR. TERRY: But that might be 15:02:49	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01 you need three weeks, for instance, first-round, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06
PRESIDENT: You mean that the cost 15:03:05 22 submissions, it may increase the length of time 15:04:22 submissions will be made only after the award has 15:03:06 23 that's required for doing it. 15:04:24 been rendered? 15:03:08 24 PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:31 that, perhaps, is a first step to before deciding 15:02:31 that, perhaps, is a first step to before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44 counsel. 15:02:47  MR. TERRY: But that might be 15:02:49 an appropriate approach. In this case, I think it's 15:02:50	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:54 could discuss now if there is for reasons of 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01 you need three weeks, for instance, first-round, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06 or we can leave it for the parties to agree. 15:04:12
submissions will be made only after the award has 15:03:06 that's required for doing it. 15:04:24 been rendered? 15:03:08 24 PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:31 that, perhaps, is a first step to before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44 counsel. 15:02:47  MR. TERRY: But that might be 15:02:50 partly reflecting Canadian domestic practice in 15:02:54	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:54 could discuss now if there is for reasons of 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01 you need three weeks, for instance, first-round, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06 or we can leave it for the parties to agree. 15:04:12 MR. TERRY: I think it might be useful 15:04:14
been rendered? 15:03:08 24 PRESIDENT: Okay, so we'll leave it 15:04:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:28 been or after the decision has been rendered, so 15:02:31 that, perhaps, is a first step to before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44 counsel. 15:02:47  MR. TERRY: But that might be 15:02:49 an appropriate approach. In this case, I think it's 15:02:50 partly reflecting Canadian domestic practice in 15:02:57	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:54 could discuss now if there is for reasons of 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01 you need three weeks, for instance, first-round, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06 or we can leave it for the parties to agree. 15:04:12 MR. TERRY: I think it might be useful 15:04:14 having a discussion, because I think whether or not 15:04:16
	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	to consider this, Mr. Terry. 15:01:58  MR. TERRY: We haven't had any 15:02:04 discussions yet. Of course, we're happy to take 15:02:05 direction from the Tribunal or we could have 15:02:11 discussions and then follow up with the Tribunal on 15:02:13 this issue. I'm happy to do whatever makes sense 15:02:15 and is most efficient. 15:02:19  MR. NEUFELD: Likewise, we're always 15:02:25 happy to discuss. One thing we note is that they're 15:02:26 often quite helpful after the submissions have 15:02:28 been or after the decision has been rendered, so 15:02:31 that, perhaps, is a first step to before deciding 15:02:36 whether cost submissions will be filed, but we're 15:02:41 happy to continue the conversation with Claimant 15:02:44 counsel. 15:02:47  MR. TERRY: But that might be 15:02:49 an appropriate approach. In this case, I think it's 15:02:50 partly reflecting Canadian domestic practice in 15:02:57 way to deal with it. 15:03:03	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:54 could discuss now if there is for reasons of 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01 you need three weeks, for instance, first-round, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06 or we can leave it for the parties to agree. 15:04:12 MR. TERRY: I think it might be useful 15:04:14 having a discussion, because I think whether or not 15:04:16 we just file costs or actually file cost 15:04:18
MR. TERRY: Yes. And there may well 15:03:10   25   for the parties. We are encouraged by the level of 15:04:29	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	to consider this, Mr. Terry.  MR. TERRY: We haven't had any  15:02:04  discussions yet. Of course, we're happy to take  15:02:05  direction from the Tribunal or we could have  15:02:11  discussions and then follow up with the Tribunal on  15:02:13  this issue. I'm happy to do whatever makes sense  15:02:15  and is most efficient.  15:02:19  MR. NEUFELD: Likewise, we're always  15:02:25  happy to discuss. One thing we note is that they're  15:02:26  often quite helpful after the submissions have  15:02:28  been or after the decision has been rendered, so  15:02:31  that, perhaps, is a first step to before deciding  15:02:36  whether cost submissions will be filed, but we're  15:02:41  happy to continue the conversation with Claimant  15:02:44  counsel.  15:02:49  an appropriate approach. In this case, I think it's  15:02:50  partly reflecting Canadian domestic practice in  15:02:57  way to deal with it.  15:03:03  PRESIDENT: You mean that the cost  15:03:05	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:54 could discuss now if there is for reasons of 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01 you need three weeks, for instance, first-round, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06 or we can leave it for the parties to agree. 15:04:12 MR. TERRY: I think it might be useful 15:04:14 having a discussion, because I think whether or not 15:04:16 we just file costs or actually file cost 15:04:18 submissions, it may increase the length of time 15:04:22
	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	to consider this, Mr. Terry.  MR. TERRY: We haven't had any  15:02:04  discussions yet. Of course, we're happy to take  15:02:05  direction from the Tribunal or we could have  15:02:11  discussions and then follow up with the Tribunal on  15:02:13  this issue. I'm happy to do whatever makes sense  15:02:15  and is most efficient.  15:02:19  MR. NEUFELD: Likewise, we're always  15:02:25  happy to discuss. One thing we note is that they're  15:02:26  often quite helpful after the submissions have  15:02:28  been or after the decision has been rendered, so  15:02:31  that, perhaps, is a first step to before deciding  15:02:36  whether cost submissions will be filed, but we're  15:02:41  happy to continue the conversation with Claimant  15:02:44  counsel.  15:02:49  an appropriate approach. In this case, I think it's  15:02:50  partly reflecting Canadian domestic practice in  15:02:57  way to deal with it.  15:03:03  PRESIDENT: You mean that the cost  15:03:05  submissions will be made only after the award has  15:03:06	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	be also discussions between the parties, but, again, 15:03:16 we're happy to seek your guidance and if that's 15:03:20 problematic from the Tribunal's perspective we're 15:03:22 happy to discuss it further. 15:03:26 PRESIDENT: Without consulting my 15:03:28 colleagues I would say that we prefer to have we 15:03:29 would prefer to have the cost submissions now. 15:03:32 What we could do is the usual two 15:03:37 rounds. One other question is whether you would 15:03:40 like to make full cost submissions or simply 15:03:42 statements of costs, that's perhaps one thing, which 15:03:44 we can leave for the parties to discuss and agree. 15:03:49 The second is the deadlines, which we 15:03:54 could discuss now if there is for reasons of 15:03:57 efficiency we could agree on the deadlines, whether 15:04:01 you need three weeks, for instance, first-round, 15:04:03 a week for the second round, in terms of efficiency, 15:04:06 or we can leave it for the parties to agree. 15:04:12 MR. TERRY: I think it might be useful 15:04:14 having a discussion, because I think whether or not 15:04:16 we just file costs or actually file cost 15:04:22 that's required for doing it. 15:04:24 PRESIDENT: Okay, so we'll leave it 15:04:27

	Page 304		Page 305
1	cooperation that we have seen so far. We have no 15:04:31	1	MR. TERRY: That's agreeable to us. 15:05:55
2	doubt that you will be able to agree on the 15:04:34	2	MR. SPELLISCY: That's fine, yes. 15:05:56
3	deadlines for the submissions, and the only deadline 15:04:36	3	PRESIDENT: Okay. And do we have 15:05:57
4	we could perhaps fix is for the parties to come back 15:04:39	4	anything else? We have already actually asked the 15:06:00
5	to the Tribunal for a proposed timetable for cost 15:04:42	5	court reporter to produce a one consolidated 15:06:09
6	submissions. And we can throw, perhaps, the issue 15:04:46	6	transcript which will be sent after the hearing, so 15:06:12
7	of how to deal with corrections to the transcript 15:04:48	7	it will be everything from Day 1, so that you don't 15:06:14
8	into the same pot. 15:04:50	8	need to compile your own version, so that can be 15:06:18
9	And where are we now? We are on 15:04:53	9	then made available, not only to the Tribunal but 15:06:22
10	Friday perhaps it is is ten days a reasonable 15:04:55	10	also to the parties. So maybe logistically easier. 15:06:25
11	period of time for the parties to agree? 15:05:03	11	Anything else? 15:06:30
12	MR. TERRY: It sounds reasonable to 15:05:07	12	MR. TERRY: We have one small issue, 15:06:32
13	us. 15:05:09	13	probably best discussed first with my friends. We 15:06:34
14	MR. NEUFELD: Sure, we can agree. 15:05:10	14	realized today that there was that there was 15:06:38
15	PRESIDENT: So that would be 15:05:12	15	actually a typographical error which actually has 15:06:42
16	Tuesday in March, I believe, still. 15:05:13	16	some significance in terms of the meaning of the 15:06:45
17	MR. TERRY: March 15:05:26	17	word in one of our witness statements, so we'll 15:06:47
18	PRESIDENT: March 8th. Tuesday 15:05:27	18	discuss with our friends and see if we can find 15:06:49
19	March 8th, so agreed timetable from the parties on 15:05:29	19	a way to resolve it. 15:06:53
20	cost submissions as well as the nature of the 15:05:35	20	It is a witness statement that's been 15:06:54
21	submissions, whether it's submissions or statements 15:05:37	21	filed, and, unfortunately, to our in an expert 15:06:57
22	of costs. 15:05:39	22	report, and unfortunately we should have corrected 15:06:59
23	And then proposal how to deal with 15:05:41	23	it while the witness was here. We didn't. In any 15:07:02
24	corrections to the transcript, including the 15:05:44	24	event, I'll discuss with my friends and see if we 15:07:06
25	timetable for that; is that agreeable? 15:05:48	25	can make any arrangement with respect to this 15:07:08
	Page 306		Page 307
1	Page 306 matter. 15:07:10	1	-
1 2	matter. 15:07:10	1 2	complete the award and the deliberations diligently. 15:08:36
	matter. 15:07:10		complete the award and the deliberations diligently. 15:08:36 We have a certain time program. We should call for 15:08:40
2	matter. 15:07:10 PRESIDENT: Okay. It is usually the 15:07:10	2	complete the award and the deliberations diligently. 15:08:36 We have a certain time program. We should call for 15:08:40 the confidential go into confidential for this part 15:08:45
2	matter. 15:07:10  PRESIDENT: Okay. It is usually the 15:07:10 word "Not missing" in these instances. Okay, very 15:07:11	2 3	complete the award and the deliberations diligently. 15:08:36 We have a certain time program. We should call for 15:08:40
2 3 4	matter. 15:07:10  PRESIDENT: Okay. It is usually the 15:07:10  word "Not missing" in these instances. That's also a matter for 15:09:14 the for the Tribunal members to see how we 15:09:16 proceed. 15:09:24  But, that is the goal. So hopefully 15:09:25 within a few months we will have the award. 15:09:32 to add? 15:09:35  MR. TERRY: May I add, I expect Canada 15:09:36 would want to as well, express my thanks and great 15:09:39 respect to all the Tribunal members and the 15:09:42 secretary for what I have found to be 15:09:45 an exceptionally well-run hearing and appreciate the 15:09:52
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	PRESIDENT: Okay. It is usually the 15:07:10 word "Not missing" in these instances. Okay, very 15:07:11 good. 15:07:16  If there is nothing else, it just 15:07:17 remains for us to thank counsel, the parties, the 15:07:22 experts and the people who have been attending the 15:07:25 hearing very patiently over the last two weeks, as 15:07:30 well as the court reporters, and the secretary of 15:07:34 the Tribunal, of course. 15:07:37  And especially we would like to thank 15:07:42 the parties for the level of high level of 15:07:46 cooperation shown throughout the proceedings. It 15:07:54 has been exceptionally pleasant from a professional 15:07:54 based on, at least on my own prior experience in 15:07:58 these proceedings, we are very grateful for that. 15:08:01  We are also grateful to the parties 15:08:05 for the very thorough closing submissions made 15:08:10 deliberations, and we can only say that the parties 15:08:14 are in very good hands. No better job could have 15:08:16 been done to brief the Tribunal on the issues and in 15:08:22 terms of presenting the evidence. 15:08:25	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	complete the award and the deliberations diligently. 15:08:36  We have a certain time program. We should call for 15:08:40 the confidential go into confidential for this part 15:08:45 of the discussion, perhaps not, but we have we 15:08:48 are aiming at producing a decision as a matter of 15:08:51 months, rather than years. 15:08:56  But more seriously, the aim is to have 15:09:01 a draft award concluded, finalized hopefully by the 15:09:03 end of the summer, and we will see then how long it 15:09:11 takes to finalize it. That's also a matter for 15:09:14 the for the Tribunal members to see how we 15:09:16 proceed. 15:09:24  But, that is the goal. So hopefully 15:09:25 within a few months we will have the award. 15:09:32 to add? 15:09:35  MR. TERRY: May I add, I expect Canada 15:09:36 would want to as well, express my thanks and great 15:09:39 respect to all the Tribunal members and the 15:09:42 secretary for what I have found to be 15:09:45 an exceptionally well-run hearing and appreciate the 15:09:52 reporters were working extremely hard all the time, 15:09:56
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	matter. 15:07:10  PRESIDENT: Okay. It is usually the 15:07:10  word "Not missing" in these instances. Okay, very 15:07:11 good. 15:07:16  If there is nothing else, it just 15:07:17  remains for us to thank counsel, the parties, the 15:07:22  experts and the people who have been attending the 15:07:25  hearing very patiently over the last two weeks, as 15:07:30  well as the court reporters, and the secretary of 15:07:34  the Tribunal, of course. 15:07:37  And especially we would like to thank 15:07:42  the parties for the level of high level of 15:07:46  cooperation shown throughout the proceedings. It 15:07:49  has been exceptionally pleasant from a professional 15:07:54  based on, at least on my own prior experience in 15:07:58  these proceedings, we are very grateful for that. 15:08:01  We are also grateful to the parties 15:08:05  for the very thorough closing submissions made 15:08:10  deliberations, and we can only say that the parties 15:08:14  are in very good hands. No better job could have 15:08:16  been done to brief the Tribunal on the issues and in 15:08:22	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	complete the award and the deliberations diligently. 15:08:36  We have a certain time program. We should call for 15:08:40 the confidential go into confidential for this part 15:08:45 of the discussion, perhaps not, but we have we 15:08:48 are aiming at producing a decision as a matter of 15:08:51 months, rather than years. 15:08:56  But more seriously, the aim is to have 15:09:01 a draft award concluded, finalized hopefully by the 15:09:03 end of the summer, and we will see then how long it 15:09:11 takes to finalize it. TERRY: May I add, I expect Canada 15:09:36 would want to as well, express my thanks and great 15:09:39 respect to all the Tribunal members and the 15:09:42 secretary for what I have found to be 15:09:45 an exceptionally well-run hearing and appreciate the 15:09:52

	Page 308		Page 309
1	at an interesting time of the year when the weather 15:10:07	1	I have because I'm extremely privileged to be able 15:11:16
2	isn't quite as good as it's been at other times. 15:10:10	2	to work with very, very competent and capable 15:11:19
3	But it has been a very, very pleasant 15:10:14	3	individuals at the Trade Law Bureau of Canada. 15:11:25
4	experience, and on behalf of Torys team and our 15:10:16	4	PRESIDENT: Thank you very much. On 15:11:29
5	clients, and our assorted experts and others, I just 15:10:20	5	that happy note we will close the hearing and we 15:11:30
6	wanted to give our heartfelt thanks to all the 15:10:23	6	wish safe travels to those that aren't going to stay 15:11:33
7	Tribunal members. Thank you, and the secretary. 15:10:26	7	in Toronto and enjoy the weekend here. Thank you 15:11:37
8	Thanks very much. 15:10:28	8	very much. 15:11:41
9	PRESIDENT: Thank you. 15:10:29	9	Whereupon the proceedings concluded at 3:11 p m.
10	Yeah, we are grateful to the City of 15:10:30	10	
11	Toronto for organizing the weather that certainly 15:10:31	11	
12	didn't create a distraction during the hearings. 15:10:35	12	
13	Thank you very much. 15:10:38	13	
14	MR. NEUFELD: I'd like to echo those 15:10:41	14	
15	thanks as well, please. Thank you to the Tribunal, 15:10:43	15	
16	to Ms. Nettleton, for not just running an efficient 15:10:45	16	
17	hearing but also an efficient arbitration, you know, 15:10:49	17	
18	very, very grateful for that. 15:10:52	18	
19	I'm grateful to John, Myriam, Nick 15:10:55	19	
20	Emily, Chris, Rose, whole gang at Torys. 15:10:58	20	
21	It has been pleasant to work through 15:11:03	21	
22	issues ourselves without having to take them to the 15:11:04	22	
23	Tribunal. I think we are very grateful for that. 15:11:06	23	
24	And I would also this is a little 15:11:10	24	
25	self-serving but I'd like to thank the team that 15:11:13	25
